APPLICATION

APPLICATION

PART I - PROJECT IDENTIFICATION AND GENERAL INFORMATION

1. APPLICANT. *If the application has a co-applicant, provide the following information for that party in an attachment.*

Legal Name of Project Applicant (Licensee or Proposed Licensee):
Amedisys Maryland, LLC, d/b/a Amedisys Home Health

Address:				
	Westminster	21157-6151	MD	Carroll County
Street	City	Zip	State	County

Telephone: (410) 751-9904

Name of Owner/Chief Executive: Amedisys Maryland, LLC
Paul B. Kusserow, CEO

2. Name of Owner

If Owner is a Corporation, Partnership, or Limited Liability Company, attach a description of the ownership structure identifying all individuals that have or will have at least a 5% ownership share in the applicant and any related parent entities. Attach a chart that completely delineates this ownership structure.

Applicant Response:

The Owner is Amedisys Maryland, LLC. Please refer to **Exhibit 1** for the requested information regarding ownership structure.

3. FACILITY

Name of HHA provider: Amedisys Home Health

Address:			
6512 Deer Point Drive, Suite B	Salisbury	21084-1669	Wicomico
Street	City	Zip	County

Name of Owner (if differs from applicant):

4. NAME OF LICENSEE OR PROPOSED LICENSEE, if different from the applicant:

5. LEGAL STRUCTURE OF APPLICANT (and LICENSEE, if different from applicant).

Check ☑ or fill in applicable information below and attach an organizational chart showing the owners of applicant (and licensee, if different).

A.	Governmental	☐	
B.	Corporation		
	(1) Non-profit	☐	
	(2) For-profit	☐	
	(3) Close	☐	State & Date of Incorporation
C.	Partnership

	To be formed:	☐	
	Existing:	☑	

6. PERSON(S) TO WHOM QUESTIONS REGARDING THIS APPLICATION SHOULD BE DIRECTED

A. Lead or primary contact:

Name and Title: Geoffrey L. Abraskin, PT, DPT, DWS, Vice President of Operations, Northeast South Region, Amedisys Home Health and Hospice Services

Mailing Address:

3603 Southside Ave	Phoenix	MD	21131
Street	City	Zip	State

Telephone: 855-214-2989

E-mail Address (required): geoffrey.abraskin@amedisys.com

Fax:

B. Additional or alternate contact:

Marta D. Harting, Esquire, Venable LLP

Mailing Address:

750 E. Pratt Street Suite 900	Baltimore	21202	MD
Street	City	Zip	State

Telephone: 410-244-7542

E-mail Address (required): mdharting@venable.com

Fax:

B. Additional or alternate contact:

Name and Title:

Company Name

Mailing Address:

Street	City	Zip	State

Telephone:

E-mail Address (required):

Fax:

If company name is different than applicant briefly describe the relationship

7. Proposed Agency Type: ☑

a. Health Department ___
b. Hospital-Based ___
c. Nursing Home-Based ___
d. Continuing Care Retirement Community-Based ___
e. HMO-Based ___
f. Freestanding ☑
g. Other ___
(Please Specify.) _____

8. **Agency Services (Please check ☑ all applicable.)**

Service	Currently Provided	Proposed to be Provided in the Jurisdiction(s) that are the subject of this Application*
Skilled Nursing Services	☑	☑
Home Health Aide	☑	☑
Occupational Therapy	☑	☑
Speech, Language Therapy	☑	☑
Physical Therapy	☑	☑
Medical Social Services	☑	☑

* If proposing different services in different jurisdictions, note that accordingly.

9. Offices

Identify the address of all existing main office, subunit office, and branch office locations and identify the location (city and county) of all proposed main office, subunit office, and branch offices, as applicable. (Add rows as needed.)

Applicant Response:

The Applicant (Amedisys Maryland, LLC d/b/a Amedisys Home Health, License Number HH7111) is a parent home health agency with one parent office and one branch location (see completed table below). The Applicant currently has no subunits. Through this Application, the Applicant seeks to expand to the Upper Eastern Shore region (Caroline, Kent and Queen Anne's Counties). Including the Applicant, there are seven home health agency parent offices and one branch office in Maryland within Amedisys Maryland, LLC or its affiliate Tender Loving Care Health Care Services Southeast, LLC. See **Exhibit 2** for a list of those HHAs.

	Street	City	County	State	Zip Code	Telephone
Existing Main Office	6512 Deer Pointe Drive, Suite B	Salisbury	Wicomico	Maryland	21804-1669	(410) 543-8258
Existing Subunit Offices						
Existing Branch Offices	204 Cedar Street	Cambridge	Dorchester	Maryland	21613	(410) 228-2170
Locations of Proposed HHA Main Office						
Locations of Proposed HHA Subunit Office						
Locations of Proposed Branch Office						

10. Project Implementation Target Dates

A. Licensure: Within 9 months from CON approval date.
B. Medicare Certification: Within 9 months from CON approval date.

NOTE: in completing this question, please note that Commission regulations at COMAR 10.24.01.12 state that "home health agencies have up to 18 months from the date of the certificate of need to: (i) become licensed and Medicare certified; and (ii) begin operations in the jurisdiction for which the certificate of need was granted."

11. Project Description:

Provide a summary description of the project immediately below. At minimum, include the jurisdictions to be served and all of the types of home health agency services to be established, expanded, or otherwise affected if the project receives approval.

Applicant Response:

a. *Overview*

The Applicant, Amedisys Maryland, LLC d/b/a Amedisys Home Health, is a parent home health agency located in in Salisbury, Maryland, that has been providing home health services on the Lower Eastern Shore of Maryland since 2008. It is currently licensed to

serve in five counties (Dorchester, Somerset, Talbot, Wicomico and Worcester Counties). Through this CON application, the Applicant seeks authorization to expand its home health agency services into the Upper Eastern Shore counties of Caroline, Kent and Queen Anne's. The Applicant has a proven track record with exceptional quality of patient care scores and patient experience of care scores through Home Health Consumer Assessment of Healthcare Providers (HHCAHPS) as reflected in CMS's Home Health Compare website. The Applicant currently has combined ratings for quality of patient care and HHCAHPS of 4.5 stars and 4.0 stars, respectively.

The Applicant is a subsidiary of Amedisys, Inc., a leading national home health and hospice provider, providing health care to patients in 36 states through more than 400 Medicare-certified home health and hospice agencies (including over 300 parent home health agencies, subunits and branch offices). Our care teams deliver personalized home health care and hospice services to approximately 380,000 patients each year, and partner with more than 2,000 hospitals and nearly 62,000 physicians across the country. With regard to Maryland specifically, Amedisys Home Health and other Amedisys affiliates operate seven parent home health agencies and one branch agency that provide home health care in 14 Maryland jurisdictions.

The experience of the Applicant and its corporate family in providing high quality home health care in Maryland and throughout the country make the Applicant well-suited to meet the demonstrated need for additional home health agencies to offer high quality home health care services to residents of Caroline, Kent and Queen Anne's Counties.

Amedisys Home Health provides experienced, compassionate health care. We provide customized care to suit the unique situation of each patient, while focusing on empowerment, recovery, and maximizing independence. We help patients and their families to understand the patient's condition, how to manage it and how to live life to the fullest with a chronic disease or other health condition. Our clinicians are trained to understand the whole patient, not just their medical diagnosis.

b. *Services and Health Care Conditions*

We will provide home health care services in the Upper Eastern Shore counties by providing medical treatment to patients recovering from an illness or injury, with the goal of helping patients to regain independence and become as self-sufficient as possible. Specific services to be offered include:

- Skilled nursing
- Care transitions
- Patient education and training
- Medication management
- Pain management
- Physical therapy
- Occupational therapy
- Speech therapy
- Infusion therapy
- Social worker support
- Certified wound care tele-consult
- Nutritional consult

- Home health aide

We will also offer specialized chronic care programs that focus on actively involving the patient in the health care process, addressing conditions including:

- Heart disease
- Diabetes
- Chronic obstructive pulmonary disease (COPD)
- Pain management
- Wound care
- Infusion therapy
- Oncology
- Chronic kidney disease
- Psychiatric services

c. *Care Transitions Program to Reduce Avoidable Hospitalizations*

With the depth of experience that comes from being part of a leading national home health care company, the Applicant can offer several evidence-based clinical programs. The Amedisys Care Transitions Program is an important example of one of these programs that has been proven effective in reducing unnecessary hospitalizations. Amedisys understands that preparing for a successful transition from the hospital back home is crucial to the patient's recovery and avoiding readmissions. It designed the Care Transitions Program based on work by Eric Coleman, MD, MPH, University of Colorado, and Mary Naylor, PhD, FAAN, RN, University of Pennsylvania School of Nursing. The program incorporates each of Coleman's four pillars and Naylor's recommended based practices early in the transition process including:

- Utilization of a Care Transitions Coordinator
- Early engagement of the patient, caregiver and family with condition specific coaching
- Physician engagement

Through coordination of services, in-home risk assessment and education on self-care, we help patients move home safely, helping to reduce 30-day readmissions and empowering patients to take control of their own health. Care Transition Coordinator interventions include:

- Coaching patients on effective communication with physicians
- Connecting to the community
- Teaching self-assessment, identification of symptoms and preventing exacerbations
- Setting goals and building action plans
- Promoting medication compliance with education and medication reconciliation
- Guiding medication reconciliations
- Assisting in making physician appointments

The benefits of the Amedisys Care Transition Program include:

- Reduction in emergent care and acute care hospitalization rates
- Improved quality of care
- Active patient engagement
- Self-management education
- Partnering with physicians
- Coordination across the healthcare continuum
- Application of evidence-based guidelines
- Measurement of clinical outcomes
- Recognition of early warning signs

Please refer to **Exhibit 3** for additional information about the Care Transitions Program.

In 2010, the Amedisys Care Centers where Care Transitions was first deployed were able to collectively reduce their acute care hospitalization rate by 7.9%.

d. ***Additional Evidence-Based Clinical Programs***

Additional Amedisys evidenced based programs involving skilled medical services, supportive services for patients and their caregivers and education on self-management skills include the following programs (which are described further in **Exhibit 4).**

- ***Balanced for Life***® (balance training and assessment to help reduce the need for emergency care due to falls)
- ***Chronic Kidney Disease @ Home*** (provides early assessment, intervention and education on risk factors, diet and medication management)
- ***COPD @ Home*** (helps improve the quality of life for patients living with COPD, including help with oxygen therapy, medication management and monitoring of vitals)
- ***Diabetes @ Home*** (supports patients with Type 1 and Type 2 diabetes; recognized for excellence by the American Diabetes Association™)
- ***Empowered for Life*** ® (supports patients under psychiatric care including Alzheimer's and depression, including skilled assessments of the patient's condition, administering injectable medications, crisis intervention and individual or family counselling)
- ***Heart @ Home*** (supports patients with heart disease, including assessment and education, medication management, symptoms, mobility and other aspects of care)
- ***Orthopedic Recovery @ Home*** (combination of skilled nursing care and therapeutic rehabilitation to support recovery after an orthopedic surgery or injury)
- ***Pain Management @ Home*** (helps patients manage chronic pain by empowering them through education and techniques)
- ***Rehab Therapy @ Home*** (comprehensive rehabilitation therapy services to help patients improve their strength, mobility, balance and swallowing to function safely)
- ***Stroke Recovery @ Home*** (our clinicians help patients manage pain, bladder issues, depression and stress, impaired judgment balance and coordination and memory issues, and educate patients and caregivers to

recognize the warning signs for stroke and prevention of future strokes)
- ***Surgical Recovery @ Home*** (multidisciplinary approach to meet post-operative care needs by highly skilled nurses and therapists accordance with the physician's plan of care)
- ***Partners in Wound Care*** ® (implements the most current evidence-based practices, incorporates the most current techniques, and uses the most advanced products to improve healing

PART II - CONSISTENCY WITH REVIEW CRITERIA AT COMAR 10.24.01.08G(3):

INSTRUCTION: Each applicant must respond to all applicable criteria included in COMAR 10.24.01.08G. These criteria follow, 10.24.01.08G(3)(a) through 10.24.01.08G(3)(f).

10.24.01.08G(3)(a). "The State Health Plan" Review Criterion
An application for a Certificate of Need shall be evaluated according to all relevant State Health Plan standards, policies, and criteria. (Note: In this case it is the standards at COMAR 10.24.16.08 – and in the case of comparative reviews, at COMAR 10.24.16.09.)

10.24.16.08 Certificate of Need Review Standards for Home Health Agency Services.
The Commission shall use the following standards, as applicable, to review an application for a Certificate of Need to establish a new home health agency in Maryland or expand the services of an existing Maryland home health agency to one or more additional jurisdictions.

The following standards must be addressed by all home health agency CON applicants, as applicable. Provide a direct, concise response explaining the proposed project's consistency with each standard. In cases where standards require specific documentation, please include the documentation as a part of the application.

10.24.16.08A. Service Area.
An applicant shall:
(1) Designate the jurisdiction or jurisdictions in which it proposes to provide home health agency services; and

Applicant Response:

The Applicant proposes to provide home health agency services in the Upper Eastern Shore counties of Caroline, Kent and Queen Anne's.

(2) Provide an overall description of the configuration of the parent home health agency and its interrelationships, including the designation and location of its main office, each subunit, and each branch, as defined in this Chapter, or other major administrative offices recognized by Medicare.

Applicant Response:

The Applicant (Amedisys Maryland, LLC d/b/a Amedisys Home Health, License Number HH7111) is a parent HHA located in Salisbury, Maryland, with a branch

office located in Cambridge, Maryland. Through this Application, the Applicant seeks to expand its services into the Upper Eastern Shore counties of Caroline, Kent and Queen Anne's. Including the Applicant, there are seven Amedisys home health parent offices and one branch office in Maryland. See **Exhibit 2**

10.24.16.08B. Populations and Services.

An applicant shall describe the population to be served and the specific services it will provide.

Applicant Response:

The Applicant will provide home health services to the population ages 18 and above of Caroline, Kent and Queen Anne's Counties. The current and projected population of each county from the Maryland Department of Planningis set forth in Tables 1-3 by age group.

Table 1
Caroline County Population by Age Group

Age Group	2010	2015	2020	2025
5-19	6,900	7,060	7,440	7,620
20-44	10,216	10,240	10,670	11,420
45-64	9,223	9,640	9,810	9,720
65+	4,413	5,040	5,910	7,050
Total	20,197	20,600	21,400	22,100

Table 2
Kent County Population by Age Group

Age Group	2010	2015	2020	2025
5-19	3,436	3,380	3,400	3,320
20-44	5,503	5,300	5,300	5,360
45-64	5,866	5,970	5,950	5,630
65+	4,397	5,080	5,880	6,980
Total	20,197	20,600	21,400	22,100

Table 3
Queen Anne's County Population by Age Group

Age Group	2010	2015	2020	2025
5-19	9,772	9,730	9,690	9,840
20-44	13,306	31,280	14,420	16,250
45-64	14,868	15,940	16,210	15,370
65+	7,141	8,710	10,470	12,750
Total	47,798	50,150	53,400	57,350

The Applicant will provide home health care services providing medical treatment to patients recovering from an illness or injury, with the goal of helping patients to regain independence and become as self-sufficient as possible. Specific

services to be offered include:

- Skilled nursing
- Care transitions
- Patient education and training
- Medication management
- Pain management
- Physical therapy
- Occupational therapy
- Speech therapy
- Infusion therapy
- Social worker support
- Certified wound care tele-consult
- Nutritional consult
- Home health aide

The Applicant will also offer specialized chronic care programs the focus on actively involving the patient in the health care process, addressing conditions including:

- Heart disease
- Diabetes
- Chronic obstructive pulmonary disease (COPD)
- Pain management
- Wound care
- Infusion therapy
- Oncology
- Chronic kidney disease
- Psychiatric services

Please also refer to the Project Description (Part 1, Question 11) for a description of additional clinical programs that the Applicant provides.

10.24.16.08C. Financial Accessibility.
An applicant shall be or agree to become licensed and Medicare- and Medicaid-certified, and agree to maintain Medicare and Medicaid certification and to accept clients whose expected primary source of payment is either or both of these programs.

Applicant Response:

The Applicant is and agrees to remain licensed and Medicare and Medicaid certified and to continue to accept clients whose expected primary source of payment is either or both of these programs. Please refer to **Exhibit 5** for the Applicant's current license and **Exhibit 6** for its Medicare certification and Medicaid participation documentation.

The Applicant's payer mix in calendar year 2017 is set forth in Table 1 below, which reflects 89% Medicare, 10% private PPS and commercial, and 1% Medicaid.

Table 4
2017 Payer Mix

Payor	# of Admissions
Medicare	2,792
PPS Private	58
Episodic Admits Total	2,850
Medicaid	36
Private Commercial	246
Non-Episodic Admits Total	282
Total Admissions	3,132

10.24.16.08D. Fees and Time Payment Plan.
An applicant shall make its fees known to prospective clients and their families at time of patient assessment before services are provided and shall:

(1) Describe its special time payment plans for an individual who is unable to make full payment at the time services are rendered; and

(2) Submit to the Commission and to each client a written copy of its policy detailing time payment options and mechanisms for clients to arrange for time payment.

Applicant Response:

The Applicant will make its fees known to prospective clients and their families at the time of patient assessment before services are provided. The Applicant will offer a time payment plan for individuals who are unable to make full payment at the time services are rendered. Please refer to **Exhibit 7** for the Applicant's time payment plan policy (which is part of its Charity Care Policy). A copy of this policy will be provided to clients and their families at the time of patient assessment.

10.24.16.08 E. Charity Care and Sliding Fee Scale.
Each applicant for home health agency services shall have a written policy for the provision of charity care for indigent and uninsured patients to ensure access to home health agency services regardless of an individual's ability to pay and shall provide home health agency services on a charitable basis to qualified indigent and low income persons consistent with this policy. The policy shall include provisions for, at a minimum, the following:

(1) Determination of Eligibility for Charity Care and Reduced Fees. Within two business days following a client's initial request for charity care services, application for medical assistance, or both, the home health agency shall make a determination of probable eligibility for medical assistance, charity care, and reduced fees, and communicate this probable eligibility determination to the client.

Applicant Response:

Please refer to **Exhibit 7** for the Applicant's Maryland-specific charity care policy. The relevant language is highlighted in Exhibit 7.

(2) Notice of Charity Care and Sliding Fee Scale Policies. Public notice and information regarding the home health agency's charity care and sliding fee scale policies shall be disseminated, on an annual basis, through methods designed to best reach the population in the HHA's service area, and in a format understandable by the service area population. Notices regarding the HHA's charity care and sliding fee scale policies shall be posted in the business office of the HHA and on the HHA's website, if such a site is maintained. Prior to the provision of HHA services, a HHA shall address clients' or clients' families concerns with payment for HHA services, and provide individual notice regarding the HHA's charity care and sliding fee scale policies to the client and family.

Applicant Response:

The Applicant will publish notice of its charity care policy in publications available to residents of all of the counties it is authorized to serve currently (Dorchester, Somerset, Talbot, Wicomico and Worcester Counties) as well as the Upper Eastern Shore counties to which it seeks to expand in this Application (Caroline, Kent and Queen Anne's). Please refer to **Exhibit 8** for the notice that the Applicant proposes to publish.

Additionally, with regard to notices that will be posted and provided to patients and families, the Applicant will post and provide a summary notice entitled "Public Disclosure of the Availability of Charity Care, Discounted Fee Care and Time Payment Plan." See **Exhibit 9**. This notice summarizes the Maryland-specific policy (FM-008A) governing charity care, discounted fee care and time payment plan. This notice is a cover page to the Maryland policy (FM-008A) which, in its entirety, will be (1) posted in the Applicant's business offices in service area (Salisbury and Cambridge), (2) provided to all prospective patients and their families, (3) posted on the Applicant's website, (4) provided to the local health departments and other social services agencies in the Applicant's service area, (5) provided to local referral sources in the Applicant's service area (hospitals, nursing homes, etc.), and (6) provided to all local nonprofits or other agencies that the Applicant partners with to provide charity care.

A link to **Exhibit 9** is located prominently in the Amedisys, Inc. website. Amedisys, Inc. maintains a single website (www.amedisys.com) for the entire company and subsidiaries. While local care centers do not operate their own websites, patients and their families are able to easily navigate within the Amedisys, Inc. website to find information about local care centers in their areas. Specifically, at the top of the home page www.amedisys.com, there is a tab for "Locations" which generates a drop down list of states. The patient simply drops down to Maryland and checks the box for the type of care (home health,

hospice or personal care), and then clicks "Find a Care Center." That brings the patient to a landing page for Maryland that lists all the Amedisys local home health agencies in the State. (The Maryland landing page also includes a map showing all of the local care centers.) From the Maryland landing page, the patient is able to select a local care center (with a tab entitled "More Information") to obtain more information about locations served and services provided. The Applicant has posted a link to **Exhibit 9** prominently on the landing page for each Amedisys home health agency location in Maryland. For example, from the Maryland Landing Page, if a prospective client clicks on "More Information" for the Salisbury location, the patient will see a link to **Exhibit 9** (under a tab entitled Charity Care and Other Financial Assistance") on the landing page for the Salisbury office.

(3) Discounted Care Based on a Sliding Fee Scale and Time Payment Plan Policy. Each HHA's charity care policy shall include provisions for a sliding fee scale and time payment plans for low-income clients who do not qualify for full charity care, but are unable to bear the full cost of services.

Applicant Response:

Please refer to **Exhibit 7** for the Applicant's Maryland-specific charity care policy which contains a discounted fee schedule and time payment plan policy. These provisions are highlighted in Exhibit 7.

(4) Policy Provisions. An applicant proposing to establish a home health agency or expand home health agency services to a previously unauthorized jurisdiction shall make a commitment to, at a minimum, provide an amount of charity care equivalent to the average amount of charity care provided by home health agencies in the jurisdiction or multi-jurisdictional region it proposes to serve during the most recent year for which data is available. The applicant shall demonstrate that:

(a) Its track record in the provision of charity care services, if any, supports the credibility of its commitment; and
(b) It has a specific plan for achieving the level of charity care to which it is committed.

Applicant Response:

Charity Care Commitment:

The Applicant commits to provide an amount of charity care greater than the average amount of charity care provided by home health agencies in Caroline, Kent and Queen Anne's Counties in 2014, the most recent year for which data is available in the Commission's Public Use Data Set. The following is the percentage of HHA charity care visits provided in those counties in that year:

Caroline:	0.16%
Kent	0.00%
Queen Anne's	0.00%

On an overall basis for all three counties, the percentage of HHA charity care visits is 0.07%. For the entire Upper Eastern Shore region, the percentage for 2014 was 0.09%.

The Applicant's financial projections assume 0.4% total charity care visits in each year, which significantly exceeds the minimum requirement under this standard.

.

Charity Care Record:

Set forth in Tables 5 and 6 below is the Applicant's charity care record for the most recent three years contained in the Commission's Public Use Data Set.

Table 5
APPLICANT TOTAL VISITS

County	2012	2013	2014
Dorchester	7,825	9.113	9,507
Somerset	6,198	5,852	4,283
Talbot	4,109	5,279	6,989
Wicomico	20,820	18,838	18,318
Worcester	18,747	18,804	17,182
Total	57,699	57,886	56,279

Table 6
APPLICANT CHARITY CARE VISITS (% OF TOTAL)

County	2012	2013	2014
Dorchester	33 (0.42%)	42 (0.46%)	1 (0.01%)
Somerset	34 (0.55%)	16 (0.27%)	9 (0.21%)
Talbot	20 (0.49%)	2 (0.04%)	0 (0.00%)
Wicomico	103 (0.50%)	74 (0.40%)	6 (0.03%)
Worcester	52 (0.28%)	20 (0.11%)	44 (0.26%)
Total Charity Care Visits/% of Total Visits	**242 (0.42%)**	**154 (0.27%)**	**60 (0.11%)**

Additionally, while not yet reflected in the Commission's Public Use Data Set, the Applicant's percentage of charity care visits in 2015-2017 is as follows:

2015: 0.04%
2016: 0.10%
2017: 0.05%

Accordingly, the Applicant has a track record of providing a level of charity care that exceeds the overall percentage of charity care visits provided by home health agencies in Caroline, Kent and Queen Anne's Counties in 2014 (0.06%) except in 2015 and 207

(when the Applicant's percentage was slightly below that level).

Further, the Applicant's overall charity care track record in its existing counties is better than that of the other HHAs serving those counties, as shown in Tables 7 through 9.

Table 7
TOTAL VISITS

County	2012	2013	2014
Dorchester	18,178	20,300	19,832
Somerset	10,338	10,174	10,207
Talbot	19.748	20,460	20,702
Wicomico	46,069	50,207	52,238
Worcester	28,208	29,831	30,256
Total	122,541	130,972	133,235

Table 8
TOTAL CHARITY CARE VISITS (% OF TOTAL)

County	2012	2013	2014
Dorchester	72 (0.40%)	54 (0.27%)	18 (0.09%)
Somerset	40 (0.39%)	16 (0.16%)	9 (0.09%)
Talbot	43 (0.22%)	25 (0.12%)	20 (0.10%)
Wicomico	196 (0.43%)	126 (0.25%)	32 (0.06%)
Worcester	83 (0.30%)	54 (0.18%)	57 (0.19%)
Total Charity Care Visits/% of Total Visits	**434 (0.35%)**	**275 (0.21%)**	**136 (0.10%)**

Table 9
COMPARISON OF APPLICANT TO OVERALL PERCENTAGE

	Overall Charity Care % of Visits in All Five Counties	Amedisys Charity Care % of Visits in All Five Counties
2012	0.35%	0.42%
2013	0.21%	0.27%
2014	0.10%	0.11%

Even looked at county-by-county, the Applicant exceeded or (in one case) equaled the overall charity care percentages of all the HHAs serving each county, as shown in Tables 10-12 below.

Table 10
Dorchester County

	2012	2013	2014
HH7066	4,250 total/0 charity (0.00%)	4,144 total/0 charity (0.00%)	4,782 total/0 charity (0.00%)
Applicant (HH7111)	7,825 total/33 charity (0.4%)	9,113 total/42 charity (0.46%)	9,507 total/1 charity (0.01%)
HH7139	6,103 total/39 charity (0.64%)	7,043 total/12 charity (0.17%)	5,543 total/17 charity (0.31%)
	18,178 total/72 charity (0.40%)	20,300 total/54 charity (0.27%)	19,832 total/18 charity (0.09%)

Overall percentage of charity care = 0.25% (57,770 total/144 charity).
Applicant's percentage of charity care = 0.29% (26,445 total/76 charity).

Table 11

	10,338 total/40 charity (0.39%)	10,174 total/16 charity (0.16%)	10,207 total/9 charity (0.09%)

Overall percentage of charity care = 0.21% (30,719 total/65 charity).
Applicant's percentage of charity care = 0.35% (16,873 total/59 charity).

Table 12
Talbot County

	2012	2013	2014
HH7066	8,447 total/0 charity (0.00%);	7,218 total/0 charity (0.00%)	6,610 total/0 charity (0.00%)
Applicant (HH7111)	4,019 total/20 charity (0.5%)	5,279 total/2 charity (0.03%)	6,989 total/0 charity (0.00%)
HH7139	7,282 total/23 charity (0.32%)	7,963 total/23 charity (0.29%)	7,103 total/20 charity (0.28%)
	19,748 total/43 charity (0.22%)	20,460 total/25 charity (0.12%)	20,702 total/20 charity (0.10%)

Overall percentage of charity care = 0.14% (60,910 total/88 charity).
Applicant's percentage of charity care = 0.14% (16,287 total/22 charity).

Charity Care Plan:

As described above, the Applicant's track record of providing charity care supports the credibility of its commitment to provide greater than the average amount of charity care

visits provided by home health agencies in Caroline, Kent and Queen Anne's Counties in 2014 (0.06%). While the Applicant's projections incorporate a level of charity care visits (0.4%) significantly in excess of average amount of charity care visits provided by home health agencies in these three counties in 2014, the Applicant has achieved this level of visits in the past.

The Applicant will pursue a robust plan to meet its commitment under this standard which includes:

Linkages with Safety Net Organizations: The Applicant will identify and establish ongoing charity care referral relationships with local nonprofits that serve indigent and disadvantaged persons in the Upper Eastern Shore region. This includes establishing an ongoing charity care referral relationship with Saint Martin's Ministries of Ridgely Maryland (SMM) in Caroline County (www.stmartinsministries.org), a renowned non-profit organization that provides safety net services to clients in Caroline and other Upper Shore counties, including an Emergency Food Pantry, Transitional Shelter, Homelessness Prevention and Thrift Store.

The Applicant has also reached out to the Queen Anne's County Mobile Integrated Health pilot project to establish a relationship. As explained on the Maryland Department of Health's website, this pilot program operates under the Queen Anne's County Department of Health and Department of Emergency Services. It partners with other health care providers to conduct home visits to assess, treat and refer patients to needed services outside the emergency department environment.

The Applicant will also maintain an ongoing referral relationship with the Choptank Community Health System, a Federally Qualified Health Center serving indigent and underserved populations in this region. The Applicant will also work with local health and social services departments in each county to make them aware that the Applicant accepts charity care referrals.

Community Liaison: The Applicant will hire a full time community liaison to help the Applicant to exceed its charity care commitment. (This will be part of the two new administrative FTEs shown in Table 5.) The hiring criteria for the community liaison will require a deep, preexisting familiarity with the Upper Eastern Shore and public and private institutions and programs in that region that are potential referral sources for charity care. This employee will be responsible for identifying potential charity care referral sources and informing and educating potential referral sources about the Applicant's willingness to accept and care for all patients regardless of ability to pay and its charity care policy. This will not be a "one-time" process – the community liaison will be required to keep in regular contact with these organizations, and continually "refresh" the list of potential charity care referral organizations to ensure that new organizations are identified. The community liaison will be required to make a minimum number of contacts each week. Further, the liaison will provide his or her personal contact information to each potential referral source so that they have an immediate point of contact if they have a patient in need of home health care, and then will work with the organization to facilitate the referral. The community liaison will be individually accountable for the Applicant's charity care commitment, and his or her job performance will be reviewed based on Amedisys satisfying its charity care commitment. The

Applicant currently relies on its sales force to inform the community about Amedisys' charity care program to potential referral sources along with their other job responsibilities. However, there is no employee with individual responsibility to work with public and private institutions and programs to generate charity care referrals. The Applicant is confident that having a dedicated, accountable community liaison who is familiar with and embedded in the community will enable the Applicant to exceed its charity care commitment in these counties.

In addition to the community liaison's activities, the Applicant's sale's team in Maryland will incorporate messaging about the the Applicant's acceptance of charity care into their daily sales calls with existing and potential referral sources. The Applicant will also send a notice at least annually to each of its referral sources that it accepts charity care referrals.

Publication of Notices: The Applicant will publish the notice of its charity care policy (see Exhibit 8) in local newspapers at least twice a year, more frequently than is required under COMAR 10.24.16.08E. Notice of the availability of charity care will also be displayed on our website.

10.24.16.08 F. Financial Feasibility.

An applicant shall submit financial projections for its proposed project that must be accompanied by a statement containing the assumptions used to develop projections for its operating revenues and costs. Each applicant must document that:

(1) Utilization projections are consistent with observed historic trends of HHAs in each jurisdiction for which the applicant seeks authority to provide home health agency services;

(2) Projected revenue estimates are consistent with current or anticipated charge levels, rates of reimbursement, contractual adjustments and discounts, bad debt, and charity care provision, as experienced by the applicant if an existing HHA or, if a proposed new HHA, consistent with the recent experience of other Maryland HHAs serving each proposed jurisdiction; and

(3) Staffing and overall expense projections are consistent with utilization projections and are based on current expenditure levels and reasonably anticipated future staffing levels as experienced by the applicant if an existing HHA or, if a proposed new HHA, consistent with the recent experience of other Maryland HHAs serving the each proposed jurisdiction.

Applicant Response:

The historic utilization trends in Caroline, Kent and Queen Anne's Counties in the most recent five years for which the data is available are set forth in Tables 13-16

Table 13
Caroline County Utilization

Year	Clients	% Change over Prior Year	Visits	% Change over Prior Year
2010	690		11,526	
2011	607	-12%	10,985	-4.7%
2012	700	+15.3%	14,027	+27.7%
2013	696	-0.5%	13,701	-2.3%
2014	683	-1.9%	13,911	+1.5%

Table 14
Kent County Utilization

Year	Clients	% Change over Prior Year	Visits	% Change over Prior Year
2010	516		6,171	
2011	480	-7%	5,730	-7.1%
2012	390	-19%	4,875	-15%
2013	400	+2.6%	5,434	+11.5%
2014	454	+13.5%	6,436	+18.4%

Table 15
Queen Anne's County Utilization

Year	Clients	% Change over Prior Year	Visits	% Change over Prior Year
2010	788		9,617	
2011	905	+14%	13,399	+39%
2012	891	-1.5%	14,106	+5.3%
2013	905	+1.6%	14,554	+3.2%
2014	833	-8%	13,210	-9.2%

Table 16
Combined Utilization

Year	Clients	% Change over Prior Year	Visits	% Change over Prior Year
2010	1,994		27,314	
2011	1,992	-0.1%	30,114	+10.0%
2012	1,981	-0.5%	33,008	+9.6%
2013	2,001	+1.0%	33,689	+2.0%
2014	1,970	-1.5%	33,557	-0.4%

In all three counties combined, the number of visits increased by approximately 23% during this period, even while the number of clients remained relatively stable. Further, as will be discussed further below under the Need standard, even while utilization in these counties has grown, the residents of these counties (particularly Kent and Queen Anne's) underutilize home health services.

In addition, the elderly population in these counties is projected to nearly double by 2030.

The Applicant projects achieving full utilization in its fourth year, at 9,855 total visits in all three counties (ramping up from 3,393 visits in year 1). These projections are based on the Applicant's experience in the counties it currently serves in terms of number of lives age 65+, number of home health competitors, and home health utilization. The Applicant had 76,570 total visits in 2017 in its existing service area.

As shown above, there were 33,557 total visits in all three counties in 2014, representing a 23% increase since 2010, a five year period. Simply carrying forward that same growth rate to the next five year period (2015-2019, the first full year of the Applicant's projected operation) would result in an additional 7,700 visits (41,238 visits), and an additional 9,500 visits (50,722 visits) at the end of the next five year period (2024, when the Applicant would be at full utilization). This level of growth does not take into account the significant increase in the 65+ population that is projected to occur during this period. Further, it does not take into account the current underutilization of home health care in these counties, let alone the impact of the State's Total Cost of Care Model and the pressure it creates to provide quality care in the most cost effective setting. Accordingly, simply continuing the growth rate in visits over the five years prior to 2014 understates growth that is likely to occur.

The Applicant's utilization projections cover all three counties that it seeks to serve (Caroline, Kent and Queen Anne's). There is only one home health agency currently serving all three of these counties, Shore Health (HH#7139), which had a total of 8,533 visits in 2014 and 8,901 visits in 2013. There are two home health agencies currently serving two of the three subject counties: Home Call (#7066), which had 10,545 visits in 2014 and 10,371 visits in 2013 in two of the three counties, and Chester River (HH#7142) had 12,305 visits in 2014 and 11, 906 visits in 2013 in two of the three counties. 2014 is the most recent year for which this data is available, eight years before the Applicant projects reaching full utilization of 9,855 in 2022. Given the historic utilization trends, the underutilization of home health services in the subject counties, and the projected growth in the elderly population in these counties, the Applicant believes that its projected utilization is reasonable.

During the ramp up period, the Applicant intends to earn the trust of referral sources in the new counties and employ staff at the appropriately to meet the need. The Applicant will also utilize a substantial Amedisys sales team to educate referral sources on the benefits of home health as well as the cost savings by reducing hospital admissions during the ramp up period and beyond.

As an existing HHA, the Applicant's projected revenue estimates are based on its current charge levels, rates of reimbursement, contractual adjustments and discounts, bad debt and charity care. The Applicant is projecting slow and steady growth to ensure quality patient care is consistent to all patients under care. In order to qualify the revenue projections, the Applicant considered its historical average revenue per episode on episodic patients as well as private

patients and projected based on the anticipated admission growth.

The Applicant's staffing and overall expense projections are based on its utilization projections and current expenditure levels and reasonable anticipated future staffing levels as experienced by the Applicant as an existing HHA.

The projections are based on the Applicant's experience only, not that of other Amedisys affiliates in Maryland.

10.24.16.08G. Impact.
An applicant shall address the impact of its proposed home health agency service on each existing home health agency authorized to serve each jurisdiction or regional service area affected by the proposed project. This shall include impact on existing HHAs' caseloads, staffing and payor mix.

Applicant Response:

Please refer to the Response to COMAR 10.24.01.08G(3)(f) (Impact on Existing Providers Review Criterion).

10.24.16.08H. Financial Solvency.
An applicant shall document the availability of financial resources necessary to sustain the project. Documentation shall demonstrate an applicant's ability to comply with the capital reserve and other solvency requirements specified by CMS for a Medicare-certified home health agency.

Applicant Response:

The Applicant is a wholly owned subsidiary of Amedisys Holding, LLC (which is 100% owned by Amedisys, Inc.) that supports and provides cash flow for all of its subsidiaries' operations. Please refer to the Amedisys, Inc. Annual Report (**Exhibits 15 and 16**) that demonstrates the availability of financial resources necessary to sustain this project. The corporate organizational chart of Amedisys, Inc. is attached as **Exhibit 1**

With regard to the CMS capitalization requirement (42 C.F.R §489.28), the Applicant does not propose to establish a new HHA with a new Medicare provider number, but rather proposes to expand an existing HHA into Upper Eastern Shore counties. Accordingly, the capital reserve requirements specified by CMS hat apply to HHAs entering the Medicare program after January 1, 1998 do not apply to the Applicant.

10.24.16.08I. Linkages with Other Service Providers.
An applicant shall document its links with hospitals, nursing homes, continuing care retirement communities, hospice programs, assisted living providers, Adult Evaluation and Review Services, adult day care programs, the local Department of Social Services and home delivered meal programs located within its proposed service area.

(1) A new home health agency shall provide this documentation when it requests first use approval.

(2) A Maryland home health agency already licensed and operating shall provide documentation of these linkages in its existing service area and document its work in forming such linkages before beginning operation in each new jurisdiction it is authorized to serve.

Applicant Response:

As an existing HHA, the Applicant has linkages with health care providers and service providers across the full continuum of care in its existing service area. Please refer to **Exhibit 10** for a complete list of Applicant's current referral sources, including hospitals, skilled nursing facilities, assisted living facilities, physicians, senior living facilities and community services organizations. In addition, the Applicant has identified and begun to work on forming additional linkages in the three counties it seeks to serve through this application. Please refer to **Exhibit 11** for documentation of the new linkages to be formed to enable the Applicant to serve Caroline, Kent and Queen Anne's Counties.

10.24.16.08J. Discharge Planning.
An applicant shall document that it has a formal discharge planning process including the ability to provide appropriate referrals to maintain continuity of care. It will identify all the valid reasons upon which it may discharge clients or transfer clients to another health care facility or program.

Applicant Response:

Please refer to **Exhibit 12** for a copy of the Applicant's Discharge Planning policy in accordance with this standard. The grounds upon which the Applicant may decline to continue services are listed under PROCEDURE (pages 1-2). The specific criteria for discharge are listed on page 3, under item #6 (titled "Discharge Criteria"). The formal discharge planning process begins on page 2 (under "DISCHARGES") and continues through page 3 (ending with item #10). The procedure followed when an already-admitted patient meets the criteria for discontinuation of services is contained on pages 3 and 4. (Please note that the page numbers are contained in the header at the top of each page.) The following specific language demonstrates the Applicant's ability to provide appropriate referrals.

"PURPOSE:

...

To have a discharge process to ensure the patient is being discharged appropriately and arrangements have been made to address any ongoing health care needs the patient may have at discharge." [Page 1 of 20.]

"REGULATORY GUIDANCE:

§484.48 Conditions of Participation: Clinical Records: The HHA must inform the attending physician of the availability of a discharge summary. The discharge summary must be sent to the attending physician upon request and must include the patient's medical and health status at discharge.tlh status at discharge..." [Page 1 of 20]

"PROCEDURE:

...

If the patient is found to be ineligible for home care services, all attempts will be made by the agency to direct the individual to the appropriate community resource and notification will be made to the patient's attending physician and/or referral agency." [Page 2 of 20.]

"DISCHARGES ...

1. Discharge planning will begin during the initial admission evaluation and continues throughout the length of service. The patient, or his/her representative if any, shall be informed of and participate in discharge planning.

2. The Plan of Care will identify problems and goals that need to be meet for discharge. Goals and discharge planning are discussed with the patient and caregiver.

3. ...

The physician will be notified of the patient's discharge from the home health agency. Documentation of physician notification will be evident in the patient's medical record. ...

4. When a skilled discipline discharges the patient from their service, the discipline will complete a discharge summary that will be available to the physician upon request." [Page 2 of 20.]

10.24.16.08K. Data Collection and Submission.
An applicant shall demonstrate ongoing compliance or ability to comply with all applicable federal and State data collection and reporting requirements including, but not limited to, the Commission's Home Health Agency Annual Survey, CMS' Outcome and Assessment Information Set (OASIS), and CMS' Home Health Consumer Assessment of Healthcare Providers (HHCAHPS).

Applicant Response:

The Applicant submits the Commission's Home Health Agency Annual Survey on an annual basis, including required information about operations, ownership, license and organization, certification and accreditation, services, provided, staffing, financial information, utilization, and client distribution.

The Applicant complies with all CMS data collection and reporting requirements, including the Outcome and Assessment Information Set (OASIS), and CMS' Home Health Consumer Assessment of Healthcare Providers (HHCAHPS) survey. OASIS is CMS's comprehensive quality assessment tool that must be completed for each patient, and at specified points in the care process. Working with approved CMS vendor Strategic Healthcare Partners (SHP), the Applicant transmits the required OASIS data weekly to CMS and receives verification from CASPER (Certification and Survey Provider Enhanced Reports). Attached as **Exhibit 13** are quality reports from SHP based on the Applicant's OASIS data submissions between March, 2017 and February, 2018.

HHCAHPS is designed by CMS to measure the experiences of people receiving home health care from Medicare-certified home health agencies. The HHCAHPS is conducted for home health agencies by approved HHCAHPS Survey vendors. The Applicant participates in the HHCAHPS Survey through SHP, an approved Survey vendor. Attached as **Exhibit 14** is the record from SHP of the Applicant's survey submissions under HHCAHPS through 2017.

10.24.16.09 Certificate of Need Preference Rules in Comparative Reviews. Consistent with COMAR 10.24.01.09A(4)(b), the Commission shall use the following preferences, in the order listed, to limit the number of CON applications approved in a comparative review.

10.24.16.09A. Performance on Quality Measures.
Higher levels of performance will be given preference over lower levels of performance.

Applicant Response:

Please refer to Table 17 for the Applicant's current performance on the metrics that the Commission utilizes for this standard. The Applicant's overall Quality of Patient Care Star Rating of 4.5 exceeds the Maryland average Star rating of 4, and its HHCAHPS overall Star rating of 4.0 exceeds the Maryland average of 3 Stars. The Applicant's current performance exceeds the State average on every metric but one.

10.24.16.09B. Maintained or Improved Performance.
An applicant that demonstrates maintenance or improvement in its level of performance on the selected process and outcome measures during the most recent three-year reporting period will be given preference over an applicant that did not maintain or improve its performance.

Applicant Response:

Please refer to Table 17 for the Applicant's performance since 2016 on the quality metrics that the Commission utilizes for this standard. As shown in Table 17, the Applicant maintained or improved its performance on every metric.

Table 17
Performance on Quality Measures

Metric	2016	2017	Current	MD Average
QUALITY OF CARE				
Improvement in Ambulation	65.5%	72.5%	4 Stars (77.3%)	76.1%
Improvement in Bed Transfer	61.4%	68.7%	4 Stars (76.3%)	74.8%
Improvement in Bathing	72.6%	78.5%	4 Stars (81.3%)	78.8%
Improvement in pain	76.9%	78.7%	4 Stars (84.6%)	79.1%
Improvement in Dyspnea (breathing)	78.4%	81.4%	4.5 Stars (85.3%)	82.2%
Improvement in Management of Oral Meds	59.7%	66.5%	69.6%	67.6%
Drug Education All Meds	92.2%	99.5%	3.5 Stars (99.6%)	98.8%
Timely Initiation of Care	95.3%	96.4%	3.5 Stars (97.2%)	94%
Flu Vaccine Received	59.6%	87.2%	88.4%	82.8%
Hospitalization	14.6%	17%	15%	15.8%
EC w/o Hospitalization	17.1%	14.8%	15.9%	12.6%
OVERALL QUALITY OF CARE STAR RATING	3.5 Stars	4 Stars	4.5 Stars	4 Stars
HHCAHPS	2016	2017	Current	State Average
Provision of professional care	4 Stars (93%)	4 Stars (92%)	90.5%	87%
Communication	5 Stars (90%)	4 Stars (89%)	87.8%	85%
Discussion of Meds, pain and home safety	4 Stars (87%)	3 Stars (84%)	90.5%	81%
Rating of 9 or 10	4 Stars (91%)	4 Stars (88%)	85.2%	81%
Recommendation of HHA	88%	87%	80.9%	76%
OVERALL HHCAHPS STAR RATING	4.0 Stars	4.0 Stars	4.0 Stars	3 Stars

10.24.16.09C. Proven Track Record in Serving all Payor Types, the Indigent and Low Income Persons.
An applicant that served a broader range of payor types and the indigent will be given preference over an applicant that served a narrower range of payor types and provided less service to the indigent and low income persons.

Applicant Response:

The Applicant has a proven track record of serving all payor types, including Medicare, Medicaid, Private PPS and Private Commercial. The following is the Applicant's payor mix information.

Table 18
Payor Mix

Year	Medicare	PPS	Medicaid	Private	Total
2014	2,244	25	10	270	2,549
2015	2,450	15	35	0	2,500
2016	2,648	17	38	64	2,767
2017	2,792	58	36	246	3,132

10.24.1 6.09D. Proven Track Record in Providing a Comprehensive Array of Services. An applicant that provided a broader range of services will be given preference over an applicant that provided a narrower range of services.

Applicant Response:

Please refer to the Project Description (Part 1, Question 11, b-d) which describes the comprehensive array of services that the Applicant provides. As described in that response, the Applicant provides all of the core home health care services for patients recovering from illness or injury to help them regain independence and become as self-sufficient as possible. In addition, the Applicant provides a variety of chronic care programs, including programs for conditions like heart disease, kidney disease, diabetes and COPD. The Applicant also provides an innovative Care Transitions Program (see **Exhibit 3**) to reduce avoidable hospitalizations. In 2010, the Amedisys Care Centers where Care Transitions was first deployed were able to collectively reduce their acute care hospitalization rate by 7.9%. The Applicant's response to Question 11 also describes its evidence-based clinical programs involving skilled medical services, supportive services for patients and their caregivers and education on self-management skills (which are described further in **Exhibit 4).**

10.24.16.09E. These preferences will only be used in a comparative review of applications when it is determined that approval of all applications that fully comply with standards in Regulation .08 of this Chapter would exceed the permitted number of additional HHAs provided for in a jurisdiction or multi-jurisdictional region as provided in Regulation .10.

