This chart is adapted from the American Health Planning Association's annual graphic, last updated in AHPA's 2000 Directory of Health Planning Policy & Regulatory Agencies (11th ed.), which compares the "National Relative Scope and Reviewability Threshold of CON Regulated Services" among the states. The 2000 version of AHPA's graphic contained some errors with regard to Maryland's services, which have been corrected in Staff's adaptation. Consequently, the "severity" index as calculated according to several factors, including number of services regulated and level of capital review threshold, may not precisely reflect Maryland's "weight" or "severity" according to AHPA's formula, compared to other CON states. However, the chart's relative position of Maryland's CON program--which does not cover a significant number of health care facilities and services regulated by many other states--would still be in the middle range of CON programs, nationwide.

** Any capital expenditure for LTC

¹ No. of services x weight as determined by the Missouri CON Program.

² Including the District of Columbia.

³ Services in addition to those most often CON-regulated.