Applicant Response:

The Applicant has provided responses to these preference standards on the instruction that this will be a comparative review if applications are filed by all who filed a letter of intent in this review.

10.24.01.08G(3)(b). The "Need" Review Criterion

The Commission shall consider the applicable need analysis in the State Health Plan. If no State Health Plan need analysis is applicable, the Commission shall consider whether the applicant has demonstrated unmet needs of the population to be served, and established that the proposed project meets those needs.

Please discuss the need of the population served or to be served by the Project. Recognizing that the State Health Plan has identified need to establish an opportunity for review of CON applications in certain jurisdictions based on the determination that the identified jurisdiction(s) has insufficient consumer choice of HHAs, a highly concentrated HHA service market, or an insufficient choice of HHAs with high quality performance (COMAR 10.24.16.04), applicants are expected to provide a quantitative analysis that, at a minimum, describes the Project's expected service area; population size, characteristics, and projected growth; and, projected home health services utilization.

Applicant Response:

The State Health Plan for Home Health Agency Services (COMAR 10.24.16) defines need for the development and expansion of HHA services based on ensuring consumer choice of high quality providers Where previous HHA chapters attempted to define the need for HHA services by focusing on rates of population demand for services and changes in population, this Chapter "identifies need for new HHA service providers on whether there is reasonable consumer choice of quality performing HHA providers in a jurisdiction, and takes the position that more good quality choices should be encouraged when a market is dominated by a small number of providers." COMAR 10.24.16.03C. It emphasizes the "importance of providing consumers with meaningful choices for obtaining high quality services, in which one HHA or a small number of HHAs do not command overwhelming dominance." COMAR 10.24.16.03B. As noted in COMAR 10.24.16.03C, this approach benefits consumers because research indicates that quality and performance scores improve over time in more competitive markets."

The Commission has made the determination that the Upper Eastern Shore needs new HHA providers based on the criteria outlined in COMAR 10.24.15.04A, which include insufficient consumer choice of HHAs, a highly concentrated HHA service market, or an insufficient choice of HHAs with high quality performance.

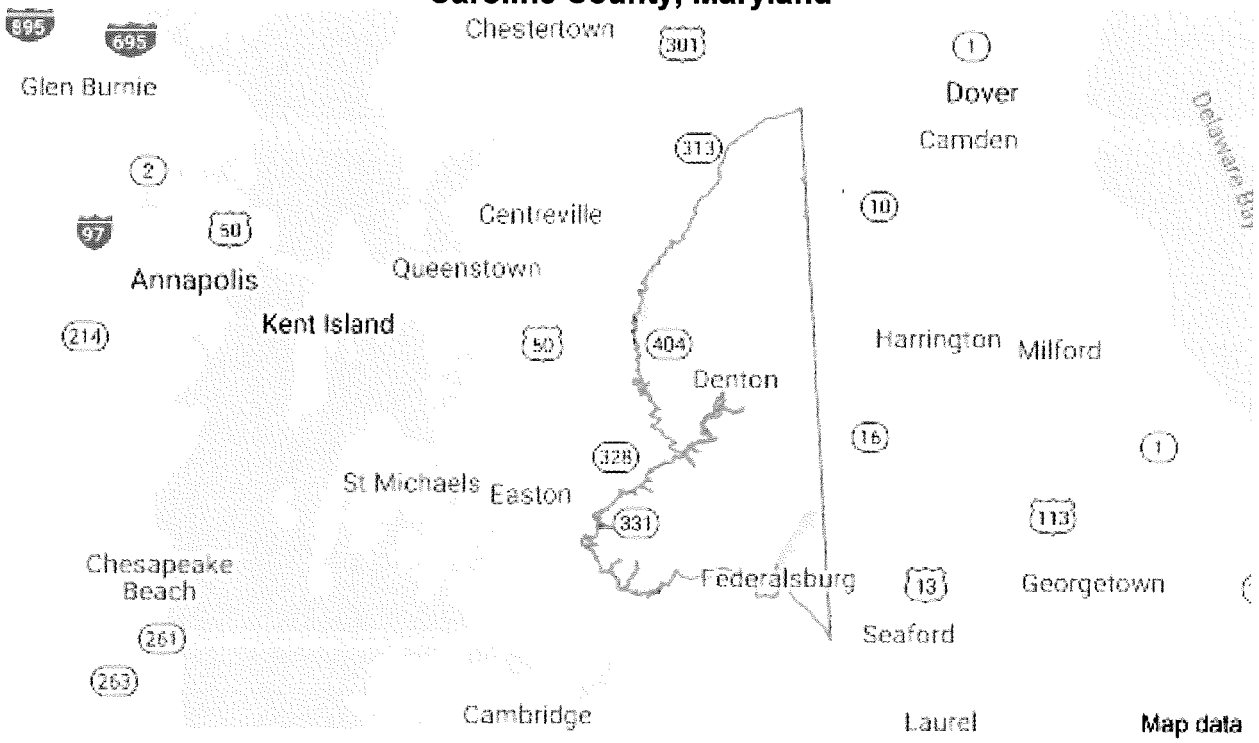
The service area for this project will be Caroline, Kent and Queen Anne's Counties. In Kent County, only one home health agency served more than 10 clients in 2012, 2013 and 2014. In Caroline County, only two home health agencies served more than 10 clients in those same years. Accordingly, both of these counties have a demonstrated need for additional home health agencies under the State Health Plan resulting from insufficient consumer choice. The State Health Plan states (.04A(1)) that "insufficient consumer choice is considered to exist in any jurisdiction in which consumers have two or fewer Medicare certified HHAs that served 10 or more clients in the most recent three year period for which data is available."

Although Queen Anne's County (the most populous county of the three) has a greater number of home health agencies serving more than 10 clients, based on current quality star ratings, HHAs serving more than 60 percent of the clients in that county have 3.5 Star average ratings,

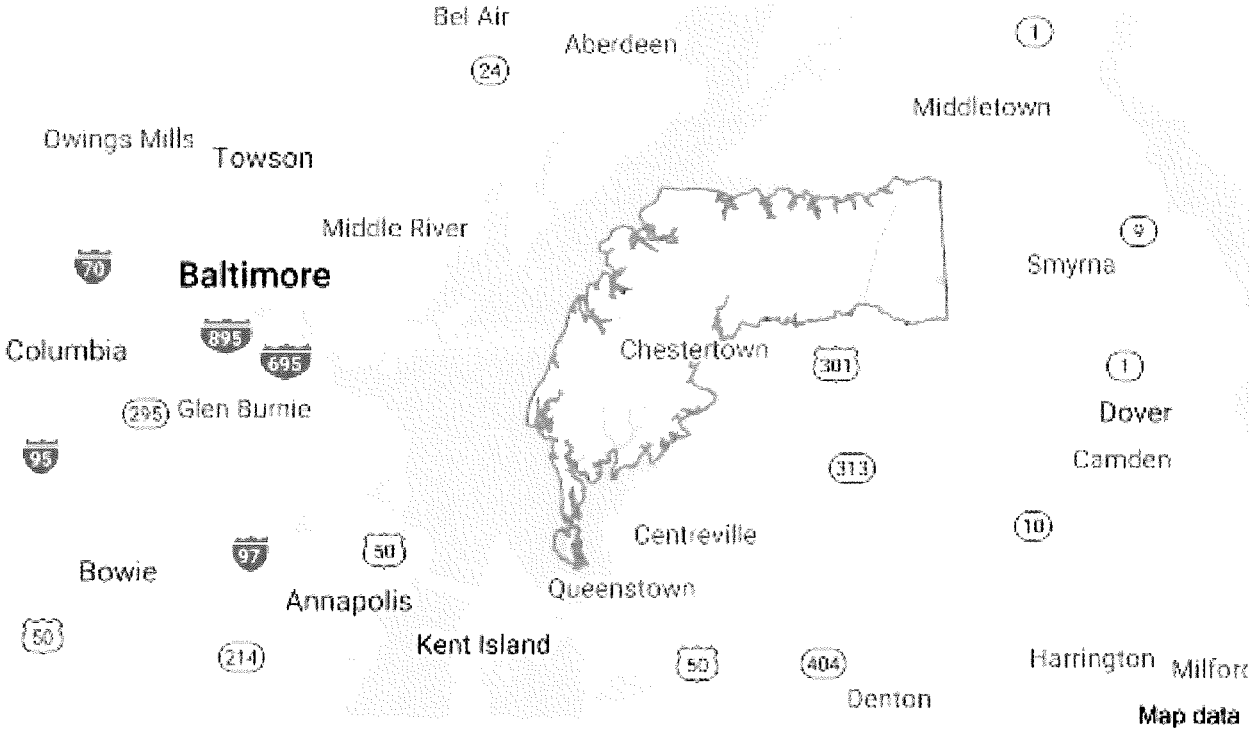
below the State current average 4.0 Star rating. Specifically, of the 833 clients served in 2014, 570 (68%) were served by agencies that currently have a 3.5 Star rating overall (HH#7139, HH#7142). Under .04A(3), "a jurisdiction is considered to have an insufficient choice of quality performing HHAs in HHAs serving 60 percent or more of the clients in the jurisdiction in the most recent year for which data is available, did not meet the applicable quality performance requirements designated by the Commission."

Maps of the Caroline, Kent and Queen Anne's Counties are set forth below.

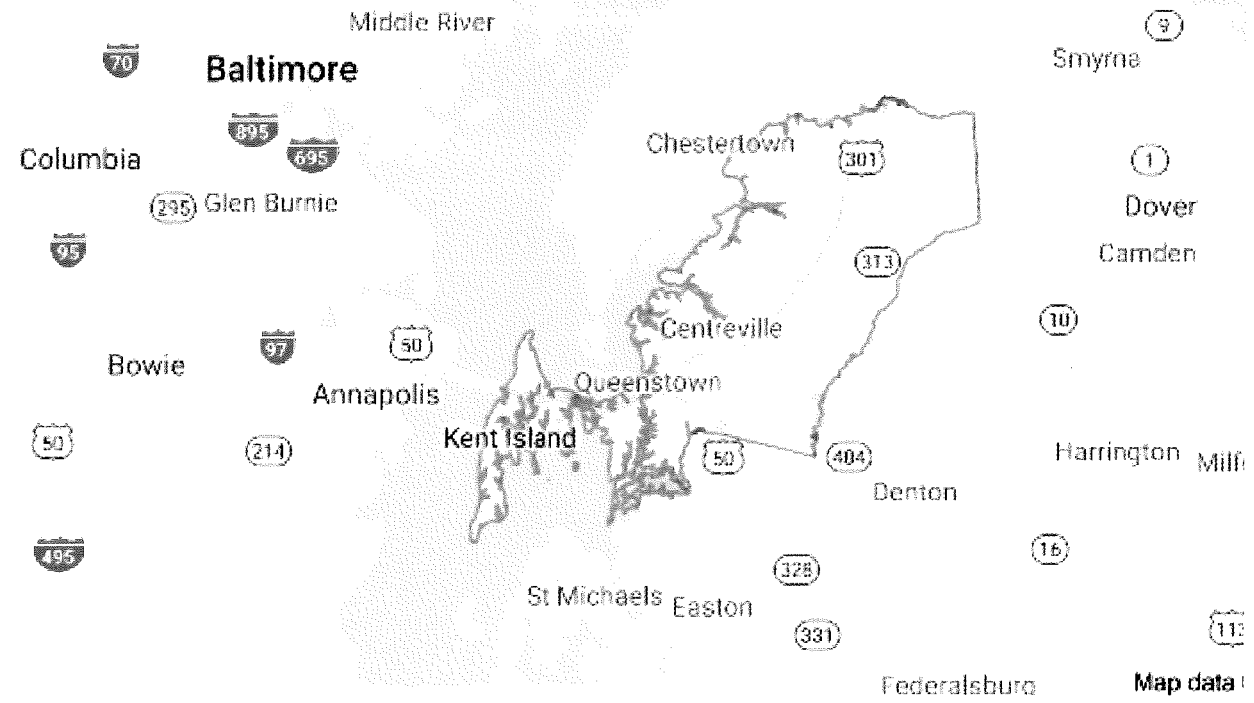
Caroline County, Maryland



Kent County, Maryland



Queen Anne's County, Maryland



The historical and projected total population for each County is shown in Table 19.

Table 19
Historical and Projected Population[1]

Year	Caroline County	Kent County	Queen Anne's County	Combined
2010 (census)	33,066	20,197	47,798	101,061
2015	32,900	19,600	48,650	101,150
2020	34,050	20,900	50,750	105,700
2025	36,250	21,600	52,850	110,700
2030	38,450.	22,100	55,750	116,300

This represents a 15% growth in population between 2010 and 2030 across all three counties.

The elderly population is growing much faster than the population as a whole in these counties, projected to nearly double (95% growth) by 2030, as shown in Table 20.

Table 20
Historical and Projected 65+ Population[2]

Year	Caroline County	Kent County	Queen Anne's County	Combined
2010 (census)	4,413	4,397	7,141	15,941
2015	5,040	5,080	8,710	18,830
2020	5,910	5,880	10,470	22,260
2025	7.050	6,980	12,750	26,780
2030	8,110	8,040	14,890	31,040

The annualized growth rate in each of these Counties is projected to outpace the projected Statewide annualized growth rate through 2040 in most periods, as shown in Table 21.

[1]Maryland Department of Planning data (July 2014)
[2]Maryland Department of Planning data (July 2014)9

Table 21
Projected Annualized Growth Rates (August 2017)[3]

Period	Caroline County	Kent County	Queen Anne's County	Maryland
2015-20	0.69%	1.29%	0.85%	0.51%
2020-25	1.26%	0.66%	0.46%	0.63%
2025-30	1.19%	0.46%	1.07%	0.57%
2030-35	1.17%	0.40%	0.97%	0.48%
2035-40	1.06%	0.40%	0.86%	0.47%

The populations in these three counties currently underutilize home health services as compared to the statewide average. Based on Table IV-3 of the Commission's recent decision approving a CON for Minerva Home HealthCare to provide home health care in Southern Maryland, the statewide average home health utilization rate in 2014 in the 65+ population based on number of clients per 1,000 in population was 13.48%. Based on that same table, the utilization rate amongst the 65+ population (based on clients per 1,000 in population) in Caroline, Kent and Queen Anne's Counties is less than the statewide average rate, as set forth in Table 18.[4] Increasing utilization in these counties to the statewide average would increase utilization as shown in Table 22.

Table 22
Additional Discharges at Statewide Average Based on 2014 Utilization Per 1,000 65+ Population

County	HH Clients 65+ per 1,000 Population	# of Additional Discharges at Statewide average of 13.48%
Caroline County	13.38%	6.52
Kent County	9,58%	206.15
Queen Anne's County	11.73%	161.01

When utilization is looked at based on the number of home health discharges in just the Medicare population (less Medicare Advantage), underutilization as compared to the statewide average is also shown, along with an increase in discharges simply by increasing utilization to the statewide average, as shown in Table 23.

[3]Maryland Department of Planning data (July 2014)

[44] The utilization rate in each county and statewide average rate was calculated by adding the clients in the three 65+ age categories and dividing by 3,000.

Table 23
Additional Discharges Based on HH Discharges/Medicare Population (Excluding Medicare Advantage) Q4 2016 –Q3 2017

County	HH Discharges/Medicare Population (Excluding Medicare Advantage)	# of Additional Discharges at Statewide average of 7.6%
Caroline	7.4%	15.55
Kent	6.2%	81.28
Queen Anne's	5.3%	217.31

Source: Q42016-Q3 2017 Medicare Data obtained from ViaDirect (vendor), based on Medicare claims data sourced directly from Medicare.

Additionally, the utilization rate can be expected to increase at the same time that the population comprising the highest utilizers of home health services (the 65+ population) is projected to nearly double in these counties. Further, home health utilization can be expected to increase under the State's Total Cost of Care Model and the necessity it creates to avoid unnecessary hospitalizations in favor of high quality, lower cost alternatives for care Home health care is a highly cost effective care setting as compared to facility-based care, such as skilled nursing facilities, long term acute facilities and emergency departments. According to Medicare claims data from 2014, the average Medicare expense per case in a skilled nursing facility was more than twice the average Medicare expense per case in the home health setting ($11,695 vs. $5,301). Further, as technology advances, more acute level services will be available in the home as opposed to facility-based post-acute settings, which will help drive utilization of home health services.

The State Health Plan Chapter takes the approach of regulating HHA services by emphasizing the importance of providing consumers with meaningful choices for obtaining high quality services, in which one HHA or a small number of HHAs do not command overwhelming dominance. The Chapter recognizes the great flexibility home health agencies have to expand or contract their service capacity and production expenses to fit the level of demand they are experiencing, but rejects this as an approach to determine whether to open up new HHA and HHA expansion opportunities in a jurisdiction in favor of an approach based on ensuring consumer choice of high quality providers in which better performance by HHAs is encouraged by development and expansion opportunities. Ensuring consumer choice and better performance through competition in Caroline, Kent and Queen Anne's Counties is even more important as the need for and utilization of HHA services continue to grow.

10.24.01.08G(3)(c). The "Availability of More Cost-Effective Alternatives" Review Criterion

The Commission shall compare the cost-effectiveness of the proposed project with the cost-effectiveness of providing the service through alternative existing facilities, or through an alternative facility that has submitted a competitive application as part of a comparative review.

Please explain the characteristics of the Project which demonstrate why it is a less costly and/or a more effective alternative for meeting the needs identified than other types of projects or

approaches that could be developed for meeting those same needs or most of the needs.

A clear statement of project objectives should be outlined. Alternative approaches to meeting these objectives should be fully described. The effectiveness of each alternative in meeting the project objectives should be evaluated and the cost of each alternative should be estimated.

For applications proposing to demonstrate superior patient care effectiveness, please describe the characteristics of the Project that will assure the quality of care to be provided. These may include, but are not limited to: meeting quality measures and performance benchmarks established by the Commission; meeting accreditation standards, personnel qualifications of caregivers, special relationships with public agencies for patient care services affected by the Project, the development of community-based services or other characteristics the Commission should take into account.

Applicant Response:

This project involves expanding the home health agency services of the Applicant, an existing parent home health agency located in Salisbury, into the Upper Eastern Shore counties of Caroline, Kent and Queen Anne's. The State Health Plan methodology recognizes a need for additional HHA competition in the Upper Eastern Shore in order to provide consumers with "meaningful choices for obtaining high quality services in which one HHA or a small number of HHAs do not command overwhelming dominance." COMAR 10.24.16.03B. The only way to accomplish this objective is to authorize additional high quality HHAs in the Upper Eastern Shore that meet the other requirements of the Chapter.

Home health care is a highly cost effective care setting as compared to facility-based care, such as skilled nursing facilities, long term acute facilities and emergency departments. For example, according to Medicare claims data from 2014, the average Medicare expense per case in a skilled nursing facility was more than twice the average Medicare expense per case in the home health setting ($11,695 vs. $5,301). As described in the Need section above, there is underutilization of home health care services in the Upper Eastern Shore, particularly in Kent and Queen Anne's Counties. With this project, the Applicant will actively educate and market in the populations in these counties to increase the home health utilization rate and thereby reduce health care costs.

Through this project, Amedisys seeks to expand its footprint in the state of Maryland in order to generate increased organic growth and enhance its recognition and stability in the Maryland market as a provider of high quality home health services. The Applicant identified the Upper Eastern Shore expansion based on the market potential associated with (1) its low home health utilization rate, and (2) the projected large growth in its 65+ population, significantly outpacing the growth in that population statewide. Additionally, the limited competition that currently exists in these counties enhances their market potential, particularly for high quality providers like the Applicant, since limited competition lowers quality. As the State Health Plan recognizes, performance and quality improve in more competitive markets. The proposed project is a cost effective way to introduce additional HHA competition in the Upper Eastern Shore to increase home health utilization, drive down health care costs, and improve quality. The Applicant has a proven track record with exceptional quality of patient care scores and patient experience of care scores through Home Health Consumer Assessment of Healthcare Providers (HHCAHPS) as reflected in CMS's Home Health Compare website. The Applicant

currently has combined ratings for quality of patient care and HHCAHPS of 4.5 stars and 4.0 stars respectively.

Home health care can reduce hospital admissions and improve population health and independence. The Applicant plans to use its experienced marketing team to increase the knowledge of the community as well as potential referral sources that home health is a cost effective level of care and alternative to higher cost settings including, but not limited to skilled nursing facilities (SNFs) and emergency departments (EDs). Through these efforts, the Applicant intends to increase home health utilization and ultimately decrease the cost of health care for the residents of these counties.

Further, as described above, with the depth of experience and resources that come from being part of a leading national home health care company, we are able to offer several evidence-based clinical programs to our clients that can help to improve outcomes and reduce hospital admissions. These evidence-based clinical programs are described in Part 1 above in the Project Description, which is incorporated herein by reference.

10.24.01.08G(3)(d). The "Viability of the Proposal" Review Criterion.
The Commission shall consider the availability of financial and nonfinancial resources, including community support, necessary to implement the project within the time frames set forth in the Commission's performance requirements, as well as the availability of resources necessary to sustain the project.

Please include in your response:

a. Audited Financial Statements for the past two years. In the absence of audited financial statements, provide documentation of the adequacy of financial resources to fund this project signed by a Certified Public Accountant who is not directly employed by the applicant. The availability of each source of funds listed in Part IV, Table 1 B. Sources of Funds for Project, must be documented.

Applicant Response:

Please refer to **Exhibit 15** and **Exhibit 16** for the 2016 and 2017 Annual Reports of Amedisys, Inc. (the Applicant's ultimate parent company) which includes its audited financial statements for those years.

b. **Existing home health agencies shall provide an analysis of the probable impact of the project on its costs and charges for the services it provides**. Non-home health agency applicants should address the probable impact of the project on the costs and charges for core services they provide.

Applicant Response:

The impact of the project on the Applicant's costs are shown in CON Table 3. No impact on the Applicant's charges are expected because the charges for home health services are largely driven by Medicare payment rates and commercial payer contracting.

c. A discussion of the probable impact of the project on the cost and charges for similar services provided by other home health agencies in the area.

Applicant Response:

The project is not expected to have any impact on the cost and charges provided by other home health agencies in the area. As stated above, the charges for home health services are largely driven by Medicare and commercial payer contracting.

d. All applicants shall provide a detailed list of proposed patient charges for affected services.

Applicant Response:

Please refer to **Exhibit 17**.

e. A discussion of the staffing and workforce implications of this proposed project, including:

- An assessment of the sources available for recruiting additional personnel;
- A description of your plans for recruitment and retention of personnel believed to be in short supply;
- A report on the average vacancy rate and turnover rates for affected positions in the last year.
- Completion of Table 5 in the *Charts and Tables Supplement (Part IV).*

Applicant Response:

- Recruitment efforts to fill the clinical openings projected in this Application will be handled by the Applicant. Sources available for recruiting personnel include, but ar not limited to:

Newspaper and magazine advertising
Attendance at job fairs and career days
Open Houses
Direct mailings
Education affiliations
Internship programs
Word of mouth and professional relationships
On-line professional recruitment sources

Currently, none of the positions to be filled by the Applicant for this project are considered to be in short supply. The Applicant utilizes an internal recruitment team that utilizes market data and trends on staffing through a third party software called Liquid Compass. Through the analysis, the Applicant believes that there are enough clinicians within the market to staff the new branch

effectively. The Applicant does not anticipate difficulty in recruiting new staff members or shortages in any position that would be needed for the expanded program.

- The Applicant's average vacancy rate is 2%.
- Table 5 is included in Part IV.

10.24.01.08G(3)(e). The "Compliance with Conditions of Previous Certificates of Need" Review Criterion.

An applicant shall demonstrate compliance with all terms and conditions of each previous Certificate of Need granted to the applicant, and with all commitments made that earned preferences in obtaining each previous Certificate of Need, or provide the Commission with a written notice and explanation as to why the conditions or commitments were not met.

List all prior Certificates of Need that have been issued since 1990 to the project applicant or to any entity which included, as principals, persons with ownership or control interest in the project applicant. Identify the terms and conditions, if any, associated with these CON approvals and any commitments made that earned preferences in obtaining any of the CON approvals. Report on the status of the approved projects, compliance with terms and conditions of the CON approvals and commitments made.

Applicant Response:

The Applicant received a CON to expand home health agency services into Talbot County on June 24, 2011 (Docket No, 10.20-2312). The CON was subject to a condition that the Applicant provide charitable home health agency services to indigent persons in need of such services equivalent in value to 0.4% of total expenses and to document its compliance with this condition within 6 months of the close of each fiscal year. The Applicant met the 0.4% requirement in 2012 and 2013, with charity care revenue of 0.49% of expenses in 2012 and 0.44% of expenses in 2013. The Applicant has not been able to reach the 0.4% requirement since 2013, in spite of its public outreach efforts. Specifically, its percentage of expenses in 2014-2016 was 0.18%, 0.08% and 0.2% respectively. The Applicant believes that the ACA's expansion of insurance coverage has contributed to its inability to achieve the charity care requirement in those years. The U.S. Census Bureau reports that Maryland's uninsured rate dropped from 10.2% to 7.9% between 2013 and 2014. An August, 2015 Gallup Poll found that Maryland's uninsured rate fell from 12.9% in 2013 to 7.0% in the first half of 2015. Attached as **Exhibit 18** are letters documenting the Applicant's outreach with referral sources While it has not achieved charity care revenue of 0.4% of expenses since 2013, the Applicant notes that, as described in detail above in response to 10.24.16.08 E(4) (Charity Care and Sliding Fee Scale), the Applicant had a better track record in providing charity care than the overall average of other HHAs serving the same counties. Lastly, in preparing this response, the Applicant attempted to locate documentation that it filed an annual report each year with the Commission regarding its provision of charity care under the Talbot County CON as required. The Applicant has located its annual reports for 2012 and 2013, but has been unable to locate documentation of the reports for the years 2014, 2015 and 2016. (The Applicant did complete the Commission's annual home health survey for each of those years,

which includes certain information on its provision of charity care.) The Applicant is in the process of attempting to locate such annual filings in the Commission's files.

10.24.01.08G(3)(f). The "Impact on Existing Providers" Review Criterion.

An applicant shall provide information and analysis with respect to the impact of the proposed project on existing health care providers in the health planning region, including the impact on geographic and demographic access to services, on occupancy, on costs and charges of other providers, and on costs to the health care delivery system.

INSTRUCTIONS: Please provide an analysis of the impact of the proposed project. Please assure that all sources of information used in the impact analysis are identified and identify all the assumptions made in the impact analysis with respect to demand for services, payer mix, access to service and cost to the health care delivery system including relevant populations considered in the analysis, and changes in market share, with information that supports the validity of these assumptions. Provide an analysis of the following impacts:

a) On the volume of service provided by all other existing health care providers that are likely to experience some impact as a result of this project;

b) On the payer mix of all other existing health care providers that are likely to experience some impact on payer mix as a result of this project. If an applicant for a new nursing home claims no impact on payer mix, the applicant must identify the likely source of any expected increase in patients by payer.

c) On access to health care services for the service area population that will be served by the project. (State and support the assumptions used in this analysis of the impact on access);

d) On costs to the health care delivery system.

If the applicant is an existing provider, submit a summary description of the impact of the proposed project on the applicant's costs and charges, consistent with the information provided in the Project Budget, the projections of revenues and expenses, and the work force information.

Applicant Response:

a) The approach to regulating the development of new or expanded HHAs in the State Health Plan is premised on providing consumers with "meaningful choices for obtaining high quality services in which one HHA or a small number of HHAs do not command overwhelming dominance." COMAR 10.24.16.03B The State Health Plan sets "a benchmark of sufficient consumer choice as the availability of at least three high performing agencies in each jurisdiction", finding that "consumers benefit from additional competition because "quality and performance scores improve over time in more competitive markets." COMAR 10.24.16.03B This approach to regulation not only recognizes that creating development and expansion opportunities in a jurisdiction may cause some amount of volume to shift, but has as its goal to eliminate "overwhelming dominance" by a small number of HHAs. The State Health Plan further recognizes that "since the delivery of home health agency services does not require a resource base of buildings or equipment, agencies have great flexibility in expanding or contracting their service capacity and production expenses to fit the level of demand they are

experiencing." Accordingly, volume shifts in the HHA market do not raise the concerns that are raised for health care facilities with a large level of fixed costs.

According to the Commission's Public Use Data Set, there were 33,557 visits in Caroline, Kent and Queen Anne's Counties in 2014. These visits were provide by 2 HHAs in Caroline County, 2 HHAs in Kent County and 6 HHAs in Queen Anne's County (two of which served less than 10 clients each). The Applicant projects a total of 382 clients and 9,985 total visits in Caroline, Kent and Queen Anne's Counties in its fourth year (the first year of projected full utilization). This projected full utilization is modest and, while it would not be inconsistent with the purpose of opening up these counties to additional competition from high quality HHA providers, it is not expected to have a material adverse impact on any existing HHAs. Only one HHA served all three counties sought to be served by the Applicant in 2014 (Shore Health), and it serves two additional counties. All of the others (except one) serve multiple counties as well in addition to the Upper Eastern Shore counties served. Table 24 shows the total number of clients and visits provided by the existing HHAs in these three counties across all of their authorized jurisdictions in 2014 and in the subject counties of Caroline, Kent and Queen Anne's.

Table 24
Existing HHAs Total Clients and Visits in 2014

Agency	Total Clients	Total Visits	% Clients in Subject Counties	% Visits in Subject Counties
Home Call (#7066)	2,200	54,563	19%	19%
Shore (#7139)	1,407	21,289	40%	39%
Chester River (#7142)	882	12,305	100%	100%
Gentiva (#7071)	3,564	86,254	2.5%	2.5%
Medstar (#7068)	9,181	119,102	0.05%	0.01%
Hopkins (#7131)	1,207	8,184	0.08%	0.14%

Accordingly, while Chester River derives all of its visits from two of the subject counties and Shore derives 40% from the three subject counties, the subject counties account for only a very small portion of the remaining HHAs volumes. As to Chester River and Shore, there is no reason to expect that the visits projected by the Applicant would take volume from them to any material degree. To the contrary, several factors strongly indicate that there will be significant organic growth in utilization in these counties such that there would be little or no impact on any existing HHA serving these counties. Specifically, as discussed above, the elderly population is projected to nearly double in size by 2030. Further, these counties underutilize home health services currently, and simply increasing utilization to the statewide average will increase volume. Further, home health utilization can be expected to increase with the Total Cost of Care model driving care to lower cost settings while maintaining quality, as well as with advances in technology allowing more care to be safely provided in the home setting.

As described above, the 33,557 total visits provided in all three counties in 2014 represented a

23% increase since 2010, a five year period. Simply carrying forward that same growth rate would result in an additional 7,700 visits (41,238 total visits) in 2019 in Caroline, Kent and Queen Anne's Counties, and an additional 9,500 visits (50,722 total visits) in just those counties in 2024, when the Applicant will be at full utilization.

Accordingly, the clients and visits that the Applicant projects for these three counties will not have an adverse impact on any of the existing HHAs across their entire footprints.

Further, because quality and performance scores improve over time in more competitive markets, the additional competition this project would represent can benefit existing HHAs by incentivizing better performance and quality.

b) No impact on payer mix of other home health agencies is expected as a result of this project.

c) This project will positively impact access to home health care services by increasing the number of "meaningful choices for obtaining high quality services" available to home health care consumers in the Upper Eastern Shore. The Applicant has a proven track record with exceptional quality of patient care scores and patient experience of care scores under HHCAHPS, as reflected in CMS's Home Health Compare website. The Applicant currently has combined ratings for quality of patient care and HHCAHPS of 4.5 stars and 4.0 stars respectively. As noted in COMAR 10.24.16.03C, competition amongst HHAs benefits consumers because research indicates that quality and performance scores improve over time in more competitive markets.

d) The project will have a positive impact on costs to the health care delivery system. Home health care is a lower cost alternative to facility-settings including skilled nursing facilities (SNFs), and hospital emergency departments (EDs). As described in the Need section above, the Upper Eastern Shore (Kent and Queen Anne's Counties in particular) currently underutilizes home health care services in comparison to the State as a whole, even with a growing 65+ population. The Applicant, through its marketing team, will educate the community as well as health care facilities and health care providers, about home health care as a cost effective level of care and alternative to higher cost settings in order to increase home health utilization and ultimately decrease the cost of health care for Upper Eastern Shore residents.

No impact on the Applicant's charges is expected. The impact on the Applicant's costs are shown in Table 3.

PART III - APPLICANT HISTORY, STATEMENT OF RESPONSIBILITY, AUTHORIZATION AND SIGNATURE

1. List the name and address of each owner or other person responsible for the proposed project and its implementation. If the applicant is not a natural person, provide the date the entity was formed, the business address of the entity, the identity and percentage of ownership of all persons having an ownership interest in the entity, and the identification of all entities owned or controlled by each such person.

Applicant Response:

Amedisys Maryland, LLC will be the owner of the project and the entity responsible for its implementation. The principal office of Amedisys Maryland, LLC is Suite 109, 811 Cromwell Park Drive, Glen Burnie MD 21061-3538. Amedisys Maryland, LLC was formed under the laws of the State of Maryland on January 1, 2005. Amedisys Maryland, LLC is 100% owned by Amedisys Holding, LLC, which is 100% owned by Amedisys, Inc. A corporate organizational chart is attached as **Exhibit 1**.

The individual who will be responsible for the implementation of the project is:

Geoffrey L. Abraskin, PT, DPT, CWS
Vice President of Operations
Northeast South Region (MD, DE, DC, VA, KY, IN, PA, WV)
Amedisys Home Health and Hospice Services
3603 Southside Ave.
Phoenix, MD 21131
(855) 214-2989
Geoffrey.abraskin@amedisys.com

2. Is the applicant, or any person listed above now involved, or ever been involved, in the ownership, development, or management of another health care facility or program? If yes, provide a listing of each facility or program, including facility name, address, and dates of involvement.

Applicant Response:

The health care facilities owned and operated by Amedisys Maryland, LLC in Maryland are listed in **Exhibit 2**.

Additionally, please refer to **Exhibit 19** for a list of all the health care facilities in the Amedisys, Inc. corporate family.

3. Has the Maryland license or certification of the applicant home health agency, or any of the facilities or programs listed in response to Questions 1 and 2, above, ever been suspended or revoked, or been subject to any disciplinary action (such as a ban on admissions) in the last 5 years? If yes, provide a written explanation of the circumstances, including the date(s) of the actions and the disposition. If the applicant,

owner or other person responsible for implementation of the Project was not involved with the facility or program at the time a suspension, revocation, or disciplinary action took place, indicate in the explanation.

Applicant Response:

No.

4. Is any facility or program with which the applicant is involved, or has any facility or program with which the applicant or other person or entity listed in Questions 1 & 2, above, ever been found out of compliance with Maryland or Federal legal requirements for the provision of, payment for, or quality of health care services (other than the licensure or certification actions described in the response to Question 3, above) which have led to an action to suspend, revoke or limit the licensure or certification at any facility or program. If yes, provide copies of the findings of non-compliance including, if applicable, reports of non-compliance, responses of the facility or program, and any final disposition reached by the applicable governmental authority.

Applicant Response:

Like virtually all health care facilities, these facilities have received findings as part of regular licensure and certification surveys, but none that have led to the suspension or revocation of licensure or certification. Additionally, please refer to **Exhibit 20** for a description of certain legal matters involving Amedisys, Inc. (the Applicant's ultimate parent company). Although these matters are not believed to be responsive to this question, the Applicant is disclosing them for the Commission's information.

5. Has the applicant, or other person listed in response to Question 1, above, ever pled guilty to or been convicted of a criminal offense connected in any way with the ownership, development or management of the applicant facility or program or any health care facility or program listed in response to Question 1 & 2, above? If yes, provide a written explanation of the circumstances, including the date(s) of conviction(s) or guilty plea(s).

Applicant Response:

No.

One or more persons shall be officially authorized in writing by the applicant to sign for and act for the applicant for the project which is the subject of this application. Copies of this authorization shall be attached to the application. The undersigned is the owner(s), or authorized agent of the applicant for the proposed home health agency service.

Applicant Response:

Please refer to **Exhibit 21** for this authorization.

I hereby declare and affirm under the penalties of perjury that the facts stated in this application and its attachments are true and correct to the best of my knowledge, information and belief.

EXHIBIT 3

DESCRIPTION OF AMEDISYS CARE TRANSITIONS PROGRAM

Amedisys places Care Transitions Coordinators (CTCs) in acute care facilities, Senior Living Communities, and physician practices who work to ensure patients transition safely home from their prior care setting. The initial few days post-discharge are the most vulnerable for patients, particularly for the frail elderly. To guard against adverse events related to care fragmentation, the CTC becomes the patient's "touch point" for any issues between the time of discharge and the time when our nurse visits the patient's home. Once the initial connection with the patient and caregiver is made, the CTC utilizes an Amedisys proprietary tool, the *Bridge to Healthy Living* guide, to begin the process of early engagement, education and coaching. This bound notebook is personalized for each patient, with the CTC's name and 24-hour phone contact information.

The CTC identifies the patient's diagnoses, as well as social and/or economic barriers that may affect the patient's outcomes. These diagnoses are written in the tool along with a list of the patient's medications, describing what each is for and the exact dosage and instructions for each drug. Coaching focuses on the diagnoses and patient capabilities, discussing diet and lifestyle needs, as well as "red flags" about each condition.

Physician and caregiver engagement in the process of transitions is critical to reducing avoidable re-hospitalizations. Unlike prior attempts to systematically manage chronically ill patients, this health care at home, care transitions initiative is a relationship-based care delivery model, which elevates the roles of the family and informal caregivers as well as the patient.

This relationship is possible because of the clinical coordination provided by the Care Transitions Coordinator who serves as the funnel for information sharing among all providers engaged with the specific patient.

At the time of hospital discharge the care transitions initiative directs the CTC to arrange the patient's appointment with the primary care physician. The date and time for the patient's first home nursing visit would also be arranged and recorded, allowing the patient and caregiver to know exactly when to expect that visit.

On the first home nursing visit, typically carried out within 24 hours of hospital discharge, the nurse reviews the *Bridge to Healthy Living* tool and uses it to guide care in partnership with the patient, enhancing adherence to the care plan.

As part of the initial home nursing visit, an environmental assessment is completed, observing for hazards that could increase the risk for falls or other injury. Medications are reviewed and checked against the list from the hospital discharge. The home care nurse would then ask about any other medications that might be in the cabinet or the refrigerator that the patient might be taking.

At each subsequent visit, the nurse will review that medication list and adjust if physicians have changed any medication. If there has been a change, this is communicated by the Amedisys care team to all physicians caring for the patient. The home care nurse will then reinforce coaching on medications, red flags and dietary or lifestyle issues that was begun by the CTC in the hospital.

EXHIBIT 4

Comprehensive Health Care at Home.

We offer several evidence-based clinical programs that include skilled medical services, supportive services for the patient and their caregivers, and education on self-management skills.

Balanced for Life® – Falls are one of the greatest risks to people age 60 years plus. The Amedisys® Balanced for Life program is designed to provide balance training, environmental assessments for risk factors and several advanced medical assessments to help reduce the need for emergency care due to falls.

Chronic Kidney Disease @ Home – Millions of Americans have chronic kidney disease (CKD) and are not aware of it. Our Chronic Kidney Disease @ Home program provides early assessment, intervention and education on risk factors including management of high blood pressure, which is often present with CKD, diet and medication management.

COPD @ Home – This program has been carefully designed to help improve the quality of life for patients living with COPD. Our skilled home care clinicians can help with oxygen therapy, medication management and monitoring of vitals, all essential to managing COPD effectively.

Diabetes @ Home – Our Diabetes @ Home program is designed to support patients with Type 1 and Type 2 diabetes and has been recognized for excellence by the American Diabetes Association.™ Our goal is to help prevent diabetes related complications such as blindness and heart disease. Our skilled nurses help monitor and record glucose levels, advise on diet and exercise as well as help you manage insulin injections and other medications.

Empowered for Life® – Patients with psychiatric conditions have special needs. Frequently, psychiatric illness exists in tandem with physical illness requiring nursing care that is specific to both conditions. Our Empowered for Life program supports patients under psychiatric care including Alzheimer's and depression. Amedisys can provide skilled assessments of a patient's condition, administer injectable medications, provide crisis interventions and individual or family counseling.

Heart @ Home – Long-term complications from heart disease can be prevented if the patient is willing to make healthier lifestyle choices and adhere to their physician's guidance. Amedisys Home Health Care can support patients with congestive heart failure, hypertension, coronary artery disease and other heart conditions in the comfort of home. Detailed assessment and education are provided on management of medication, symptoms, mobility and other aspects of care.

Orthopedic Recovery @ Home – A combination of skilled nursing care and therapeutic rehabilitation in the home creates an excellent environment for recovery after an orthopedic surgery or injury. Our clinicians are skilled in the care of joint replacements, orthopedic injuries, and complex orthopedic disease patients. Our goal is to assist the patient in reaching the highest possible level of independence in the comfort of their home.

Pain Management @ Home – Common types of chronic pain include back pain, headaches, arthritis, cancer pain and pain resulting from injury to nerves. Pain can diminish the ability to concentrate, work, exercise, socialize and sleep, which can lead to depression, a sense of isolation and loss of self-esteem. Amedisys can help manage pain and help patients have a greater quality of life by empowering them through education and techniques.

Rehab Therapy @ Home – Amedisys has comprehensive rehabilitation therapy services including physical therapy, occupational therapy and speech therapy. Our goal is to help our patients improve their strength, mobility, balance and swallowing so they can function safely. Our rehabilitation care is often prescribed for patients with diabetes, osteoporosis, arthritis, post-operative care for hip and knee surgeries as well as other chronic conditions.

Stroke Recovery @ Home – Our stroke program focuses on rehabilitation from a stroke, managing stroke related disorders such as weakness, paralysis or dysphagia (difficulty in swallowing). Amedisys has caring clinicians who can help patients manage pain, bladder issues, depression and stress, impaired judgment, balance and coordination and memory issues. We also coach the patient and their caregivers to recognize early warning signs for stroke and how to help prevent future strokes.

Surgical Recovery @ Home – Amedisys takes a multidisciplinary approach to recovering from surgery at home. Patients can recover at home with the reassurance that their post operative care needs are being met by highly professional and skilled nurses and therapists in accordance with their physicians plan of care.

Partners in Wound Care® – Sometimes it takes more than cleansing and dressing a wound for it to heal. Wound care is frequently complicated by multiple disease conditions, making it even more significant that Amedisys implements the most current evidence-based practices, incorporates the most current techniques and uses the most advanced products to improve healing.

Dear Administrator:

Re: CMS Certification Number: **217111**

This is to acknowledge the change of ownership that was effective **October 1, 2008** for Amedisys Home Health of Salisbury. In confirmation of the change of ownership, we enclose a fully executed Health Insurance Benefit Agreement (CMS-1561) for this Maryland HHA.

You should use the CCN shown above on all Medicare claims and correspondence. Under the Agreement, payments will continue to be made for covered services unless evidence is received that indicates that the HHA does not comply with the requirements of participation.

The fiscal intermediary/ Medicare Administrative Contractor (MAC) remains CAHABA GBA (MAC J10). Please contact your FI/MAC regarding your final cost report.

The Office for Civil Rights (OCR) will be contacting you to determine the HHA's compliance with civil rights requirements. (Note that refusal to submit additional information that OCR requests from the HHA would be a basis for terminating the HHA's Medicare agreement)..

Should there be any questions, please get in touch with Stuart Cogan of our staff at (215) 861-4734.

Sincerely,

Timothy J. Hock, Manager
Certification & Enforcement Branch

OMB No. 0938-0832

HEALTH INSURANCE BENEFIT AGREEMENT

(Agreement with Provider Pursuant to Section 1866 of the Social Security Act, as Amended and Title 42 Code of Federal Regulations (CFR) Chapter IV, Part 489)

AGREEMENT

between

THE SECRETARY OF HEALTH AND HUMAN SERVICES

and

Amedisys Maryland, L.L.C.

doing business as (D/B/A) *Amedisys Home Health of Salisbury*

In order to receive payment under title XVIII of the Social Security Act, *Amedisys Maryland, L.L.C.* D/B/A *Amedisys Home Health of Salisbury* as the provider of services, agrees to conform to the provisions of section of 1866 of the Social Security Act and applicable provisions in 42 CFR.

This agreement, upon submission by the provider of services of acceptable assurance of compliance with title VI of the Civil Rights Act of 1964, section 504 of the Rehabilitation Act of 1973 as amended, and upon acceptance by the Secretary of Health and Human Services, shall be binding on the provider of services and the Secretary.

In the event of a transfer of ownership, this agreement is automatically assigned to the new owner subject to the conditions specified in this agreement and 42 CFR 489, to include existing plans of correction and the duration of this agreement, if the agreement is time limited.

ATTENTION: Read the following provision of Federal law carefully before signing.

Whoever, in any matter within the jurisdiction of any department or agency of the United States knowingly and willfully falsifies, conceals or covers up by any trick, scheme or device a material fact, or makes any false, fictitious or fraudulent statement or representation, or makes or uses any false writing or document knowing the same to contain any false, fictitious or fraudulent statement or entry, shall be fined not more than $10,000 or imprisoned not more than 5 years or both (18 U.S.C. section 1001).

Dear Administrator:

RECEIVED 12/19/2011

Re: CMS Certification Number: 217111
Branch office Identification Number: 21Q7111001

Your request to add a branch office located at 204 Cedar Street, Suite 102A, Cambridge, MD 21613 to your Medicare certification has been approved effective November 1, 2011. That branch office has been assigned the identification number shown above.

Your fiscal intermediary (FI)/Medicare Administrative Contractor (MAC) has been notified of this action. You are reminded that in order to approve a branch office, CMS must receive recommendations for approval from both your State survey agency and your FI//MAC (855 approval). You should contact both of those entities whenever you open, close, or relocate a branch office.

If you have any questions regarding this letter, please call Bernae Hinnant at (215) 861-4286.

Sincerely,

Pat McNeal

PTAN: 21-7111A

Dear Ms. Price:

We have processed your application to revalidate your Medicare enrollment information. Listed below is the information reflected in your Medicare enrollment record.

Provider Legal Business Name	Amedisys Maryland, LLC
Provider "Doing Business As" Name	Amedisys Home Health
Provider Transaction Access Number (PTAN)	21-7111A
National Provider Identifier (NPI)	1811982069
Main Practice Location Address	6512 Deer Point Drive, Ste B Salisbury, MD 21804-1669
HHA Branch	204 Cedar Street, Suite 102A Cambridge, MD 21613-2312
Correspondence Address	6512 Deer Point Drive, Ste B Salisbury, MD 21804-1669
Special Payments Address	5959 South Sherwood Forest Boulevard Baton Rouge, LA 70816-6038
Authorized Official(s)	William Borne
Delegated Official(s)	Paula Vinson Monica Guidroz Patience McGee

Please verify the accuracy of your enrollment information. If changes are necessary or you have any questions, please contact the appropriate number below based on your provider type.

Home Health Agency: (877) 299-4500; Hospice: (866) 539-5592

To maintain an active enrollment status in the Medicare program, regulations found at 42 CFR §424.516 require that you submit updates and changes to your enrollment information in accordance with specified timeframes. Reportable changes include, but are not limited to changes in: (1) legal business name (LBN)/tax identification number (TIN), (2) practice location, (3) ownership, (4) authorized/delegated officials, (5) changes in payment information such as changes in electronic funds transfer information, and (6) final adverse legal actions, including felony convictions, license suspensions or revocations of a health care license, an exclusion or debarment from participation in Federal or State health care program, or a Medicare revocation by a different Medicare contractor.

Providers and suppliers may enroll or make changes to their existing enrollment in the Medicare program using the Internet-based Provider Enrollment, Chain and Organization System (PECOS). To apply via the Internet-based PECOS or to download the CMS-855 enrollment applications, go to http://www.cms.hhs.gov/MedicareProviderSupEnroll.

RE: Change of Information Enrollment Application (CMS-855A)
PTAN: 21-7111A

Dear Ms. Price:

We are pleased to inform you that your change of information request is approved. Listed below is the new and/or updated information reflected in your Medicare enrollment record.

HHA Branch practice location address effective May 1, 2013 (Suite # change only)	204 Cedar Street, Suite 101 Cambridge, MD 21613-2312

Please verify the accuracy of your enrollment information.

You are required to submit updates and changes to your enrollment information in accordance with specified timeframes pursuant to 42 CFR §424.516. Reportable changes include, but are not limited to, changes in: (1) legal business name (LBN)/tax identification number (TIN), (2) practice location, (3) ownership, (4) authorized/delegated officials, (5) changes in payment information such as electronic funds transfer information and (6) final adverse legal actions, including felony convictions, license suspensions or revocations, an exclusion or debarment from participation in Federal or State health care program, or a Medicare revocation by a different Medicare contractor.

Providers and suppliers may enroll or make changes to their existing enrollment in the Medicare program using the Internet-based Provider Enrollment, Chain and Organization System (PECOS). Go to: www.cms.hhs.gov/MedicareProviderSupEnroll.

Providers and suppliers enrolled in Medicare are required to ensure strict compliance with Medicare regulations, including payment policy and coverage guidelines. CMS conducts numerous types of compliance reviews to ensure providers and suppliers are meeting this obligation. Please visit the Medicare Learning Network at http://www.cms.gov/Outreach-and-Education/Medicare-Learning-Network-MLN/MLNProducts/index.html for further information about regulations and compliance reviews, as well as Continuing Medical Education (CME) courses for qualified providers.

Additional information about the Medicare program, including billing, fee schedules, and Medicare polices and regulations can be found at our Web site at http://cgsmedicare.com/index.html or the Centers for Medicare & Medicaid Services (CMS) Web site at http://www.cms.hhs.gov/home/medicare.asp.

Policy: FM-008-A	Date(s) Revised:	05/18
Subject: ***Maryland Charity Care and Discounted Fee Care – Availability, Eligibility and Eligibility Determination Process; Time Payment Plan***		
Applicable Service(s): Home Health (Maryland only)	**Page:**	Page 1 of 3

PURPOSE:

- To ensure access to home health agency services regardless of an individual's ability to pay and provide home health agency services on a charitable basis to eligible indigent and low income persons.
- To provide guidelines to determine a patient's eligibility for charity care and discounted fee care.
- To establish a framework in which requests for charity care and discounted fee care are considered and mechanisms for approval of such services.

SCOPE:

- This Policy applies to Amedisys home health agencies operating in the State of Maryland, and constitutes the exclusive Policy governing the availability of and eligibility for charity care and discounted fee care by such agencies, and the process followed by Amedisys to determine eligibility.
- This Policy also exclusively governs the Time Payment Plan for Amedisys home health agencies operating in the State of Maryland.

DEFINITIONS:

- "Charity care" means care for which there is no means of payment by the patient or any third party payer and which is provided at no charge to the patient.
- "Discounted fee care" means care provided to patients of limited means who do not qualify for charity care but who are unable to bear the full cost of services, and which is provided at a discounted fee in accordance with this Policy.

ELIGIBILITY:

- Charity care is provided for patients at or below 125% or of the Federal Poverty Guidelines for his/her family size.
- Discounted fee care is provided for patients above 125% up to 400% of the Federal Poverty Guidelines for his/her family size in accordance with the following Sliding Fee Scale:

Poverty Level (at or below)	% Discount
125%	100%
150%	90%
175%	80%
200%	70%
225%	60%
250%	50%
275%	40%
300%	30%
325%	20%
350%	10%
375%	5%
400%	5%

- Insured patients who meet the income criteria above are eligible for charity care or discounted fee care for services rendered in excess of (or excluded from) defined benefits under their insurance coverage.

ELIGIBILITY DETERMINATION PROCEDURE:

- When a patient or patient's representative requests charity care and/or discounted fee care, Medical Assistance, or both, the following two-step process will be followed by Amedisys:

- *STEP ONE – DETERMINATION OF PROBABLE ELIGIBILITY*
  - Within two business days following a patient's initial request for charity care and/or discounted fee care, application for Medical Assistance, or both, Amedisys will (1) make a determination of probable eligibility for Medical Assistance, charity care and/or discounted fee care, or both, and (2) communicate the determination to the patient and/or patient's representative.
  - In order to make the determination of probable eligibility, an Amedisys social worker will conduct an interview with the patient and/or patient's representative. The interview will cover family size, insurance, and income. The determination of probable eligibility will be made based on the information provided in the interview. No application form, verification or documentation of eligibility will be requested or required for the determination of probable eligibility to be made.
- *STEP TWO – FINAL DETERMINATION OF ELIGIBILITY*
  - The final determination of eligibility for charity care or discounted fee care will be based on a completed income verification form and supporting documentation of eligibility.
  - The patient or patient's representative will be requested to attest to available income and family size and to document the patient's income by the best available information in his/her possession, such as W-2 form, pay stub, tax return, Medicaid card, or other similar documentation of income level.
  - If documentation to verify income is not available, the Director of Operations is authorized to make a determination that the patient is eligible for charity care or discounted fee care based on the totality of the patient's circumstances.
  - If the patient is eligible for Medical Assistance and has not already applied, the patient will be requested to apply for coverage under this program. Eligibility for charity care or discounted fee care will be provisionally granted pending approval of the application for Medical Assistance.
  - A patient and/or patient's representative are required to cooperate fully with Amedisys in obtaining the information to make a final determination of eligibility for charity care or discounted fee care under this policy.

TIME PAYMENT PLAN:

- A patient who qualifies for discounted fee care under this policy may request to pay billed charges over time. Amedisys requests a minimum of $25 per month with the balance being resolved within 1 year from start-of-care.

INTERNAL ACCOUNTING AND RECORDKEEPING (INTERNAL USE ONLY):

- The care center Director of Operations may prospectively approve charity care or discounted fee care up to $1,000.
- Approval from the corporate office or the Senior Vice-President of Operations, or her designee, should be obtained if the amount of charity care or discounted fee care services for a patient exceeds $5,000.
- A log of pre-approved charity care and discounted fee care patients and amount of charges for discounted services to such patients shall be maintained.
- Indigent or charity patients are set up in HCHB with the payer code of Private, INDIGENT/Charity. HCHB will automatically mark any visits as non-billable.
- Separate accounts should be maintained for charity care and discounted fee care patients and a patient should not be included in one of these accounts and also in a bad debt accounting category. A patient whose accounts have been placed in a bad debt category or other accounting classification may have his or her charges moved to a charity account if his income

level is determined to qualify for such status at any time prior to legal action being taken against such person; provided, however, that accounts moved from bad debt to charity shall not be reported as charity care in data reporting to the Maryland Health Care Commission.

- Where Amedisys has made a minimum charity care commitment in connection with a certificate of need, charity care provided by the agency should be credited to the various, respective commitments and reported to the Maryland Health Care Commission as required.

INCOME DOCUMENTATION VERIFICATION

I, _____ [Patient name] provide the following information in support of my request for charity care and/or discounted fee care for home health care services rendered to me by Amedisys Home Health. The information I provide will be maintained in the strictest confidence by Amedisys and will be utilized by Amedisys solely to (1) make a final determination of my eligibility for charity care and/or discounted fee care for home health care services rendered to me, and (2) compile aggregated, non-personally identifiable reports to States requiring this information.

_____ _____

Amedisys Social Worker Date

INCOME DOCUMENTATION ATTESTATION

Where circumstances prevent Amedisys from securing detailed information concerning the income and family size of a particular patient in order to make a final determination of eligibility for charity care or discounted fee care, a Director of Operations is permitted to make a final determination that a patient is eligible for charity care or discounted fee care based on the totality of the patient's circumstances reflecting income at or below the eligibility guidelines under Policy FM-008A (Availability of Charity Care and Discounted Fee Care, Eligibility and Eligibility Determination Process; Time Payment Plan) that applies in the State of Maryland.

AGENCY LOCATION: _____

PATIENT ID#: _____

I hereby attest and certify that I have made a reasonable inquiry into the financial situation, including the annual income and family size, of the foregoing patient with respect to the patient's eligibility for charity care and/or discounted fee care as set forth in Policy FM-008A (Availability of Charity Care and Discounted Fee Care, Eligibility and Eligibility Determination Process; Time Payment Plan) that applies in the State of Maryland. I am satisfied that the patient is eligible for charity care and/or discounted fee care under such policy.

_____ _____

Director of Operations Date

Policy: FM-008-A	**Date(s) Revised:**	05/18
Subject: ***Maryland Charity Care and Discounted Fee Care – Availability, Eligibility and Eligibility Determination Process; Time Payment Plan***		
Applicable Service(s): Home Health (Maryland only)	**Page:**	Page 1 of 3

PURPOSE:

- To ensure access to home health agency services regardless of an individual's ability to pay and provide home health agency services on a charitable basis to eligible indigent and low income persons.
- To provide guidelines to determine a patient's eligibility for charity care and discounted fee care.
- To establish a framework in which requests for charity care and discounted fee care are considered and mechanisms for approval of such services.

SCOPE:

- This Policy applies to Amedisys home health agencies operating in the State of Maryland, and constitutes the exclusive Policy governing the availability of and eligibility for charity care and discounted fee care by such agencies, and the process followed by Amedisys to determine eligibility.
- This Policy also exclusively governs the Time Payment Plan for Amedisys home health agencies operating in the State of Maryland.

Commented [HMD1]: This policy is the exclusive charity care policy that governs Amedisys home health agencies operating in Maryland, including the Applicant.

DEFINITIONS:

- "Charity care" means care for which there is no means of payment by the patient or any third party payer and which is provided at no charge to the patient.
- "Discounted fee care" means care provided to patients of limited means who do not qualify for charity care but who are unable to bear the full cost of services, and which is provided at a discounted fee in accordance with this Policy.

Commented [HMD2]: Defines terms consistent with State Health Plan terminology

ELIGIBILITY:

- Charity care is provided for patients at or below 125% or of the Federal Poverty Guidelines for his/her family size.
- Discounted fee care is provided for patients above 125% up to 400% of the Federal Poverty Guidelines for his/her family size in accordance with the following Sliding Fee Scale:

Commented [HMD3]: Eligibility guidelines for charity care and discounted fee care.

Poverty Level (at or below)	% Discount
125%	100%
150%	90%
175%	80%
200%	70%
225%	60%
250%	50%
275%	40%
300%	30%
325%	20%
350%	10%
375%	5%
400%	5%

Commented [HMD4]: Sliding fee scale parameters.

- Insured patients who meet the income criteria above are eligible for charity care or discounted fee care for services rendered in excess of (or excluded from) defined benefits under their insurance coverage.

ELIGIBILITY DETERMINATION PROCEDURE:

- When a patient or patient's representative requests charity care and/or discounted fee care, Medical Assistance, or both, the following two-step process will be followed by Amedisys:

Commented [HMD5]: This section provides for a two step process in which a determination of probable eligibility(Step One) is made within two business days following a request, based only on the interview with the patient/patient family and no documentation will be requested or required. The second step (the final determination) involves documentation to verify income.

- ***STEP ONE – DETERMINATION OF PROBABLE ELIGIBILITY***
  - Within two business days following a patient's initial request for charity care and/or discounted fee care, application for Medical Assistance, or both, Amedisys will (1) make a determination of probable eligibility for Medical Assistance, charity care and/or discounted fee care, or both, and (2) communicate the determination to the patient and/or patient's representative.
  - In order to make the determination of probable eligibility, an Amedisys social worker will conduct an interview with the patient and/or patient's representative. The interview will cover family size, insurance, and income. The determination of probable eligibility will be made based on the information provided in the interview. No application form, verification or documentation of eligibility will be requested or required for the determination of probable eligibility to be made.
- ***STEP TWO – FINAL DETERMINATION OF ELIGIBILITY***
  - The final determination of eligibility for charity care or discounted fee care will be based on a completed income verification form and supporting documentation of eligibility.
  - The patient or patient's representative will be requested to attest to available income and family size and to document the patient's income by the best available information in his/her possession, such as W-2 form, pay stub, tax return, Medicaid card, or other similar documentation of income level.
  - If documentation to verify income is not available, the Director of Operations is authorized to make a determination that the patient is eligible for charity care or discounted fee care based on the totality of the patient's circumstances.
  - If the patient is eligible for Medical Assistance and has not already applied, the patient will be requested to apply for coverage under this program. Eligibility for charity care or discounted fee care will be provisionally granted pending approval of the application for Medical Assistance.
  - A patient and/or patient's representative are required to cooperate fully with Amedisys in obtaining the information to make a final determination of eligibility for charity care or discounted fee care under this policy.

Commented [HMD6]: Requires determination of probable eligibility (Step One) to be made in two business days following the request.

Commented [HMD7]: Determination of probable eligibility to be based solely on interview; no documentation of income requested or required.

Commented [HMD8]: Final determination (Step Two) involves documentation of income.

Commented [HMD9]: If no documentation is available, the Director of Operations is authorized to determine the patient is eligible based on totality of the patient's circumstances.

TIME PAYMENT PLAN:

- A patient who qualifies for discounted fee care under this policy may request to pay billed charges over time. Amedisys requests a minimum of $25 per month with the balance being resolved within 1 year from start-of-care.

Commented [HMD10]: Patients eligible for discounted fee care can request a time payment plan as described.

INTERNAL ACCOUNTING AND RECORDKEEPING (INTERNAL USE ONLY):

- The care center Director of Operations may prospectively approve charity care or discounted fee care up to $1,000.
- Approval from the corporate office or the Senior Vice-President of Operations, or her designee, should be obtained if the amount of charity care or discounted fee care services for a patient exceeds $5,000.
- A log of pre-approved charity care and discounted fee care patients and amount of charges for discounted services to such patients shall be maintained.
- Indigent or charity patients are set up in HCHB with the payer code of Private. INDIGENT/Charity. HCHB will automatically mark any visits as non-billable.
- Separate accounts should be maintained for charity care and discounted fee care patients and a patient should not be included in one of these accounts and also in a bad debt accounting category. A patient whose accounts have been placed in a bad debt category or other accounting classification may have his or her charges moved to a charity account if his income

level is determined to qualify for such status at any time prior to legal action being taken against such person; provided, however, that accounts moved from bad debt to charity shall not be reported as charity care in data reporting to the Maryland Health Care Commission.

- Where Amedisys has made a minimum charity care commitment in connection with a certificate of need, charity care provided by the agency should be credited to the various, respective commitments and reported to the Maryland Health Care Commission as required.

EXHIBIT 8

[AMEDISYS HOME HEALTH LOGO]

PUBLIC DISCLOSURE OF THE AVAILABILITY OF CHARITY CARE, DISCOUNTED FEE CARE AND TIME PAYMENT PLAN

Amedisys Home Health provides home health care to residents of Caroline, Dorchester, Kent, Queen Anne's, Somerset, Talbot, Wicomico and Worcester Counties. Amedisys Home Health is committed to providing accessible home health care to the communities it serves. Home health care is available to all patients regardless of their race, color, national origin, gender or ability to pay. Amedisys Home Health provides charity care at no cost to patients for whom there is no means of payment by the patient or a third party payer (such as an insurer), and is available to a patient whose income is at or below 125% of the Federal Poverty Guidelines for the patient's family size. Amedisys Home Health provides discounted fee care to patients of limited means who are not eligible for charity care, but are unable to pay the full cost of home health care, and is available to a patient whose income is above 125% and up to 400% of the Federal Poverty Guidelines for the patient's family size. A sliding scale is used to determine the amount of the discount that the patient is eligible for based on the patient's income level within that range. Within two business days of a patient's initial request for charity care or discounted fee care, application for Medical Assistance, or both, Amedisys Home Health will make a determination of probable eligibility for Medical Assistance, charity care and/or discounted fee care, or both, and will communicate that determination to the patient. Following a determination of probable eligibility, Amedisys Home Health will make a final determination of eligibility for charity care and/or discounted fee care, which will be based on a completed income verification form and supporting documentation from the patient. Amedisys also offers a time payment plan for patients who are eligible for discounted fee care which allows them to pay their discounted charges over time. Please visit www.amedisys.com/userfiles/Charity Care And Other Financial Assistance.pdf to review Amedisys Home Health's charity care, discounted fee care and time payment plan Policy in full. If you have any questions, or to request a copy of the complete Policy, please contact your local care center. You can find a complete list of Amedisys Home Health local care centers in Maryland by visiting www.amedisys.com/locations/.

EXHIBIT 9

PUBLIC DISCLOSURE OF THE AVAILABILITY OF CHARITY CARE, DISCOUNTED FEE CARE AND TIME PAYMENT PLAN

Amedisys Home Health is committed to providing accessible home health care to the communities it serves. Home health care is available to all patients regardless of their race, color, national origin, gender or ability to pay. Amedisys Home Health provides charity care at no cost to patients for whom there is no means of payment by the patient or a third party payer (such as an insurer), and is available to a patient whose income is at or below 125% of the Federal Poverty Guidelines for the patient's family size. Amedisys Home Health provides discounted fee care to patients of limited means who are not eligible for charity care, but are unable to pay the full cost of home health care, and is available to a patient whose income is above 125% and up to 400% of the Federal Poverty Guidelines for the patient's family size. A sliding scale is used to determine the amount of the discount that the patient is eligible for based on the patient's income level within that range. Within two business days of a patient's initial request for charity care or discounted fee care, application for Medical Assistance, or both, Amedisys Home Health will make a determination of probable eligibility for Medical Assistance, charity care and/or discounted fee care, or both, and will communicate that determination to the patient. Following a determination of probable eligibility, Amedisys Home Health will make a final determination of eligibility for charity care and/or discounted fee care, which will be based on a completed income verification form and supporting documentation from the patient. Amedisys also offers a time payment plan for patients who are eligible for discounted fee care which allows them to pay their discounted charges over time.

For additional information, please refer to the complete Amedisys Home Health Policy governing "Maryland Charity Care and Discounted Fee Care -- Availability, Eligibility and Eligibility Determination Process; Time Payment Plan" which follows below, or you may also contact your local Amedisys Home Health Care Provider.

Policy: FM-008-A	Date(s) Revised:	05/18
Subject: ***Maryland Charity Care and Discounted Fee Care – Availability, Eligibility and Eligibility Determination Process; Time Payment Plan***		
Applicable Service(s): Home Health (Maryland only)	**Page:**	Page 1 of 3

PURPOSE:

- To ensure access to home health agency services regardless of an individual's ability to pay and provide home health agency services on a charitable basis to eligible indigent and low income persons.
- To provide guidelines to determine a patient's eligibility for charity care and discounted fee care.
- To establish a framework in which requests for charity care and discounted fee care are considered and mechanisms for approval of such services.

SCOPE:

- This Policy applies to Amedisys home health agencies operating in the State of Maryland, and constitutes the exclusive Policy governing the availability of and eligibility for charity care and discounted fee care by such agencies, and the process followed by Amedisys to determine eligibility.
- This Policy also exclusively governs the Time Payment Plan for Amedisys home health agencies operating in the State of Maryland.

DEFINITIONS:

- "Charity care" means care for which there is no means of payment by the patient or any third party payer and which is provided at no charge to the patient.
- "Discounted fee care" means care provided to patients of limited means who do not qualify for charity care but who are unable to bear the full cost of services, and which is provided at a discounted fee in accordance with this Policy.

ELIGIBILITY:

- Charity care is provided for patients at or below 125% or of the Federal Poverty Guidelines for his/her family size.
- Discounted fee care is provided for patients above 125% up to 400% of the Federal Poverty Guidelines for his/her family size in accordance with the following Sliding Fee Scale:

Poverty Level (at or below)	% Discount
125%	100%
150%	90%
175%	80%
200%	70%
225%	60%
250%	50%
275%	40%
300%	30%
325%	20%
350%	10%
375%	5%
400%	5%

- Insured patients who meet the income criteria above are eligible for charity care or discounted fee care for services rendered in excess of (or excluded from) defined benefits under their insurance coverage.

ELIGIBILITY DETERMINATION PROCEDURE:

- When a patient or patient's representative requests charity care and/or discounted fee care, Medical Assistance, or both, the following two-step process will be followed by Amedisys:

- ***STEP ONE – DETERMINATION OF PROBABLE ELIGIBILITY***
  - Within two business days following a patient's initial request for charity care and/or discounted fee care, application for Medical Assistance, or both, Amedisys will (1) make a determination of probable eligibility for Medical Assistance, charity care and/or discounted fee care, or both, and (2) communicate the determination to the patient and/or patient's representative.
  - In order to make the determination of probable eligibility, an Amedisys social worker will conduct an interview with the patient and/or patient's representative. The interview will cover family size, insurance, and income. The determination of probable eligibility will be made based on the information provided in the interview. No application form, verification or documentation of eligibility will be requested or required for the determination of probable eligibility to be made.
- ***STEP TWO – FINAL DETERMINATION OF ELIGIBILITY***
  - The final determination of eligibility for charity care or discounted fee care will be based on a completed income verification form and supporting documentation of eligibility.
  - The patient or patient's representative will be requested to attest to available income and family size and to document the patient's income by the best available information in his/her possession, such as W-2 form, pay stub, tax return, Medicaid card, or other similar documentation of income level.
  - If documentation to verify income is not available, the Director of Operations is authorized to make a determination that the patient is eligible for charity care or discounted fee care based on the totality of the patient's circumstances.
  - If the patient is eligible for Medical Assistance and has not already applied, the patient will be requested to apply for coverage under this program. Eligibility for charity care or discounted fee care will be provisionally granted pending approval of the application for Medical Assistance.
  - A patient and/or patient's representative are required to cooperate fully with Amedisys in obtaining the information to make a final determination of eligibility for charity care or discounted fee care under this policy.

TIME PAYMENT PLAN:

- A patient who qualifies for discounted fee care under this policy may request to pay billed charges over time. Amedisys requests a minimum of $25 per month with the balance being resolved within 1 year from start-of-care.

INTERNAL ACCOUNTING AND RECORDKEEPING (INTERNAL USE ONLY):

- The care center Director of Operations may prospectively approve charity care or discounted fee care up to $1,000.
- Approval from the corporate office or the Senior Vice-President of Operations, or her designee, should be obtained if the amount of charity care or discounted fee care services for a patient exceeds $5,000.
- A log of pre-approved charity care and discounted fee care patients and amount of charges for discounted services to such patients shall be maintained.
- Indigent or charity patients are set up in HCHB with the payer code of Private. INDIGENT/Charity. HCHB will automatically mark any visits as non-billable.
- Separate accounts should be maintained for charity care and discounted fee care patients and a patient should not be included in one of these accounts and also in a bad debt accounting category. A patient whose accounts have been placed in a bad debt category or other accounting classification may have his or her charges moved to a charity account if his income

level is determined to qualify for such status at any time prior to legal action being taken against such person; provided, however, that accounts moved from bad debt to charity shall not be reported as charity care in data reporting to the Maryland Health Care Commission.

- Where Amedisys has made a minimum charity care commitment in connection with a certificate of need, charity care provided by the agency should be credited to the various, respective commitments and reported to the Maryland Health Care Commission as required.

INCOME DOCUMENTATION VERIFICATION

I, _____ [Patient name] provide the following information in support of my request for charity care and/or discounted fee care for home health care services rendered to me by Amedisys Home Health. The information I provide will be maintained in the strictest confidence by Amedisys and will be utilized by Amedisys solely to (1) make a final determination of my eligibility for charity care and/or discounted fee care for home health care services rendered to me, and (2) compile aggregated, non-personally identifiable reports to States requiring this information.

ANNUAL INCOME (including income from all sources, including any insurance, third party coverage, guarantors or any other source)

AGENCY LOCATION:_____

PATIENT ID#: _____

The undersigned has made a determination regarding the accuracy and correctness of the foregoing income and family size information or is otherwise satisfied that the above-referenced patient is eligible for charity care or discounted fee care under Amedisys Policy FM-008A (Maryland Charity Care and Discounted Fee Care – Availability, Eligibility and Eligibility Determination Process; Time Payment Plan).

_____ _____

Amedisys Social Worker Date

INCOME DOCUMENTATION ATTESTATION

Where circumstances prevent Amedisys from securing detailed information concerning the income and family size of a particular patient in order to make a final determination of eligibility for charity care or discounted fee care, a Director of Operations is permitted to make a final determination that a patient is eligible for charity care or discounted fee care based on the totality of the patient's circumstances reflecting income at or below the eligibility guidelines under Policy FM-008A (Availability of Charity Care and Discounted Fee Care, Eligibility and Eligibility Determination Process; Time Payment Plan) that applies in the State of Maryland.

AGENCY LOCATION: _____

PATIENT ID#: _____

I hereby attest and certify that I have made a reasonable inquiry into the financial situation, including the annual income and family size, of the foregoing patient with respect to the patient's eligibility for charity care and/or discounted fee care as set forth in Policy FM-008A (Availability of Charity Care and Discounted Fee Care, Eligibility and Eligibility Determination Process; Time Payment Plan) that applies in the State of Maryland. I am satisfied that the patient is eligible for charity care and/or discounted fee care under such policy.

EXHIBIT 12

Policy: AA-016	Date(s) Revised:	02/2017
Subject: ***Discharge of Patients***		
Applicable Service(s): Home Health	**Page:**	Page 1 of 20

PURPOSE:

- The process for discontinuing home health services will be subject to the guidelines as outlined below and as mandated by appropriate state regulatory entities.
- To have a discharge process to ensure the patient is being discharged appropriately and arrangements have been made to address any ongoing health care needs the patient may have at the time of discharge.

REGULATORY GUIDANCE:

§484.48 Condition of Participation: Clinical Records: The HHA must inform the attending physician of the availability of a discharge summary. The discharge summary must be sent to the attending physician upon request and must include the patient's medical and health status at discharge. The regulation does not dictate the frequency with which progress notes must be written. If necessary, review the HHA's policies and procedures concerning the frequency of preparing progress notes. The discharge summary need not be a separate piece of paper and may be incorporated into the routine summary reports already furnished to the physician.

Agencies must adhere to the most stringent regulations (state, federal, accreditation, professional practice, etc.); see also the state specific regulations located behind this policy for additional reference.

PROCEDURE:

The agency may decline to continue services under any of the following circumstances:

1. The patient fails to continue to meet criteria for eligibility of services established by the patient's payor sources. (Examples – failure to comply with face-to-face and homebound requirements).
2. Threats of violence or actual violence to agency staff members, and conditions in or around home, which pose safety risk to staff.
3. The goals of the patient's plan of care have been attained or are no longer attainable.
4. The patient's home environment will not support the provision of home health services.
5. The agency has not been/will not be compensated for care provided.
6. The patient cannot care for him/herself in between visits from Agency personnel and no reliable paid or voluntary primary caregiver is available to meet all of the needs of the patient between visits by Agency staff.
7. A caregiver has been prepared and is capable of assuming responsibility for care.
8. In the event of a natural disaster when the client's health and safety is at risk.
9. The patient and/or primary caregiver are noncompliant or have a documented history of noncompliance in cooperating to attain the objectives of home care.
10. There is suspected illegal activity in the patient's home. i.e. drug abuse or history of drug abuse.
11. Agency staff members are subject to sexual harassment or verbal abuse when they provide services to the patient.

12. Agency staff members are subject to racial discrimination when they provide services to the patient.

13. The agency can no longer provide appropriate staffing.

14. The patient moves to a location outside of the licensed geographic service area of the agency.

15. The patient or his/her legally authorized representative chooses another provider.

16. The patient or the patient's legally authorized representative terminates services by the Agency or refuses care.

17. No signed orders from appropriately licensed practitioners (doctors of medicine, osteopathy or podiatry) are in effect upon which to base services.

18. If the patient is found to be ineligible for home care services, all attempts will be made by the agency to direct the individual to the appropriate community resource and notification will be made to the patient's attending physician and/or referral agency.

19. The agency will no longer provide a particular service needed by patients or is closing.

20. The Director of Office Operations is the sole determiner of the decision to discharge the patient considering the above criteria.

DISCHARGES (see also Medicare Choice/Expedited Review policy - TX 007)

1. Discharge planning will begin during the initial admission evaluation and continues throughout the length of service. The patient, or his/her representative if any, shall be informed of and participate in discharge planning.

2. The Plan of Care will identify problems and goals that need to be met for discharge. Goals and discharge planning are discussed with patient and caregiver.

3. When a patient is discharged prior to the end of the episode's treatment orders due to:
   a. The patient's goals have been met.
   b. Patient is no longer homebound.
   c. Patient has relocated out of the agency's geographical area.
   d. The patient is no longer compliant with their treatment plan.
   e. The patient refuses further home health services.

   The physician will be notified of the patient's discharge from the home health agency. Documentation of physician notification will be evident in the patient's medical record. Only when required by state regulations will a discharge order be generated.

4. When a skilled discipline discharges the patient from their service, the discipline will complete a discharge summary that will be available to the physician upon request. ***Note Exceptions:***
   - ***When a therapist (PT, OT, ST, and MSW) completes an evaluation only, provides no subsequent therapy/care, the therapist will document communication/ notification to the physician and a discharge summary is not required.***
   - ***When SN completes an assessment only or provides a one-time only visit (venipuncture for lab, etc.) for a patient receiving another skilled service and no subsequent Skilled Nursing services are ordered, the nurse will document***

communication/notification to the physician and a discharge summary is not required.

5. The discipline will also provide the patient with discharge instructions pertaining to that discipline, if applicable.

6. Discharge criteria:
   a. Physician's request
   b. Patient no longer meets eligibility requirements
   c. Patient has met expected goals
   d. Patient death
   e. Patient request
   f. Patient relocates outside of service area
   g. Services ordered are not provided by agency
   h. Patient refusal of services
   i. Non-compliance with treatment plan
   j. Patient residence deemed unsafe environment for employee. Threatened violence by patient or caregiver.
   k. Patient is still in hospital on Day 60 (unless the patient is discharged from inpatient facility on Day 60 and requires a skilled visit for day of discharge (intravenous therapy or other qualifying skilled service).

7. The clinician assigned to supervise and coordinate care for a particular patient must complete a discharge summary when services are terminated. The Discharge Summary includes:
   a. Reason for Homecare admission
   b. Summary of Care and Services provided and progress towards goals
   c. Symptoms needing continued management
   d. Instructions given to patient and family

8. A Discharge OASIS is completed within 48 hours for applicable patients.

9. The patient's discharge date is the date of discontinuation of services, patient death, transfer out of the service area or when the agency becomes aware of the discharge.

10. The discharge chart is completed and audited after the discharge date or documented discharge notification.

When patients already admitted to the agency meet one (1) or more of the criteria listed to discontinue services, the agency may take the following actions:

1. Hold a case conference to determine whether to discontinue services and if so, whether immediate termination is warranted or what constitutes a reasonable notice period taking into account facts and circumstances relevant to individual patients and applicable state and/or federal requirements. The results of this case conference will be documented in the patient's chart, including:
   a. The date and time of termination
   b. The reason(s) for termination
   c. In appropriate circumstances such as violence or an admission to an institutional provider, services may be discontinued immediately.

2. If a decision is made to terminate services, staff will normally verbally notify non-institutionalized patients and their attending physicians at least 2 days prior to discharge of the date and time of termination of services and the reason(s) for termination within a reasonable period of time prior to discharge, or within a specified time frame according to state regulation. These verbal communications will be documented in the patient's chart. When patient's who are admitted to hospitals or other institutions are discharged, the Agency will normally notify the discharge planning staff at the hospital or other institution that the patient cannot be readmitted to the agency.

3. Verbal notification to non-institutionalized patients not in jeopardy will normally be immediately followed by written notice (Notice of Medicare Non-Coverage) Written notice will also include any additional information that may be required by state and/or federal requirements. A copy of this written notice shall be placed in the patient's chart.

4. Agency staff will report to adult and child protective services as appropriate and in accordance with applicable requirements of state law and regulation.

Discharge Dates:

What is the appropriate date to document on the Discharge summary?

The patient's discharge date on the Discharge Summary, and MO906 of the Discharge OASIS assessment should be the date the agency becomes aware of the patient's discharge or discontinuation of services, patient death, or transfer out of service area.

For example: The patient was transferred to the hospital on 3/02/08 but the agency was notified on 3/8/08, the patient would not be returning to the home care agency. The date of discharge will be 3/8/08, not 3/2/087 and **not the last billable visit**.

Discharge Order Requirements per State

Please see the following table listing the different states and the specific requirements.
***See State Specific section for regs**

STATE	DC orders required if pt is discharged prior to end of episode
Alabama	No
Alaska	No
Arkansas	No
Arizona	Yes
California	No
Colorado	No
Connecticut	No
Delaware	No
District of Columbia	No
Florida	No
Georgia	YES
Idaho	No
Illinois	Yes*
Indiana	No
Iowa	No
Kansas	No
Kentucky	No
Louisiana	Yes*
Maine	Yes
Maryland	No
Massachusetts	No
Michigan	No
Minnesota	No
Mississippi	Yes

STATE	DC orders required if pt is discharged prior to end of episode
Missouri	No
Nebraska	No
Nevada	Yes
New Hampshire	No
New Jersey	No
New Mexico	No
New York	No
North Carolina	No
North Dakota	No
Ohio	No
Oklahoma	No
Oregon	No
Pennsylvania	No
Puerto Rico	No
Rhode Island	No
South Carolina	No
South Dakota	No
Tennessee	No
Texas	No
Utah	Yes
Virginia	No
Washington	No
West Virginia	No
Wisconsin	No
Wyoming	No

State Specific Requirements

NOTE: *Expedited Review requirements for Medicare or individual Managed Care contracts also apply. Agency is subject to the most stringent requirements.*

Alabama:
Discharge/ Orders/Summary: Follows Medicare Conditions of Participation

Alaska:
Discharge/Orders/Summary: Follows Medicare Conditions of Participation

Arizona:
At the time of a Scheduled Discharge the CC must ensure a D/C plan, D/C Instructions and a D/C Summary and have available to the physician upon request. A D/C order is required for non-scheduled Discharges.

R9-10-1101. Definitions

5. "Discharge summary" means a brief review of service, patient status, and reasons for discharge.

R9-10-1106. Plan of Care

C. Staff shall document, in the medical record, any verbal order for either the initiation or modification to the plan of care and shall include in the record the physician's verifying signature which shall be obtained within 30 days of the order.

R9-10-1108. Medical Records

B. Each agency shall maintain a medical record for each patient which contains the following:

13. Patient transfer or discharge plan and discharge summary.

Arkansas:
Discharge /Orders/Summary: Follows Medicare Conditions of Participation

SECTION XI. GENERAL REQUIREMENTS

O. Discharge Planning

1. There shall be a specific plan for discharge in the clinical record and there must be ongoing discharge planning with the patient.

California:
Discharge/Orders/Summary: The discharge statement shall include the date of discharge, reason for termination of services and condition upon discharge. All health records of discharged patients shall be completed within 30 days after the discharge.

§ 74735. Patient Health Records.

(a) The agency shall establish and maintain for each patient accepted for care a health record which shall include the following information:

(9) Discharge statement. The discharge statement shall include the date of discharge, reason for termination of services, and condition upon discharge

§ 74731. Patients' Health Records Availability.

(c) All health records of discharged patients shall be completed within 30 days after their discharge date.

(d) Health records of each discharged adult patient shall be kept for a minimum of seven years following discharge of the patient. The health record of a discharged minor shall be kept for at least one year after the minor has reached the age of 18 years and in all cases not less than seven years.

Colorado:
Discharge /Orders/Summary: Follows Medicare Conditions of Participation
CHAPTER XXVI – HOME CARE AGENCIES
6.6 Discharge planning
(A) There shall be a specific plan for discharge in the consumer record and there shall be ongoing discharge planning with the consumer.
(B) If no improvement or no discharge is expected, the agency shall document in the consumer record this assessment.
(C) The HCA shall assist each consumer or authorized representative to find an appropriate placement with another agency if the consumer continues to require care and/or services upon discharge. The HCA shall document due diligence in ensuring continuity of care upon discharge as necessary to protect the consumer's safety and welfare.
(D) Once admitted, an HCA shall not discontinue or refuse services to a consumer unless documented efforts have been made to resolve the situation that triggered such discontinuation or refusal to provide services.
(1) The consumer or authorized representative shall be notified verbally and in writing of the agency's intent to discharge and the reasons for the discharge.

Connecticut:
Discharge/Orders/Summary: The physician must be notified each time one or more services are terminated and upon discharge. No discharge order is required.
Discharge from Service:
(A) Agency policies shall define categories for discharge of patients. These categories shall include but not be limited to:
(i) Routine discharge--termination of service(s) when goals of care have been met and patient no longer requires home health care services;
(ii) Emergency discharge--termination of service(s) due to the presence of safety issues which place the patient and/or agency staff in immediate jeopardy and prevent the agency from delivering home health care services;
(iii) Premature discharge--termination of service(s) when goals of care have not been met and patient continues to require home health care services;
(iv) Financial discharge--termination of service(s) when the patient's insurance benefits and/or financial resources have been exhausted.
(B) In the case of a routine discharge the agency shall provide:
(i) pre-discharge planning by the primary care nurse, attending physician, or dentist and other agency staff involved in patient's care, which shall be documented in patient's clinical record;
(ii) A procedure through which the patient's physician or dentist is notified each time one or more services are terminated, and when the patient is discharged.
(C) In the case of an emergency discharge the agency shall immediately take all measures deemed appropriate to the situation to ensure patient safety. In addition, the agency shall immediately notify the patient, the patient's physician, and any other persons or agencies involved in the provision of home health care services. Written notification of action taken, including date and reason for emergency discharge, shall be forwarded to the patient and/or family, patient's physician, and any other agencies involved in the provision of home health care services within five (5) calendar days.
(D) In the case of a premature discharge the agency shall document that prior to the decision to

discharge a case review was conducted which included patient care staff, supervisory and administrative staff, patient's physician, patient and/or patient representative, and representation from any other agencies involved in the plan of care.

(i) Decision to continue service: If the decision of the case review is to continue to provide service, a written agreement shall be developed between the agency and the patient or his/her representative to identify the responsibilities of both in the continued delivery of care for the patient. This agreement shall be signed by the agency administrator and the patient or his representative. A copy shall be placed in the patient's clinical record with copies sent to the patient and his or her physician.

(ii) Decision to discharge from service: If the case review results in an administrative decision to discharge the patient from agency services, the administrator shall notify the patient and/or family and the patient's physician that services shall be discontinued in ten (10) days and the patient shall be discharged from the agency. Services shall continue in accordance with the patient's plan of care to ensure patient safety until the effective day of discharge. The agency shall inform the patient of other resources available to provide health care services.

(E) In the case of a financial discharge the agency shall conduct a:

(i) Pre-termination Review: Whenever one or more home health services are to be terminated because of exhaustion of insurance benefits or financial resources, at least ten (10) days prior to such termination there shall be a review of need for continuing home health care by the patient, his family, the supervisor of clinical services, the patient's physician or dentist, primary care nurse and other staff involved in the patient's care. This determination and, when indicated, the plan developed for continuing care shall be documented in the patient's clinical record.

(ii) Post-termination Review: The clinical records of each patient discharged because of exhaustion of insurance benefits or financial resources shall be reviewed by the professional advisory committee or the clinical record review committee at the next regularly scheduled meeting following the discharge. The committee reviewing the record shall ensure that adequate post-discharge plans have been made for any patient with continuing home health care needs.

Delaware:

Title 16, 4410 Skilled Home Health Agencies (Licensure)

6.8 Discharge

6.8.1 The patient, or her/his representative if any, shall be informed of and participate in discharge planning.

6.8.2 The home health agency shall develop a written plan of discharge which includes a summary of services provided and outlines the services needed by the patient upon discharge.

6.8.3 When discharging a patient who does not wish to be discharged, a minimum of two (2) week notice will be provided to permit the patient to obtain an alternate service provider. Exceptions to the two (2) week notice provision would include:

6.8.3.1 The discharge of patients when care goals have been met.

6.8.3.2 The discharge of patients when care needs undergo a change which necessitates transfer to a higher level of care and for whom a new discharge plan needs to be developed.

6.8.3.3 The discharge of patients when there is documented non-compliance with the plan of care or the admission agreement (including, but not limited to, nonpayment of justified charges).

6.8.3.4 The discharge of patients when activities or circumstances in the home jeopardize the welfare and safety of the home health agency caregiver.

District of Columbia:

Each home care agency shall have written policies that describe transfer, discharge, and referral criteria

and procedures.
Each patient shall receive written notice of discharge or referral no less than seven (7) calendar days prior to the action. The seven (7) day written notice shall not be required, and oral notice may be given at any time, if the transfer, referral or discharge is the result of:

a) A medical or social emergency;
b) A physician's order to admit the patient to an in-patient facility;
c) A determination by the home care agency that the referral or discharge is necessary to protect the health, safety or welfare of agency staff;
d) A determination, made or concurred in by a physician, that the condition that necessitated the provision of services no longer exists; or
e) The refusal of further services by the patient or the patient's representative.

Each home care agency shall document activities related to discharge planning for each patient in the patient's record

Florida:
Discharge/Orders/ Summary: When an agency terminates services for a patient needing continuing home health care, as determined by the physician, for patients receiving care under a physician's order, or as determined by the patient or caregiver, for patients receiving care without a physicians order, a plan must be developed and a referral made by home health agency staff to another home health agency or service provider prior to termination. The patient must be notified in writing of the date of termination, the reason for termination, and the plan for continued services by the agency or service provider to which the patient has been referred. This requirement does not apply to patients paying through personal funds or private insurance who default on their contract through non-payment. The home health agency should provide social work assistance to patients to help them determine their eligibility for assistance from government funded programs if their private funds have been depleted or will be depleted.

Georgia:
Discharge/ Orders/ Summary: Clarification from the GA DOH Jennifer Oetzel, Home Health Agency Program Manager of the Office of Regulatory Services at the Georgia Department of Human Resources: the discipline specific discharge does not need to be sent to the physician; the Agency Discharge Summary must be sent.
290-5-38-.08 (e) Coordination of Patient Services. All personnel providing services shall maintain a liaison with the Home Health Agency to assure that their efforts effectively complement one another and support the objectives outlined in the plan of treatment. The clinical record shall contain dated minutes of case conferences verifying that effective interchange, reporting, and coordinated patient evaluation does occur. A written summary report of clinical and progress notes for each patient shall be sent to the attending physician at least every sixty (60) days and upon discharge. A copy of these reports shall become a permanent part of the patient's clinical record.
01/29/2016: Clarification from GA Nancy Holz-Scott who stated that in addition to sending the D/C summary to the physician, the Discipline D/C summary must show evidence of MD notification.

Idaho:
Discharge/Orders/Summary: Follows Medicare Conditions of Participation

Illinois:
Section 245.200 Services – Home Health
d) Acceptance of Patients. Patient acceptance and discharge policies shall include, but not be limited to, the following:

5) When services are to be terminated by the home health agency, the patient is to be notified three working days in advance of the date of termination, stating the reason for termination. This information shall be documented in the clinical record. When indicated, a plan shall be developed or a referral made for any continuing care.
6) Services shall not be terminated until such time as the registered nurse, or the appropriate therapist, or both, in consultation with the patient's physician or podiatrist, deem it appropriate or arrangements are made for continuing care.

f) Consultation with the patient's physician or podiatrist on any modifications in the plan of treatment deemed necessary shall be documented, and the patient's physician's or podiatrist's signature shall be obtained within 30 days after any modification of the medical plan of treatment.

1) The home health services team shall review the plan every 62 days, or more often if the patient's condition warrants.

2) An updated plan of treatment shall be given to the patient's physician or podiatrist for review, for any necessary revisions, and for signature every 62 days, or more often as indicated.

h) Clinical Records
M) A discharge summary giving a brief review of service, patient status, reason for discharge, and plans for post-discharge needs of the patient. A discharge summary may suffice as documentation to close the patient record for one-time visits and short-term or event-focused or diagnoses-focused interventions. The discharge summary need not be a separate piece of paper and may be incorporated into the routine summary of reports already furnished to the physician.

Indiana:
Discharge/Orders/Summary: The patient, the patient's legal representative or other individual responsible for the patient's care shall be given notice of discharge at least five (5) calendar days before the services are stopped. The Agency must continue, in good faith, to provide services during the 5-day period. If the Agency cannot provide such services during that period, its continuing attempts to provide services must be documented. The five (5) day period does not apply in the following circumstances:

- The health, safety, and/or welfare of the home health agency's employees would be at immediate and significant risk if the home health agency continued to provide services to the patient.
- The patient refuses the home health agency's services.
- The patient's services are no longer reimbursable based on applicable reimbursement requirements and the home health agency informs the patient of community resources to assist the patient following the discharge; or
- The patient no longer meet applicable regulatory criteria, such as lack of physician's order and the home health agency informs the patient of community resources to assist the patient following discharge.

Iowa:
Discharge/Orders/Summary: Follows Medicare Conditions of Participation

Kansas:
Discharge/Orders/Summary: A discharge summary report is a concise statement signed by a qualified health professional, reflecting the care, treatment and response of the patient in accordance with the

patient' s plan of care and the final disposition at the time of discharge.

Kentucky:
Discharge/Orders/Summary: Follows Medicare Conditions of Participation

Louisiana:
Discharge/Orders/Summary: Per Marion Tate – LA Health Standards – DOH 2.22.16, "If the HHA has completed the ordered frequency – a discharge order is not necessary, however there should be documentation in the medical record of communication with the physician. If the HHA did not complete the ordered frequency for whatever reason – patient improved, patient refuses, etc., a discharge order is needed since the HHA would no longer be providing services according to the physician's plan of care.

§9123. Patient Care Standards
G. Discharge Policy and Procedures
1. The patient may be discharged from an agency when any of the following occur:
   a. the patient care goals of home care have been attained or are no longer attainable;
   b. a caregiver has been prepared and is capable of assuming responsibility for care;
   c. the patient moves from the geographic service area served by the agency;
   d. the patient and/or caregiver refuses or discontinues care;
   e. the patient and/or caregiver refuses to cooperate in attaining the objectives of home care;
   f. conditions in the home are no longer safe for the patient or agency personnel. The agency shall make every effort to satisfactorily resolve problems before discharging the patient;
   g. the patient's physician fails to renew orders for the patient;
   h. the patient, family, or third-party payor refuses to meet financial obligations to agency;
   i. the patient no longer meets the criteria for services established by the payor source;
   j. the agency is closing out a particular service or any of its services;
   k. death of the patient.
2. The agency must have discharge procedures that include, but are not limited to:
   a. notification of the patient's physician;
   b. documentation of discharge planning in the patient's record;
   c. documentation of a discharge summary in the patient's record; and
   d. forwarding of the discharge summary to the physician, if requested.
3. The following procedures shall be followed in the event of the death of a patient in the home:
   a. the proper authorities shall be notified immediately in accordance with state and local ordinances;
   b. the home health agency parent office shall be notified;
   c. the home health agency personnel in attendance shall offer whatever assistance they can to the family and others present at scene; and
   d. progress notes shall be completed in detail and must include observations of the patient, any treatment provided, individuals notified, and time of death, if established by the physician.

F. Medical Social Services
f. submit a written assessment and summary of services provided when medical social work services are discontinued, including an assessment of the patient's current status that will be retained in the patient's clinical record.
G. Nutritional Guidance Services
i. prepare a written discharge summary and ensure that a copy is retained in patient's clinical record and a copy is forwarded to the attending physician;
H. Occupational Therapy
f. when occupational therapy services are discontinued, submit a written summary of services provided, including an assessment of patient's current status, for retention in the patient's clinical record;

J. Physical Therapy.
f. when physical therapy services are discontinued, prepare a written discharge summary and ensure that a copy is retained in the patient's clinical record and a copy is forwarded to the attending physician;
M. Speech Pathology Services
f. submit a written summary of the services provided when speech therapy services are discontinued including an assessment of the patient's current status, which shall be retained in the patient's clinical record.

Maine:

7.F. **Patient/Client Records**

7.F.1. Each Home Health Care Services Provider's patient/client shall have an identifiable clinical record initiated and maintained by the Home Health Care Services Provider in accordance with accepted professional standards. Patient/client records shall contain but not be limited to:

m. Where appropriate, a dated and signed discharge summary giving a brief review of service, patient/client status, reason(s) for discharge, and plans for post-discharge needs of the patient/client;

7.G. **Patient/Client Transfer and Discharge**

7.G.1 Each Home Health Care Services Provider must have written criteria for the transfer, referral and/or discharge of patients/clients. At the time of transfer, referral and/or discharge, the patient/client must meet at least one of the following criteria. Criteria must, but are not limited to:

a. The patient's/client's welfare and/or medical needs cannot be met by the Home Health Care Services Provider,
b. The patient's/client's health and/or functional abilities have improved so that the patient/client no longer needs the services provided by the Home Health Care Services Provider, as ordered by the patient's/client's physician, with agreement from all parties involved;
c. The health and safety of individuals providing services is endangered.

7.G.2. A written notice of discharge or transfer must be sent to patients/clients at least fourteen(14)days before services are terminated. A written notification of patients/clients' appeal rights must be included in this notice and must follow State and Federal requirements. The only written exceptions to this regulation are Chapter 7.G.1.b. and Chapter 7.G.1.c.

7.G.3. Each patient's/client's clinical record must contain documentation describing the criteria that necessitated the transfer, referral and/or discharge. Documentation must include, but is not limited to:

a. Signed and dated physician's orders for transfer, referral or discharge,
b. Multidisciplinary interventions that have been tried and failed to meet the patient's needs if applicable;
c. Notation of the cessation of operation of the Home Health Care Services Provider, if applicable, and Incidents and/or circumstances where agency staffs' health and safety are endangered if applicable.

Maryland:

Discharge/Orders/Summary: Records of discharged patients must be completed no later than 30 days after the date of discharge.

Massachusetts:

Discharge /Orders/Summary: Follows Medicare Conditions of Participation

Michigan:
Discharge /Orders/Summary: Follows Medicare Conditions of Participation

Minnesota: (4668.0050)
4668.0050 ACCEPTANCE, RETENTION, DISCONTINUATION OF SERVICES, AND DISCHARGE OF CLIENTS.
Subp. 2. **Assistance upon discontinuance of services.** If the licensee discontinues a home care service to a client for any reason and the client continues to need the home care service, the licensee shall provide to the client a list of home care providers that provide similar services in the client's geographic area. This subpart does not apply to a licensee that discontinues a service to a client because of the client's failure to pay for the service.

Mississippi:
130 PATIENTS' RIGHTS
130.01 General. The agency shall maintain written policies and procedures regarding the rights and responsibilities of patients. These written policies and procedures shall be established in consultation with the Professional Advisory Committee. Written policies regarding patients' rights shall be made available to patients and/or their guardian, next of kin, sponsoring agency or agencies, or lawful representative and to the public. There shall be documented evidence that the staff of the agency is trained and involved in the implementation of these policies and procedures. In-service on patient's rights and responsibilities shall be conducted annually. The patients' rights policies and procedures ensure that each patient admitted to the agency:
4. Is transferred or discharged only for medical reasons, or for his welfare, or for non-payment (except as prohibited by Titles XVIII or XIX of the Social Security Act), or on the event of an unsafe environment, or should the patient refuse treatment, and is given advance notice to ensure orderly transfer to discharge, and such actions are documented in his clinical record;
101.15 **Discharge Summary** shall mean the written report of condition of patient, services rendered, pertinent goals achieved during the entire service provided and final disposition at the time of discharge from the service.
124 POLICY AND PROCEDURE MANUAL
124.01 **Manual.**
c. When services are to be terminated by the home health agency, the patient and the physician or podiatrist are to be notified in advance of the date of termination stating the reason and a plan shall be developed or a referral made for any continuing care.
d. Services shall not be terminated without an order by the physician or podiatrist in consultation with the registered nurse and/or the appropriate therapist. Except in cases of non-payment, where the specific and approved plan of care has been documented as completed, where the patient refuses treatment, in the event of an unsafe environment, or should the patient require the services beyond the capability of the agency. In any event, the physician or podiatrist shall be notified of the termination of services. Arrangements shall be made for continuing care when deemed appropriate.

Missouri:
Discharge/Orders/Summary: Follows Medicare Conditions of Participation

Nevada:
NAC 449.797 Contents of clinical records.

10. A record of the termination of services, including the date and reason for termination and the time when the physician was notified of the termination.

New Hampshire:
Discharge/Orders/Summary: Follows Medicare Conditions of Participation

New Mexico:
Discharge/Orders/Summary: Follows Medicare Conditions of Participation
7.28.2.34 PATIENT/CLIENT RECORDS: Each agency licensed pursuant to these regulations must maintain the original record for each patient/client receiving services. Patient/client records shall be made available for review upon request of the licensing authority. Every record must be accurate, legible, promptly completed and consistently organized. A patient/client record must meet the following criteria: B. If the patient/client is discharged or transferred to another provider of health care, upon receipt of a signed request from the patient/client, a copy of the original record or an abstract of the same must be made available to the receiving facility, within twenty-four (24) hours.

New York:
Discharge/Orders/Summary: A patient may be discharged by the agency only after consultation, as appropriate, with the patient's authorized practitioner, the patient, the patient's family or informal supports, any legally designated patient representative, and any other professional personnel including any other case management entity involved in the plan of care. If the agency determines that the patient's health care needs can no longer be met safely at home, the agency must continue to provide home health services only to the extent necessary to address minimally essential patient health and safety needs until such time as an alternative placement becomes available and such placement is made or the patient or the patient's legal representative, who has the authority to make health care decisions on behalf of the patient, makes an informed choice to refuse such placement. As appropriate, the patient and family or informal supports, any legally designated patient representative and any other professional personnel including any case management entity involved, shall be fully informed of the agency's intent to discharge the patient to an alternate service, when available, and shall be consulted in the development of an interim plan of care.

North Carolina:
Discharge/Orders/Summary: A discharge summary is completed and the physician is notified of the discharge. An advance notification to patient or responsible party of at least 48 hours is required, except in cases where the patient agrees with discharge.

Ohio:
Discharge/Orders/Summary: Follows Medicare Conditions of Participation

Oklahoma:
Discharge/Orders/Summary: The physician is notified of discharge.

Oregon:
Discharge/Orders/Summary: Follows Medicare Conditions of Participation

Pennsylvania:
Discharge/Orders/Summary: Follows Medicare Conditions of Participation

Puerto Rico:
Discharge/Orders/Summary: Follows Medicare Conditions of Participation
Rhode Island:
Discharge/Orders/Summary: Discharge summary required.
Section 15.0 ***Admission and Discharge Policies***
15.1 Providers shall establish policies pertaining to eligibility for admission to and discharge from home nursing care provider or home care provider services. Such policies shall be based on the following criteria:
(a) Pre-admission assessment of patient care needs;
(b) Reasonable expectations of the home nursing care provider's or home care provider's capability to respond to the medical and nursing needs of the patient;
(c) Plan of care;
(d) Constraints imposed by limitation of services, family conditions;
(e) Community or other resources to ensure continuity of patient care; and
(f) Such other criteria as may be deemed appropriate.

(i) Discharge summaries.
16.1.1 Home nursing care provider or home care provider personnel involved in the care of patients shall participate, to the extent possible, in developing care plans. When practical, designated home nursing care provider or home care provider personnel shall complete a "Continuity of Care" form as approved by the Director for each patient who is discharged to another health care facility, such as a hospital or nursing facility, or other facility licensed under the provisions of RIGL Chapter 23-17 [Reference 1]. Said form shall be provided to the receiving facility, agency, or provider prior to, upon transfer, or discharge of the patient. (See the Department's website for the approved form: www.healthri.org).

Medical Services
21.8 Patients admitted for medical services shall be under the care of a licensed physician responsible for the development of the plan of care.
(a) A care plan prescribed by the attending physician, if appropriate, shall contain no less than the following:
(1) Pertinent diagnosis, including mental status, level of consciousness, ability to communicate including language, speech and hearing;
(2) Types of services and equipment required, frequency of visits, prognosis, rehabilitative potential, functional limitations, activities permitted, nutritional requirements, medications and treatments, safety measures (if any), instructions for continuing care, referral or discharge; dates/times of any follow-up appointment(s), when known; and

South Carolina:
Discharge/Orders/Summary: Follows Medicare Conditions of Participation

Tennessee:
Discharge/Orders/Summary: The discharge summary shall be dated and signed within 7 days of discharge. A copy of the discharge summary is available to the physician upon request. The discharge summary must include medical and health status at discharge.
For patients receiving services through the Division of Mental Retardation Services (DMRS): if the agency determines that they are no longer willing or able to provide services they must comply with the following:

1. Prior to discontinuation of authorized services, the agency will obtain approval from DMRS;
2. The agency will notify the consumer, their conservator or guardian and DMRS no less than 60 days prior to the planned discharge;
3. If the consumer or his/her representative request a hearing in accordance with T.C.A 33-1-202, the discharge will not occur prior to the final agency decision and resolution of the administrative appeal unless ordered by a court and approved by the state;
4. The agency shall continue to provide service until the consumer is provided with other services that are acceptable and appropriate quality in order to maintain the continuity of care
5. If the consumer or his/her representative request to be discharged from the agency, the agency will follow the steps outlined above and provide transfer documentation to new provider, if requested, in order to maintain continuity of care and facilitate transfer.

Texas:

§97.295 Client Transfer or Discharge Notification Requirements

(a) Except as provided in subsection (e) of this section, an agency intending to transfer or discharge a client must:
   (1) Provide written notification to the client or the client's parent, family, spouse, significant other or legal representative; and
   (2) Notify the client's attending physician or practitioner if he is involved in the agency's care of the client.

(b) An agency must ensure delivery of the written notification no later than five days before the date on which the client will be transferred or discharged.

(c) The agency must deliver the required notice by hand or by mail.

(d) If the agency delivers the written notice by mail:
   (1) The notice must be mailed at least eight working days before the date of discharge or transfer; and
   (2) The agency must speak with the client by telephone or in person to ensure the client's knowledge of the transfer or discharge at least five days before the date of discharge or transfer.

(e) An agency may transfer or discharge a client without prior notice required by subsection (b) of this section:
   (1) Upon the client's request;
   (2) If the client's medical needs require transfer, such as a medical emergency;
   (3) In the event of a disaster when the client's health and safety is at risk in accordance with provisions of §97.256 of this chapter (relating to Emergency Preparedness Planning and Implementation);
   (4) for the protection of staff or a client after the agency has made a documented reasonable effort to notify the client, the client's family and physician, and appropriate state or local authorities of the agency's concerns for staff or client safety, and in accordance with agency policy;
   (5) According to physician orders; or
   (6) If the client fails to pay for services, except as prohibited by federal law.

(f) An agency must keep the following in the client's file:
   (1) A copy of the written notification provided to the client or the client's parent, family, spouse, significant other or legal representative;
   (2) Documentation of the personal contact with the client if the required notice was delivered by mail; and
   (3) Documentation that the client's attending physician or practitioner was notified of the date of discharge.

Utah:

R432-700-15 Termination of Services

1) The agency may discharge a patient under any of the following circumstances:
   (a) **A licensed practitioner signs a discharge statement for termination of services;**
   (b) Treatment objectives are met;

(c) The patient's status changes, which make treatment objectives unattainable and new treatment objectives are not an alternative;
(d) The family situation changes and affects the delivery of services;
(e) The patient or family is uncooperative in efforts to attain treatment objectives;
(f) The patient moves from the geographic area served by the agency;
(g) The physician fails to renew orders as required by the rules for skilled nursing or therapy services or, the patient changes physician's and the agency cannot obtain orders for continuation of services from the new physician;
(h) The patient's payment sources are exhausted and the agency is fiscally unable to provide free or part-cost care;
(i) The agency discontinues a particular service or terminates all services;
(j) The agency can no longer provide quality care in the place for residence;
(k) The patient or family requests agency services to be discontinued;
(l) The patient dies;
(m) The patient or family is unable or unwilling to provide an environment that ensures safety for the both the patient and provider of service; or
(n) The patient's payor excludes the agency from participating as a covered provider or refuses to authorize services the agency determines are medically necessary.

(2) The person who is assigned to supervise and coordinate care for a particular patient must complete a discharge summary when services to the patient are terminated.

Virginia:

Discharge/Orders/Summary: In agencies licensed by the state of Virginia, the patient is assured at least 5 days written notice prior to discharge or referral in service except when a medical emergency exists, when the patient's physician orders admission to an inpatient facility, or when discharge is determined by the chief administrative officer to be necessary to protect the health and welfare of the staff member providing services. Patients will receive an oral and written explanation of the reason for discharge or referral.

12VAC5-381-10. Definitions.

"Discharge or termination summary" means a final written summary filed in a closed client record of the service delivered, goals achieved and final disposition at the time of client's discharge or termination from service.

12VAC5-381-180. Written policies and procedures.

F. Admission and discharge or termination from service policies and procedures shall include, but are not limited to:
1. Criteria for accepting clients for services offered;
2. The process for obtaining a plan of care or service;
3. Criteria for determining discharge or termination from each service and referral to other agencies or community services; and
4. Process for notifying clients of intent to discharge/terminate or refer, including:
   a. Oral and written notice and explanation of the reason for discharge/termination or referral;
   b. The name, address, telephone number and contact name at the referral organization; and
   c. Documentation in the client record of the referral or notice.

12VAC5-381-280. Client record system.

F. An accurate and complete client record shall be maintained for each client receiving services and shall include, but shall not be limited to:
8. A discharge or termination of service summary.

In addition, client records for skilled and pharmaceutical services shall include:
11. Copies of all summary reports sent to the primary care physician.

12VAC5-381-230. Client rights.
C. Written procedures to implement the policies shall ensure that each client is:
10. Given at least five days written notice when the organization determines to terminate services.

Washington:
Discharge /Orders/Summary: Follows Medicare Conditions of Participation
WAC 246-335-110
Patient/client records.
(1) The licensee must:
(f) Upon request and according to agency policy and procedure, provide patient or client information or a summary of care when the patient or client is transferred or discharged to another agency or facility.

West Virginia:
Discharge/Orders/Summary: Follows Medicare Conditions of Participation

Wisconsin:
HFS 133.09 Acceptance and discharge of patients.
(3) Discharge of patients:
a. *Notice of discharge.*
1. A home health agency may not discharge a patient for any reason until the agency has discussed the discharge with the patient's legal representative and the patient's attending physician or advance practice nurse prescriber, and has provided written notice to the patient or the patient's legal representative in the timelines specified in this paragraph.
2. The home health agency shall provide the written notice, except when a patient is discharged due to hospital admission that occurs near the end of a 60-day episode of treatment, required under subd. 1 to the patient or the patient's legal representative at least 10 working days in advance of discharge if the reason for discharge is any of the following:
a. Payment has not been made for the patient's care, following a reasonable opportunity to pay any unpaid billings.
b. The home health agency is unable to provide the care required by the patient due to a change in the patient's condition that is not an emergency.
3. The home health agency shall provide the written notice under subd. 1. to the patient or the patient's legal representative at the time of discharge if the reason for discharge is any of the following:
a. The safety of staff is compromised, as documented by the home health agency.
b. The attending physician orders the discharge for emergency medical reasons.
c. The patient no longer needs home health care as determined by the attending physician.
4. The home health agency shall insert a copy of the written discharge notice in the patient's medical record.
5. The home health agency shall include in every written discharge notice to a patient's legal representative of all the following:
a. The reason for discharge
b. A notice of the patient's right to file a complaint with the department and the department's toll-free home health hotline telephone number and the address and telephone number and the address and telephone number of the department's division of quality assurance.

***Note**: A complaint may be filed by writing the Bureau of Health Services, Division of Quality Assurance, P.O. box 2969, Madison, Wisconsin 53701-2969 or by calling the Wisconsin Home Health Hotline toll free at 1-800-642-6552.*

(b) *Discharge summary*. The home health agency shall complete a written discharge summary within 30 calendar days following discharge of a patient. The discharge summary shall include a description of the care provided and the reason for discharge. The home health agency shall place a copy of the discharge summary in the former patient's medical record. Upon request, the home health agency shall provide a copy of the discharge summary to the former patient, the patient's legal representative, the attending physician, or advanced practice nurse prescriber.

Risk Adjusted Outcome Report

Agency Name: AMEDISYS HOME HEALTH
Agency ID: MD217111
Location: SALISBURY, MD
CCN: 217111 **Branch:** All
Medicaid Number: 714900000
Report Run Date: 05/31/2018

Requested Current Period: 03/2017 - 02/2018
Requested Prior Period: 03/2016 - 02/2017
Actual Current Period: 03/2017 - 02/2018
Actual Prior Period: 03/2016 - 02/2017
 # Cases Curr: 2,426 **Prior:** 2,353
Number of Cases (National): 5,232,547

Definitions:

HHA Obs - Home Health Agency's Observed Rate is the HHA's actual performance for the measure for the selected period. This rate is not risk adjusted.

HHA Adj Prior[1] - Home Health Agency's Adjusted Prior is the agency's prior performance for the measure for the selected period. This rate is adjusted and is calculated using the following formula: HHA Adj Prior = HHA Prior Obs + HHA curr pred - HHA prior pred.

HHA HHC RA - Home Health Agency's Home Health Compare Risk Adjusted Rate is the home health agency's Home Health Compare (HHC) risk adjusted performance for the measure for the selected period. Starting with Q1 of 2017, this rate will match the HHC rate for measures displayed on HHC when the reporting period for this report matches the HHC reporting period. If the two reporting periods do not align or if the measure is not displayed on HHC, the display for the HHC RA value will be omitted. This rate is adjusted and is calculated using the following formula: HHA RA = HHA Obs + Nat'l pred – HHA pred.

Nat'l Obs - National Observed Rate is the average (mean) performance of all home health agencies that have a quality episode of care for the selected period for the quality measure. [A quality episode is calculated from the beginning of care (start of care or resumption of care) to end of care (transfer to an inpatient facility, discharge from the agency, or death.)]

Asterisks - Represents significant difference between the current (HHA Obs) and national observed (Nat'l Obs) values.

* The probability is 10% or less that this difference is due to chance, and 90% or more that the difference is real.

** The probability is 5% or less that this difference is due to chance, and 95% or more that the difference is real.

End Result Outcomes:	Elig. Cases	Signif.	HHA Obs	HHA Adj Prior[1]	HHA HHC RA	Nat'l Obs

Definitions:

HHA Obs - Home Health Agency's Observed Rate is the HHA's actual performance for the measure for the selected period. This rate is not risk adjusted.

HHA Adj Prior[1] - Home Health Agency's Adjusted Prior is the agency's prior performance for the measure for the selected period. This rate is adjusted and is calculated using the following formula: HHA Adj Prior = HHA Prior Obs + HHA curr pred - HHA prior pred.

HHA HHC RA - Home Health Agency's Home Health Compare Risk Adjusted Rate is the home health agency's Home Health Compare (HHC) risk adjusted performance for the measure for the selected period. Starting with Q1 of 2017, this rate will match the HHC rate for measures displayed on HHC when the reporting period for this report matches the HHC reporting period. If the two reporting periods do not align or if the measure is not displayed on HHC, the display for the HHC RA value will be omitted. This rate is adjusted and is calculated using the following formula: HHA RA = HHA Obs + Nat'l pred – HHA pred.

Nat'l Obs - National Observed Rate is the average (mean) performance of all home health agencies that have a quality episode of care for the selected period for the quality measure. [A quality episode is calculated from the beginning of care (start of care or resumption of care) to end of care (transfer to an inpatient facility, discharge from the agency, or death.)]

Asterisks - Represents significant difference between the current (HHA Obs) and national observed (Nat'l Obs) values.

* The probability is 10% or less that this difference is due to chance, and 90% or more that the difference is real.

** The probability is 5% or less that this difference is due to chance, and 95% or more that the difference is real.

If the two reporting periods do not align or if the measure is not displayed on HHC, the display for the HHC RA value will be omitted. This rate is adjusted and is calculated using the following formula: HHA RA = HHA Obs + Nat'l pred – HHA pred.

Nat'l Obs - National Observed Rate is the average (mean) performance of all home health agencies that have a quality episode of care for the selected period for the quality measure. [A quality episode is calculated from the beginning of care (start of care or resumption of care) to end of care (transfer to an inpatient facility, discharge from the agency, or death.)]

Asterisks - Represents significant difference between the current (HHA Obs) and national observed (Nat'l Obs) values.

* The probability is 10% or less that this difference is due to chance, and 90% or more that the difference is real.

** The probability is 5% or less that this difference is due to chance, and 95% or more that the difference is real.

End Result Outcomes:	Elig. Cases	Signif.
Improvement in Pain Interfering with Activity	580

Definitions:

HHA Obs - Home Health Agency's Observed Rate is the HHA's actual performance for the measure for the selected period. This rate is not risk adjusted.

HHA Adj Prior[1] - Home Health Agency's Adjusted Prior is the agency's prior performance for the measure for the selected period. This rate is adjusted and is calculated using the following formula: HHA Adj Prior = HHA Prior Obs + HHA curr pred - HHA prior pred.

HHA HHC RA - Home Health Agency's Home Health Compare Risk Adjusted Rate is the home health agency's Home Health Compare (HHC) risk adjusted performance for the measure for the selected period. Starting with Q1 of 2017, this rate will match the HHC rate for measures displayed on HHC when the reporting period for this report matches the HHC reporting period. If the two reporting periods do not align or if the measure is not displayed on HHC, the display for the HHC RA value will be omitted. This rate is adjusted and is calculated using the following formula: HHA RA = HHA Obs + Nat'l pred – HHA pred.

Nat'l Obs - National Observed Rate is the average (mean) performance of all home health agencies that have a quality episode of care for the selected period for the quality measure. [A quality episode is calculated from the beginning of care (start of care or resumption of care) to end of care (transfer to an inpatient facility, discharge from the agency, or death.)]

Asterisks - Represents significant difference between the current (HHA Obs) and national observed (Nat'l Obs) values.

CCN: 217111

Requested Current Period (MSPB): 10/01/2016 - 09/30/2017
Actual Current Period (MSPB): 01/01/2016 - 12/31/2016
Report Run Date: 05/31/2018

Legend:

[a] PAC HH = Post-Acute Care Home Health

[b] The treatment period is the time during which the patient receives care from the attributed HH, and includes Part A, Part B and Durable Medical Equip Prosthetics, Orthotics and Supplies (DMEPOS) claims.

[c] The associated services period is the time during which any Medicare Part A and Part B services other than those in the treatment period are counted towards the episode spending.

Dash [-] = Value cannot be calculated

N/A = Not Available

Medicare Spending per Beneficiary (MSPB) - PAC HH[a]

COMPARISON GROUP	NUMBER OF ELIGIBLE EPISODES	AVERAGE SPENDING PER EPISODE			MSPB AMOUNT	
		SPENDING DURING TREATMENT PERIOD[b]	SPENDING DURING ASSOCIATED SERVICES PERIOD[c]	TOTAL SPENDING DURING EPISODE	AVERAGE RISK ADJUSTED SPENDING	NATIONAL MEDIAN
Your Agency	2,916	$3,095	$7,873	$10,968	$11,021	$10,746
National	5,271,440	$2,952	$7,824	$10,776	$10,768	$10,746

Your Agency's MSPB PAC Score (Your Agency's Risk Adjusted Spending Divided by the National Median)	1.03
U.S. Average MSPB Score (National Risk Adjusted Spending Divided by the National Median)	1.00

NOTE: Patient-level data for claims-based measures are not included in CASPER patient-level quality measure reports.

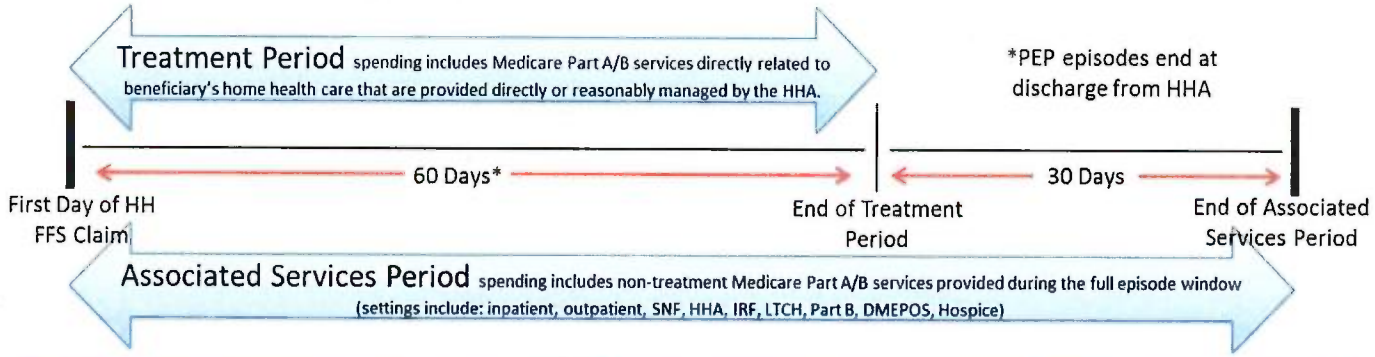
CASPER Report
Risk Adjusted Outcome Report

Explanation of Medicare Spending per Beneficiary (MSPB) Post-Acute Care (PAC) HHA Measure

The purpose of the MSPB-PAC measures are to support public reporting of resource use in PAC provider settings as well as provide actionable, transparent information to support PAC providers' efforts to promote care coordination and improve the efficiency of care provided to their patients.

The measure is calculated as the ratio of the payment-standardized, risk-adjusted MSPB-PAC Amount for each agency divided by the episode-weighted median MSPB-PAC Amount across all agencies of the same type. For home health agencies, episodes are categorized as Partial Episode Payment (PEP), Low Utilization Payment Adjustment (LUPA), and all others (Standard) and agencies' episodes are compared only within each category. The figure below illustrates the episode window for calculating this measure. Beneficiary spending during the episode window is categorized as related to "Treatment" or "Associated Services." The episode window begins on the first day of the home health claim and ends 30 days after the Treatment Period ends (which is either 60 days or at discharge for PEP episodes). Spending is standardized, bottom-coded when necessary, and risk-adjusted.

Episode Window for MSPB-PAC HH Measure



Episode Exclusions
- Episodes from a RAP
- Episodes outside the 50 states, D.C., Puerto Rico and U.S. territories
- Episodes with the standard allowed amount equal to zero or where the standard allowed amount cannot be calculated
- Episodes in which the beneficiary is not enrolled in Medicare FFS for the 90 days prior to the first day of the home health claim through the episode window, or is enrolled in Part C
- Episodes not paid through prospective payment system

Service Exclusions
- Planned hospital admissions
- Routine management of certain preexisting chronic conditions
- Some routine screening and health care maintenance
- Immune modulating medications

Specific exclusions subject to change; please refer to links under Resources for most current information.

Risk Adjustment
- HCCs and interactions in 90 days prior to episode window
- Age, Medicare entitlement reason, ESRD
- Long-term care institutionalization, prior ICU use, prior hospitalization length of stay, hospice use
- Clinical case mix categories

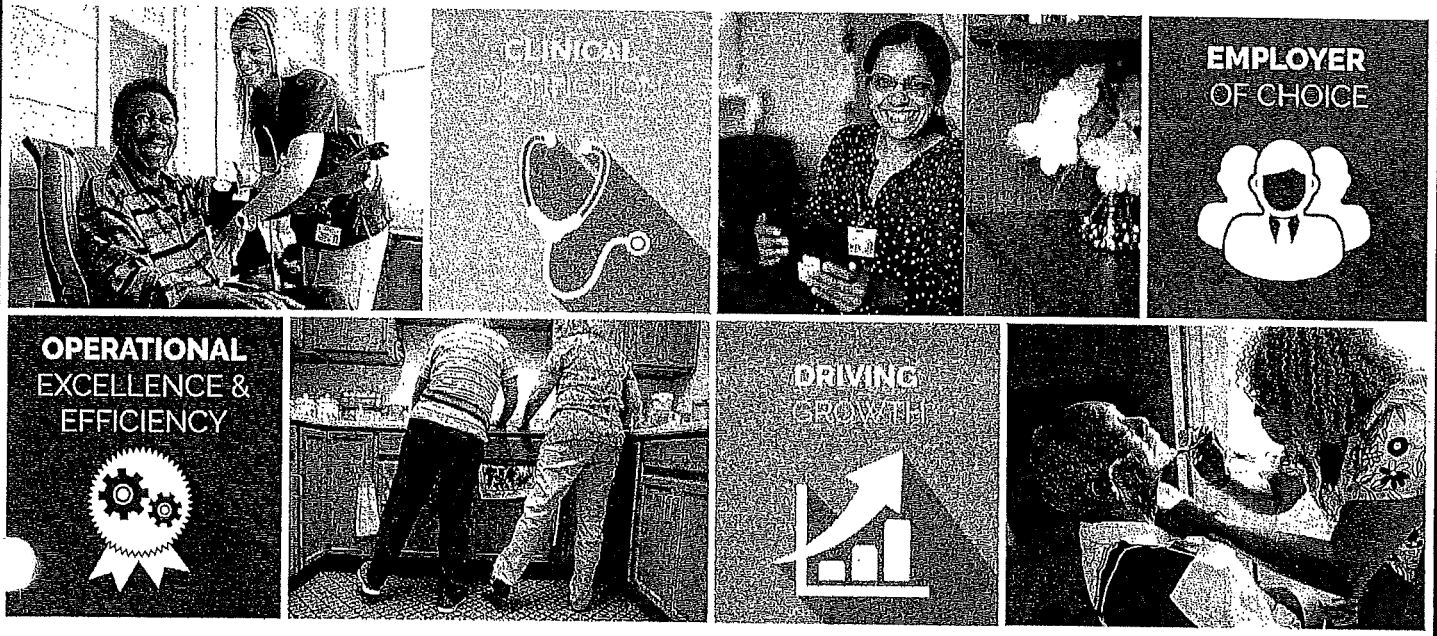
EXHIBIT 15



2016
Annual Report

Amedisys®

Dear Fellow Shareholders,

It was a little more than two years ago that we sat down and really listened. From our patients, to our employees, to our referral sources, to our markets – we looked at the essence of what we do and what drives our business, talked with our employees about what "best" looked like and asked our patients what they wanted. We built our strategy around the themes that emerged from these conversations. Our four-pronged strategy appears straightforward, because it comes from the people we serve and those that serve them. Consistently delivering on it requires discipline, thoughtfulness and relentless focus. We want to be the gold standard in our selected disciplines. We believe we know what we should be, and we are working hard to get there. Like a family road trip with the inevitable question, "Are we there yet?" - we aren't. But we are well on our way, and our results show we're making good progress.

Our stakeholders have lots of reasons to be happy with our performance in 2016. We reported revenue of $1.44 billion, a 12% increase over 2015, adjusted EBITDA of $110 million and adjusted EPS of $1.55 per diluted share. We grew organically in all of our business units, with particular strength in the hospice and personal care segments.

We achieved a key milestone in December as we completed the conversion from our internally developed technology platform to HomeCare HomeBase (HCHB). We accomplished this with unprecedented speed, converting nearly 400 care centers in just over a year. While this caused some operational disruption during 2016, we are pleased to see this disruption winding down in the first quarter of 2017. Our front line clinicians are happy with the way HCHB supports greater efficiency for them in the home, and we believe this will support continued improvement in the quality of care our patients receive, as well as better clinician productivity.

Also during the year, we closed on three acquisitions, continuing our efforts to use capital to build our business. Our free cash flow is strong and improving, giving us enough financial flexibility to invest in promising expansion opportunities we identify in the future.

More specifically, we progressed on all four of our key strategies.

ACHIEVE CLINICAL DISTINCTION

Our primary mission is to provide our patients with outstanding clinical care. No metric better demonstrates this commitment than our latest ratings in home health from the all-important Medicare Star Rating program.

We improved our average Star rating each quarter in 2016, with the January 2017 release ranking our Quality of Patient Care score of 3.91 Stars and Patient Satisfaction score of 3.80 Stars. We are striving for further improvement in 2017, with our April average score for Quality of Patient Care across all of our home health care centers of 4.03 Stars, a 15% increase over last year. That's our best performance to date. Three-quarters of our centers (75%) attained a rating of 4 Stars or better, compared to a little over one-quarter last year (32%). With CMS and other payors intending to shift to reimbursement models based on the quality of care delivered, we expect to be well positioned to capitalize on this trend.

Our agenda for clinical care remains ambitious. We're aiming for all of our home health care centers to achieve a quality Star rating of 4 or higher by the end of 2017.

Our hospice quality is equally impressive. Our quality of patient care ranks above the national CMS average on all seven quality measures tracked. In patient experience, we rank above the national CMS average on all eight quality measures tracked. In last year's CMS hospice final rule, CMS signaled their intention to create a rating system similar to home health's Star ratings that will be publicly available. We expect to be at or near the top of the industry once those ratings are finalized.

BECOME AN EMPLOYER OF CHOICE

Because our people are our most important asset, and are responsible for the quality of the care our patients receive, we took further steps toward improving our "return on people." We are building a Culture of Engagement, whereby our employees are inspired every day to bring their best self to work. This enables them to better serve our patients, colleagues and referring physicians and hospitals — helping us to better recruit, retain and develop outstanding, talented people.

In an industry that generally experiences high turnover rates, typically in the mid-30 percent range, our overall voluntary turnover declined to 22% in 2016, with turnover among our full time employees, who are responsible for 85% of our patient visits, falling to 18%.

To drive continued improvement as an organization, we continue to listen to our people. Our second annual People Engagement Survey response rate was 24% higher than last year. The responses told us both what we are doing well, and where we can improve. Based on this feedback, each of our leaders has developed specific plans to address the opportunities identified in their areas. As we improve our understanding of the drivers of employee satisfaction through these engagement efforts, we expect our retention rates to continue to improve, increasing our return on our human capital.

OPERATIONAL EXCELLENCE AND EFFICIENCY

During 2016, Amedisys reached a major milestone in bringing better information technology to our employees: HCHB software went live in all our home health and hospice care centers, seven months ahead of our original target. In transitioning from our proprietary software to this leading IT platform, we're now optimizing efficiency and equipping our clinicians to better focus on care delivery. Additionally, in 2015 we committed to realize $46 million in annualized run rate efficiencies by the end of 2017, and the successful completion of this platform migration is a key milestone in delivering these savings.

Already we have improved the productivity of our existing staff, and now have the ability to deploy our resources more effectively. We will continue to maximize efficiencies in putting the right people in the right places at the right time to deliver the right high-quality care, and innovate aggressively along these lines.

In 2016, we also designed and developed a propriety productivity and staffing tool that compiles, evaluates and correlates data to drive staffing optimization. This tool permits operators to more deeply manage clinician productivity to better understand the operational levers available to manage our clinician capacity.

DRIVING GROWTH

Amedisys grew in all lines of business during 2016 despite challenges with the rapid rollout of HCHB. Amedisys acquired Associated Home Care, a leading personal care agency in Massachusetts – a move consistent with our long-term strategy to broaden our scope of services that can be delivered at home. The Company also acquired Professional Profiles, a personal care agency based in Danvers, Massachusetts, and in early 2017, Home Staff, LLC, a personal care provider, headquartered in Worcester, Massachusetts. We are now the largest personal care provider in Massachusetts, caring for more than 15,000 patients annually. We also acquired Visiting Nurse Association of Long Island, a nonprofit organization based in Garden City, New York.

In hospice, we've produced strong, consistent organic growth, with average daily census increasing by 16% and reaching 5,900 by the end of 2016. We see this as a validation of the outstanding care provided by our hospice team, the growing acceptance of the value of hospice care, and patient's desire to remain in their homes.

In home health, same store episodic admissions grew by 4%, we completed over seven million patient visits and grew our census to over 55,000 patients. We continue to believe the combination of improved business development processes, recent leadership additions, and improved capacity driven by our new platform and tools will allow us to see solid year over year organic growth in the second half of 2017.

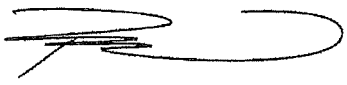
A PROMISING OUTLOOK

The arrival of the new President has sparked the most questions from investors over the last few months. At this early stage, we are working closely with our peers in home health and hospice to communicate our point of view to the Trump Administration. We would like to see a regulatory environment more conducive to patient care in the home. We believe we have the opportunity as an industry to show the value that healthcare in the home provides, including lower costs, better outcomes and higher patient satisfaction.

We remain focused on acquisition growth opportunities. Our current acquisition pipeline collectively represents well over $100 million in adjusted EBITDA. The good news is that we have both strong free cash flow and a strong balance sheet. We have the ability to act on strategic opportunities that we identify across each of our business segments. With our operating team and scalable infrastructure in place, and with consumer preferences, aging demographics and the cost advantages of home-based care working in our favor, we are well-positioned to be an industry consolidator with an aging-in-place solution in a highly fragmented market.

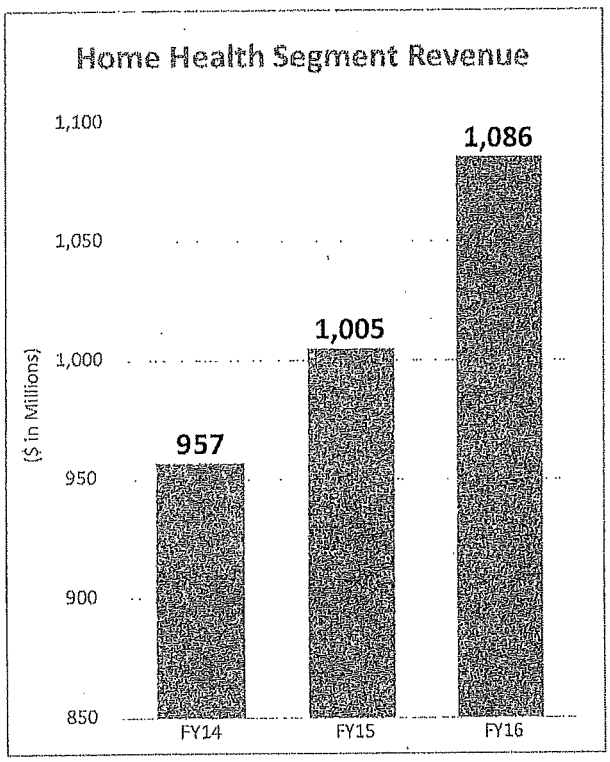
Regardless of the potential policy and regulatory changes driven by the federal government, providing the highest quality of care is fundamental for us. What matters most is to do right by our patients and their families. That commitment distinguishes us more than anything else from our competition, and serves as a major driver of future growth. Our goal remains nothing less than to be the partner of choice wherever our patients call home.

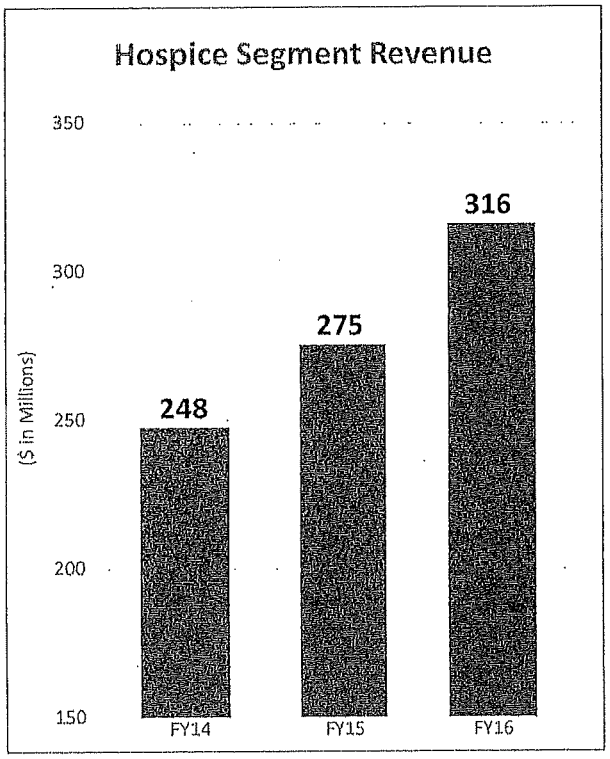
To our shareholders, thank you for your commitment to Amedisys. Despite the large-scale change that the organization initiated and implemented in 2016, we delivered solid results and built a strong foundation for the future. Of course, none of this would have been possible without the commitment of our more than 16,000 employees - your efforts keep exceeding our expectations. We expect to build upon our progress in 2017 and look forward to our continued success.

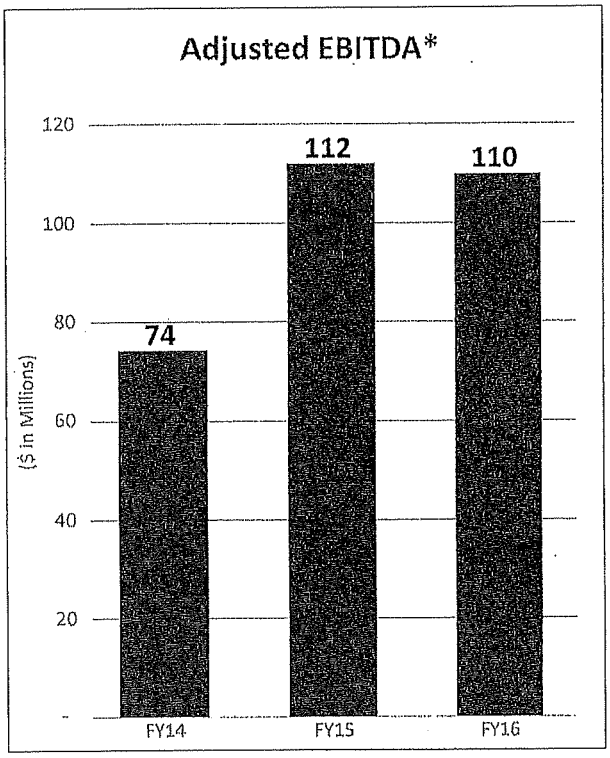


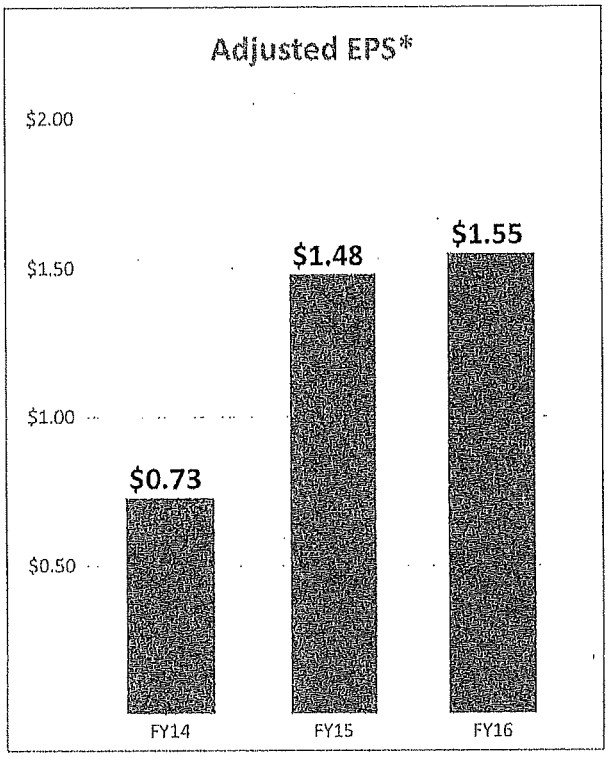
Paul Kusserow
President and Chief Executive Officer

2016 FINANCIALS









*The financial results for the years ended December 31, 2014, December 31, 2015 and December 31, 2016 are adjusted for certain items and should be considered non-GAAP financial measures. A reconciliation of these non-GAAP financial measures is included in the corresponding Form 8-K detailing annual results filed on February 28, 2017 and March 8, 2016.

TABLE OF CONTENTS

SPECIAL CAUTION CONCERNING FORWARD-LOOKING STATEMENTS

When included in this Annual Report on Form 10-K, or in other documents that we file with the Securities and Exchange Commission ("SEC") or in statements made by or on behalf of the Company, words like "believes," "belief," "expects," "plans," "anticipates," "intends," "projects," "estimates," "may," "might," "would," "should" and similar expressions are intended to identify forward-looking statements as defined by the Private Securities Litigation Reform Act of 1995. These forward-looking statements involve a variety of risks and uncertainties that could cause actual results to differ materially from those described therein. These risks and uncertainties include, but are not limited to the following: changes in Medicare and other medical payment levels, our ability to open care centers, acquire additional care centers and integrate and operate these care centers effectively, changes in or our failure to comply with existing federal and state laws or regulations or the inability to comply with new government regulations on a timely basis, competition in the healthcare industry, our ability to integrate our personal care segment into our business efficiently, changes in the case mix of patients and payment methodologies, changes in estimates and judgments associated with critical accounting policies, our ability to maintain or establish new patient referral sources, our ability to attract and retain qualified personnel, changes in payments and covered services due to the economic downturn and deficit spending by federal and state governments, future cost containment initiatives undertaken by third-party payors, our access to financing, our ability to meet debt service requirements and comply with covenants in debt agreements, business disruptions due to natural disasters or acts of terrorism, our ability to integrate, manage and keep our information systems secure, our ability to comply with requirements stipulated in our corporate integrity agreement and changes in law or developments with respect to any litigation relating to the Company, including various other matters, many of which are beyond our control.

Because forward-looking statements are inherently subject to risks and uncertainties, some of which cannot be predicted or quantified, you should not rely on any forward-looking statement as a prediction of future events. We expressly disclaim any obligation or undertaking and we do not intend to release publicly any updates or changes in our expectations concerning the forward-looking statements or any changes in events, conditions or circumstances upon which any forward-looking statement may be based, except as required by law. For a discussion of some of the factors discussed above as well as additional factors, see Part I, Item 1A, "Risk Factors" and Part II, Item 7, "Critical Accounting Estimates" within "Management's Discussion and Analysis of Financial Condition and Results of Operations."

Unless otherwise provided, "Amedisys," "we," "us," "our," and the "Company" refer to Amedisys, Inc. and our consolidated subsidiaries and when we refer to 2016, 2015 and 2014, we mean the twelve month period then ended December 31, unless otherwise provided.

A copy of this Annual Report on Form 10-K for the year ended December 31, 2016 as filed with the SEC, including all exhibits, is available on our internet website at http://www.amedisys.com on the "Investors" page under the "SEC Filings" link.

PART I

ITEM 1. BUSINESS

Overview

Amedisys, Inc. is a leading healthcare services company focused on bringing care to the home. Our operations involve servicing patients across the United States through our three operating divisions: home health, hospice and personal care. We deliver the care that is best for our patients, whether that is home-based recovery and rehabilitation after an operation or injury, care that empowers patients to manage a chronic disease, hospice care at the end of life, or providing assistance with daily activities through our personal care division.

We are among the largest, best established and most advanced providers of home health and hospice care in the United States, with 420 care centers in 34 states. Our 16,000 employees deliver the highest quality of care to the doorsteps of patients in need, making more than 7.5 million patient visits to 385,000 patients annually. Over 2,200 hospitals and 61,900 physicians nationwide have chosen us as a partner in post-acute care.

Our services are primarily paid for by Medicare due to the age demographics of our patient base (average age 81). Medicare represented approximately 78% to 82% of our net service revenue over the last three years. We remain focused on maintaining a profitable and strategically important managed care contract portfolio.

Amedisys is headquartered in Baton Rouge, Louisiana, with an executive office in Nashville, Tennessee. Our common stock is currently traded on NASDAQ Global Select Market under the trading symbol "AMED". Founded and incorporated in Louisiana in 1982, Amedisys was reincorporated as a Delaware corporation prior to becoming a publicly traded company in August, 1994.

Our strategy is to become the best choice for care wherever our patients call home by excelling in clinical distinction, operational excellence and efficiency and growth. Our mission is to provide compassionate home health, hospice and personal care services that apply the most advanced clinical practices toward allowing our patients to maintain a sense of independence, quality of life and dignity. We believe that focusing on providing excellent care and becoming an employer of choice across the United States will differentiate us from our competitors.

Our Home Health Segment:

Amedisys Home Health provides experienced, compassionate healthcare to help our patients recover from surgery or illness, live with chronic diseases, and prevent avoidable hospital readmissions with 327 care centers located in 32 states. Our care team includes skilled nurses who are trained and certified to administer medications, care for wounds, monitor vital signs and provide a wide range of other nursing services; therapists specialized in physical, speech and occupational therapy; and aides who assist our patients with completing important personal tasks.

We take an empowering approach to helping our patients and their families understand their condition, how to manage it and how to live life to the fullest with a chronic disease or other health condition. Our professional and compassionate clinicians are trained to understand the whole patient – not just their medical diagnosis.

This commitment to clinical distinction is evident in our clinical performance measures such as Star Ratings. In the Center for Medicare and Medicaid Services ("CMS") preview reports for the April 2017 release, the Quality of Patient Care star average across all Amedisys providers is 4.03. This number is subject to change for the final release, and CMS has indicated proposed changes that may impact star scores starting with the July 2017 release. Our goal is to have all of our care centers achieve a 4.0 Quality Star Rating, and we are implementing targeted action plans to continue to improve the quality of care we deliver for our patients across the country. Our Patient Satisfaction average as of the last known release was 3.76, outperforming the industry average of 3.67.

Our Hospice Segment:

Hospice is a special form of care that is designed to provide comfort and support for those who are dealing with a terminal illness. It is a compassionate form of care that promotes dignity and affirms quality of life for the patient, family members and other loved ones. We operate 79 hospice care centers in 21 states.

Individuals with a terminal illness such as heart disease, pulmonary disease, Alzheimer's, HIV/AIDS or cancer may be eligible for hospice care, if they have a life expectancy of six months or less.

At Amedisys Hospice, our focus is on building and retaining an exceptional team, delivering the highest quality care and service to our patients and their families, and establishing Amedisys as the preferred and preeminent hospice provider in each community we serve. In order to realize these goals, we invest in tailored training, development, and recognition programs for our employees, with specific focus in 2016 on the implementation of a new electronic medical record, employee skills training and leadership development. This has led to our team's consistent achievement at or above the national average in family satisfaction results and quality scores, as well as the trust of the healthcare community driving a 17% increase in new patient admissions and a 16% increase in census.

Another element of our approach is our outreach strategy to more fully reach the entire community of eligible patients. These outreach efforts have built our hospice patient population to more accurately represent the causes of death in the communities we serve, with a specific focus on heart disease, lung disease, and dementia in order to address the historical underrepresentation of non-cancer diagnoses.

By working to accept every patient with a life expectancy of six months or less who wants our compassionate care, we fulfill our hospice mission and strengthen our standing in the community.

Our Personal Care Segment:

On March 1, 2016, Amedisys acquired its first personal care company – an important step in executing our strategy of improving the continuity of care our patients receive as their clinical needs change. Our new segment was further expanded when we purchased the assets of Professional Profiles, Inc. on September 1, 2016. We now operate 14 personal-care care centers in Massachusetts.

Personal care provides assistance with the essential activities of daily living. We believe that personal care services are highly synergistic with our core skilled home health and hospice businesses, and that by acquiring these capabilities in one of our most successful regions we will realize these benefits quickly.

Responding to Changing Regulatory and Reimbursement Environment:

As the government continues to seek opportunities to refine payment models, we believe that our strategy of becoming a leader in providing a range of service across the at-home care center continuum positions us well for the future. Our ability to provide quality home health, hospice and personal care allows us to partner with health systems and managed care organizations to improve care coordination, reduce hospitalizations and lower costs.

Homecare Homebase Implementation:

During 2015, we made the strategic decision to discontinue AMS3, our third generation, proprietary operating system, and transition to Homecare Homebase ("HCHB"), a leading home health and hospice platform. We completed our rollout of HCHB during 2016 with all our care centers fully transitioned to our new platform as of November 1, 2016.

Acquisitions:

On March 1, 2016, we acquired Associated Home Care for a total purchase price of $27.7 million. Associated Home Care owned and operated nine personal-care care centers servicing the state of Massachusetts.

On September 1, 2016, we acquired the assets of four personal-care care centers in Massachusetts for a total purchase price of $4.4 million.

On October 20, 2016, we acquired the assets of a home health care center in New York for a total purchase price of $4.6 million.

Financial Information:

Financial information for our home health, hospice and personal care segments can be found in our consolidated financial statements included in this Annual Report on Form 10-K.

Our Employees

As of February 24, 2017, we employed approximately 16,000 employees, consisting of approximately 10,800 home health care employees, 2,800 hospice care employees, 1,800 personal care employees and 600 corporate and divisional support employees.

Payment for Our Services

Home Health Medicare

The Medicare home health benefit is available both for patients who need care following discharge from a hospital and patients who suffer from chronic conditions that require ongoing but intermittent care. As a condition of participation under Medicare, beneficiaries must be homebound (meaning that the beneficiary is unable to leave his/her home without a considerable and taxing effort), require intermittent skilled nursing, physical therapy or speech therapy services, and receive treatment under a plan of care established and periodically reviewed by a physician. Medicare rates are based on the severity of the patient's condition, his or her service needs and other factors relating to the cost of providing services and supplies, bundled into 60-day episodes of care. An episode starts with the first day a billable visit is performed and ends 60 days later or upon discharge, if earlier. If a patient is still in treatment on the 60th day, a recertification assessment is undertaken to determine whether the patient needs additional care. If the patient's physician determines that further care is necessary, another episode begins on the 61st day (regardless of whether a billable visit is rendered on that day) and ends 60 days later. The first day of a consecutive episode, therefore, is not necessarily the new episode's first billable visit.

Annually, the Medicare program base episodic rates are set through federal legislation, as follows:

Period	Base episode payment
January 1, 2014 through December 31, 2014	$2,869
January 1, 2015 through December 31, 2015	$2,961
January 1, 2016 through December 31, 2016	$2,965
January 1, 2017 through December 31, 2017	$2,990

Payments can be adjusted for: (a) an outlier payment if our patient's care was unusually costly (capped at 10% of total reimbursement per provider number); (b) a low utilization payment adjustment ("LUPA") if the number of visits during the episode was fewer than five; (c) a partial payment if our patient transferred to another provider or we received a patient from another provider before an episode was complete; (d) a payment adjustment based upon the level of therapy services required (with various incremental adjustments made for additional visits, with larger payment increases associated with the sixth, fourteenth and twentieth visit thresholds); (e) a payment adjustment if we are unable to perform periodic therapy assessments; (f) the number of episodes of care provided to a patient, regardless of whether the same home health provider provided care for the entire series of episodes; (g) changes in the base episode payments established by the Medicare program; (h) adjustments to the base

episode payments for case mix and geographic wages; and (i) recoveries of overpayments. Medicare can also make various adjustments to payments received if we are unable to produce appropriate billing documentation or acceptable authorizations. In addition, we make adjustments to Medicare revenue if we find that we are unable to obtain appropriate billing documentation, authorizations or face to face documentation.

Home Health Non-Medicare

Payments from Medicaid and private insurance carriers are episodic-based rates (60-day episode of care) or per-visit rates depending upon the terms and conditions established with such payors. Episodic-based rates paid by our non-Medicare payors are paid in a similar manner and subject to the same adjustments as discussed above for Medicare; however, these rates can vary based upon negotiated terms.

Hospice Medicare

The Medicare hospice benefit is also available to Medicare-eligible patients with terminal illnesses, certified by a physician, where life expectancy is six months or less. Medicare rates are based on standard prospective rates for delivering care over a base 90-day or 60-day period (90-day episodes of care for the first two episodes and 60-day episodes of care for any subsequent episodes). Payments are based on daily rates for each day a beneficiary is enrolled in the hospice benefit. Rates are set based on specific levels of care, are adjusted by a wage index to reflect health care labor costs across the country and are established annually through federal legislation. We make adjustments to Medicare revenue when we find we are unable to obtain appropriate billing documentation, authorizations or face to face documentation and other reasons unrelated to credit risk. The levels of care are routine care, general inpatient care, continuous home care and respite care. Beginning January 1, 2016, CMS has provided for two separate payment rates for routine care: payments for the first 60 days of care and care beyond 60 days. In addition to the two routine rates, on January 1, 2016, Medicare also began reimbursing for a service intensity add-on ("SIA"). The SIA is based on visits made in the last seven days of life by a registered nurse ("RN") or medical social worker ("MSW") for patients in a routine level of care.

We bill Medicare for hospice services on a monthly basis and our payments are subject to two fixed annual caps, which are assessed on a provider number basis. Generally, each hospice care center has its own provider number. However, where we have created branch care centers to help our parent care centers serve a geographic location, the parent and branch may have the same provider number. The annual caps per patient, known as hospice caps, are calculated and published by the Medicare fiscal intermediary on an annual basis and cover the twelve month period from November 1 through October 31. The caps can be subject to annual and retroactive adjustments, which can cause providers to be required to reimburse the Medicare program if such caps are exceeded.

The two caps are detailed below:

- ***Inpatient Cap.*** When we provide hospice care on an inpatient basis, the payments that we are entitled to receive at the higher inpatient reimbursement rate are subject to a cap. This cap limits the number of days that are paid at the inpatient care rate (both respite and general) under a provider number to 20% of the total number of days of hospice care (both inpatient and in-home) that is furnished to all Medicare patients served by the provider. The daily Medicare payment rate for any inpatient days of service that exceed the cap is at the routine home care rate, and the provider is required to reimburse Medicare for any amounts it receives in excess of the cap; and
- ***Overall Payment Cap.*** This cap is calculated by the Medicare fiscal intermediary at the end of each hospice cap period to determine the maximum allowable payments per provider number. We estimate our potential cap exposure using information available for both inpatient day limits as well as per beneficiary cap amounts. The total cap amount for each provider is calculated by multiplying the number of beneficiaries electing hospice care during the period by a statutory amount that is indexed for inflation.

Our ability to stay within these limitations depends on a number of factors, each determined on a provider number basis, including the average length of stay and mix in level of care.

Hospice Non-Medicare

Non-Medicare payors pay at rates different from established Medicare rates for hospice services, which are based on separate, negotiated agreements. We bill and are paid by these non-Medicare payors based on such negotiated agreements.

Personal Care Non-Medicare

Personal care payments are received from payor clients including state and local governmental agencies, managed care organizations, commercial insurers and private consumers, based on rates that are either contractual or fixed by legislation.

Controls over Our Business System Infrastructure

We establish and maintain processes and controls over coding, clinical operations, billing, patient recertifications and compliance to help monitor and promote compliance with Medicare requirements.

- ***Coding*** – Specified diagnosis codes are assigned to each of our patients based on their particular health condition and ailment (such as diabetes, coronary artery disease or congestive heart failure). Because coding regulations are complex and are subject to frequent change, we maintain controls surrounding our coding process. In order to reduce associated risk of coding failures, we provide coding training and annual update training to clinical assessment managers; provide coding training during orientation for new employees; provide monthly specialized coding education; obtain outside expert coding instruction; have certified coders code all patient outcome and assessment information sets ("OASIS") and have automated coding edits based on pre-defined compliance metrics in our point of care ("POC") system.
- ***Clinical Operations*** – Regulatory requirements allow patients to be admitted to home health care if they are considered homebound and require skilled nursing, physical therapy or speech therapy services. These clinical services include: educating the patient about their disease; assessment and observation of disease status; delivery of clinical skills such as wound care; administration of injections or intravenous fluids; management and evaluation of a patient's plan of care; physical therapy services to assist patients with functional limitations and speech therapy services for speech or swallowing disorders. In order to help monitor and promote compliance with regulatory requirements, we provide education on Medicare Guidelines and Conditions of participation; hold recurrent homecare regulatory education; utilize outside expert regulatory services; and have a toll-free hotline to offer additional assistance.
- ***Billing*** – We maintain controls over our billing processes to help promote accurate and complete billing. In order to promote the accuracy and completeness of our billing, we have annual billing compliance testing; use formalized billing attestations; limit access to billing systems; hold weekly operational meetings; use automated daily billing operational indicators; and take prompt corrective action with employees who knowingly fail to follow our billing policies and procedures in accordance with a well-publicized "Zero Tolerance Policy".
- ***Patient Recertification*** – In order to be recertified for an additional episode of care, a patient must continue to meet qualifying criteria and have a continuing medical need. This could be caused by changes in the patient's condition requiring changes to the patient's medical regimen or modified care protocols within the episode of care. The patient's progress towards goals is evaluated prior to recertification. As with the initial episode of care, a recertification requires orders from the patient's physician. Before any employee recommends recertification to a physician, we conduct a care center level, multidisciplinary care team conference.

- *Compliance* – The quality and reputation of our personnel and operations are critical to our success. We develop, implement and maintain ethics, compliance and quality improvement programs as a component of the centralized corporate services provided to our home health and hospice care centers. Our ethics and compliance program includes a Code of Ethical Business Conduct for our employees, officers, directors and affiliates and a process for reporting regulatory or ethical concerns to our Chief Compliance Officer through a confidential hotline, which is augmented by exit interviews of departing employees and monthly interviews with randomly-selected, current employees. We promote a culture of compliance within our company through persistent messages from our senior leadership to our employees stressing the importance of strict compliance with legal requirements and company policies and procedures. We also employ a comprehensive compliance training program that includes mandatory compliance training and testing for all new employees upon hire and annually for all staff thereafter. In addition to our compliance training, we also conduct numerous proactive, compliance audits focusing on key risk areas, which are conducted by clinical auditors who work for our Compliance Department.

Our Regulatory Environment

We are highly regulated by federal, state and local authorities. Regulations and policies frequently change, and we monitor changes through trade and governmental publications and associations. Our home health and hospice subsidiaries are certified by CMS and therefore are eligible to receive payment for services through the Medicare system.

We are also subject to federal, state and local laws and regulations dealing with issues such as occupational safety, employment, medical leave, insurance, civil rights, discrimination, building codes, environmental issues and adverse event reporting and recordkeeping. Federal, state and local governments are expanding the number of regulatory requirements on businesses.

We have set forth below a discussion of the regulations that we believe most significantly affect our home health and hospice businesses.

Licensure, Certificates of Need (CON) and Permits of Approval (POA)

Home health and hospice care centers operate under licenses granted by the health authorities of their respective states. Additionally, certain states, including a number in which we operate, carefully restrict new entrants into the market based on demographic and/or demonstrative usage of additional providers. In such states, expansion by existing providers or entry into the market by new providers is permitted only where a given amount of unmet need exists, resulting either from population increases or a reduction in competing providers. These states ration the entry of new providers or services and the expansion of existing providers or services in their markets through a CON process, which is periodically evaluated and updated as required by applicable state law. Currently, state health authorities in 17 states and the District of Columbia require a CON or, in the State of Arkansas, a POA, in order to establish and operate a home health care center, and state health authorities in 12 states and the District of Columbia require a CON to operate a hospice care center.

We operate home health care centers in the following CON states: Alabama, Arkansas (POA), Georgia, Kentucky, Maryland, Mississippi, New Jersey, New York, North Carolina, South Carolina, Tennessee and West Virginia, as well as the District of Columbia. We provide hospice related services in the following CON states: Alabama, Maryland, North Carolina, Tennessee and West Virginia.

In every state where required, our care centers possess a license and/or CON or POA issued by the state health authority that determines the local service areas for the home health or hospice care center. In general, the process for opening a home health or hospice care center begins by a provider submitting an application for licensure and certification to the state and federal regulatory bodies, which is followed by a testing period of

transmitting data from the applicant to CMS. Once this process is complete, the care center receives a provider agreement and corresponding number and can begin billing for services that it provides unless a CON or POA is required. For those states that require a CON or POA, the provider must also complete a separate application process before billing can commence and receive required approvals for capital expenditures exceeding amounts above prescribed thresholds.

State CON and POA laws generally provide that, prior to the addition of new capacity, the construction of new facilities or the introduction of new services, a designated state health planning agency must determine that a need exists for those beds, facilities or services. The process is intended to promote comprehensive health care planning, assist in providing high-quality health care at the lowest possible cost and avoid unnecessary duplication by ensuring that only those health care facilities and operations that are needed will be built and opened.

Medicare Participation

Our care centers must comply with regulations promulgated by the United States Department of Health and Human Services and CMS in order to participate in the Medicare program and receive Medicare payments. Among other things, these regulations, known as "conditions of participation ("COPs")," relate to the type of facility, its personnel and its standards of medical care, as well as its compliance with state and local laws and regulations. CMS has adopted alternative sanction enforcement options which allow CMS (i) effective as of July 1, 2013, to impose temporary management, direct plans of correction, or direct training, and (ii) effective as of July 1, 2014, to impose payment suspensions and civil monetary penalties in each case on providers out of compliance with the conditions of participation. CMS issued a proposed rule on October 9, 2014, revising the current home health conditions of participation. We provided public comments on the proposed changes. On January 12, 2017, CMS finalized the new COPs and published them in the Federal Register. The new COPs are currently scheduled to go into effect on July 13, 2017, though that could be further delayed.

CMS has engaged a number of third party firms, including Recovery Audit Contractors ("RACs"), Program Safeguard Contractors ("PSCs"), Zone Program Integrity Contractors ("ZPICs") and Medicaid Integrity Contributors ("MICs"), to conduct extensive reviews of claims data and state and Federal Government health care program laws and regulations applicable to healthcare providers. These audits evaluate the appropriateness of billings submitted for payment. In addition to identifying overpayments, audit contractors can refer suspected violations of law to government enforcement authorities.

Federal and State Anti-Fraud and Anti-Kickback Laws

As a provider under the Medicare and Medicaid systems, we are subject to various anti-fraud and abuse laws, including the Federal health care programs' anti-kickback statute and, where applicable, its state law counterparts. Subject to certain exceptions, these laws prohibit any offer, payment, solicitation or receipt of any form of remuneration to induce or reward the referral of business payable under a government health care program or in return for the purchase, lease, order, arranging for, or recommendation of items or services covered under a government health care program. Affected government health care programs include any health care plans or programs that are funded by the United States government (other than certain federal employee health insurance benefits/programs), including certain state health care programs that receive federal funds, such as Medicaid. A related law forbids the offer or transfer of anything of value, including certain waivers of co-payment obligations and deductible amounts, to a beneficiary of Medicare or Medicaid that is likely to influence the beneficiary's selection of health care providers, again subject to certain exceptions. Violations of the anti-fraud and abuse laws can result in the imposition of substantial civil and criminal penalties and, potentially, exclusion from furnishing services under any government health care program. In addition, the states in which we operate generally have laws that prohibit certain direct or indirect payments or fee-splitting arrangements between health care providers where they are designed to obtain the referral of patients from a particular provider.

Stark Laws

Congress adopted legislation in 1989, known as the "Stark Law," that generally prohibited a physician from ordering clinical laboratory services for a Medicare beneficiary where the entity providing that service has a financial relationship (including direct or indirect ownership or compensation relationships) with the physician (or a member of his/her immediate family), and further prohibits such entity from billing for or receiving payment for such services, unless a specified exception is available. The Stark Law was amended through additional legislation, known as "Stark II," which became effective January 1, 1993. That legislation extended the Stark Law prohibitions beyond clinical laboratory services to a more extensive list of statutorily defined "designated health services," which includes, among other things, home health services, durable medical equipment and outpatient prescription drugs. Violations of the Stark Law result in payment denials and may also trigger civil monetary penalties and program exclusion. Several of the states in which we conduct business have also enacted statutes similar in scope and purpose to the federal fraud and abuse laws and the Stark Laws. These state laws may mirror the Federal Stark Laws or may be different in scope. The available guidance and enforcement activity associated with such state laws varies considerably.

Federal and State Privacy and Security Laws

The Administrative Simplification provisions of the Health Insurance Portability and Accountability Act of 1996, as amended ("HIPAA"), directed that the Secretary of the U.S. Department of Health and Human Services ("HHS") promulgate regulations prescribing standard requirements for electronic health care transactions and establishing protections for the privacy and security of individually identifiable health information, known as "protected health information." The HIPAA transactions regulations establish form, format and data content requirements for most electronic health care transactions, such as health care claims that are submitted electronically. The HIPAA privacy regulations establish comprehensive requirements relating to the use and disclosure of protected health information. The HIPAA security regulations establish minimum standards for the protection of protected health information that is stored or transmitted electronically. Violations of the privacy and security regulations are punishable by civil and criminal penalties.

The American Recovery and Economic Reinvestment Act of 2009 ("ARRA"), signed into law by President Obama on February 17, 2009, contained significant changes to the privacy and security provisions of HIPAA, including major changes to the enforcement provisions. Among other things, ARRA significantly increased the amount of civil monetary penalties that can be imposed for violations of HIPAA. ARRA also authorized state attorneys general to bring civil enforcement actions under HIPAA. These enhanced penalties and enforcement provisions went into effect immediately upon enactment of ARRA. ARRA also required that HHS promulgate regulations requiring that certain notifications be made to individuals, to HHS and potentially to the media in the event of breaches of the privacy of protected health information. These breach notification regulations went into effect on September 23, 2009, and HHS began to enforce violations on February 22, 2010. Violations of the breach notification provisions of HIPAA can trigger the increased civil monetary penalties described above.

ARRA's numerous other changes to HIPAA have delayed effective dates and require the issuance of implementing regulations by HHS. The Health Information Technology for Economic and Clinical Health ("HITECH") Act was enacted in conjunction with ARRA. On January 25, 2013, HHS issued final modifications to the HIPAA Privacy, Security, and Enforcement Rules mandated by the HITECH Act, which had been previously issued as a proposed rule on July 14, 2010. Among other things, these modifications make business associates of covered entities directly liable for compliance with certain HIPAA requirements, strengthen the limitations on the use and disclosure of protected health information without individual authorizations, and adopt the additional HITECH Act enhancements, including enforcement of noncompliance with HIPAA due to willful neglect. The changes to HIPAA enacted as part of ARRA reflect a Congressional intent that HIPAA's privacy and security provisions be more strictly enforced. It is likely that these changes will stimulate increased enforcement activity and enhance the potential that health care providers will be subject to financial penalties for violations of HIPAA.

In addition to the federal HIPAA regulations, most states also have laws that protect the confidentiality of health information. Also, in response to concerns about identity theft, many states have adopted so-called "security breach" notification laws that may impose requirements regarding the safeguarding of personal information, such as social security numbers and bank and credit card account numbers, and that impose an obligation to notify persons when their personal information has or may have been accessed by an unauthorized person. Some state security breach notification laws may also impose physical and electronic security requirements. Violation of state security breach notification laws can trigger significant monetary penalties.

The False Claims Act

The Federal False Claims Act gives the Federal Government an additional way to police false bills or requests for payment for health care services. Under the False Claims Act, the government may fine any person who knowingly submits, or participates in submitting, claims for payment to the Federal Government which are false or fraudulent, or which contain false or misleading information. Any person who knowingly makes or uses a false record or statement to avoid paying the Federal Government, or knowingly conceals or avoids an obligation to pay money to the Federal Government, may also be subject to fines under the False Claims Act. Under the False Claims Act, the term "person" means an individual, company, or corporation. The Federal Government has widely used the False Claims Act to prosecute Medicare and other governmental program fraud in areas such as violations of the Federal anti-kickback statute or the Stark Laws, coding errors, billing for services not provided, and submitting false cost reports. The False Claims Act has also been used to prosecute people or entities that bill services at a higher reimbursement rate than is allowed and that bill for care that is not medically necessary. In addition to government enforcement, the False Claims Act authorizes private citizens to bring qui tam or "whistleblower" lawsuits, greatly extending the practical reach of the False Claims Act. The penalty for violation of the False Claims Act is a minimum of $5,500 for each fraudulent claim plus three times the amount of damages caused to the government as a result of each fraudulent claim.

The Fraud Enforcement and Recovery Act of 2009 ("FERA") amended the False Claims Act with the intent of enhancing the powers of government enforcement authorities and whistleblowers to bring False Claims Act cases. In particular, FERA attempts to clarify that liability may be established not only for false claims submitted directly to the government, but also for claims submitted to government contractors and grantees. FERA also seeks to clarify that liability exists for attempts to avoid repayment of overpayments, including improper retention of federal funds. FERA also included amendments to False Claims Act procedures, expanding the government's ability to use the Civil Investigative Demand process to investigate defendants, and permitting government complaints in intervention to relate back to the filing of the whistleblower's original complaint. FERA is likely to increase both the volume and liability exposure of False Claims Act cases brought against health care providers.

On February 12, 2016, CMS finalized the so-called "60-day rule," which is the obligation of providers to report and return Medicare overpayments within 60 days of identifying the same. A provider who retains overpayments beyond 60 days may be liable under the False Claims Act. "Identification" is identified as when a person "has, or should have through the exercise of reasonable diligence," identified and quantified the amount of an overpayment. The final rule also established a six year lookback period, meaning overpayments must be reported and returned if a person identifies the overpayment within six years of the date the overpayment was received. Providers must report and return overpayments even if they did not cause the overpayment.

In June 2016, the Department of Justice issued a rule that more than doubles civil monetary penalties under the False Claims Act. These increases took effect on August 1, 2016 and apply to False Claims Act violations after November 2, 2015.

In addition to the False Claims Act, the Federal Government may use several criminal statutes to prosecute the submission of false or fraudulent claims for payment to the Federal Government. Many states have similar false claims statutes that impose liability for the types of acts prohibited by the False Claims Act. As part of the Deficit

Reduction Act of 2005 (the "DRA"), Congress provided states an incentive to adopt state false claims acts consistent with the Federal False Claims Act. Additionally, the DRA required providers who receive $5 million or more annually from Medicaid to include information on Federal and state false claims acts, whistleblower protections and the providers' own policies on detecting and preventing fraud in their written employee policies.

Civil Monetary Penalties

The United States Department of Health and Human Services may impose civil monetary penalties upon any person or entity who presents, or causes to be presented, certain ineligible claims for medical items or services. The amount of penalties varies, depending on the offense, from $2,000 to $50,000 per violation. In addition, persons who have been excluded from the Medicare or Medicaid program and still retain ownership in a participating entity, or who contract with excluded persons, may be penalized. Penalties also are applicable in certain other cases, including violations of the Federal anti-kickback statute, Stark Law or False Claims Act, and payments to limit certain patient services and improper execution of statements of medical necessity.

FDA Regulation

The U.S. Food and Drug Administration ("FDA") regulates medical device user facilities, which include home health care providers. FDA regulations require user facilities to report patient deaths and serious injuries to FDA and/or the manufacturer of a device used by the facility if the device may have caused or contributed to the death or serious injury of any patient. FDA regulations also require user facilities to maintain files related to adverse events and to establish and implement appropriate procedures to ensure compliance with the above reporting and recordkeeping requirements. User facilities are subject to FDA inspection, and noncompliance with applicable requirements may result in warning letters or sanctions including civil monetary penalties, injunction, product seizure, criminal fines and/or imprisonment.

Patient Protection and Affordable Care Act

In March 2010, comprehensive health care reform legislation was signed into law in the United States through the passage of the Patient Protection and Affordable Care Act and the Health Care and Education Reconciliation Act (collectively, "PPACA"). Since the 2016 election, it has been widely discussed that the PPACA will be "repealed and replaced." The effect of any major modification or repeal of the PPACA on our business, operations, or financial condition cannot be predicted at this time.

Even as of December 31, 2016, it is difficult to predict the full impact of PPACA due to the law's complexity and phased in effective dates, as well as our inability to foresee how CMS and other participants in the health care industry will respond to the choices available to them under the law. PPACA calls for a number of changes to be made over time that will likely have a significant impact upon the health care delivery system. For example, PPACA mandates decreases in home health reimbursement rates, including a four-year phased rebasing of the home health payment system that began in 2014 and will continue through 2017. These reimbursement changes are described in detail in Part II, Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations: Overview – Economic and Industry Factors." PPACA has established a number of new requirements impacting our business operations, and promises to give rise to other changes that could significantly impact our businesses in the future. For example, PPACA also mandates the creation of a home health value-based purchasing program, the development of quality measures, and the testing of alternative payment and delivery models, including ACOs and the Bundled Payments for Care Improvement initiative. See Part I, Item 1A, "Risk Factors: Risks Related to Laws and Government Regulations" for a more complete discussion of PPACA and the risks it presents to our businesses.

The Improving Medicare Post-Acute Care Transformation Act

In October 2014, the Improving Medicare Post-Acute Care Transformation Act ("IMPACT Act") was signed into law requiring the reporting of standardized patient assessment data for quality improvement, payment and discharge planning purposes across the spectrum of post-acute care providers ("PACs"), including skilled nursing facilities and home health agencies. The IMPACT Act requires PACs to begin reporting: (1) standardized patient assessment data at admission and discharge by October 1, 2018 for post-acute care providers, including skilled nursing facilities and by January 1, 2019 for home health agencies; (2) new quality measures, including functional status, skin integrity, medication reconciliation, incidence of major falls, and patient preference regarding treatment and discharge at various intervals between October 1, 2016 and January 1, 2019; and (3) resource use measures, including Medicare spending per beneficiary, discharge to community, and hospitalization rates of potentially preventable readmissions by October 1, 2016 for post-acute care providers, including skilled nursing facilities and by October 1, 2017 for home health agencies. Failure to report such data when required would subject a facility to a two percent reduction in market basket prices then in effect.

The IMPACT Act further requires HHS and the Medicare Payment Advisory Commission ("MedPAC"), a commission chartered by Congress to advise it on Medicare payment issues, to study alternative PAC payment models, including payment based upon individual patient characteristics and not care setting, with corresponding Congressional reports required based on such analysis. The IMPACT Act also included provisions impacting Medicare-certified hospices, including: (1) increasing survey frequency for Medicare-certified hospices to once every 36 months; (2) imposing a medical review process for facilities with a high percentage of stays in excess of 180 days; and (3) updating the annual aggregate Medicare payment cap.

The Comprehensive Care for Joint Replacement Bundled Payment Program

In November 2015, CMS announced the final Comprehensive Care for Joint Replacement bundled payment program ("CJR Program"). The CJR Program implements a mandatory payment model in which acute care hospitals in 67 metropolitan statistical areas will receive a bundled payment for all inpatient care provided in connection with a lower extremity joint replacement or reattachment procedure, as well as for all related care provided within a 90-day episode of care following discharge from such hospital. The bundled payment will be in lieu of separate payments provided to post-acute healthcare providers for services provided within such 90-day episode of care. The CJR Program will test this payment model over five performance periods between April 1, 2016 and December 31, 2020 to see if Medicare expenditures can be reduced while at the same time improving care coordination and preserving or enhancing the quality of care provided to Medicare beneficiaries.

Pre-Claim Review Demonstration for Home Health Services

On June 8, 2016, CMS announced the implementation of a three year Medicare pre-claim review demonstration for home health services provided to beneficiaries in the states of Illinois, Florida, Texas, Michigan and Massachusetts. The demonstration began in Illinois in August 2016 and will expand to Florida for home health services that begin on or after April 1, 2017. CMS is expected to announce staggered start dates for the other states in the coming months. The pre-claim review is a process through which a request for provisional affirmation of coverage is submitted for review before a final claim is submitted for payment. The pre-claim review demonstration may result in an increase in administrative costs or reimbursement delays related to home health services in such states, which could have an adverse effect on our results of operations and cash flow.

Home Health Groupings Model

In the Calendar Year 2017 Home Health Proposed Rule, released in July 2016, CMS provided information regarding potential changes to the Home Health Prospective Payment System ("HHPPS"), known as the Home Health Groupings Model ("HHGM"). Among a number of major differences from the current payment system, the HHGM would distinguish between referrals from institutions and those from the community, with

community referrals receiving lower payments. In addition, a 60-day episode would consist of two 30-day periods, each paid separately, with the initial 30-day period paid higher than any other period. CMS did not solicit comments at that time but noted that a more detailed Technical Report would be released with additional research and analysis conducted on the HHGM. The HHGM Technical Report was issued in December 2016. We are closely monitoring this potential change to the HHPPS and have joined industry stakeholders in directly engaging CMS on this concept and its impact on home health agencies. CMS has not indicated if HHGM will be included in the Calendar Year 2018 Home Health Proposed Rule which will be released in mid-summer 2017. At this time we are unable to determine the impact this potential change in reimbursement methodology might have on Amedisys.

Our Competitors

There are few barriers to entry in the home health and hospice jurisdictions that do not require certificates of need or permits of approval. Our primary competition in these jurisdictions comes from local privately and publicly-owned and hospital-owned health care providers. We compete based on the availability of personnel, the quality of services, expertise of visiting staff, and, in certain instances, on the price of our services. In addition, we compete with a number of non-profit organizations that finance acquisitions and capital expenditures on a tax-exempt basis or receive charitable contributions that are unavailable to us.

Available Information

Our company website address is www.amedisys.com. We use our website as a channel of distribution for important company information. Important information, including press releases, analyst presentations and financial information regarding our company, is routinely posted on and accessible on the Investor Relations subpage of our website, which is accessible by clicking on the tab labeled "Investors" on our website home page. Visitors to our website can also register to receive automatic e-mail and other notifications alerting them when new information is made available on the "Investors" subpage of our website. In addition, we make available on the Investors subpage of our website (under the link "SEC Filings"), free of charge, our annual reports on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, ownership reports on Forms 3, 4 and 5 and any amendments to those reports as soon as reasonably practicable after we electronically file or furnish such reports with the SEC. Further, copies of our Certificate of Incorporation and Bylaws, our Code of Ethical Business Conduct, our Corporate Governance Guidelines and the charters for the Audit, Compensation, Compliance and Ethics, Nominating and Corporate Governance and Quality of Care Committees of our Board are also available on the Investors subpage of our website (under the link "Corporate Governance"). Reference to our website does not constitute incorporation by reference of the information contained on the website and should not be considered part of this document.

Additionally, the public may read and copy any of the materials we file with the SEC at the SEC's Public Reference Room at 100 F Street, NE, Room 1580, Washington, D.C. 20549. Information on the operation of the Public Reference Room may be obtained by calling the SEC at (800) SEC-0330. Our electronically filed reports can also be obtained on the SEC's internet site at http://www.sec.gov.

ITEM 1A. RISK FACTORS

The risks described below, and risks described elsewhere in this Form 10-K, could have a material adverse effect on our business and consolidated financial condition, results of operations and cash flows and the actual outcome of matters as to which forward-looking statements are made in this Form 10-K. The risk factors described below and elsewhere in this Form 10-K are not the only risks faced by Amedisys. Our business and consolidated financial condition, results of operations and cash flows may also be materially adversely affected by factors that are not currently known to us, by factors that we currently consider immaterial or by factors that are not specific to us, such as general economic conditions.

If any of the following risks are actually realized, our business and consolidated financial condition, results of operations and cash flows could be materially adversely affected. In that case, the trading price of our common stock could decline.

You should refer to the explanation of the qualifications and limitations on forward-looking statements under "Special Caution Concerning Forward-Looking Statements." All forward-looking statements made by us are qualified by the risk factors described below.

Risks Related to Reimbursement

Federal and state changes to reimbursement and other aspects of Medicare and Medicaid could have a material adverse effect on our business and consolidated financial condition, results of operations and cash flows.

Our net service revenue is primarily derived from Medicare, which accounted for 78%, 80% and 82% of our revenue during 2016, 2015 and 2014, respectively. Payments received from Medicare are subject to changes made through federal legislation. When such changes are implemented, we must also modify our internal billing processes and procedures accordingly, which can require significant time and expense. These changes, as further detailed in Part I, Item 1, "Business: Payment for Our Services," can include changes to base episode payments and adjustments for home health services, changes to cap limits and per diem rates for hospice services and changes to Medicare eligibility and documentation requirements or changes designed to restrict utilization. Any such changes, including retroactive adjustments, adopted in the future by the Center for Medicare and Medicaid Services ("CMS") could have a material adverse effect on our business and consolidated financial condition, results of operations and cash flows.

In April of 2015, Congress passed and President Obama signed the so-called "doc fix" in the form of the Medicare Access and CHIP Reauthorization Act of 2015 ("MACRA"). This law replaces a long-standing physician reimbursement formula with statutorily prescribed physician payment updates and provisions. MACRA provides for an increase of 3% of the payment amount otherwise made for home health services furnished in rural areas, and sets Medicare reimbursements for post-acute care providers to increase by 1.0% in fiscal year 2018.

On September 1, 2016, CMS published annual changes in Medicaid hospice payment rates. As finalized, CMS estimates hospices will see a 2.1% ($350 million) increase in Medicare payments for fiscal year 2017, which reflects a market basket update of 2.7%, reduced by 0.6% as required by PPACA. CMS will reimburse hospice providers with two routine home care rates, to provide separate payment rates for the first 60 days of care and care beyond 60 days, a change that was instituted in 2016. In addition, the rule finalizes changes to the hospice quality reporting program, including new quality measures. The final rule also describes a potential future enhanced data collection instrument as well as plans to publicly display quality measures and other hospice data beginning in the middle of 2017. As of December 31, 2016, we estimate our impact of the 2017 final rule to be an increase of approximately 2%.

In October 2016, CMS issued a final rule to update and revise Medicare home health reimbursement rates for calendar year 2017. The final rule implements the final year of the four-year phase-in of the rebasing adjustments

to the home health prospective payment system rates as required by the PPACA. CMS also provides an update to the Home Health Quality Reporting Program. CMS estimates that the net impact of the payment provisions of the final rule will result in a decrease of 0.7% in reimbursement to home health providers. The decrease is the result of a 2.8% market basket increase minus 0.3% for productivity, a 2.3% decrease for the last year in the four-year rebasing cycle and a 0.97% decrease for the second year in a three-year series of cuts for nominal case mix growth. Our impact could differ depending on differences in the wage index and the impact of coding and outlier changes. As of December 31, 2016, we estimate our impact of the 2017 final rule to be a decrease of approximately 2%.

On February 2, 2016 CMS published a final rule adding new requirements for Medicaid home health services. Among other things, the final rule requires that for the initial ordering of home health services, the physician must document that a face-to-face encounter that is related to the primary reason the beneficiary requires home health services occurred no more than 90 days before or 30 days after the start of services. The final rule requires that for the initial ordering of certain medical equipment, the physician or authorized non-physician practitioner must document that a face-to-face encounter that is related to the primary reason the beneficiary requires medical equipment occurred no more than 6 months prior to the start of services. Although the final rule's stated effective date is July 1, 2016, CMS created an exception for state legislation by giving state agencies that require state legislation to until July 1, 2017 or July 1, 2018 to publish requirements imposed by the rule.

There are continuing efforts to reform governmental health care programs that could result in major changes in the health care delivery and reimbursement system on a national and state level, including changes directly impacting the reimbursement systems for our home health and hospice care centers. Though we cannot predict what, if any, reform proposals will be adopted, health care reform and legislation may have a material adverse effect on our business and our financial condition, results of operations and cash flows through decreasing payments made for our services.

We could be affected adversely by the continuing efforts of governmental payors to contain health care costs. We cannot assure you that reimbursement payments under governmental payor programs, including Medicare supplemental insurance policies, will remain at levels comparable to present levels or will be sufficient to cover the costs allocable to patients eligible for reimbursement pursuant to these programs. Any such changes could have a material adverse effect on our business and consolidated financial condition, results of operations and cash flows.

Our hospice operations are subject to two annual Medicare caps. If such caps were to be exceeded by any of our hospice providers, our business and consolidated financial condition, results of operations and cash flows could be materially adversely affected.

With respect to our hospice operations, overall payments made by Medicare to each provider number (generally corresponding to a hospice care center) are subject to an inpatient cap amount and an overall payment cap, which are calculated and published by the Medicare fiscal intermediary on an annual basis covering the period from November 1 through October 31. If payments received by any one of our hospice provider numbers exceeds either of these caps, we may be required to reimburse the Medicare program for payments received in excess of the caps, which could have a material adverse effect on our business and consolidated financial condition, results of operations and cash flows.

Quality reporting requirements may negatively impact Medicare reimbursement.

Hospice quality reporting was mandated by PPACA, which directs the Secretary to establish quality reporting requirements for hospice programs. For fiscal year 2014, and each subsequent year, failure to submit required quality data will result in a 2 percentage point reduction to the market basket percentage increase for that fiscal year. This quality reporting program is currently "pay-for-reporting," meaning it is the act of submitting data that determines compliance with program requirements.

Similarly, in the Calendar Year 2015 Home Health Final Rule, CMS proposed to establish a new "Pay-for-Reporting Performance Requirement" with which provider compliance with quality reporting program requirements can be measured. Home health agencies that do not submit quality measure data to CMS are subject to a 2.0% reduction in their annual home health payment update percentage. Home health agencies are required to report prescribed quality assessment data for a minimum of 70.0% of all patients with episodes of care that occur on or after July 1, 2015. This compliance threshold increases by 10.0% in each of two subsequent periods--i.e., for episodes beginning on or after July 1, 2016 and before June 30, 2017, home health agencies must score at least 80%, and for episodes beginning on or after July 1, 2017 and thereafter, the required performance level is at least 90%.

The Improving Medicare Post-Acute Care Transformation Act of 2014 (the "IMPACT Act") requires the submission of standardized data by home health agencies and other providers. Specifically, the IMPACT Act requires, among other significant activities, the reporting of standardized patient assessment data with regard to quality measures, resource use, and other measures. Failure to report data as required will subject providers to a 2% reduction in market basket prices then in effect. Additionally, reporting activities associated with the IMPACT Act are anticipated to be quite burdensome.

There can be no assurance that all of our agencies will continue to meet quality reporting requirements in the future which may result in one or more of our agencies seeing a reduction in its Medicare reimbursements. Regardless, we, like other healthcare providers, are likely to incur additional expenses in an effort to comply with additional and changing quality reporting requirements.

Any economic downturn, deepening of an economic downturn, continued deficit spending by the Federal Government or state budget pressures may result in a reduction in payments and covered services.

Adverse developments in the United States could lead to a reduction in Federal Government expenditures, including governmentally funded programs in which we participate, such as Medicare and Medicaid. In addition, if at any time the Federal Government is not able to meet its debt payments unless the federal debt ceiling is raised, and legislation increasing the debt ceiling is not enacted, the Federal Government may stop or delay making payments on its obligations, including funding for government programs in which we participate, such as Medicare and Medicaid. Failure of the government to make payments under these programs could have a material adverse effect on our business and consolidated financial condition, results of operations and cash flows. Further, any failure by the United States Congress to complete the federal budget process and fund government operations may result in a Federal Government shutdown, potentially causing us to incur substantial costs without reimbursement under the Medicare program, which could have a material adverse effect on our business and consolidated financial condition, results of operations and cash flows. As an example, the failure of the 2011 Joint Select Committee to meet its Deficit Reduction goal resulted in an automatic reduction in Medicare home and hospice payments of 2% beginning April 1, 2013.

Historically, state budget pressures have resulted in reductions in state spending. Given that Medicaid outlays are a significant component of state budgets, we can expect continuing cost containment pressures on Medicaid outlays for our services.

In addition, sustained unfavorable economic conditions may affect the number of patients enrolled in managed care programs and the profitability of managed care companies, which could result in reduced payment rates and could have a material adverse effect on our business and consolidated financial condition, results of operations and cash flows.

Future cost containment initiatives undertaken by private third party payors may limit our future revenue and profitability.

Our non-Medicare revenue and profitability are affected by continuing efforts of third party payors to maintain or reduce costs of health care by lowering payment rates, narrowing the scope of covered services, increasing case

management review of services and negotiating pricing. There can be no assurance that third party payors will make timely payments for our services, and there is no assurance that we will continue to maintain our current payor or revenue mix. We are continuing our efforts to develop our non-Medicare sources of revenue and any changes in payment levels from current or future third party payors could have a material adverse effect on our business and consolidated financial condition, results of operations and cash flows.

Risks Related to Laws and Government Regulations

We are operating under a Corporate Integrity Agreement. Violations of this agreement could result in substantial penalties or exclusion from participation in the Medicare program.

On April 23, 2014, with no admissions of liability on our part, we entered into a settlement agreement with the U.S. Department of Justice relating to certain of our clinical and business operations. Concurrently with our entry into this agreement, we entered into a Corporate Integrity Agreement ("CIA") with the Office of Inspector General-HHS ("OIG"). The CIA, which has a term of five years, formalizes various aspects of our already existing ethics and compliance programs and contains other requirements designed to help ensure our ongoing compliance with federal health care program requirements. Among other things, the CIA requires us to maintain our existing compliance program, executive compliance committee and compliance committee of the Board of Directors; provide certain compliance training; continue screening new and current employees to ensure they are eligible to participate in federal health care programs; engage an independent review organization ("IRO") to perform certain auditing and reviews and prepare certain reports regarding our compliance with federal health care programs, our billing submissions to federal health care programs and our compliance and risk mitigation programs; and provide certain reports and management certifications to the OIG. Additionally, the CIA specifically requires that we report substantial overpayments that we discover we have received from the federal health care programs, as well as probable violations of federal health care laws. Upon breach of the CIA, we could become liable for payment of certain stipulated penalties, or could be excluded from participation in federal health care programs. Although we believe that we are currently in compliance with the CIA, any violations of the agreement could have a material adverse effect on our business and consolidated financial condition, results of operations and cash flows.

Pending civil litigation could have a material adverse effect on the Company.

We and certain of our current and former directors, senior executives and other employees are defendants in a federal securities class action. We are also a defendant in several class action lawsuits. See Part II, Item 8, Note 10 – Commitments and Contingencies for a more detailed description of these proceedings. These actions remain in preliminary stages and it is not yet possible to assess their probable outcome or our potential liability, if any. We cannot provide any assurances that the legal and other costs associated with the defense of these actions, the amount of time required to be spent by management on these matters and the ultimate outcome of these actions will not have a material adverse effect on our business and consolidated financial condition, results of operations and cash flows.

Our insurance may not cover all of the costs associated with defending the pending federal securities class action, and any potential liability costs associated with this matter, and we maintain no insurance that covers any portion of the pending class action lawsuits.

With respect to the pending securities class action, we may be obligated to indemnify (and advance legal expenses to) both current and former officers, employees and directors in connection with this matter. We maintain directors' and officers' liability insurance that we believe should cover a portion of the legal costs and potential liability costs associated with this matter. However, such insurance coverage does not extend to all of these expenditures, and the insurance limits may be insufficient even with respect to expenditures that would otherwise be covered. Furthermore, our insurance carriers may seek to deny coverage in this matter, in which case we may have to fund the indemnification amounts owed to such directors and officers ourselves. We do not

maintain any insurance that will cover any part of the class action lawsuits in which we are defendants. If our insurance coverage is denied or is not adequate, it may have a material adverse effect on our business and consolidated financial condition, results of operations and cash flows.

We are subject to extensive government regulation. Any changes to the laws and regulations governing our business, or to the interpretation and enforcement of those laws or regulations, could have a material adverse effect on our business and consolidated financial condition, results of operations and cash flows.

Our industry is subject to extensive federal and state laws and regulations. See Part I, Item 1, "Our Regulatory Environment" for additional information on such laws and regulations. Federal and state laws and regulations impact how we conduct our business, the services we offer and our interactions with patients, our employees and the public and impose certain requirements on us such as:

- licensure and certification;
- adequacy and quality of health care services;
- qualifications of health care and support personnel;
- quality and safety of medical equipment;
- confidentiality, maintenance and security issues associated with medical records and claims processing;
- relationships with physicians and other referral sources;
- operating policies and procedures;
- policies and procedures regarding employee relations;
- addition of facilities and services;
- billing for services;
- requirements for utilization of services;
- documentation required for billing and patient care; and
- reporting and maintaining records regarding adverse events.

These laws and regulations, and their interpretations, are subject to change. Changes in existing laws and regulations, or their interpretations, or the enactment of new laws or regulations could have a material adverse effect on our business and consolidated financial condition, results of operations and cash flows by:

- increasing our administrative and other costs;
- increasing or decreasing mandated services;
- causing us to abandon business opportunities we might have otherwise pursued;
- decreasing utilization of services;
- forcing us to restructure our relationships with referral sources and providers; or
- requiring us to implement additional or different programs and systems.

Additionally, we are subject to various routine and non-routine reviews, audits and investigations by the Medicare and Medicaid programs and other federal and state governmental agencies, which have various rights and remedies against us if they establish that we have overcharged the programs or failed to comply with program requirements. Violation of the laws governing our operations, or changes in interpretations of those laws, could result in the imposition of fines, civil or criminal penalties, and the termination of our rights to participate in federal and state-sponsored programs and/or the suspension or revocation of our licenses. If we become subject to material fines, or if other sanctions or other corrective actions are imposed on us, our business and consolidated financial condition, results of operations and cash flows could be materially adversely affected.

We face periodic and routine reviews, audits and investigations under our contracts with federal and state government agencies and private payors, and these audits could have adverse findings that may negatively impact our business.

As a result of our participation in the Medicare and Medicaid programs, we are subject to various governmental reviews, audits and investigations to verify our compliance with these programs and applicable laws and regulations. We also are subject to audits under various government programs, including the RAC, ZPIC, PSC and MIC programs as well as in accordance with the requirements of our CIA, in which third party firms engaged by CMS or by the Company conduct extensive reviews of claims data and medical and other records to identify potential improper payments under the Medicare program. Private pay sources also reserve the right to conduct audits. If billing errors are identified in the sample of reviewed claims, the billing error can be extrapolated to all claims filed which could result in a larger overpayment than originally identified in the sample of reviewed claims. Our costs to respond to and defend reviews, audits and investigations may be significant and could have a material adverse effect on our business and consolidated financial condition, results of operations and cash flows. Moreover, an adverse review, audit or investigation could result in:

- required refunding or retroactive adjustment of amounts we have been paid pursuant to the federal or state programs or from private payors;
- state or federal agencies imposing fines, penalties and other sanctions on us;
- loss of our right to participate in the Medicare program, state programs, or one or more private payor networks; or
- damage to our business and reputation in various markets.

These results could have a material adverse effect on our business and consolidated financial condition, results of operations and cash flows.

If a care center fails to comply with the conditions of participation in the Medicare program, that care center could be subjected to sanctions or terminated from the Medicare program.

Each of our care centers must comply with required conditions of participation in the Medicare program. If we fail to meet the conditions of participation at a care center, we may receive a notice of deficiency from the applicable state surveyor. If that care center then fails to institute an acceptable plan of correction to remediate the deficiency within the correction period provided by the state surveyor, that care center could be terminated from the Medicare program or subjected to alternative sanctions. CMS outlined its alternative sanction enforcement options for home health care centers through a regulation published in 2012; under the regulation, CMS may impose temporary management, direct a plan of correction, direct training or impose payment suspensions and civil monetary penalties, in each case, upon providers who fail to comply with the conditions of participation. Termination of one or more of our care centers from the Medicare program for failure to satisfy the program's conditions of participation, or the imposition of alternative sanctions, could disrupt operations, require significant attention by management, or have a material adverse effect on our business and reputation and consolidated financial condition, results of operations and cash flows. CMS issued a proposed rule on October 9, 2014, revising the Medicare conditions of participation for home health care centers across the industry, with an unknown effective date. We provided public comments on the proposed changes, but do not know at this time what effect the finalized revisions will have on our operations, and there can be no assurances that the revisions will not have a material adverse effect on our business and consolidated financial condition, results of operations and cash flows.

We are subject to federal and state laws that govern our financial relationships with physicians and other health care providers, including potential or current referral sources.

We are required to comply with federal and state laws, generally referred to as "anti-kickback laws," that prohibit certain direct and indirect payments or other financial arrangements between health care providers that are

designed to encourage the referral of patients to a particular provider for medical services. In addition to these anti-kickback laws, the Federal Government has enacted specific legislation, commonly known as the "Stark Law," that prohibits certain financial relationships, specifically including ownership interests and compensation arrangements, between physicians (and the immediate family members of physicians) and providers of designated health services, such as home health care centers, to whom the physicians refer patients. Some of these same financial relationships are also subject to additional regulation by states. Although we believe we have structured our relationships with physicians and other potential referral sources to comply with these laws where applicable, we cannot assure you that courts or regulatory agencies will not interpret state and federal anti-kickback laws and/or the Stark Law and similar state laws regulating relationships between health care providers and physicians in ways that will adversely implicate our practices or that isolated instances of noncompliance will not occur. Violations of federal or state Stark or anti-kickback laws could lead to criminal or civil fines or other sanctions, including denials of government program reimbursement or even exclusion from participation in governmental health care programs, which could have a material adverse effect on our business and consolidated financial condition, results of operations and cash flows.

We may face significant uncertainty in the industry due to government health care reform.

The health care industry in the United States is subject to fundamental changes due to ongoing health care reform efforts and related political, economic and regulatory influences. In March 2010, comprehensive health care reform legislation was signed into law in the United States through the passage of the Patient Protection and Affordable Health Care Act and the Health Care and Education Reconciliation Act (collectively, "PPACA"). However, it is difficult to predict the full impact of PPACA due to the law's complexity and phased-in effective dates, as well as our inability to foresee how CMS and other participants in the health care industry will respond to the choices available to them under the law.

PPACA makes a number of changes to Medicare payment rates and also calls for a rebasing of the home health payment system that began in 2014 and will continue through 2017. These reimbursement changes are described in detail in Part II, Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations: Overview – Economic and Industry Factors."

Regulations implementing the provisions of the PPACA and related initiatives may similarly increase our costs, decrease our revenues, expose us to expanded liability or require us to revise the ways in which we conduct our business.

PPACA also calls for a number of other changes to be made over time that will likely have a significant impact upon the health care delivery system. For example, PPACA mandates creation of a home health value-based purchasing program, the development of quality measures, and decreases in home health reimbursement rates, including rebasing, as further described in Part II, Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations: Overview – Economic and Industry Factors."

In addition, various health care reform proposals similar to the federal reforms described above have also emerged at the state level, including in several states which we operate. We cannot predict with certainty what health care initiatives, if any, will be implemented at the state level, or what the ultimate effect of federal health care reform or any future legislation or regulation may have on us or on our business and consolidated financial condition, results of operations and cash flows.

In addition to impacting our Medicare businesses, PPACA may also significantly affect our non-Medicare businesses. PPACA makes many changes to the underwriting and marketing practices of private payors. The resulting economic pressures could prompt these payors to seek to lower their rates of reimbursement for the services we provide. At this time, it is not possible to estimate what impact PPACA may have on our non-Medicare businesses.

Finally, efforts to repeal or substantially modify provisions of the PPACA continue in Congress. The ultimate outcomes of legislative efforts to repeal, substantially amend, eliminate or reduce funding for the PPACA is unknown. While these attempts have not been successful to date, the results of the Presidential and Congressional elections in 2016 could have a significant impact on future efforts to amend or repeal PPACA. In addition to the prospect for legislative repeal or revision, the President and members of his administration hostile to the PPACA could seek to impose substantial changes upon the PPACA through administrative action, including revised regulation and other Executive Branch action. The effect of any major modification or repeal of the PPACA on our business, operations, or financial condition cannot be predicted, but could be materially adverse.

Risks Related to our Growth Strategies

Our growth strategy depends on our ability to acquire additional care centers and integrate and operate these care centers effectively. If our growth strategy is unsuccessful or we are not able to successfully integrate newly acquired care centers into our existing operations, our business and consolidated financial condition, results of operations and cash flows could be materially adversely affected.

We may not be able to fully integrate the operations of our acquired businesses with our current business structure in an efficient and cost-effective manner. Acquisitions involve significant risks and uncertainties, including difficulties in recouping partial episode payments and other types of misdirected payments for services from the previous owners; difficulties integrating acquired personnel and business practices into our business; the potential loss of key employees, referral sources or patients of acquired care centers; the delay in payments associated with change in ownership, control and the internal process of the Medicare fiscal intermediary; and the assumption of liabilities and exposure to unforeseen liabilities of acquired care centers. Further, the financial benefits we expect to realize from many of our acquisitions are largely dependent upon our ability to improve clinical performance, overcome regulatory deficiencies, improve the reputation of the acquired business in the community and control costs. The failure to accomplish any of these objectives or to effectively integrate any of these businesses could have a material adverse effect on our business and consolidated financial condition, results of operations and cash flows.

State efforts to regulate the establishment or expansion of health care providers could impair our ability to expand our operations.

Some states require health care providers (including skilled nursing facilities, hospice care centers, home health care centers and assisted living facilities) to obtain prior approval, known as a CON or POA, in order to commence operations. See Part I, Item 1, "Our Regulatory Environment" for additional information on CONs and POAs. If we are not able to obtain such approvals, our ability to expand our operations could be impaired, which could have a material adverse effect on our business and consolidated financial condition, results of operations and cash flows.

Federal regulation may impair our ability to consummate acquisitions or open new care centers.

Changes in federal laws or regulations may materially adversely impact our ability to acquire care centers or open new start-up care centers. For example, PPACA authorized CMS to impose temporary moratoria on the enrollment of new Medicare providers, if deemed necessary to combat fraud, waste or abuse under government programs. The moratoria on new enrollments may be applied to categories of providers or to specific geographic regions. In 2012, the OIG released a report that concluded Medicare had overpaid home health agencies due to inappropriate and questionable billing practices. Citing this report, in 2014, CMS adopted a temporary moratorium on new home health agencies and home health agency subunits in certain regions of Texas, Michigan, Florida and Illinois. On July 29, 2016, CMS announced it was extending such moratorium for an additional six months, and that the moratorium would be expanded statewide in each targeted state. If a moratorium is imposed on the enrollment of new home health or hospice providers in a geographic area we desire to service, it could have a material impact on our ability to open new care centers. Additionally, in 2010,

CMS implemented and amended a regulation known as the "36 Month Rule" that is applicable to home health care center acquisitions. Subject to certain exceptions, the 36 Month Rule prohibits buyers of certain home health care centers – those that either enrolled in Medicare or underwent a change in majority ownership fewer than 36 months prior to the acquisition – from assuming the Medicare billing privileges of the acquired care center. These changes in federal laws and regulations, and similar future changes, may further increase competition for acquisition targets and could have a material detrimental impact on our acquisition strategy.

We could face a variety of risks by expanding into our personal care line of business.

We established a personal care segment of our business with the acquisition of Associated Home Care, which closed on March 1, 2016. Risks of our entry into the new personal care segment include, without limitation: (i) potential diversion of management's time and other resources from our existing home health and hospice businesses; (ii) unanticipated liabilities or contingencies; (iii) the need for additional capital and other resources to expand into this new line of business; and (iv) inefficient integration of operational and management systems and controls. Entry into a new line of business may also subject us to new laws and regulations with which we are not familiar, and may lead to increased litigation and regulatory risk. If we are unable to successfully implement our growth strategies, our revenue and profitability may not grow as we expect, our competitiveness may be materially and adversely affected, and our reputation and business may be harmed.

Risks Related to our Operations

Because we are limited in our ability to control rates received for our services, our business and consolidated financial condition, results of operations and cash flows could be materially adversely affected if we are not able to maintain or reduce our costs to provide such services.

As Medicare is our primary payor and rates are established through federal legislation, we have to manage our costs of providing care to achieve a desired level of profitability. Additionally, non-Medicare rates are difficult for us to negotiate as such payors are under pressure to reduce their own costs. As a result, we manage our costs in order to achieve a desired level of profitability including, but not limited to, centralization of various processes, the use of technology and management of the number of employees utilized. If we are not able to continue to streamline our processes and reduce our costs, our business and consolidated financial condition, results of operations and cash flows could be materially adversely affected.

Our industry is highly competitive, with few barriers to entry in certain states.

There are few barriers to entry in home health markets that do not require a CON or POA. Our primary competition comes from local privately-owned and hospital-owned health care providers. We compete based on the availability of personnel; the quality of services, expertise of visiting staff; and in certain instances, on the price of our services. Increased competition in the future may limit our ability to maintain or increase our market share.

Further, the introduction of new and enhanced service offerings by others, in combination with industry consolidation and the development of strategic relationships by our competitors, could cause a decline in revenue or loss of market acceptance of our services or make our services less attractive. Additionally, we compete with a number of non-profit organizations that can finance acquisitions and capital expenditures on a tax-exempt basis or receive charitable contributions that are unavailable to us.

Managed care organizations and other third party payors continue to consolidate, which enhances their ability to influence the delivery of health care services. Consequently, the health care needs of patients in the United States are increasingly served by a smaller number of managed care organizations. These organizations generally enter into service agreements with a limited number of providers. Our business and consolidated financial condition, results of operations and cash flows could be materially adversely affected if these organizations terminate us as

a provider and/or engage our competitors as a preferred or exclusive provider. In addition, should private payors, including managed care payors, seek to negotiate additional discounted fee structures or the assumption by health care providers of all or a portion of the financial risk through prepaid capitation arrangements, our business and consolidated financial condition, results of operations and cash flows could be materially adversely affected.

If we are unable to react competitively to new developments, our operating results may suffer. Further, if states remove existing CONs or POAs, we would face increased competition in these states. For example, in 2013, the Governor of South Carolina vetoed funding for that state's CON program, effectively shutting down the program. Following a judicial challenge, the South Carolina Supreme Court ruled in April 2014 that the South Carolina Department of Health and Environmental Control was statutorily obligated to administer the CON program, regardless of the Governor's veto. Following this ruling, legislation has been introduced in the South Carolina House of Representatives for the purpose of limiting the application of that state's CON program. We do not know at this time what the outcome of this matter will be in South Carolina, and whether this will have any impact upon our operations. Similarly, there can be no assurances that other states will not seek to eliminate or limit their existing CON or POA programs in a similar manner, leading to increased competition in these states. Further, we cannot assure you that we will be able to compete successfully against current or future competitors, which could have a material adverse effect on our business and consolidated financial condition, results of operations and cash flows.

If we are unable to maintain relationships with existing patient referral sources, our business and consolidated financial condition, results of operations and cash flows could be materially adversely affected.

Our success depends on referrals from physicians, hospitals and other sources in the communities we serve and on our ability to maintain good relationships with existing referral sources. Our referral sources are not contractually obligated to refer patients to us and may refer their patients to other providers. Our growth and profitability depends, in part, on our ability to establish and maintain close working relationships with these patient referral sources and to increase awareness and acceptance of the benefits of home health and hospice care by our referral sources and their patients. Our loss of, or failure to maintain, existing relationships or our failure to develop new referral relationships could have a material adverse effect on our business and consolidated financial condition, results of operations and cash flows.

If we are unable to provide consistently high quality of care, our business will be adversely impacted.

Providing quality patient care is the cornerstone of our business. We believe that hospitals, physicians and other referral sources refer patients to us in large part because of our reputation for delivering quality care. Clinical quality is becoming increasingly important within our industry. Effective October 2012, Medicare began to impose a financial penalty upon hospitals that have excessive rates of patient readmissions within 30 days from hospital discharge. We believe this new regulation provides a competitive advantage to home health providers who can differentiate themselves based upon quality, particularly by achieving low patient acute care hospitalization readmission rates and by implementing disease management programs designed to be responsive to the needs of patients served by referring hospitals. We are focused intently upon improving our patient outcomes, particularly our patient acute care hospitalization readmission rates. If we should fail to attain our goals regarding acute care hospitalization readmission rates and other quality metrics, we expect our ability to generate referrals would be adversely impacted, which could have a material adverse effect upon our business and consolidated financial condition, results of operations and cash flows.

Our business depends on our information systems. Our inability to effectively integrate, manage and keep our information systems secure and operational could disrupt our operations.

Our business depends on effective, secure and operational information systems which include systems provided by external contractors and other service providers. Problems with, or the failure of, our technology and systems or any system upgrades or programming changes associated with such technology and systems, including any

problems we may experience with the implementation of the new clinical software system, could have a material adverse effect on data capture, medical documentation, billing, collections, assessment of internal controls and management and reporting capabilities. Any such problems or failures and the costs incurred in correcting any such problems or failures, could have a material adverse effect on our business and consolidated financial condition, results of operations and cash flows. Further, to the extent our external information technology contractors or other service providers become insolvent or fail to support the software or systems we have licensed from them, our operations could be materially adversely affected.

Our care centers also depend upon our information systems for accounting, billing, collections, risk management, quality assurance, human resources, payroll and other information. If we experience a reduction in the performance, reliability, or availability of our information systems, our operations and ability to produce timely and accurate reports could be materially adversely affected.

Our information systems and applications require continual maintenance, upgrading and enhancement to meet our operational needs. Our acquisition activity requires transitions and integration of various information systems. We regularly upgrade and expand our information systems' capabilities. If we experience difficulties with the transition and integration of information systems or are unable to implement, maintain, or expand our systems properly, we could suffer from, among other things, operational disruptions, regulatory problems and increases in administrative expenses.

We may be required to expend significant capital and other resources to protect against the threat of security breaches or to alleviate problems caused by breaches, including unauthorized access to patient data and personally identifiable information stored in our information systems, and the introduction of computer viruses or other malicious software programs to our systems. Our security measures may be inadequate to prevent security breaches and our business operations could be materially adversely affected by federal and state fines and penalties, legal claims or proceedings, cancellation of contracts and loss of patients if security breaches are not prevented.

We have installed privacy protection systems and devices on our network and POC laptops in an attempt to prevent unauthorized access to information in our database. However, our technology may fail to adequately secure the confidential health information and personally identifiable information we maintain in our databases. In such circumstances, we may be held liable to our patients and regulators, which could result in fines, litigation or adverse publicity that could have a material adverse effect on our business and consolidated financial condition, results of operations and cash flows. Even if we are not held liable, any resulting negative publicity could harm our business and distract the attention of management.

Further, our information systems are vulnerable to damage or interruption from fire, flood, power loss, telecommunications failure, break-ins and similar events. A failure to restore our information systems after the occurrence of any of these events could have a material adverse effect on our business and consolidated financial condition, results of operations and cash flows. Because of the confidential health information we store and transmit, loss of electronically stored information for any reason could expose us to a risk of regulatory action and litigation and possible liability and loss.

We believe we have all the necessary licenses from third parties to use technology and software that we do not own. A third party could, however, allege that we are infringing its rights, which may deter our ability to obtain licenses on commercially reasonable terms from the third party, if at all, or cause the third party to commence litigation against us. In addition, we may find it necessary to initiate litigation to protect our trade secrets, to enforce our intellectual property rights and to determine the scope and validity of any proprietary rights of others. Any such litigation, or the failure to obtain any necessary licenses or other rights, could materially and adversely affect our business.

Possible changes in the case mix of patients, as well as payor mix and payment methodologies, could have a material adverse effect on our business and consolidated financial condition, results of operations and cash flows.

Our revenue is determined by a number of factors, including our mix of patients and the rates of payment among payors. Changes in the case mix of our patients, payment methodologies or the payor mix among Medicare, Medicaid and private payors could have a material adverse effect on our business and consolidated financial condition, results of operations and cash flows.

Our failure to negotiate favorable managed care contracts, or our loss of existing favorable managed care contracts, could have a material adverse effect on our business and consolidated financial condition, results of operations and cash flows.

One of our strategies is to diversify our payor sources by increasing the business we do with managed care companies, and we strive to put in place favorable contracts with managed care payors. However, we may not be successful in these efforts. Additionally, there is a risk that the favorable managed care contracts that we put in place may be terminated, and managed care contracts typically permit the payor to terminate the contract without cause, on very short notice, typically 60 days, which can provide payors leverage to reduce volume or obtain favorable pricing. Our failure to negotiate and put in place favorable managed care contracts, or our failure to maintain in place favorable managed care contracts, could have a material adverse effect on our business and consolidated financial condition, results of operations and cash flows.

A write off of a significant amount of intangible assets or long-lived assets could have a material adverse effect on our consolidated financial condition and results of operations.

A significant and sustained decline in our stock price and market capitalization, a significant decline in our expected future cash flows, a significant adverse change in the business climate, or slower growth rates could result in the need to perform an impairment analysis under Accounting Standard Codification ("ASC") Topic 350 "Intangibles – Goodwill and Other" in future periods in addition to our annual impairment test. If we were to conclude that a write down of goodwill is necessary, then we would record the appropriate charge, which could result in material charges that are adverse to our consolidated financial condition and results of operations. See Part II, Item 8, Note 5 – Goodwill and Other Intangible Assets, Net to our consolidated financial statements for additional information.

Because we have grown in part through acquisitions, goodwill and other acquired intangible assets represent a substantial portion of our assets. Goodwill was approximately $289.0 million as of December 31, 2016 and if we make additional acquisitions, it is likely that we will record additional intangible assets in our consolidated financial statements. We also have long-lived assets consisting of property and equipment and other identifiable intangible assets of $83.8 million as of December 31, 2016, which we review both on a periodic basis for indefinite lived intangible assets as well as when events or circumstances indicate that the carrying amount of an asset may not be recoverable. If a determination that a significant impairment in value of our unamortized intangible assets or long-lived assets occurs, such determination could require us to write off a substantial portion of our assets. A write off of these assets could have a material adverse effect on our consolidated financial condition and results of operations.

A shortage of qualified registered nursing staff and other clinicians, such as therapists and nurse practitioners, could materially impact our ability to attract, train and retain qualified personnel and could increase operating costs.

We compete for qualified personnel with other healthcare providers. Our ability to attract and retain clinicians depends on several factors, including our ability to provide these personnel with attractive assignments and competitive salaries and benefits. We cannot be assured we will succeed in any of these areas. In addition, there

are shortages of qualified health care personnel in some of our markets. As a result, we may face higher costs of attracting clinicians and providing them with attractive benefit packages than we originally anticipated which could have a material adverse effect on our business and consolidated financial condition, results of operations and cash flows. In addition, if we expand our operations into geographic areas where health care providers historically have been unionized, or if any of our care center employees become unionized, being subject to a collective bargaining agreement may have a negative impact on our ability to timely and successfully recruit qualified personnel and may increase our operating costs. Generally, if we are unable to attract and retain clinicians, the quality of our services may decline and we could lose patients and referral sources, which could have a material adverse effect on our business and consolidated financial condition, results of operations and cash flows.

Our insurance liability coverage may not be sufficient for our business needs.

As a result of operating in the home health industry, our business entails an inherent risk of claims, losses and potential lawsuits alleging incidents involving our employees that are likely to occur in a patient's home. We maintain professional liability insurance to provide coverage to us and our subsidiaries against these risks. However, we cannot assure you claims will not be made in the future in excess of the limits of our insurance, nor can we assure you that any such claims, if successful and in excess of such limits, will not have a material adverse effect on our business and consolidated financial condition, results of operations and cash flows. Our insurance coverage also includes fire, property damage and general liability with varying limits. We cannot assure you that the insurance we maintain will satisfy claims made against us or that insurance coverage will continue to be available to us at commercially reasonable rates, in adequate amounts or on satisfactory terms. Any claims made against us, regardless of their merit or eventual outcome, could damage our reputation and business.

We may be subject to substantial malpractice or other similar claims.

The services we offer involve an inherent risk of professional liability and related substantial damage awards. As of February 24, 2017, we had approximately 16,000 employees (10,800 home health, 2,800 hospice, 1,800 personal care and 600 corporate employees). In addition, we employ direct care workers on a contractual basis to support our existing workforce. Due to the nature of our business, we, through our employees and caregivers who provide services on our behalf, may be the subject of medical malpractice claims. A court could find these individuals should be considered our agents, and, as a result, we could be held liable for their acts or omissions. We cannot predict the effect that any claims of this nature, regardless of their ultimate outcome, could have on our business or reputation or on our ability to attract and retain patients and employees. While we maintain malpractice liability coverage that we believe is appropriate given the nature and breadth of our operations, any claims against us in excess of insurance limits, or multiple claims requiring us to pay deductibles, could have a material adverse effect on our business and consolidated financial condition, results of operations and cash flows.

If we are unable to maintain our corporate reputation, our business may suffer.

Our success depends on our ability to maintain our corporate reputation, including our reputation for providing quality patient care and for compliance with Medicare requirements and the other laws to which we are subject. Adverse publicity surrounding any aspect of our business, including the death or disability of any of our patients due to our failure to provide proper care, or due to any failure on our part to comply with Medicare requirements or other laws to which we are subject, could negatively affect our Company's overall reputation and the willingness of referral sources to refer patients to us.

We depend on the services of our executive officers and other key employees.

We depend greatly on the efforts of our executive officers and other key employees to manage our operations. The loss or departure of any one of these executives or other key employees could have a material adverse effect on our business and consolidated financial condition, results of operations and cash flows.

Our operations could be impacted by natural disasters.

The occurrence of natural disasters in the markets in which we operate could not only impact the day-to-day operations of our care centers, but could also disrupt our relationships with patients, employees and referral sources located in the affected areas and, in the case of our corporate office, our ability to provide administrative support services, including billing and collection services. In addition, any episode of care that is not completed due to the impact of a natural disaster will generally result in lower revenue for the episode. For example, our corporate office and a number of our care centers are located in the southeastern United States and the Gulf Coast Region, increasing our exposure to hurricanes and flooding. Future hurricanes or other natural disasters may have a material adverse effect on our business and consolidated financial condition, results of operations and cash flows.

Risks Related to Liquidity

Delays in payment may cause liquidity problems.

Our business is characterized by delays from the time we provide services to the time we receive payment for these services. If we have difficulty in obtaining documentation, such as physician orders, experience information system problems or experience other issues that arise with Medicare or other payors, we may encounter additional delays in our payment cycle.

In addition, timing delays in billings and collections may cause working capital shortages. Working capital management, including prompt and diligent billing and collection, is an important factor in achieving our financial results and maintaining liquidity. It is possible that documentation support, system problems, Medicare or other provider issues or industry trends may extend our collection period, which may materially adversely affect our working capital, and our working capital management procedures may not successfully mitigate this risk.

CMS is implementing a three-year pre-claim review demonstration for home health services in the states of Illinois, Florida, Michigan, Massachusetts, and Texas, which will be phased in during 2016 and 2017, depending on the state. CMS is testing whether pre-claim review improves methods for the identification, investigation, and prosecution of Medicare fraud occurring among home health agencies providing services to Medicare beneficiaries. Additionally, CMS is testing whether the demonstration helps reduce expenditures while maintaining or improving quality of care. The pre-claim review demonstration for home health services does not create new clinical documentation requirements. CMS has indicated that home health agencies will submit the same information they currently submit for payment, but will do so earlier in the process. CMS has further indicated that this demonstration should not delay care to Medicare beneficiaries and does not alter the Medicare home health benefit. However, this process could result in increased administrative costs or delays in reimbursement for home health services in states subject to the demonstration.

Additionally, our hospice operations may experience payment delays. We have experienced payment delays when attempting to collect funds from state Medicaid programs in certain instances. Delays in receiving payments from these programs may also materially adversely affect our working capital.

The volatility and disruption of the capital and credit markets and adverse changes in the United States and global economies could impact our ability to access both available and affordable financing, and without such financing, we may be unable to achieve our objectives for strategic acquisitions and internal growth.

While we intend to finance strategic acquisitions and internal growth with cash flows from operations and borrowings under our revolving credit facility, we may require sources of capital in addition to those presently available to us. Uncertainty in the capital and credit markets may impact our ability to access capital on terms acceptable to us (i.e. at attractive/affordable rates) or at all, and this may result in our inability to achieve present objectives for strategic acquisitions and internal growth. Further, in the event we need additional funds, and we

are unable to raise the necessary funds on acceptable terms, our business and consolidated financial condition, results of operations and cash flows could be materially adversely affected.

Our indebtedness could impact our financial condition and impair our ability to fulfill other obligations.

As of December 31, 2016, we had total outstanding indebtedness of approximately $95.7 million, comprised mainly of indebtedness incurred in connection with our April 23, 2014 settlement agreement with the U.S. Department of Justice relating to certain of our clinical and business operations. Our level of indebtedness could have a material adverse effect on our business and consolidated financial position, results of operations and cash flows and impair our ability to fulfill other obligations in several ways, including:

- it could require us to dedicate a portion of our cash flow from operations to payments on our indebtedness, which could reduce the availability of cash flow to fund acquisitions, start-ups, working capital, capital expenditures and other general corporate purposes;
- it could limit our ability to borrow money or sell stock for working capital, capital expenditures, debt service requirements and other purposes;
- it could limit our flexibility in planning for, and reacting to, changes in our industry or business;
- it could make us more vulnerable to unfavorable economic or business conditions; and
- it could limit our ability to make acquisitions or take advantage of other business opportunities.

In the event we incur additional indebtedness, the risks described above could increase.

The agreements governing our indebtedness contain various covenants that limit our discretion in the operation of our business and our failure to satisfy requirements in these agreements could have a material adverse effect on our business and consolidated financial condition, results of operations and cash flows.

The agreements governing our indebtedness (the "Debt Agreements") contain certain obligations, including restrictive covenants that require us to comply with or maintain certain financial covenants and ratios and restrict our ability to:

- incur additional debt;
- redeem or repurchase stock, pay dividends or make other distributions;
- make certain investments;
- create liens;
- enter into transactions with affiliates;
- make acquisitions;
- enter into joint ventures;
- merge or consolidate;
- invest in foreign subsidiaries;
- amend acquisition documents;
- enter into certain swap agreements;
- make certain restricted payments;
- transfer, sell or leaseback assets; and
- make fundamental changes in our corporate existence and principal business.

In addition, events beyond our control could affect our ability to comply with the Debt Agreements. Any failure by us to comply with or maintain all applicable financial covenants and ratios and to comply with all other applicable covenants could result in an event of default with respect to the Debt Agreements. If we are unable to obtain a waiver from our lenders in the event of any non-compliance, our lenders could accelerate the maturity of any outstanding indebtedness and terminate the commitments to make further extensions of credit (including our ability to borrow under our revolving credit facility). Any failure to comply with these covenants could have a material adverse effect on our business and consolidated financial condition, results of operations and cash flows.

Risks Related to Ownership of Our Common Stock

The price of our common stock may be volatile.

The price at which our common stock trades may be volatile. The stock market from time to time experiences significant price and volume fluctuations that impact the market prices of securities, particularly those of health care companies. The market price of our common stock may be influenced by many factors, including:

- our operating and financial performance;
- variances in our quarterly financial results compared to research analyst expectations;
- the depth and liquidity of the market for our common stock;
- future sales of common stock by the Company or large stockholders or the perception that such sales could occur;
- investor, analyst and media perception of our business and our prospects;
- developments relating to litigation or governmental investigations;
- changes or proposed changes in health care laws or regulations or enforcement of these laws and regulations, or announcements relating to these matters;
- departure of key personnel;
- changes in the Medicare, Medicaid and private insurance payment rates for home health and hospice;
- announcements by us or our competitors of significant contracts, acquisitions, strategic partnerships, joint ventures or capital commitments; or
- general economic and stock market conditions.

In addition, the stock market in general, and the NASDAQ Global Select Market ("NASDAQ") in particular, has experienced price and volume fluctuations that we believe have often been unrelated or disproportionate to the operating performance of health care provider companies. These broad market and industry factors may materially reduce the market price of our common stock, regardless of our operating performance. Securities class-action cases have often been brought against companies following periods of volatility in the market price of their securities.

The activities of short sellers could reduce the price or prevent increases in the price of our common stock. "Short sale" is defined as the sale of stock by an investor that the investor does not own. Typically, investors who sell short believe the price of the stock will fall, and anticipate selling shares at a higher price than the purchase price at which they will buy the stock. As of December 31, 2016, investors held a short position of approximately 3.2 million shares of our common stock which represented 9.5% of our outstanding common stock. The anticipated downward pressure on our stock price due to actual or anticipated sales of our stock by some institutions or individuals who engage in short sales of our common stock could cause our stock price to decline.

Sales of substantial amounts of our common stock or the availability of those shares for future sale, could materially impact our stock price and limit our ability to raise capital.

The following table presents information about our outstanding common and preferred stock and our outstanding securities exercisable for or convertible into shares of common stock:

	As of December 31, 2016
Common stock outstanding	33,597,215
Preferred stock outstanding	—
Common stock available under 2008 Omnibus Incentive Compensation Plan	1,204,572
Stock options outstanding	1,008,157
Stock options exercisable	281,458
Non-vested stock outstanding	209,378
Non-vested stock units outstanding	474,286

If we were to sell substantial amounts of our common stock in the public market or if there was a public perception that substantial sales could occur, the market price of our common stock could decline. These sales or the perception of substantial future sales may also make it difficult for us to sell common stock in the future to raise capital.

Our Board of Directors may use anti-takeover provisions or issue stock to discourage a change of control.

Our certificate of incorporation currently authorizes us to issue up to 60,000,000 shares of common stock and 5,000,000 shares of undesignated preferred stock. Our Board of Directors may cause us to issue additional stock to discourage an attempt to obtain control of our company. For example, shares of stock could be sold to purchasers who might support our Board of Directors in a control contest or to dilute the voting or other rights of a person seeking to obtain control. In addition, our Board of Directors could cause us to issue preferred stock entitling holders to vote separately on any proposed transaction, convert preferred stock into common stock, demand redemption at a specified price in connection with a change in control, or exercise other rights designed to impede a takeover.

The issuance of additional shares may, among other things, dilute the earnings and equity per share of our common stock and the voting rights of common stockholders.

We have implemented other anti-takeover provisions or provisions that could have an anti-takeover effect, including advance notice requirements for director nominations and stockholder proposals. These provisions, and others that our Board of Directors may adopt hereafter, may discourage offers to acquire us and may permit our Board of Directors to choose not to entertain offers to purchase us, even if such offers include a substantial premium to the market price of our stock. Therefore, our stockholders may be deprived of opportunities to profit from a sale of control.

ITEM 1B. UNRESOLVED STAFF COMMENTS

None.

ITEM 2. PROPERTIES

Our executive office is located in Nashville, Tennessee in a leased property consisting of 15,825 square feet; our corporate headquarters is located in Baton Rouge, Louisiana in a leased property consisting of 75,243 square feet. We believe we have adequate space to accommodate our corporate staff located in these locations for the foreseeable future.

In addition to our executive office and corporate headquarters, we also lease facilities for our home health, hospice and personal-care care centers. Generally, these leases have an initial term of five years with a three year early termination option, but range from one to seven years. Most of these leases also contain an option to extend the lease period. The following table shows the location of our 327 Medicare-certified home health care centers, 79 Medicare-certified hospice care centers and 14 personal-care care centers at December 31, 2016:

State	Home Health	Hospice	Personal Care	State	Home Health	Hospice	Personal Care
Alabama	30	7	—	New Jersey	2	1	—
Arkansas	5	—	—	New York	5	—	—
Arizona	3	—	—	New Hampshire	2	2	—
California	4	—	—	North Carolina	8	6	—
Connecticut	4	1	—	Ohio	—	1	—

ITEM 3. LEGAL PROCEEDINGS

See Part II, Item 8, Note 10 – Commitments and Contingencies for information concerning our legal proceedings.

ITEM 4. MINE SAFETY DISCLOSURES

Not applicable.

PART II

ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES

Market Information and Holders

Our common stock trades on the NASDAQ Global Select Market under the trading symbol "AMED". The following table presents the range of high and low sales prices for our common stock for the periods indicated as reported on NASDAQ:

	Price Range of Common Stock	
	High	Low
Year Ended December 31, 2016:		
First Quarter	$48.48	$31.16
Second Quarter	54.42	46.12
Third Quarter	55.16	45.48
Fourth Quarter	48.13	34.58
Year Ended December 31, 2015:		
First Quarter	$31.27	$25.83
Second Quarter	43.61	24.81
Third Quarter	48.34	36.11
Fourth Quarter	45.00	34.72

As of February 24, 2017, there were approximately 513 holders of record of our common stock.

Dividend Policy

We have not declared or paid any cash dividends on our common stock or any other of our securities and do not expect to pay cash dividends for the foreseeable future. We currently intend to retain our future earnings, if any, to fund the development and growth of our business. Future decisions concerning the payment of dividends will depend upon our results of operations, financial condition, capital expenditure plans and debt service requirements, as well as such other factors as our Board of Directors, in its sole discretion, may consider relevant. In addition, our outstanding indebtedness restricts, and we anticipate any additional future indebtedness may restrict, our ability to pay cash dividends; provided, however, that we may pay (i) dividends payable solely in our equity securities and (ii) dividends if (1) no default or event of default under the Credit Agreement shall have occurred and be continuing at the time of such dividend or would result therefrom, (2) we demonstrate that, upon giving pro forma effect to such dividend, our consolidated leverage ratio (as defined in the Credit Agreement) is less than 2.00 to 1.0 and (3) we demonstrate a minimum liquidity of $50 million upon giving effect to such dividend.

Purchases of Equity Securities

The following table provides the information with respect to purchases made by us of shares of our common stock during each of the months during the three-month period ended December 31, 2016:

Period	(a) Total Number of Shares (or Units) Purchased	(b) Average Price Paid per Share (or Unit)	(c) Total Number of Shares (or Units) Purchased as Part of Publicly Announced Plans or Programs	(d) Maximum Number (or Approximate Dollar Value) of Shares (or Units) That May Yet Be Purchased Under the Plans or Programs
October 1, 2016 to October 31, 2016	676	$43.86	—	$ —
November 1, 2016 to November 30, 2016	—	—	—	—
December 1, 2016 to December 31, 2016	11,472	42.85	—	—
	12,148(1)	$42.91	—	$ —

(1) Includes shares of common stock surrendered to us by certain employees to satisfy tax withholding obligations in connection with the vesting of stock previously awarded to such employees under our 2008 Omnibus Incentive Compensation Plan.

Stock Performance Graph

The Performance Graph below compares the cumulative total stockholder return on our common stock, $0.001 par value per share, for the five-year period ended December 31, 2016, with the cumulative total return on the NASDAQ composite index and an industry peer group over the same period (assuming the investment of $100 in our common stock, the NASDAQ composite index and the industry peer group) on December 31, 2011 and the reinvestment of dividends. The peer group we selected is comprised of: LHC Group, Inc. ("LHCG") and Almost Family, Inc. ("AFAM"). The cumulative total stockholder return on the following graph is historical and is not necessarily indicative of future stock price performance. No cash dividends have been paid on our common stock.

	12/31/2011	12/31/2012	12/31/2013	12/31/2014	12/31/2015	12/31/2016
Amedisys, Inc.	$100.00	$103.64	$134.10	$269.02	$360.40	$390.74
NASDAQ Composite	$100.00	$116.41	$165.47	$188.69	$200.32	$216.54
Peer Group	$100.00	$153.62	$198.06	$223.44	$314.73	$331.94

This stock performance information is "furnished" and shall not be deemed to be "soliciting material" or subject to Regulation 14A under the Securities Exchange Act of 1934 (the "Exchange Act"), shall not be deemed "filed" for purposes of Section 18 of the Exchange Act or otherwise subject to the liabilities of that section, and shall not be deemed incorporated by reference in any filing under the Securities Act of 1933, as amended, or the Exchange Act, whether made before or after the date of this report and irrespective of any general incorporation by reference language in any such filing, except to the extent we specifically incorporate the information by reference.

ITEM 6. SELECTED FINANCIAL DATA

The selected consolidated financial data presented below is derived from our audited consolidated financial statements for the five-year period ended December 31, 2016, based on our continuing operations. The financial data for the years ended December 31, 2016, 2015 and 2014 should be read together with our consolidated financial statements and related notes included in Item 8, "Financial Statements and Supplementary Data" and the information included in Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations" herein.

	2016 (1)	2015 (2)	2014 (3)	2013 (4)	2012 (5)
	(Amounts in thousands, except per share data)				
Income Statement Data:					
Net service revenue	$1,437,454	$1,280,541	$1,204,554	$1,249,344	$1,440,836
Operating income (loss) from continuing operations	$ 57,340	$ (9,166)	$ 24,047	$ (154,971)	$ (108,855)
Net income (loss) from continuing operations attributable to Amedisys, Inc.	$ 37,261	$ (3,021)	$ 12,992	$ (93,105)	$ (80,262)
Net income (loss) from continuing operations attributable to Amedisys, Inc. per basic share	$ 1.12	$ (0.09)	$ 0.40	$ (2.98)	$ (2.68)
Net income (loss) from continuing operations attributable to Amedisys, Inc. per diluted share	$ 1.10	$ (0.09)	$ 0.40	$ (2.98)	$ (2.68)

(1) During 2016, we recorded charges related to Homecare Homebase ("HCHB") implementation costs in the amount of $8.4 million ($5.1 million, net of tax) and recognized a non-cash charge to write off assets as a result of our conversion to the HCHB platform in the amount of $4.4 million ($2.7 million, net of tax).

(2) During 2015, we recorded non-cash charges to write off the software costs incurred related to the development of AMS3 Home Health and Hospice in the amount of $75.2 million ($45.5 million, net of tax) and to reduce the carrying value of our corporate headquarters in the amount of $2.1 million ($1.2 million, net of tax).

(3) During 2014, we recorded charges for relators' fees and exit and restructuring activity in the amount of $13.9 million ($8.5 million, net of tax) and recognized non-cash other intangibles impairment charges of $3.1 million ($2.0 million, net of tax).

(4) During 2013, we recorded a charge for the accrual for the U.S. Department of Justice settlement, which amounted to $150.0 million ($93.9 million, net of tax) and recognized non-cash goodwill and other intangibles impairment charges of $9.5 million ($5.8 million, net of tax).

(5) During 2012, we recorded a $162.1 million ($110.2 million, net of tax and non-controlling interests) charge for the impairment of goodwill and other intangibles and incurred certain costs associated with our exit activities in the amount of $2.7 million ($1.6 million, net of tax).

	2016	2015	2014	2013	2012

Balance Sheet Data:					
Total assets (1)	$734,029	$681,715	$666,956	$724,237	$728,132
Total debt, including current portion (1)	$ 93,029	$ 96,630	$113,586	$ 44,735	$100,248
Total Amedisys, Inc. stockholders' equity	$460,203	$409,568	$397,167	$372,201	$452,340
Cash dividends declared per common share	$ —	$ —	$ —	$ —	$ —

(1) Total assets and Total debt, including current portion have been recast to present our retrospective adoption of Accounting Standards Update 2015-03, *Interest – Imputation of Interest (Subtopic 835-30): Simplifying the Presentation of Debt Issuance Costs.*

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion and analysis provides information we believe is relevant to an assessment and understanding of our results of operations and financial condition for 2016, 2015 and 2014. This discussion should be read in conjunction with our audited financial statements included in Item 8, "Financial Statements and Supplementary Data" and Part I, Item 1, "Business" of this Annual Report on Form 10-K. The following analysis contains forward-looking statements about our future revenues, operating results and expectations. See "Special Caution Concerning Forward-Looking Statements" for a discussion of the risks, assumptions and uncertainties affecting these statements as well as Part I, Item 1A, "Risk Factors."

Overview

We are a provider of high-quality in-home healthcare and related services to the chronic, co-morbid, aging American population, with approximately 78%, 80% and 82% of our revenue derived from Medicare for 2016, 2015 and 2014, respectively.

Our operations involve servicing patients through our three reportable business segments: home health, hospice and personal care. Our home health segment delivers a wide range of services in the homes of individuals who may be recovering from an illness, injury or surgery. Our hospice segment provides care that is designed to provide comfort and support for those who are facing a terminal illness. Our personal care segment provides patients assistance with the essential activities of daily living. As of December 31, 2016, we owned and operated 327 Medicare-certified home health care centers, 79 Medicare-certified hospice care centers and 14 personal-care care centers in 34 states within the United States and the District of Columbia.

2016 Developments

- Completed the rollout of Homecare Homebase ("HCHB"), a leading platform for home health and hospice companies, to all of our care centers.
- Integrated Infinity HomeCare which we acquired on December 31, 2015.
- Closed the acquisition of Associated Home Care on March 1, 2016, which resulted in the establishment of our personal care segment which was further expanded with the purchase of the assets of Professional Profiles, Inc. on September 1, 2016.

2017 Strategy

- Continue to focus on growth through acquisitions in all three segments and increased volumes in existing care centers.
- Continue to focus on commitment to clinical distinction with a goal of all care centers achieving a 4.0 Quality Star Rating.
- Gain operating efficiencies from investments in infrastructure, including HCHB.
- Focus on recruitment and retention of world class employees while fostering a culture of engagement to become the employer of choice in the industry.

Financial Performance

The year ended December 31, 2016 continued our focus on operational improvements that began during 2014 despite the disruption related to the conversion from our proprietary operating system to HCHB.

Our home health care centers experienced same store revenue and admissions growth in 2016. The home health segment saw an increase in non-Medicare revenue and Medicare revenue per episode offset by increases in cost per visit and other operating expenses which resulted in a $2 million reduction in our operating income over the year ended December 31, 2015 (see "Results of Operations").

Our hospice segment achieved significant growth in admissions and average daily census combined with strong cost controls in 2016, all of which helped deliver an $8 million improvement in our operating income over the year ended December 31, 2015 (see "Results of Operations").

Care Centers Summary

	Home Health	Hospice	Personal Care
At December 31, 2013	367	92	—
Closed/Consolidated/Sold	(51)	(12)	—
At December 31, 2014	316	80	—
Acquisitions	15	1	—
Closed/Consolidated/Sold	(2)	(2)	—
At December 31, 2015	329	79	—
Acquisitions/Start-Ups	1	—	14
Closed/Consolidated	(3)	—	—
At December 31, 2016	327	79	14

When we refer to "same store business," we mean home health, hospice and personal-care care centers that we have operated for at least the last twelve months; when we refer to "acquisitions," we mean home health, hospice and personal-care care centers that we acquired within the last twelve months; and when we refer to "start-ups," we mean home health, hospice and personal-care care centers opened by us in the last twelve months. Once a care center has been in operation for a twelve month period, the results for that particular care center are included as part of our same store business from that date forward. Non-Medicare revenue, admissions, recertifications or completed episodes includes home health revenue, admissions, recertifications or completed episodes of care for those payors that pay on an episodic or per visit basis, which includes Medicare Advantage programs and private payors.

Economic and Industry Factors

Home health, hospice and personal care services are a highly fragmented and highly competitive industry. The degree of competiveness varies based upon whether our care centers operate in states that require a certificate of need (CON) or permit of approval (POA). In such states, expansion by existing providers or entry into the market by new providers is permitted only where determination is made by state health authorities that a given amount of unmet healthcare need exists. Currently, 68% and 40% of our home health and hospice care centers, respectively operate in CON/POA states.

As the Federal government continues to debate a reduction in expenditures and a reform of the Medicare system, our industry continues to face reimbursement pressures. The Centers for Medicare and Medicaid Services ("CMS") instituted a rebasing cut of approximately $81 per episode (2.7%) per year for 2014 – 2017; however,

we do expect some offset from a market basket update in each of these years. The following payment adjustments are effective for the years indicated based on CMS's final rules relative to Medicare reimbursement:

	Home Health			Hospice		
	2017 (1)	2016	2015	2017 (2)	2016	2015
Market Basket Update	2.8 %	2.3 %	2.6 %	2.7 %	2.4 %	2.9 %
Rebasing	(2.3)	(2.4)	(2.8)	—	—	—
50/50 Blend of Wage Index	—	—	—	—	0.2	—
Nominal Case Mix Adjustment	(0.9)	(0.9)	—	—	—	—
PPACA Adjustment	—	—	—	(0.3)	(0.3)	(0.3)
Budget Neutrality Adjustment Factor	—	—	0.4	—	(0.7)	(0.7)
Productivity Adjustment	(0.3)	(0.4)	(0.5)	(0.3)	(0.5)	(0.5)
	(0.7)%	(1.4)%	(0.3)%	2.1 %	1.1 %	1.4 %

(1) Effective for episodes scheduled to be completed on or after January 1, 2017.
(2) Effective for services provided from October 1, 2016 to September 30, 2017.

Our company-specific impact of the final rules could differ depending on differences in the wage index and the impact of coding and outlier changes.

As part of the 2016 final rule issued in October 2015, CMS finalized their proposal to implement a Home Health Value-Based Purchasing model in nine states that seeks to test whether incentives for better care can improve outcomes in the delivery of home health services. Financial impacts from this change, either positive or negative, would begin January 1, 2018, applied to that calendar year based on 2015 performance data. Care centers operating in the states included in the proposed model account for approximately 31% of our 2016 home health Medicare revenue.

Governmental Inquiries and Investigations and Other Litigation

September 2010 Civil Investigative Demand Issued by the U.S. Department of Justice

On April 23, 2014, with no admission of liability on our part, we entered into a settlement agreement to resolve the U.S. Department of Justice investigation which began with a Civil Investigative Demand ("CID") issued by the U.S. Department of Justice on September 27, 2010 and the Stark Law Self-Referral Matter disclosed to CMS in May 2012. Pursuant to the settlement agreement, on May 2, 2014, we paid the United States an initial payment in the amount of $116.5 million representing the first installment of $115 million plus interest thereon due under the settlement agreement, and on October 23, 2014, we paid the United States an additional payment in the amount of $35.8 million, representing the second and final installment of $35 million plus interest thereon due under the settlement agreement.

The settlement agreement also resolved allegations made against us by various qui tam relators, who were required to dismiss their claims with prejudice. We accrued and paid various relators' attorneys' fees and expenses in the aggregate sum of approximately $3.9 million during 2014.

In connection with the settlement agreement, on April 23, 2014, we entered into a corporate integrity agreement ("CIA") with the Office of Inspector General-HHS ("OIG"). The CIA formalizes various aspects of our already existing ethics and compliance programs and contains other requirements designed to help ensure our ongoing compliance with federal health care program requirements. Among other things, the CIA requires us to maintain our existing compliance program, executive compliance committee and compliance committee of the Board of Directors; provide certain compliance training; continue screening new and current employees to ensure they are eligible to participate in federal health care programs; engage an independent review organization to perform certain auditing and reviews and prepare certain reports regarding our compliance with federal health care

programs, our billing submissions to federal health care programs and our compliance and risk mitigation programs; and provide certain reports and management certifications to the OIG. Additionally, the CIA specifically requires that we report substantial overpayments that we discover we have received from federal health care programs, as well as probable violations of federal health care laws. Upon breach of the CIA, we could become liable for payment of certain stipulated penalties, or could be excluded from participation in federal health care programs. The CIA has a term of five years. We expect the CIA to impact operating expenses by approximately $1 to $2 million annually.

May 2015 Subpoena Duces Tecum Issued by the U.S. Department of Justice

On May 21, 2015, we received a Subpoena Duces Tecum ("Subpoena") issued by the U.S. Department of Justice. The Subpoena requests the delivery of information regarding 53 identified hospice patients to the United States Attorney's Office for the District of Massachusetts. It also requests the delivery of documents relating to our hospice clinical and business operations and related compliance activities.

November 2015 Civil Investigative Demand Issued by the U.S. Department of Justice

On November 3, 2015, we received a CID issued by the U.S. Department of Justice pursuant to the federal False Claims Act relating to claims submitted to Medicare and/or Medicaid for hospice services provided through designated facilities in the Morgantown, West Virginia area.

June 2016 Civil Investigative Demand Issued by the U.S. Department of Justice

On June 27, 2016, we received a CID issued by the U.S. Department of Justice pursuant to the federal False Claims Act relating to claims submitted to Medicare and/or Medicaid for hospice services provided through designated facilities in the Parkersburg, West Virginia area.

See Item 8, Note 10 – Commitments and Contingencies to our consolidated financial statements for additional information regarding our April 2014 CIA, the May 2015 Subpoena issued by the U.S. Department of Justice, the November 2015 CID issued by the U.S. Department of Justice, the June 2016 CID issued by the U.S. Department of Justice and for a discussion of and updates regarding class action litigation we are involved in. No assurances can be given as to the timing or outcome of these items.

Results of Operations

Consolidated

The following table summarizes our results from continuing operations (amounts in millions):

	For the Years Ended December 31,		
	2016	2015	2014
Net service revenue	$1,437.4	$1,280.5	$1,204.5
Gross margin, excluding depreciation and amortization	604.4	554.6	513.4
% of revenue	42.0%	43.3%	42.6%
Other operating expenses	542.7	486.5	486.3
% of revenue	37.7%	38.0%	40.4%
Asset impairment charge	4.4	77.3	3.1
Operating income (loss)	57.3	(9.2)	24.0
Total other income (expense), net	4.2	8.9	(3.1)
Income tax expense	(23.9)	(2.0)	(7.7)
Effective income tax rate	38.9%	650.6%	36.6%
Income (loss) from continuing operations	37.6	(2.3)	13.3
Net loss from discontinued operations	—	—	(0.2)
Net income attributable to noncontrolling interests	(0.4)	(0.7)	(0.3)
Net income (loss) attributable to Amedisys, Inc.	$ 37.3	$ (3.0)	$ 12.8

Year Ended December 31, 2016 Compared to the Year Ended December 31, 2015

Our 2016 operating results include the results of Infinity HomeCare ("Infinity"), Associated Home Care and Professional Profiles beginning on the date of their acquisition. These three acquisitions accounted for $85 million of our $157 million increase in revenue and $35 million of our $56 million increase in other operating expenses. Our operating results were also impacted by an increase of approximately $21 million in costs associated with our move to HCHB. Approximately $8 million relates to implementation services provided by a third party while $4 million is the result of a non-cash charge to write off assets (primarily laptops) not compatible with our new platform. The remaining $9 million is related to disruption in care center operations as well as additional corporate resources to support multiple systems. In addition to the $21 million related to HCHB, we experienced an increase of $5 million in bad debt and contractual reserves due to increased write-offs and accounts receivable aging due to the HCHB disruption. While we anticipated these costs to continue as we completed the roll-out, our care centers generally return to normal operating results approximately 60 to 90 days after implementation; we completed the HCHB roll-out during the three-month period ended December 31, 2016. Additionally, our results were impacted by approximately $12 million as a result of the 2016 CMS rate cut.

Total other income (expense), net decreased $1 million in 2016 from 2015 after considering the impact of the following items (amounts in millions):

	For the Years Ended December 31,	
	2016	2015
Legal settlements	$ 2.3	$ 7.4
Equity in earnings from equity method investment	3.5	6.7
Interest expense related to tax audit reserve	(0.6)	—
Life insurance proceeds	—	1.0
Debt refinance costs	—	(3.2)
Interest expense related to long-term obligations	(4.5)	(7.6)
Gain (loss) on disposal of property and equipment or sale of care centers	—	0.2
	$ 0.7	$ 4.5

Year Ended December 31, 2015 Compared to the Year Ended December 31, 2014

Our 2015 results were impacted by a $75 million non-cash charge to write off the software costs incurred related to the development of AMS3 Home Health and Hospice and a $2 million non-cash charge to reduce the carrying value of our corporate headquarters.

During the first quarter of 2014, we committed to a plan to consolidate 21 operating home health care centers and four operating hospice care centers with care centers servicing the same markets and close 23 home health care centers and six hospice care centers. As a result of this exit activity, we reduced our regional leadership structure and corporate support functions. Separate from the restructuring costs, we also recorded severance costs associated with the departure of our former Chief Executive Officer and a charge for relator fees associated with our U.S. Department of Justice settlement during the first quarter of 2014. Additionally, we recorded a non-cash other intangibles impairment charge during the fourth quarter of 2014. The following details the costs associated with these activities (amounts in millions):

	For the Year Ended December 31, 2014			
	Home Health	Hospice	Corporate	Total
Severance (a)	$ 2.0	$ 0.1	$—	$ 2.1
Restructuring severance	2.1	0.6	3.0	5.7
Lease terminations	1.9	0.2	—	2.1
Other intangibles impairment	1.6	1.5	—	3.1
Exit and restructuring activities cost	7.6	2.4	3.0	13.0
U.S. Department of Justice Settlement/Relator Fees	—	—	3.9	3.9
Total	$ 7.6	$ 2.4	$ 6.9	$16.9

(a) Includes $0.8 million and $0.1 million for severance included in cost of service for home health and hospice, respectively.

Our operating results were impacted by the sale, closure and consolidation of numerous care centers as mentioned above. Accordingly, our results for the year ended December 31, 2015 were not fully comparable to the year ended December 31, 2014.

Our operating income, excluding the $77 million asset impairment charges in 2015 and the $17 million in costs incurred in 2014 noted above, increased $27 million as our home health operating income increased $29 million, our hospice operating income increased $13 million and our corporate operating expense increased $15 million.

The primary drivers of our improvement in performance were the closure/consolidation of care centers that had a negative operating contribution, an increase in our revenue per episode, an increase in non-Medicare revenue, growth in hospice census and a reduction in operating expenses. The increase in corporate operating expenses was primarily due to the $6 million Wage and Hour Litigation settlement accrual and HCHB maintenance and hosting and implementation costs of $8 million. The increase in HCHB maintenance and hosting was offset by a $4 million decrease in depreciation and amortization as we moved from our proprietary software to HCHB.

Total other income (expense), net decreased $1 million in 2015 from 2014 after considering the impact of the following items (amounts in millions):

	For the Years Ended December 31,	
	2015	2014
Legal settlements	$ 7.4	$ 1.1
Equity in earnings from equity method investment	6.7	—
Life insurance proceeds	1.0	—
Debt refinance costs	(3.2)	(0.5)
Gain (loss) on disposal of property and equipment or sale of care centers	0.2	0.7
	$12.1	$ 1.3

The difference in income tax expense in 2015 and 2014 was driven primarily by the decrease in income before income taxes. Additionally, the effective tax rate for the year ended December 31, 2015 does not provide a meaningful comparison to other periods. The effective tax rate for the year was influenced by the relationship of the amount of "effective tax rate drivers" (i.e. non-deductible expenses, non-taxable income, tax credits, valuation allowance, uncertain tax positions, etc.) to (loss) income before income taxes. A significant asset impairment was recorded during the three-month period ended March 31, 2015, resulting in a scenario where the company's (loss) income before income taxes for 2015 was near zero. Consequently, for 2015, the relationship between the "effective tax rate drivers" and (loss) income before income taxes was distorted.

Home Health Division

The following table summarizes our home health segment results from continuing operations:

	For the Years Ended December 31,		
	2016	2015	2014
Financial Information *(in millions)*:			
Medicare	$ 822.4	$ 761.4	$ 751.5
Non-Medicare	263.1	243.7	205.4
Net service revenue	1,085.5	1,005.1	956.9
Cost of service	643.7	584.2	559.4
Gross margin	441.8	420.9	397.5
Other operating expenses	303.2	280.6	294.4
Operating income	$ 138.6	$ 140.3	$ 103.1

Total Cost per Visit	$ 89.71	$ 86.52	$ 86.77
Visits	7,174,977	6,752,277	6,446,354

(1) Same store information represents the percent increase (decrease) in our Medicare and Non-Medicare revenue, admissions or recertifications for the period as a percent of the Medicare and Non-Medicare revenue, admissions or recertifications of the prior period.

(2) Total includes acquisitions; based on continuing operations for all periods presented.

(3) Average Medicare revenue per completed episode is the average Medicare revenue earned for each Medicare completed episode of care.

(4) Medicare visits per completed episode are the home health Medicare visits on completed episodes divided by the home health Medicare episodes completed during the period.

Year Ended December 31, 2016 Compared to the Year Ended December 31, 2015

Overall, our operating income decreased $2 million on a $21 million increase in gross margin offset by a $23 million increase in other operating expenses. These results are inclusive of Infinity which accounted for $49 million of our total revenue increase and $18 million of other operating expenses. Our results have been negatively impacted by approximately $12 million related to the CMS rate cut which became effective January 1, 2016 and approximately $6 million as the result of disruptions associated with the roll-out of HCHB.

Net Service Revenue

Our Medicare revenue increased $61 million which is inclusive of $48 million from acquired care centers. The increase in same store revenue is due to higher admission volumes. Our revenue per episode was relatively flat despite the impact of the CMS rate cut in 2016; the increase was due to an increase in patient acuity.

Our non-Medicare revenue increased approximately $19 million, with revenues from episodic payors increasing 16% while our revenue from per visit payors grew 5%. We continue to focus on contract payors with significant concentrations in our markets and those that add incremental margin to our operations as we continue to evaluate our portfolio of managed care contracts.

Cost of Service, Excluding Depreciation and Amortization

Our cost of service increased $59 million primarily as a result of a 6% increase in visits and a 4% increase in cost per visit. The increase in cost per visit is primarily due to higher health insurance expense, planned wage increases and additional costs related to our HCHB roll-out. We believe that the impact of the HCHB roll-out is temporary and will normalize now that the roll-out is complete.

Other Operating Expenses

Other operating expenses increased $23 million due to increases in other care center related expenses, primarily salaries and benefits, travel and training expense and HCHB maintenance and hosting fees. Other operating expense related to care centers acquired from Infinity were approximately $18 million. We have completed the consolidation of our legacy Florida operations with Infinity and the conversion of Infinity to our back office platform.

Year Ended December 31, 2015 Compared to the Year Ended December 31, 2014

Overall, our operating income excluding the $8 million in exit activity costs in 2014, increased $29 million on a $22 million increase in gross margin and a $7 million decline in other operating expenses. 2014 results included revenue of $16 million and operating losses of $5 million for those care centers that were closed, consolidated or sold.

Net Service Revenue

Our Medicare revenue increase of approximately $10 million consisted of a $16 million increase due to higher revenue per episode offset by $6 million due to lower volumes. The decrease in volumes is primarily due to the sale, closure and consolidation of 51 care centers since December 31, 2013, as we experienced a 3% increase in same store admissions in 2015. Net service revenue included a reduction of $1 million for the estimated impact of the 2016 rate change.

Our non-Medicare revenue increased $38 million as we have focused on contracted payors with significant concentrations in our markets and those that add incremental margin to our operations.

As mentioned above, we have closed numerous care centers since December 31, 2013. Accordingly, our 2015 results were not fully comparable to the prior year. The following table summarizes our net service revenue for our operating care centers and those care centers that were closed, consolidated or sold.

	For the Years Ended December 31,	
	2015	2014
Revenue ***(in millions)*****:**		
Operating care centers	$1,005.1	$941.2
Closed/Consolidated/Sold care centers	—	15.7
Net service revenue	1,005.1	956.9

Cost of Service, Excluding Depreciation and Amortization

Our cost of service, excluding the $1 million in exit activity costs in 2014, increased $26 million primarily as a result of a 5% increase in visits. Our cost per visit remained relatively flat.

Other Operating Expenses

Other operating expenses, excluding the $7 million in exit activity costs in 2014, decreased $7 million due to decreases in other care center related expenses as a result of our closure and consolidation strategy and the reduction in divisional leadership; the majority of the reductions were in salaries and benefits and rent expense, offset by a $5 million increase in legal expense related to the self-disclosure matter. In addition, our provision for doubtful accounts decreased $3 million and our depreciation and amortization expense decreased $4 million compared to 2014.

Hospice Division

The following table summarizes our hospice segment results from continuing operations:

	For the Years Ended December 31,		
	2016	2015	2014
Financial Information *(in millions):*			
Medicare	$ 297.7	$ 258.5	$ 232.6
Non-Medicare	18.3	16.9	15.0
Net service revenue	316.0	275.4	247.6
Cost of service	163.1	141.7	131.7
Gross margin	152.9	133.7	115.9
Other operating expenses	77.0	66.0	63.4
Operating income	$ 75.9	$ 67.7	$ 52.5
Key Statistical Data:			
Same Store (1):			
Medicare revenue	15%	13%	(2%)
Non-Medicare revenue	9%	18%	6%
Hospice admissions	17%	16%	(3%)
Average daily census	16%	12%	(4%)
Total (2):			
Hospice admissions	22,526	19,205	17,081
Average daily census	5,912	5,105	4,632
Revenue per day, net	$146.05	$147.78	$146.51
Cost of service per day	$ 75.36	$ 76.06	$ 77.93
Average discharge length of stay	96	92	100

(1) Same store information presented is the percent increase (decrease) in our Medicare and Non-Medicare revenue, Hospice admissions or average daily census for the period as a percent of the Medicare and Non-Medicare revenue, Hospice admissions or average daily census of the prior period.

(2) Total includes acquisitions; based on continuing operations for all periods presented.

Year Ended December 31, 2016 Compared to the Year Ended December 31, 2015

Overall, our operating income increased $8 million on a $19 million increase in gross margin offset by an $11 million increase in other operating expenses.

Net Service Revenue

Our hospice revenue increased approximately $41 million due to an increase in our average daily census as a result of a 17% increase in hospice admissions. We benefited from a 1.1% hospice rate increase effective October 1, 2015. Beginning January 1, 2016, CMS provided for two separate payment rates for routine care: payments for the first 60 days of care and care beyond 60 days. In addition to the two rates, beginning January 1, 2016, Medicare is also reimbursing for a service intensity add-on ("SIA"). The SIA is based on visits made in the last seven days of life by a registered nurse ("RN") or medical social worker ("MSW") for patients in a routine level of care.

Our revenue per day was impacted by an increase in contractual reserves and write-offs which occurred during the HCHB roll-out. We expect to return to normal levels during 2017.

Cost of Service, Excluding Depreciation and Amortization

Our hospice cost of service increased $21 million as the result of a 16% increase in average daily census.

Other Operating Expenses

Other operating expenses increased $11 million due to increases in other care center related expenses, primarily salaries and benefits and HCHB maintenance and hosting fees. We have experienced an increase in days revenue outstanding, net as we transitioned to the HCHB platform. As such, our provision for doubtful accounts increased approximately $4 million, which is reflective of an increase in our accounts receivable aging. We do expect to return to normal days revenue outstanding, net now that we are on one operating platform.

Year Ended December 31, 2015 Compared to the Year Ended December 31, 2014

Overall, our operating income, excluding the $2 million in exit activity costs in 2014, increased $13 million on an $18 million increase in gross margin offset by a $5 million increase in other operating expenses.

Net Service Revenue

Our hospice revenue increased $28 million, primarily as the result of an increase in our average daily census as a result of a 16% increase in hospice admissions. We benefitted from a 1.4% hospice rate increase effective October 1, 2014.

As mentioned above, we have closed numerous care centers since December 31, 2013. Accordingly, our 2015 results were not fully comparable to the prior year. The following table summarizes our net service revenue for our operating care centers and those care centers that were closed, consolidated or sold.

	For the Years Ended December 31,	
	2015	2014
Revenue ***(in millions)*****:**		
Operating care centers	$275.4	$243.4
Closed/Consolidated/Sold care centers	—	4.2
Net service revenue	275.4	247.6

Cost of Service, Excluding Depreciation and Amortization

Our hospice cost of service increased $10 million as the result of a 10% increase in average daily census offset by a decrease in cost of service per day. We experienced significant improvement in pharmacy and DME cost per day during 2015.

Other Operating Expenses

Other operating expenses, excluding the $2 million in exit activity costs in 2014, increased $5 million due to increases in other care center related expenses, primarily salaries and benefits expense and travel costs.

Personal Care Division

The following table summarizes our personal care segment results from continuing operations:

	For the Years Ended December 31,		
	2016	2015	2014
Financial Information *(in millions):*			
Medicare	$ —	$—	—
Non-Medicare	35.9	—	—
Net service revenue	35.9	—	—
Cost of service	26.3	—	—
Gross margin	9.6	—	—
Other operating expenses	8.1	—	—
Operating income	$ 1.5	$—	$—
Key Statistical Data:			
Billable hours	1,539,093	—	—
Clients served	51,520	—	—

Year Ended December 31, 2016

On March 1, 2016, we acquired Associated Home Care, a personal care home health care company with 9 care centers. On September 1, 2016, we acquired the assets of Professional Profiles, Inc. which owned and operated 4 personal-care care centers. In addition, during the three-month period ended September 30, 2016 we opened a start-up personal-care care center. Operating income related to our new personal care division for 2016 was approximately $2 million on net service revenue of $36 million and cost of service of $26 million; other operating expenses were approximately $8 million.

Corporate

The following table summarizes our corporate results from continuing operations:

	For the Years Ended December 31,		
	2016	2015	2014
Financial Information *(in millions):*			
Other operating expenses	$141.9	$126.5	$114.4
Depreciation and amortization	12.4	13.4	17.2
Total operating expenses before asset impairment charge	$154.3	$139.9	$131.6
Asset impairment charge	4.4	77.3	—
Total operating expenses	$158.7	$217.2	$131.6

Corporate expenses consist of costs relating to our executive management and administrative support functions, primarily information services, accounting, finance, billing and collections, legal, compliance, risk management, procurement, marketing, clinical administration, training, human resources and administration.

Year Ended December 31, 2016 Compared to the Year Ended December 31, 2015

Corporate other operating expenses have increased approximately $14 million which is inclusive of approximately $12 million in corporate support expenses related to acquisitions, a $3 million increase in non-cash compensation and a $4 million increase related to HCHB implementation costs offset by decreases of approximately $5 million in various other costs (including a $2 million decrease in legal settlement expenses).

Year Ended December 31, 2015 Compared to the Year Ended December 31, 2014

Excluding the $77 million asset impairment charge in 2015 and the $7 million in exit and restructuring activities costs and relator fees associated with our U.S. Department of Justice settlement agreement during 2014, corporate other operating expenses increased $15 million which is inclusive of the $6 million Wage and Hour Litigation settlement accrual, $4 million in HCHB maintenance and hosting costs, $4 million related to HCHB implementation and $2 million in severance costs.

Liquidity and Capital Resources

Cash Flows

The following table summarizes our cash flows for the periods indicated (amounts in millions):

	For the Years Ended December 31,		
	2016	2015	2014
Cash provided by (used in) operating activities	$ 62.2	$107.8	$(65.5)
Cash used in investing activities	(52.0)	(67.4)	(14.3)
Cash (used in) provided by financing activities	(7.5)	(20.9)	70.5
Net increase (decrease) in cash and cash equivalents	2.7	19.5	(9.3)
Cash and cash equivalents at beginning of period	27.5	8.0	17.3
Cash and cash equivalents at end of period	$ 30.2	$ 27.5	$ 8.0

Cash provided by operating activities decreased $45.6 million during 2016 compared to 2015 primarily due to a decrease in our cash collections relative to growth in accounts receivable as our days revenue outstanding, net increased eight days (approximately $41 million) from December 31, 2015. For additional information regarding our operating performance, see "Results of Operations". Cash provided by operating activities increased $173.3 million during 2015 compared to 2014 primarily due to an increase in our operating performance as compared to 2014 and the payment of the $150.0 million in 2014 under our settlement agreement with the U.S. Department of Justice. The recognition of the asset impairment charge of $77.3 million, which resulted in the net loss for 2015 was a non-cash item and therefore had no impact on our cash flow from operations.

Cash used in investing activities decreased $15.4 million during 2016 compared to 2015 primarily due to decreases in cash paid for acquisitions ($33.6 million), capital expenditures ($5.7 million) and investments ($2.4 million), offset by decreases in proceeds from the sale of property and equipment related to the sale of our former corporate headquarters and in proceeds from the sale of investments. Cash used in investing activities increased $53.1 million during 2015 compared to 2014 primarily due to our acquisition activity ($69.1 million) and an increase in capital expenditures ($9.4 million), offset by proceeds from the sale of property and equipment ($20.0 million) and investments ($5.0 million).

Cash used in financing activities decreased $13.4 million during 2016 compared to 2015 primarily due to tax benefits from stock compensation plans and a decrease in repayments of outstanding borrowings, offset by repurchases of company stock pursuant to our stock repurchase program. Cash used in financing activities increased $91.4 million during 2015 compared to 2014 primarily due to an increase in our borrowings under our long-term obligations partially offset by principal payments.

Liquidity

Typically, our principal source of liquidity is the collection of our patient accounts receivable, primarily through the Medicare program. In addition to our collection of patient accounts receivable, from time to time, we can and do obtain additional sources of liquidity by the incurrence of additional indebtedness.

During 2016, we spent $6.8 million in routine capital expenditures compared to $9.3 million and $7.0 million during 2015 and 2014, respectively. Routine capital expenditures primarily include equipment and computer software and hardware. In addition, we spent $8.9 million in non-routine capital expenditures related to leasehold improvements and IT infrastructure upgrades compared to $12.1 million and $5.0 million during 2015 and 2014, respectively, related to enhancements to our point of care software. Our capital expenditures for 2017 are expected to be approximately $10.0 million – $12.0 million.

During 2014, we paid the U.S. government $152.3 million representing the $150 million settlement plus interest thereon due under the settlement agreement to resolve both the U.S. Department of Justice investigation and the Stark Law Self-Referral Matter.

On August 28, 2015, we entered into a Credit Agreement that provides for senior secured facilities in an initial aggregate principal amount of up to $300 million comprised of (a) a term loan facility in an initial aggregate principal amount of $100 million and (b) a revolving credit facility in an initial aggregate principal amount of up to $200 million. The net proceeds of the term loan and existing cash on hand were used to pay off (i) our existing term loan under our prior Credit Agreement dated as of October 22, 2012, as amended with a principal balance of $27 million and (ii) our existing term loan under our prior Second Lien Credit Agreement dated July 28, 2014, with a principal balance of $70 million.

As of December 31, 2016, we had $30.2 million in cash and cash equivalents and $173.3 million in availability under our $200.0 million Revolving Credit Facility. Based on our operating forecasts and our new debt service requirements, we believe we will have sufficient liquidity to fund our operations, capital requirements and debt service requirements.

Outstanding Patient Accounts Receivable

Our patient accounts receivable, net increased $41.0 million from December 31, 2015 to December 31, 2016. Our cash collection as a percentage of revenue was 99% and 100% for December 31, 2016 and 2015, respectively. Our days revenue outstanding, net at December 31, 2016 was 40.2 days which is an increase of 8.3 days from December 31, 2015. We have experienced a slowdown in collections primarily as the result of our shift from our legacy platforms (AMS2 and AMS3) to HCHB. We anticipate further reductions in days revenue outstanding now that we have completed our HCHB implementation and are completely off our legacy system. Our days revenue outstanding, net at December 31, 2015 does not include Infinity HomeCare, which was acquired on December 31, 2015.

Our patient accounts receivable includes unbilled receivables and are aged based upon our initial service date. We monitor unbilled receivables on a care center by care center basis to ensure that all efforts are made to bill claims within timely filing deadlines. Our unbilled patient accounts receivable can be impacted by acquisition activity, probe edits or regulatory changes which result in additional information or procedures needed prior to billing. The timely filing deadline for Medicare is one year from the date the episode was completed and varies by state for Medicaid-reimbursable services and among insurance companies and other private payors.

Our provision for estimated revenue adjustments (which is deducted from our service revenue to determine net service revenue) and provision for doubtful accounts were as follows for the periods indicated (amounts in millions). We fully reserve for both our Medicare and other patient accounts receivable that are aged over 365 days.

	For the Years Ended December 31,	
	2016	2015
Provision for estimated revenue adjustments	$ 7.9	$ 6.1
Provision for doubtful accounts	19.5	14.1
Total	$27.4	$20.2
As a percent of revenue	1.9%	1.6%

The following schedules detail our patient accounts receivable, net of estimated revenue adjustments, by payor class, aged based upon initial date of service (amounts in millions, except days revenue outstanding, net):

	0-90	91-180	181-365	Over 365	Total
At December 31, 2016:					
Medicare patient accounts receivable, net (1)	$82.7	$17.1	$ 1.4	$—	$101.2
Other patient accounts receivable:					
Medicaid	13.6	3.6	3.6	0.2	21.0
Private	39.8	10.4	7.6	3.8	61.6
Total	$53.4	$14.0	$11.2	$ 4.0	$ 82.6
Allowance for doubtful accounts (2)					(17.7)
Non-Medicare patient accounts receivable, net					$ 64.9
Total patient accounts receivable, net					$166.1
Days revenue outstanding, net (3)					40.2

	0-90	91-180	181-365	Over 365	Total
At December 31, 2015:					
Medicare patient accounts receivable, net (1)	$73.5	$7.0	$(0.4)	$—	$ 80.1
Other patient accounts receivable:					
Medicaid	12.4	1.7	0.9	—	15.0
Private	31.2	8.1	5.1	2.0	46.4
Total	$43.6	$9.8	$ 6.0	$ 2.0	$ 61.4
Allowance for doubtful accounts (2)					(16.5)
Non-Medicare patient accounts receivable, net					$ 44.9
Total patient accounts receivable, net					$125.0
Days revenue outstanding, net (3)					31.9

(1) The following table summarizes the activity and ending balances in our estimated revenue adjustments (amounts in millions), which is recorded to reduce our Medicare outstanding patient accounts receivable to their estimated net realizable value, as we do not estimate an allowance for doubtful accounts for our Medicare claims.

	For the Years Ended December 31,	
	2016	2015
Balance at beginning of period	$ 4.0	$ 3.1
Provision for estimated revenue adjustments	7.9	6.1
Write offs	(7.8)	(5.2)
Balance at end of period	$ 4.1	$ 4.0

Our estimated revenue adjustments were 3.9% and 4.8% of our outstanding Medicare patient accounts receivable at December 31, 2016 and December 31, 2015, respectively.

(2) The following table summarizes the activity and ending balances in our allowance for doubtful accounts (amounts in millions), which is recorded to reduce only our Medicaid and private payer outstanding patient accounts receivable to their estimated net realizable value.

	For the Years Ended December 31,	
	2016	2015
Balance at beginning of period	$ 16.5	$ 14.3
Provision for doubtful accounts	19.5	14.1
Write offs	(18.3)	(11.9)
Balance at end of period	$ 17.7	$ 16.5

Our allowance for doubtful accounts was 21.5% and 26.9% of our outstanding Medicaid and private patient accounts receivable at December 31, 2016 and 2015, respectively.

(3) Our calculation of days revenue outstanding, net is derived by dividing our ending net patient accounts receivable (i.e., net of estimated revenue adjustments and allowance for doubtful accounts) at December 31, 2016 and 2015 by our average daily net patient revenue for the three-month periods ended December 31, 2016 and 2015, respectively.

Indebtedness

Credit Agreement

On August 28, 2015, we entered into a Credit Agreement that provides for senior secured facilities in an initial aggregate principal amount of up to $300 million.

The Credit Facilities are comprised of (a) a term loan facility in an initial aggregate principal amount of $100 million (the "Term Loan"); and (b) a revolving credit facility in an initial aggregate principal amount of up to $200 million (the "Revolving Credit Facility"). The Revolving Credit Facility provides for and includes within its $200 million limit a $25 million swingline facility and commitments for up to $50 million in letters of credit. Upon lender approval, we may increase the aggregate loan amount under the Credit Facilities by a maximum amount of $150 million.

The net proceeds of the Term Loan and existing cash on hand were used to pay off (i) our existing term loan under our Prior Credit Agreement, dated as of October 22, 2012, as amended (the "Prior Credit Agreement") with a principal balance of $27 million and (ii) our existing term loan under our prior Second Lien Credit Agreement dated July 28, 2014 (the "Second Lien Credit Agreement"), with a principal balance of $70 million. The final maturity of the Term Loan is August 28, 2020. The Term Loan began amortizing on March 31, 2016 and will continue amortizing over 14 quarterly installments (four remaining quarterly installments of

$1.25 million followed by eight quarterly installments of $2.5 million beginning March 31, 2018, followed by two quarterly installments of $3.1 million beginning March 31, 2020, subject to adjustment for prepayments), with the remaining balance due upon maturity.

The Revolving Credit Facility may be used to provide ongoing working capital and for general corporate purposes of the Company and its subsidiaries, including permitted acquisitions, as defined in the Credit Agreement. The final maturity of the Revolving Credit Facility is August 28, 2020 and will be payable in full at that time.

The interest rate in connection with the Credit Facilities shall be selected from the following by us: (i) the Base Rate plus the Applicable Rate or (ii) the Eurodollar Rate plus the Applicable Rate. The "Base Rate" means a fluctuating rate per annum equal to the highest of (a) the federal funds rate plus 0.50% per annum, (b) the prime rate of interest established by the Administrative Agent; and (c) the Eurodollar Rate for an interest period of one month plus 1% per annum. The "Eurodollar Rate" means the rate at which Eurodollar deposits in the London interbank market for an interest period of one, two, three or six months (as selected by us) are quoted. The "Applicable Rate" is based on the consolidated leverage ratio and is presented in the table below. As of December 31, 2016, the Applicable Rate is 1.00% per annum for Base Rate Loans and 2.00% per annum for Eurodollar Rate Loans. We are also subject to a commitment fee and letter of credit fee under the terms of the Credit Facilities, as presented in the table below.

Consolidated Leverage Ratio	Margin for ABR Loans	Margin for Eurodollar Loans	Commitment Fee	Letter of Credit Fee
≥ 2.75 to 1.0	2.00%	3.00%	0.40%	3.00%
< 2.75 to 1.0 but ≥ 1.75 to 1.0	1.50%	2.50%	0.35%	2.50%
< 1.75 to 1.0 but ≥ 0.75 to 1.0	1.00%	2.00%	0.30%	2.00%
< 0.75 to 1.0	0.50%	1.50%	0.25%	1.50%

Our weighted average interest rate for our $100.0 million Term Loan, under our Credit Agreement, was 2.5% for 2016 and 2.7% for the period August 28, 2015 to December 31, 2015. Our weighted average interest rate for our $200.0 million Revolving Credit Facility was 3.5% for 2016.

As of December 31, 2016, our availability under our $200.0 million Revolving Credit Facility was $173.3 million as we had $26.7 million outstanding in letters of credit.

The Credit Agreement requires maintenance of two financial covenants: (i) a consolidated leverage ratio of funded indebtedness to EBITDA, as defined in the Credit Agreement, and (ii) a consolidated fixed charge coverage ratio of EBITDA plus rent expense (less cash taxes less capital expenditures) to scheduled debt repayments plus interest expense plus rent expense, all as defined in the Credit Agreement. Each of these covenants is calculated over rolling four-quarter periods and also is subject to certain exceptions and baskets. As of December 31, 2016, our consolidated leverage ratio was 1.0 and our consolidated fixed charge coverage ratio was 3.8 and we are in compliance with the Credit Agreement. The Credit Agreement also contains customary covenants, including, but not limited to, restrictions on: incurrence of liens; incurrence of additional debt; sales of assets and other fundamental corporate changes; investments; and declarations of dividends. These covenants contain customary exclusions and baskets.

The Credit Facilities are guaranteed by substantially all of our wholly-owned direct and indirect subsidiaries. The Credit Agreement requires at all times that we (i) provide guaranties from wholly-owned subsidiaries that in the aggregate represent not less than 95% of our consolidated net revenues and adjusted EBITDA from all wholly-owned subsidiaries and (ii) provide guarantees from subsidiaries that in the aggregate represent not less than 70% of consolidated adjusted EBITDA, subject to certain exceptions.

In connection with entering into the Credit Agreement, we entered into (i) a Security Agreement with the Administrative Agent dated August 28, 2015 and (ii) a Pledge Agreement with the Administrative Agent dated as

of August 28, 2015 for the purpose of securing the payment of our obligations under the Credit Agreement. Pursuant to the Security Agreement and the Pledge Agreement, as of the effective date of the Credit Agreement, our obligations under the Credit Agreement are secured by (i) the grant of a first lien security interest in the non-real estate assets of substantially all of our direct and indirect, wholly-owned subsidiaries (subject to exceptions) and (ii) the pledge of the equity interests in (a) substantially all of our direct and indirect, wholly-owned corporate, limited liability company and limited partnership subsidiaries and (b) those joint ventures which constitute subsidiaries under the Credit Agreement (subject, in the case of the Pledge Agreement, to exceptions).

In connection with the entry into the Credit Agreement, on August 28, 2015, each of the Prior Credit Agreement and the Second Lien Credit Agreement were terminated. The Company paid a call premium of $700,000 associated with the termination of the Second Lien Credit Agreement and the voluntary prepayment of the amounts owed thereunder as of August 28, 2015, and expensed $2.5 million in deferred debt issuance costs during the three-month period ended September 30, 2015. Also in connection with our entry into the Credit Agreement, we recorded $2.4 million in deferred debt issuance costs as other assets in our consolidated balance sheet during 2015 which was reclassified to long-term obligations, less current portion during 2016 in accordance with Accounting Standards Update 2015-03, *Interest – Imputation of Interest (Subtopic 835-30): Simplifying the Presentation of Debt Issuance Costs*.

Stock Repurchase Program

On September 9, 2015, we announced that our Board of Directors authorized a stock repurchase program, under which we may repurchase up to $75 million of our outstanding common stock on or before September 6, 2016.

Under the terms of the program, we may repurchase shares from time to time in open market transactions, block purchases or in private transactions in accordance with applicable federal securities laws and other legal requirements. We may enter into Rule 10b5-1 plans to effect some or all of the repurchases. The timing and the amount of the repurchases, if any, was determined by management based on a number of factors, including but not limited to share price, trading volume and general market conditions, as well as on working capital requirements, general business conditions and other factors.

Pursuant to this program, we repurchased 324,141 shares of our common stock at a weighted average price of $37.96 per share and a total cost of approximately $12.3 million during 2016 and 116,859 shares of our common stock at a weighted average price of $39.20 per share and a total cost of approximately $4.6 million during 2015. The repurchased shares are classified as treasury shares. The stock repurchase program expired on September 6, 2016.

Contractual Obligations and Medicare Liabilities

Our future contractual obligations and Medicare liabilities at December 31, 2016 were as follows (amounts in millions):

	Payments Due by Period				
	Total	Less than 1 Year	1-3 Years	4-5 Years	After 5 Years
Long-term obligations	$ 95.7	$ 5.2	$20.5	$70.0	$—
Interest on long-term obligations (1)	8.3	2.6	4.5	1.2	—
Operating leases	72.0	23.5	30.5	13.4	4.6
Capital commitments	1.2	1.2	—	—	—
Purchase obligations	47.3	14.0	24.8	8.5	—
Uncertain tax positions	4.1	0.3	3.8	—	—
	$228.6	$46.8	$84.1	$93.1	$ 4.6

(1) Interest on debt with variable rates was calculated using the current rate of that particular debt instrument at December 31, 2016.

Critical Accounting Estimates

The discussion and analysis of our financial condition and results of operations is based upon our consolidated financial statements, which have been prepared in accordance with U.S. generally accepted accounting principles ("U.S. GAAP"). The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenue and expenses and related disclosures of contingent assets and liabilities. On an ongoing basis, we evaluate our estimates, including those related to revenue recognition, collectability of accounts receivable, reserves related to insurance and litigation, goodwill, intangible assets, income taxes and contingencies. We base these estimates on our historical experience and various other assumptions that we believe to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results experienced may vary materially and adversely from our estimates. To the extent there are material differences between our estimates and the actual results, our future results of operations may be affected.

We believe the following critical accounting policies represent our most significant judgments and estimates used in the preparation of our consolidated financial statements.

Revenue Recognition

We earn net service revenue through our home health, hospice and personal-care care centers by providing a variety of services almost exclusively in the homes of our patients. This net service revenue is earned and billed either on an episode of care basis, on a per visit basis or on a daily basis depending upon the payment terms and conditions established with each payor for services provided. We refer to home health revenue earned and billed on a 60-day episode of care as episodic-based revenue.

When we record our service revenue, we record it net of estimated revenue adjustments and contractual adjustments to reflect amounts we estimate to be realizable for services provided, as discussed below. We believe, based on information currently available to us and based on our judgment, that changes to one or more factors that impact the accounting estimates (such as our estimates related to revenue adjustments, contractual adjustments and episodes in progress) we make in determining net service revenue, which changes are likely to occur from period to period, will not materially impact our reported consolidated financial condition, results of operations, cash flows or our future financial results.

Home Health Revenue Recognition

Medicare Revenue

Net service revenue is recorded under the Medicare prospective payment system ("PPS") based on a 60-day episode payment rate that is subject to adjustment based on certain variables. We make adjustments to Medicare revenue on completed episodes to reflect differences between estimated and actual payment amounts, and our discovered inability to obtain appropriate billing documentation or authorizations and other reasons unrelated to credit risk. We estimate the impact of such adjustments based on our historical experience, which primarily includes a historical collection rate of over 99% on Medicare claims, and record this estimate during the period in which services are rendered as an estimated revenue adjustment and a corresponding reduction to patient accounts receivable. In addition, management evaluates the potential for revenue adjustments and, when appropriate, provides allowances based upon the best available information.

In addition to revenue recognized on completed episodes, we also recognize a portion of revenue associated with episodes in progress. Episodes in progress are 60-day episodes of care that begin during the reporting period, but

were not completed as of the end of the period. We estimate this revenue on a monthly basis based upon historical trends. The primary factors underlying this estimate are the number of episodes in progress at the end of the reporting period, expected Medicare revenue per episode and our estimate of the average percentage complete based on the number of days elapsed during an episode of care.

Non-Medicare Revenue

Episodic-based Revenue. We recognize revenue in a similar manner as we recognize Medicare revenue for episodic-based rates that are paid by other insurance carriers, including Medicare Advantage programs; however, these rates can vary based upon the negotiated terms.

Non-episodic Based Revenue. Gross revenue is recorded on an accrual basis based upon the date of service at amounts equal to our established or estimated per-visit rates, as applicable. Contractual adjustments are recorded for the difference between our standard rates and the contracted rates to be realized from patients, third parties and others for services provided and are deducted from gross revenue to determine net service revenue and are also recorded as a reduction to our outstanding patient accounts receivable. In addition, we receive a minimal amount of our net service revenue from patients who are either self-insured or are obligated for an insurance co-payment.

Hospice Revenue Recognition

Hospice Medicare Revenue

Gross revenue is recorded on an accrual basis based upon the date of service at amounts equal to the estimated payment rates. The estimated payment rates are daily or hourly rates for each of the four levels of care we deliver. We make adjustments to Medicare revenue for our discovered inability to obtain appropriate billing documentation or authorizations and other reasons unrelated to credit risk. We estimate the impact of these adjustments based on our historical experience, which primarily includes our historical collection rate on Medicare claims, and record it during the period services are rendered as an estimated revenue adjustment and as a reduction to our outstanding patient accounts receivable.

Additionally, as Medicare hospice revenue is subject to an inpatient cap limit and an overall payment cap for each provider number, we monitor these caps and estimate amounts due back to Medicare if a cap has been exceeded. We record these adjustments as a reduction to revenue and an increase in other accrued liabilities. Beginning for the cap year ending October 31, 2014, providers are required to self-report and pay their estimated cap liability by March 31st of the following year. As of December 31, 2016, we have settled our Medicare hospice reimbursements for all fiscal years through October 31, 2012 and we have recorded $0.8 million for estimated amounts due back to Medicare in other accrued liabilities for the Federal cap years ended October 31, 2013 through October 31, 2016. As of December 31, 2015, we had recorded $1.4 million for estimated amounts due back to Medicare in other accrued liabilities for the Federal cap years ended October 31, 2013 through October 31, 2016.

Hospice Non-Medicare Revenue

We record gross revenue on an accrual basis based upon the date of service at amounts equal to our established rates or estimated per visit rates, as applicable. Contractual adjustments are recorded for the difference between our established rates and the amounts estimated to be realizable from patients, third parties and others for services provided and are deducted from gross revenue to determine our net service revenue and patient accounts receivable.

Personal Care Revenue Recognition

Personal Care Non-Medicare Revenue

We generate net service revenues by providing our services directly to patients primarily on a per hour, visit or unit basis. We receive payment for providing such services from our payor clients, including state and local governmental agencies, managed care organizations, commercial insurers and private consumers. Net service revenues are principally provided based on authorized hours, visits or units determined by the relevant agency, at a rate that is either contractual or fixed by legislation which are recognized as net service revenue at the time services are rendered.

Patient Accounts Receivable – Allowance for Doubtful Accounts

Our patient accounts receivable are uncollateralized and consist of amounts due from Medicare, Medicaid, other third-party payors and patients. We fully reserve for accounts which are aged at 365 days or greater. We write off accounts on a monthly basis once we have exhausted our collection efforts and deem an account to be uncollectible. We do not record an allowance for doubtful accounts for our Medicare patient accounts receivable, which are recorded at their net realizable value after recording estimated revenue adjustments as discussed above.

We believe there is a certain level of credit risk associated with non-Medicare payors. To provide for our non-Medicare patient accounts receivable that could become uncollectible in the future, we establish an allowance for doubtful accounts to reduce the carrying amount to its estimated net realizable value. We estimate an allowance for doubtful accounts based upon our assessment of historical and expected net collections, business and economic conditions, trends in payment and an evaluation of collectability based upon the date that the service was provided. Based upon our best judgment, we believe the allowance for doubtful accounts adequately provides for accounts that will not be collected due to credit risk.

Insurance

We are obligated for certain costs associated with our insurance programs, including employee health, workers' compensation and professional liability. While we maintain various insurance programs to cover these risks, we are self-insured for a substantial portion of our potential claims. We recognize our obligations associated with these costs in the period in which a claim is incurred, including with respect to both reported claims and claims incurred but not reported, up to specified deductible limits. These costs have generally been estimated based upon independent third-party actuarial calculations which consider historical claims data. Such estimates, and the resulting reserves, are reviewed and updated by us on a quarterly basis.

Goodwill and Other Intangible Assets

Goodwill represents the amount of the purchase price in excess of the fair values assigned to the underlying identifiable net assets of acquired businesses. Goodwill is not amortized, but is subject to an annual impairment test. Tests are performed more frequently if events occur or circumstances change that would more likely than not reduce the fair value of the reporting unit below its carrying amount. These events or circumstances include but are not limited to, a significant adverse change in the business environment; regulatory environment or legal factors; or a substantial decline in market capitalization of our stock. To determine whether goodwill is impaired, we perform a two-step impairment test. In the first step of the test, the fair values of the reporting units are compared to their aggregate carrying values, including goodwill. If the fair value of the reporting unit is greater than its carrying amount, goodwill is not considered impaired and no further testing is required. If the fair value of the reporting unit is less than its carrying amount, we would proceed to step two of the test. In step two of the test, the implied fair value of the goodwill of the reporting unit is determined by a hypothetical allocation of the fair value calculated in step one to all of the assets and liabilities of that reporting unit (including any recognized and unrecognized intangible assets) as if the reporting unit had been acquired in a business combination and the fair value was reflective of the price paid to acquire the reporting unit. The implied fair value of goodwill is the

excess, if any, of the calculated fair value after hypothetical allocation to the reporting unit's assets and liabilities. If the implied fair value of the goodwill is greater than the carrying amount of the goodwill at the analysis date, goodwill is not impaired and the analysis is complete. If the implied fair value of the goodwill is less than the carrying value of goodwill at the analysis date, goodwill is deemed impaired by the amount of that variance.

We calculate the estimated fair value of our reporting units using discounted cash flows as well as a market approach that compares our reporting units' earnings and revenue multiples to those of comparable public companies. To determine fair value we must make assumptions about a wide variety of internal and external factors. Significant assumptions used in the impairment analysis include financial projections of free cash flow (including significant assumptions about operations, in particular expected organic growth rates, future Medicare reimbursement rates, capital requirements and income taxes), long-term growth rates for determining terminal value, and discount rates. Our estimates of discounted cash flows may differ from actual cash flows due to, among other things, economic conditions, changes to our business model or changes in operating performance. These factors increase the risk of differences between projected and actual performance that could impact future estimates of fair value of all reporting units. Significant differences between these estimates and actual cash flows could result in additional impairment in future periods.

Each of our operating segments described in the notes to our financial statements is considered to represent an individual reporting unit for goodwill impairment testing purposes. We consider each of our home health care centers to constitute an individual business for which discrete financial information is available. However, since these care centers have substantially similar operating and economic characteristics and resource allocation and significant investment decisions concerning these businesses are centralized and the benefits broadly distributed, we have aggregated these care centers and deemed them to constitute a single reporting unit. We have applied this same aggregation principle to our hospice and personal-care care centers and have also deemed them to be a single reporting unit.

During 2016, we did not record any goodwill impairment charges and none of the goodwill associated with our various reporting units were considered at risk of impairment as of October 31, 2016. Since the date of our last annual goodwill impairment test, there have been no material developments, events, changes in operating performance or other circumstances that would cause management to believe it is more likely than not that the fair value of any of our reporting units would be less than its carrying amount.

Intangible assets consist of Certificates of Need, licenses, acquired names and non-compete agreements. We amortize non-compete agreements and acquired names that we do not intend to use in the future on a straight-line basis over their estimated useful lives, which is generally three years for non-compete agreements and up to five years for acquired names.

Income Taxes

We use the asset and liability approach for measuring deferred tax assets and liabilities based on temporary differences existing at each balance sheet date using currently enacted tax rates. Our deferred tax calculation requires us to make certain estimates about future operations. Deferred tax assets are reduced by a valuation allowance when we believe it is more likely than not that some portion or all of the deferred tax assets will not be realized. The effect of a change in tax rate is recognized as income or expense in the period that includes the enactment date. As of December 31, 2016 and 2015 our net deferred tax assets were $107.9 million and $125.2 million, respectively.

Management regularly assesses the ability to realize deferred tax assets recorded in the Company's entities based upon the weight of available evidence, including such factors as the recent earnings history and expected future taxable income. In the event future taxable income is below management's estimates or is generated in tax

jurisdictions different than projected, we could be required to increase the valuation allowance for deferred tax assets. This would result in an increase in our effective tax rate.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We are exposed to market risk from fluctuations in interest rates. Our Revolving Credit Facility and Term Loan carry a floating interest rate which is tied to the Eurodollar rate (*i.e.* LIBOR) or the Prime Rate and therefore, our consolidated statements of operations and our consolidated statements of cash flows are exposed to changes in interest rates. As of December 31, 2016, the total amount of outstanding debt subject to interest rate fluctuations was $95.0 million. A 1.0% interest rate change would cause interest expense to change by approximately $0.9 million annually.

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

Report of Independent Registered Public Accounting Firm

The Board of Directors and Stockholders
Amedisys, Inc.:

We have audited the accompanying consolidated balance sheets of Amedisys, Inc. and subsidiaries (the Company) as of December 31, 2016 and 2015, and the related consolidated statements of operations, comprehensive income (loss), stockholders' equity, and cash flows for each of the years in the three-year period ended December 31, 2016. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the consolidated financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Amedisys, Inc. and subsidiaries as of December 31, 2016 and 2015, and the results of their operations and their cash flows for each of the years in the three-year period ended December 31, 2016, in conformity with U.S. generally accepted accounting principles.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), Amedisys, Inc.'s internal control over financial reporting as of December 31, 2016, based on criteria established in *Internal Control – Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission, and our report dated March 1, 2017, expressed an unqualified opinion on the effectiveness of Amedisys, Inc.'s internal control over financial reporting.

AMEDISYS, INC. AND SUBSIDIARIES
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
December 31, 2016

1. NATURE OF OPERATIONS, CONSOLIDATION AND PRESENTATION OF FINANCIAL STATEMENTS

Amedisys, Inc., a Delaware corporation, and its consolidated subsidiaries ("Amedisys," "we," "us," or "our") are a multi-state provider of home health, hospice and personal care services with approximately 78%, 80% and 82% of our revenue derived from Medicare for 2016, 2015 and 2014, respectively. As of December 31, 2016, we owned and operated 327 Medicare-certified home health care centers, 79 Medicare-certified hospice care centers and 14 personal-care care centers in 34 states within the United States and the District of Columbia.

Use of Estimates

Our accounting and reporting policies conform with U.S. Generally Accepted Accounting Principles ("U.S. GAAP"). In preparing the consolidated financial statements, we are required to make estimates and assumptions that impact the amounts reported in the consolidated financial statements and accompanying notes. Actual results could materially differ from those estimates.

Reclassifications and Comparability

Certain reclassifications have been made to prior periods' financial statements in order to conform to the current period's presentation. In compliance with Accounting Standards Update ("ASU") 2015-03, *Interest – Imputation of Interest (Subtopic 835-30): Simplifying the Presentation of Debt Issuance Costs,* we have reclassified 2015 amounts related to unamortized debt issuance costs from other assets, net to long-term obligations, less current portion.

Principles of Consolidation

These consolidated financial statements include the accounts of Amedisys, Inc., and our wholly owned subsidiaries. All significant intercompany accounts and transactions have been eliminated in our accompanying consolidated financial statements, and business combinations accounted for as purchases have been included in our consolidated financial statements from their respective dates of acquisition. In addition to our wholly owned subsidiaries, we also have certain equity investments that are accounted for as set forth below.

Equity Investments

We consolidate investments when the entity is a variable interest entity and we are the primary beneficiary or if we have controlling interests in the entity, which is generally ownership in excess of 50%. Third party equity interests in our consolidated joint ventures are reflected as noncontrolling interests in our consolidated financial statements. During the three-month period ended September 30, 2016, we sold a 30% interest in one of our care centers while maintaining controlling interest in the newly formed joint venture.

We account for investments in entities in which we have the ability to exercise significant influence under the equity method if we hold 50% or less of the voting stock and the entity is not a variable interest entity in which we are the primary beneficiary. The book value of investments that we accounted for under the equity method of accounting was $27.8 million as of December 31, 2016 and $25.7 million as of December 31, 2015. We account for investments in entities in which we have less than a 20% ownership interest under the cost method of accounting if we do not have the ability to exercise significant influence over the investee.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Revenue Recognition

We earn net service revenue through our home health, hospice and personal-care care centers by providing a variety of services almost exclusively in the homes of our patients. This net service revenue is earned and billed either on an episode of care basis, on a per visit basis or on a daily basis depending upon the payment terms and conditions established with each payor for services provided. We refer to home health revenue earned and billed on a 60-day episode of care as episodic-based revenue.

When we record our service revenue, we record it net of estimated revenue adjustments and contractual adjustments to reflect amounts we estimate to be realizable for services provided, as discussed below. We believe, based on information currently available to us and based on our judgment, that changes to one or more factors that impact the accounting estimates (such as our estimates related to revenue adjustments, contractual adjustments and episodes in progress) we make in determining net service revenue, which changes are likely to occur from period to period, will not materially impact our reported consolidated financial condition, results of operations, cash flows or our future financial results.

Home Health Revenue Recognition

Medicare Revenue

Net service revenue is recorded under the Medicare prospective payment system ("PPS") based on a 60-day episode payment rate that is subject to adjustment based on certain variables including, but not limited to: (a) an outlier payment if our patient's care was unusually costly (capped at 10% of total reimbursement per provider number); (b) a low utilization payment adjustment ("LUPA") if the number of visits was fewer than five; (c) a partial payment if our patient transferred to another provider or we received a patient from another provider before completing the episode; (d) a payment adjustment based upon the level of therapy services required (with various incremental adjustments made for additional visits, with larger payment increases associated with the sixth, fourteenth and twentieth visit thresholds); (e) adjustments to payments if we are unable to perform periodic therapy assessments; (f) the number of episodes of care provided to a patient, regardless of whether the same home health provider provided care for the entire series of episodes; (g) changes in the base episode payments established by the Medicare Program; (h) adjustments to the base episode payments for case mix and geographic wages; and (i) recoveries of overpayments. In addition, we make adjustments to Medicare revenue if we find that we are unable to produce appropriate documentation of a face to face encounter between the patient and physician.

We make adjustments to Medicare revenue to reflect differences between estimated and actual payment amounts, our discovered inability to obtain appropriate billing documentation or authorizations and other reasons unrelated to credit risk. We estimate the impact of such adjustments based on our historical experience, which primarily includes a historical collection rate of over 99% on Medicare claims, and record this estimate during the period in which services are rendered as an estimated revenue adjustment and a corresponding reduction to patient accounts receivable. Therefore, we believe that our reported net service revenue and patient accounts receivable will be the net amounts to be realized from Medicare for services rendered.

In addition to revenue recognized on completed episodes, we also recognize a portion of revenue associated with episodes in progress. Episodes in progress are 60-day episodes of care that begin during the reporting period, but were not completed as of the end of the period. We estimate this revenue on a monthly basis based upon historical trends. The primary factors underlying this estimate are the number of episodes in progress at the end

of the reporting period, expected Medicare revenue per episode and our estimate of the average percentage complete based on the number of days elapsed during an episodes of care. As of December 31, 2016 and 2015, the difference between the cash received from Medicare for a request for anticipated payment ("RAP") on episodes in progress and the associated estimated revenue was immaterial and, therefore, the resulting credits were recorded as a reduction to our outstanding patient accounts receivable in our consolidated balance sheets for such periods.

Non-Medicare Revenue

Episodic-based Revenue. We recognize revenue in a similar manner as we recognize Medicare revenue for episodic-based rates that are paid by other insurance carriers, including Medicare Advantage programs; however, these rates can vary based upon the negotiated terms.

Non-episodic based Revenue. Gross revenue is recorded on an accrual basis based upon the date of service at amounts equal to our established or estimated per-visit rates, as applicable. Contractual adjustments are recorded for the difference between our standard rates and the contracted rates to be realized from patients, third parties and others for services provided and are deducted from gross revenue to determine net service revenue and are also recorded as a reduction to our outstanding patient accounts receivable. In addition, we receive a minimal amount of our net service revenue from patients who are either self-insured or are obligated for an insurance co-payment.

Hospice Revenue Recognition

Hospice Medicare Revenue

Gross revenue is recorded on an accrual basis based upon the date of service at amounts equal to the estimated payment rates. The estimated payment rates are daily or hourly rates for each of the four levels of care we deliver. The four levels of care are routine care, general inpatient care, continuous home care and respite care. Routine care accounts for 99%, 99%, and 98% of our total net Medicare hospice service revenue for 2016, 2015 and 2014, respectively. Beginning January 1, 2016, CMS has provided for two separate payment rates for routine care: payments for the first 60 days of care and care beyond 60 days. In addition to the two routine rates, beginning January 1, 2016, Medicare is also reimbursing for a service intensity add-on ("SIA"). The SIA is based on visits made in the last seven days of life by a registered nurse ("RN") or medical social worker ("MSW") for patients in a routine level of care.

We make adjustments to Medicare revenue for an inability to obtain appropriate billing documentation or acceptable authorizations and other reasons unrelated to credit risk. We estimate the impact of these adjustments based on our historical experience, which primarily includes our historical collection rate on Medicare claims, and record it during the period services are rendered as an estimated revenue adjustment and as a reduction to our outstanding patient accounts receivable.

Additionally, as Medicare hospice revenue is subject to an inpatient cap limit and an overall payment cap for each provider number, we monitor these caps and estimate amounts due back to Medicare if we estimate a cap has been exceeded. We record these adjustments as a reduction to revenue and an increase in other accrued liabilities. Beginning for the cap year ending October 31, 2014, providers are required to self-report and pay their estimated cap liability by March 31st of the following year. As of December 31, 2016, we have settled our Medicare hospice reimbursements for all fiscal years through October 31, 2012 and we have recorded $0.8 million for estimated amounts due back to Medicare in other accrued liabilities for the Federal cap years

ended October 31, 2013 through October 31, 2016. As of December 31, 2015, we had recorded $1.4 million for estimated amounts due back to Medicare in other accrued liabilities for the Federal cap years ended October 31, 2013 through October 31, 2016.

Hospice Non-Medicare Revenue

We record gross revenue on an accrual basis based upon the date of service at amounts equal to our established rates or estimated per day rates, as applicable. Contractual adjustments are recorded for the difference between our established rates and the amounts estimated to be realizable from patients, third parties and others for services provided and are deducted from gross revenue to determine our net service revenue and patient accounts receivable.

Personal Care Revenue Recognition

Personal Care Non-Medicare Revenue

We generate net service revenues by providing our services directly to patients primarily on a per hour, visit or unit basis. We receive payment for providing such services from our payor clients, including state and local governmental agencies, managed care organizations, commercial insurers and private consumers. Net service revenues are principally provided based on authorized hours, visits or units determined by the relevant agency, at a rate that is either contractual or fixed by legislation, which are recognized as net service revenue at the time services are rendered.

Cash and Cash Equivalents

Cash and cash equivalents include certificates of deposit and all highly liquid debt instruments with maturities of three months or less when purchased.

Patient Accounts Receivable

Our patient accounts receivable are uncollateralized and consist of amounts due from Medicare, Medicaid, other third-party payors and patients. As of December 31, 2016, there is one single payor, other than Medicare, that accounts for more than 10% of our total outstanding patient receivables (approximately 10.1%). Thus, we believe there are no other significant concentrations of receivables that would subject us to any significant credit risk in the collection of our patient accounts receivable. We fully reserve for accounts which are aged at 365 days or greater. We write off accounts on a monthly basis once we have exhausted our collection efforts and deem an account to be uncollectible.

We believe the credit risk associated with our Medicare accounts, which represent 61% and 64% of our net patient accounts receivable at December 31, 2016 and December 31, 2015, respectively, is limited due to our historical collection rate of over 99% from Medicare and the fact that Medicare is a U.S. government payor. Accordingly, we do not record an allowance for doubtful accounts for our Medicare patient accounts receivable, which are recorded at their net realizable value after recording estimated revenue adjustments as discussed above. During 2016, 2015 and 2014, we recorded $7.9 million, $6.1 million and $5.1 million, respectively, in estimated revenue adjustments to Medicare revenue.

We believe there is a certain level of credit risk associated with non-Medicare payors. To provide for our non-Medicare patient accounts receivable that could become uncollectible in the future, we establish an allowance for doubtful accounts to reduce the carrying amount to its estimated net realizable value.

Medicare Home Health

For our home health patients, our pre-billing process includes verifying that we are eligible for payment from Medicare for the services that we provide to our patients. Our Medicare billing begins with a process to ensure that our billings are accurate through the utilization of an electronic Medicare claim review. We submit a RAP for 60% of our estimated payment for the initial episode at the start of care or 50% of the estimated payment for any subsequent episodes of care contiguous with the first episode for a particular patient. The full amount of the episode is billed after the episode has been completed ("final billed"). The RAP received for that particular episode is then deducted from our final payment. If a final bill is not submitted within the greater of 120 days from the start of the episode, or 60 days from the date the RAP was paid, any RAPs received for that episode will be recouped by Medicare from any other claims in process for that particular provider number. The RAP and final claim must then be resubmitted.

Medicare Hospice

For our hospice patients, our pre-billing process includes verifying that we are eligible for payment from Medicare for the services that we provide to our patients. Our Medicare billing begins with a process to ensure that our billings are accurate through the utilization of an electronic Medicare claim review. Once each patient has been confirmed for eligibility, we will bill Medicare on a monthly basis for the services provided to the patient.

Non-Medicare Home Health, Hospice, and Personal Care

For our non-Medicare patients, our pre-billing process primarily begins with verifying a patient's eligibility for services with the applicable payor. Once the patient has been confirmed for eligibility, we will provide services to the patient and bill the applicable payor. Our review and evaluation of non-Medicare accounts receivable includes a detailed review of outstanding balances and special consideration to concentrations of receivables from particular payors or groups of payors with similar characteristics that would subject us to any significant credit risk. We estimate an allowance for doubtful accounts based upon our assessment of historical and expected net collections, business and economic conditions, trends in payment and an evaluation of collectability based upon the date that the service was provided. Based upon our best judgment, we believe the allowance for doubtful accounts adequately provides for accounts that will not be collected due to credit risk.

Property and Equipment

Property and equipment is stated at cost and we depreciate it on a straight-line basis over the estimated useful lives of the assets. Additionally, we have internally developed computer software for our own use. Additions and improvements (including interest costs for construction of qualifying long-lived assets) are capitalized. Maintenance and repair expenses are charged to expense as incurred. The cost of property and equipment sold or disposed of and the related accumulated depreciation are eliminated from the property and related accumulated depreciation accounts, and any gain or loss is credited or charged to other general and administrative expenses.

We consider our reporting units to represent asset groups for purposes of testing long-lived assets for impairment. We assess the impairment of a long-lived asset group whenever events or changes in circumstances indicate that the asset's carrying value may not be recoverable. Factors we consider important that could trigger an impairment review include but are not limited to the following:

- A significant change in the extent or manner in which the long-lived asset group is being used.

- A significant change in the business climate that could affect the value of the long-lived asset group.
- A significant change in the market value of the assets included in the asset group.

If we determine that the carrying value of long-lived assets may not be recoverable, we compare the carrying value of the asset group to the undiscounted cash flows expected to be generated by the asset group. If the carrying value exceeds the undiscounted cash flows, an impairment charge is indicated. An impairment charge is recognized to the extent that the carrying value of the asset group exceeds its fair value.

We generally provide for depreciation over the following estimated useful service lives.

	Years
Building	39
Leasehold improvements	Lesser of life or lease or expected useful life
Equipment and furniture	3 to 7
Vehicles	5
Computer software	3 to 5

As of December 31, 2014, we had $75.8 million of internally developed software costs related to the development of AMS3 Home Health and Hospice ("AMS3"). Expanded beta testing to additional sites in February of 2015 demonstrated that AMS3 was disruptive to operations. Additional analysis of the system determined that the system was not ready to be fully implemented and would require significant time and investment to redesign. Therefore, during the three-month period ended March 31, 2015, we made the decision to discontinue AMS3 and recorded a non-cash asset impairment charge of $75.2 million to write-off the software costs incurred related to the development of AMS3.

During 2015, we began the transition of all our care centers from our proprietary operating system to Homecare Homebase ("HCHB"), a leading home health and hospice platform, with all of our care centers operating on HCHB as of December 31, 2016. As part of our conversion process, we determined that a number of assets (primarily laptops) were not compatible with HCHB and had no other alternative or secondary use. As a result, we recorded a non-cash asset impairment charge of $4.4 million to write-off these assets during the three-month period ended December 31, 2016.

During the three-month period ended September 30, 2015, we commenced an active program to sell our corporate headquarters located in Baton Rouge, Louisiana. In accordance with U.S. GAAP, we classified this asset as held for sale and reduced the carrying value of the asset to its estimated fair value less estimated costs to sell the asset; no further depreciation expense for the asset was recorded. As a result, we recorded a non-cash asset impairment charge of $2.1 million during the three-month period ended September 30, 2015. The asset was sold during the three-month period ended December 31, 2015 and the Company now leases equivalent office space.

The following table summarizes the balances related to our property and equipment for 2016 and 2015 (amounts in millions):

	As of December 31,	
	2016	2015
Building and leasehold improvements	6.9	2.3
Equipment and furniture	71.9	89.6
Computer software	96.8	92.6
	175.6	184.5
Less: accumulated depreciation	(138.6)	(141.8)
	$ 37.0	$ 42.7

Depreciation expense for 2016, 2015 and 2014 was $17.2 million, $20.0 million and $28.0 million, respectively.

Goodwill and Other Intangible Assets

Goodwill represents the amount of the purchase price in excess of the fair values assigned to the underlying identifiable net assets of acquired businesses. Goodwill is not amortized, but is subject to an annual impairment test. Tests are performed more frequently if events occur or circumstances change that would more likely than not reduce the fair value of the reporting unit below its carrying amount. These events or circumstances include but are not limited to, a significant adverse change in the business environment; regulatory environment or legal factors; or a substantial decline in market capitalization of our stock. To determine whether goodwill is impaired, we perform a two-step impairment test. In the first step of the test, the fair values of the reporting units are compared to their aggregate carrying values, including goodwill. If the fair value of the reporting unit is greater than its carrying amount, goodwill is not considered impaired and no further testing is required. If the fair value of the reporting unit is less than its carrying amount, we would proceed to step two of the test. In step two of the test, the implied fair value of the goodwill of the reporting unit is determined by a hypothetical allocation of the fair value calculated in step one to all of the assets and liabilities of that reporting unit (including any recognized and unrecognized intangible assets) as if the reporting unit had been acquired in a business combination and the fair value was reflective of the price paid to acquire the reporting unit. The implied fair value of goodwill is the excess, if any, of the calculated fair value after hypothetical allocation to the reporting unit's assets and liabilities. If the implied fair value of the goodwill is greater than the carrying amount of the goodwill at the analysis date, goodwill is not impaired and the analysis is complete. If the implied fair value of the goodwill is less than the carrying value of goodwill at the analysis date, goodwill is deemed impaired by the amount of that variance.

We calculate the estimated fair value of our reporting units using discounted cash flows as well as a market approach that compares our reporting units' earnings and revenue multiples to those of comparable public companies. To determine fair value we must make assumptions about a wide variety of internal and external factors. Significant assumptions used in the impairment analysis include financial projections of free cash flow (including significant assumptions about operations, in particular expected organic growth rates, future Medicare reimbursement rates, capital requirements and income taxes), long-term growth rates for determining terminal value, and discount rates. Our estimates of discounted cash flows may differ from actual cash flows due to, among other things, economic conditions, changes to our business model or changes in operating performance. These factors increase the risk of differences between projected and actual performance that could impact future estimates of fair value of all reporting units. Significant differences between these estimates and actual cash flows could result in additional impairment in future periods.

Each of our operating segments described in Note 15 – Segment Information is considered to represent an individual reporting unit for goodwill impairment testing purposes. We consider each of our home health care centers to constitute an individual business for which discrete financial information is available. However, since these care centers have substantially similar operating and economic characteristics and resource allocation and significant investment decisions concerning these businesses are centralized and the benefits broadly distributed, we have aggregated these care centers and deemed them to constitute a single reporting unit. We have applied this same aggregation principle to our hospice care centers and personal-care care centers and have also deemed them to be a single reporting unit.

During 2016, we did not record any goodwill impairment charges as a result of our annual impairment test and none of the goodwill associated with our various reporting units was considered at risk of impairment as of October 31, 2016. Since the date of our last annual goodwill impairment test, there have been no material developments, events, changes in operating performance or other circumstances that would cause management to believe it is more likely than not that the fair value of any of our reporting units would be less than its carrying amount.

Intangible assets consist of Certificates of Need, licenses, acquired names and non-compete agreements. We amortize non-compete agreements and acquired names that we do not intend to use in the future on a straight-line basis over their estimated useful lives, which is generally three years for non-compete agreements and up to five years for acquired names.

Debt Issuance Costs

We amortize deferred debt issuance costs related to our long-term obligations over its term through interest expense, unless the debt is extinguished, in which case unamortized balances are immediately expensed. We amortized $0.7 million, $0.8 million and $0.7 million in deferred debt issuance costs in 2016, 2015 and 2014, respectively. As of December 31, 2016 and 2015, we had unamortized debt issuance costs of $2.7 million and $3.4 million, respectively, recorded as long-term obligations, less current portion in our accompanying consolidated balance sheets. The unamortized debt issuance costs of $2.7 million at December 31, 2016, will be amortized over a weighted-average amortization period of 3.7 years.

Fair Value of Financial Instruments

The following details our financial instruments where the carrying value and the fair value differ (amounts in millions):

		Fair Value at Reporting Date Using		
Financial Instrument	As of December 31, 2016	Quoted Prices in Active Markets for Identical Items (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Long-term obligations	$95.7	$ —	$97.8	$ —

The fair value hierarchy is based on three levels of inputs, of which the first two are considered observable and the last unobservable, that may be used to measure fair value. The three levels of inputs are as follows:

- Level 1 – Quoted prices in active markets for identical assets and liabilities.

- Level 2 – Inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.
- Level 3 – Unobservable inputs that are supported by little or no market activity and are significant to the fair value of the assets or liabilities.

Our deferred compensation plan assets are recorded at fair value and are considered a level 2 measurement. For our other financial instruments, including our cash and cash equivalents, patient accounts receivable, accounts payable, payroll and employee benefits and accrued expenses, we estimate the carrying amounts' approximate fair value.

Income Taxes

We use the asset and liability approach for measuring deferred tax assets and liabilities based on temporary differences existing at each balance sheet date using currently enacted tax rates. Our deferred tax calculation requires us to make certain estimates about future operations. Deferred tax assets are reduced by a valuation allowance when we believe it is more likely than not that some portion or all of the deferred tax assets will not be realized. The effect of a change in tax rate is recognized as income or expense in the period that includes the enactment date. As of December 31, 2016 and 2015 our net deferred tax assets were $107.9 million and $125.2 million, respectively.

Management regularly assesses the ability to realize deferred tax assets recorded in the Company's entities based upon the weight of available evidence, including such factors as the recent earnings history and expected future taxable income. In the event future taxable income is below management's estimates or is generated in tax jurisdictions different than projected, we could be required to increase the valuation allowance for deferred tax assets. This would result in an increase in our effective tax rate.

Share-Based Compensation

We record all share-based compensation as expense in the financial statements measured at the fair value of the award. We recognize compensation cost on a straight-line basis over the requisite service period for each separately vesting portion of the award. We reflect the excess tax benefits related to stock option exercises as financing cash flows. Share-based compensation expense for 2016, 2015 and 2014 was $16.4 million, $11.8 million and $5.6 million, respectively, and the total income tax benefit recognized for these expenses was $6.4 million, $4.7 million and $2.0 million, respectively.

Weighted-Average Shares Outstanding

Net income (loss) per share attributable to Amedisys, Inc. common stockholders, calculated on the treasury stock method, is based on the weighted average number of shares outstanding during the period. The following table sets forth, for the periods indicated, shares used in our computation of the weighted-average shares outstanding, which are used to calculate our basic and diluted net income (loss) attributable to Amedisys, Inc. common stockholders (amounts in thousands):

	For the Years Ended December 31,		
	2016	2015	2014
Weighted average number of shares outstanding – basic	33,198	33,018	32,301
Effect of dilutive securities:			
Stock options	162	—	1
Non-vested stock and stock units	381	—	521
Weighted average number of shares outstanding – diluted	33,741	33,018	32,823
Anti-dilutive securities	221	922	106

Advertising Costs

We expense advertising costs as incurred. Advertising expense for 2016, 2015 and 2014 was $7.8 million, $6.9 million and $4.7 million, respectively.

Recently Issued Accounting Pronouncements

In May 2014, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2014-09, *Revenue from Contracts with Customers (Topic 606)*, which requires an entity to recognize the amount of revenue for which it expects to be entitled for the transfer of promised goods or services to customers. The ASU will replace most existing revenue recognition guidance in U.S. GAAP. In August 2015, the FASB issued ASU 2015-14, *Revenue from Contracts with Customers (Topic 606): Deferral of the Effective Date*, to defer the effective date of the standard from January 1, 2017, to January 1, 2018, with an option that permits companies to adopt the standard as early as the original effective date. The new ASU reflects the decisions reached by the FASB at its meeting in July 2015. Early application prior to the original effective date is not permitted. The standard permits the use of either the retrospective or cumulative effect transition method. The Company does not expect an impact on its consolidated financial statements upon implementation of ASU 2014-09 and ASU 2015-14 on January 1, 2018, but is still evaluating the effect the standard will have on its related disclosures.

In April 2015, the FASB issued ASU 2015-03, *Interest—Imputation of Interest (Subtopic 835-30): Simplifying the Presentation of Debt Issuance Costs*. The amendments in this ASU require that debt issuance costs related to a recognized debt liability be presented in the balance sheet as a direct deduction from the carrying amount of that debt liability, consistent with debt discounts. The recognition and measurement guidance for debt issuance costs are not affected by the amendments in this ASU. ASU 2015-03 is effective for annual and interim periods beginning on or after December 15, 2015. We adopted this ASU during the three-month period ended March 31, 2016, and applied the change retrospectively for prior period balances of unamortized debt issuance costs, resulting in a $3.4 million reduction in other assets, net and long-term obligations, less current portion, on our consolidated balance sheet as of December 31, 2015.

In February 2016, the FASB issued ASU 2016-02, *Leases (Topic 842)*, which will require lessees to recognize a lease liability and right-of-use asset for all leases (with the exception of short-term leases) at the commencement date. The ASU is effective for annual and interim periods beginning on or after December 15, 2018. Early adoption is permitted. The standard requires a modified retrospective transition method which requires application of the new guidance for all periods presented. While the Company expects adoption of this standard to lead to a material increase in the assets and liabilities recorded on our balance sheet, we are still evaluating the overall impact on our consolidated financial statements and related disclosures and the effect of the standard on our ongoing financial reporting.

In March 2016, the FASB issued ASU 2016-09, *Compensation – Stock Compensation (Topic 718): Improvement to Employee Share-Based Payment Accounting*, which will simplify the accounting for share-based payment award transactions, including income tax consequences, classification of awards as either equity or liability, and classification on the statement of cash flows. The ASU is effective for annual and interim periods beginning after December 15, 2016. Early adoption is permitted. The element of the new standard that will have the most impact on our consolidated financial statements will be income tax consequences. Excess tax benefits and tax deficiencies on share-based compensation awards will now be included in our tax provision within our consolidated statement of operations as discrete items in the reporting period in which they occur, rather than our current accounting of recording in additional paid-in capital on our consolidated balance sheets.

In August 2016, the FASB issued ASU 2016-15, *Statement of Cash Flows (Topic 230): Classification of Certain Cash Receipts and Cash Payments*, which provides specific guidance on eight cash flow classification issues not specifically addressed by U.S. GAAP. The ASU is effective for annual and interim periods beginning after December 15, 2017. Early adoption is permitted. The standard should be applied using a retrospective transition method unless it is impractical to do so for some of the issues. In such case, the amendments for those issues would be applied prospectively as of the earliest date practicable. The Company is evaluating the effect that ASU 2016-15 will have on its consolidated financial statements and related disclosures and the effect of the standard on its ongoing financial reporting.

3. ACQUISITIONS

We complete acquisitions from time to time in order to pursue our strategy of increasing our market presence by expanding our service base and enhancing our position in certain geographic areas as a leading provider of home health, hospice and personal care services. The purchase price paid for acquisitions is negotiated through arm's length transactions, with consideration based on our analysis of, among other things, comparable acquisitions and expected cash flows. Acquisitions are accounted for as purchases and are included in our consolidated financial statements from their respective acquisition dates. Goodwill generated from acquisitions is recognized for the excess of the purchase price over tangible and identifiable intangible assets because of the expected contributions of the acquisitions to our overall corporate strategy. We typically engage outside appraisal firms to assist in the fair value determination of identifiable intangible assets. Preliminary purchase price allocation is adjusted, as necessary, up to one year after the acquisition closing date if management obtains more information regarding asset valuation and liabilities assumed.

2016 Acquisitions

Personal Care Division

On March 1, 2016, we acquired Associated Home Care which owns and operates 9 personal-care care centers servicing the state of Massachusetts for a total purchase price of $27.7 million, net of cash acquired (subject to

certain adjustments), of which $0.5 million was placed in escrow for indemnification purposes and working capital price adjustments. The purchase price was paid with cash on hand on the date of the transaction. Based on our preliminary purchase price allocation, in connection with the acquisition, we recorded goodwill ($23.5 million) and other assets and liabilities, net ($4.2 million) during the three-month period ended March 31, 2016. During the three-month period ended June 30, 2016, we received the final report from our outside appraisal firm. As a result, we reduced our preliminary goodwill by $5.0 million and recorded corresponding increases in the fair value of assets acquired ($0.2 million), other intangibles – acquired names of business ($3.5 million) and other intangibles – non-compete agreements ($1.3 million). We expect the entire amount of goodwill recorded for this acquisition to be deductible for income tax purposes over approximately 15 years.

On September 1, 2016, we acquired the assets of Professional Profiles, Inc. which owns and operates 4 personal-care care centers servicing the state of Massachusetts for a total purchase price of $4.4 million, (subject to certain adjustments), of which $0.7 million was placed in a promissory note to be paid over 24 months, subject to any offsets or withholds for indemnification purposes. The purchase price was paid with cash on hand on the date of the transaction. During the three-month period ended September 30, 2016, we recorded goodwill ($4.2 million) and other intangibles – non-compete agreements ($0.2 million) in connection with the acquisition. We expect the entire amount of goodwill recorded for this acquisition to be deductible for income tax purposes over approximately 15 years.

Home Health Division

On October 20, 2016, we acquired the assets of a former nonprofit organization in New York for a purchase price of $4.6 million. During the three-month period ended December 31, 2016, we recorded goodwill ($4.4 million) and other intangibles – certificate of need ($0.2 million) in connection with the acquisition. We expect the entire amount of goodwill recorded for this acquisition to be deductible for income tax purposes over approximately 15 years.

The following table contains unaudited pro forma condensed consolidated statement of operations information assuming that our 2016 acquisitions closed on January 1, 2015, for the years ended December 31, 2016 and 2015 (amounts in millions, except per share data):

	2016	2015
Net service revenue	$1,449.7	$1,322.2
Operating income (loss)	53.9	(7.8)
Net income	35.0	0.4
Basic earnings (loss) per share	$ 1.04	$ (0.01)
Diluted earnings (loss) per share	$ 1.03	$ (0.01)

The pro forma information presented above includes adjustments for (i) amortization of identifiable intangible assets and (ii) income tax provision using the Company's statutory tax rate. This pro forma information is presented for illustrative purposes only and may not be indicative of the results of operations that would have actually occurred. In addition, future results may vary significantly from the results reflected in the pro forma information.

2015 Acquisitions

Hospice Division

On July 24, 2015, we acquired one hospice care center in Tennessee for a total purchase price of $5.8 million. The purchase price was paid with cash on hand on the date of the transaction. In connection with the acquisition, we recorded goodwill ($5.5 million) and other intangibles ($0.3 million).

Home Health Division

On October 2, 2015, we acquired the assets of a home health care center in Georgia for a total purchase price of $0.3 million. The purchase price was paid with cash on hand on the date of the transaction. In connection with the acquisition, we recorded goodwill ($0.3 million).

On December 31, 2015, we acquired Infinity HomeCare ("Infinity") for a total purchase price of $63 million, net of cash acquired (subject to certain adjustments), of which $3.2 million was placed in escrow for indemnification purposes and working capital price adjustments. The purchase price was paid with cash on hand on the date of the transaction. Infinity owned and operated 15 home health care centers servicing the state of Florida. In connection with the acquisition, we recorded goodwill ($50.2 million), other intangibles ($10.9 million) and other assets and liabilities, net ($1.9 million). Approximately $47.6 million of the $50.2 recorded as goodwill is expected to be deductible for income tax purposes over approximately 15 years.

4. DISCONTINUED OPERATIONS AND ASSETS HELD FOR SALE

As of December 31, 2013, we had three care centers classified as held for sale. During 2014, we sold assets associated with two of these care centers and consolidated one of these care centers with a care center servicing the same market. There were no care centers classified as held for sale as of December 31, 2014.

As we exited certain geographical areas and in accordance with applicable accounting guidance, the care centers which were classified as held for sale as of December 31, 2013 and subsequently sold in 2014 are presented as discontinued operations in our consolidated financial statements. The care center consolidated with a care center servicing the same markets is presented in continuing operations as we expect continuing cash flows from these markets. For additional information on the care centers consolidated with care centers servicing the same markets and the care centers sold, see Note 13 – Exit Activities and Restructuring Activities.

Operating results for the twelve-month period ended December 31, 2014 for those care centers classified as discontinued operations are as follows: loss before income taxes of $0.3 million, income tax benefit of $0.1 million and net loss from discontinued operations of $0.2 million.

5. GOODWILL AND OTHER INTANGIBLE ASSETS, NET

During 2016, we did not record any goodwill impairment charges as a result of our annual impairment test and none of the goodwill associated with our various reporting units were considered at risk of impairment as of October 31, 2016. Since the date of our last annual goodwill impairment test, there have been no material developments, events, changes in operating performance or other circumstances that would cause management to believe it is more likely than not that the fair value of any of our reporting units would be less than its carrying amount.

During the fiscal year 2015, we did not record any goodwill impairment charges as a result of our annual impairment test and none of the goodwill associated with our various reporting units were considered at risk of impairment.

During the fiscal year 2014, we recognized a non-cash other intangible impairment charge of $0.9 million during step one of our 2014 annual goodwill impairment test. In addition, we recorded non-cash impairment charges of $2.2 million related to those care centers that were closed or consolidated during 2014 as discussed in Note 13 – Exit and Restructuring Activities.

The following table summarizes the activity related to our goodwill for 2016, 2015 and 2014 (amounts in millions):

	Goodwill			
	Home Health	Hospice	Personal Care	Total
Balances at December 31, 2013	$16.6	$192.3	$ —	$208.9
Write-off (1)	(0.1)	(3.2)	—	(3.3)
Balances at December 31, 2014	16.5	189.1	—	205.6
Additions	50.6	5.5	—	56.1
Balances at December 31, 2015	67.1	194.6	—	261.7
Additions	4.4	—	22.7	27.1
Adjustments related to acquisitions	0.1	—	—	0.1
Balances at December 31, 2016	$71.6	$194.6	$22.7	$288.9

(1) Write-off of goodwill related to the sale of care centers as discussed in Note 13 – Exit and Restructuring Activities.

During 2016, we adjusted goodwill by $0.1 million as a result of our completion of the purchase price accounting for our 2015 acquisition of Infinity.

The following table summarizes the activity related to our other intangible assets, net for 2016, 2015 and 2014 (amounts in millions):

	Other Intangible Assets, Net			
	Certificates of Need and Licenses	Acquired Names of Business	Non-Compete Agreements (2)	Total
Balances at December 31, 2013	$25.4	$11.1	$ 0.2	$36.7
Write-off (1)	(0.2)	—	—	(0.2)
Impairment	(2.1)	(1.0)	—	(3.1)
Amortization	—	—	(0.2)	(0.2)
Balances at December 31, 2014	23.1	10.1	—	33.2
Additions	1.1	4.1	5.9	11.1
Write-off	(0.3)	—	—	(0.3)
Balances at December 31, 2015	23.9	14.2	5.9	44.0
Additions	0.2	3.5	1.5	5.2
Amortization	—	—	(2.5)	(2.5)
Balances at December 31, 2016	$24.1	$17.7	$ 4.9	$46.7

(1) Write-off of intangible assets related to the sale of care centers as discussed in Note 13 – Exit and Restructuring Activities.
(2) The weighted average amortization period of our non-compete agreements is 1.9 years.

See Note 3 – Acquisitions for further details on additions to goodwill and other intangible assets, net.

The estimated aggregate amortization expense related to intangible assets for each of the five succeeding years is as follows (amounts in millions):

2017	$ 2.7
2018	2.2
2019	—
2020	—
2021	—
	$ 4.9

6. DETAILS OF CERTAIN BALANCE SHEET ACCOUNTS

Additional information regarding certain balance sheet accounts is presented below (amounts in millions):

	As of December 31,	
	2016	2015
Other current assets:

7. LONG-TERM OBLIGATIONS

Long-term debt consisted of the following for the periods indicated (amounts in millions):

	As of December 31,	
	2016	2015
$100.0 million Term Loan; principal payments plus accrued interest payable quarterly; interest rate at ABR Rate plus applicable percentage or Eurodollar Rate plus the applicable percentage (2.77% at December 31, 2016); due August 28, 2020	$95.0	$100.0
$200.0 million Revolving Credit Facility; interest only quarterly payments; interest rate at ABR Rate plus applicable percentage or Eurodollar Rate plus the applicable percentage; due August 28, 2020	—	—
Promissory notes	0.7	—
Deferred debt issuance costs	(2.7)	(3.4)
	93.0	96.6
Current portion of long-term obligations	(5.2)	(5.0)
Total	$87.8	$ 91.6

Maturities of debt as of December 31, 2016 are as follows (amounts in millions):

	Long-term obligations
2017	$ 5.2
2018	10.5
2019	10.0
2020	70.0
2021	—
	$95.7

Credit Agreement

On August 28, 2015, we entered into a Credit Agreement that provides for senior secured facilities in an initial aggregate principal amount of up to $300 million (the "Credit Facilities").

The Credit Facilities are comprised of (a) a term loan facility in an initial aggregate principal amount of $100 million (the "Term Loan"); and (b) a revolving credit facility in an initial aggregate principal amount of up to $200 million (the "Revolving Credit Facility"). The Revolving Credit Facility provides for and includes within its $200 million limit a $25 million swingline facility and commitments for up to $50 million in letters of credit. Upon lender approval, we may increase the aggregate loan amount under the Credit Facilities by a maximum amount of $150 million.

The net proceeds of the Term Loan and existing cash on hand were used to pay off (i) our existing term loan under our prior Credit Agreement, dated as of October 22, 2012, as amended (the "Prior Credit Agreement") with a principal balance of $27 million and (ii) our existing term loan under our prior Second Lien Credit Agreement dated July 28, 2014 (the "Second Lien Credit Agreement"), with a principal balance of $70 million. The final maturity of the Term Loan is August 28, 2020. The Term Loan began amortizing on March 31, 2016 and will

continue amortizing over 14 quarterly installments (four remaining quarterly installments of $1.25 million followed by eight quarterly installments of $2.5 million, followed by two quarterly installments of $3.1 million, subject to adjustment for prepayments), with the remaining balance due upon maturity.

The Revolving Credit Facility may be used to provide ongoing working capital and for general corporate purposes of the Company and our subsidiaries, including permitted acquisitions, as defined in the Credit Agreement. The final maturity of the Revolving Credit Facility is August 28, 2020 and will be payable in full at that time.

The interest rate in connection with the Credit Facilities shall be selected from the following by us: (i) the Base Rate plus the Applicable Rate or (ii) the Eurodollar Rate plus the Applicable Rate. The "Base Rate" means a fluctuating rate per annum equal to the highest of (a) the federal funds rate plus 0.50% per annum, (b) the prime rate of interest established by the Administrative Agent, and (c) the Eurodollar Rate for an interest period of one month plus 1% per annum. The "Eurodollar Rate" means the rate at which Eurodollar deposits in the London interbank market for an interest period of one, two, three or six months (as selected by us) are quoted. The "Applicable Rate" is based on the consolidated leverage ratio and is presented in the table below. As of December 31, 2016, the Applicable Rate is 1.00% per annum for Base Rate Loans and 2.00% per annum for Eurodollar Rate Loans. We are also subject to a commitment fee and letter of credit fee under the terms of the Credit Facilities, as presented in the table below.

Consolidated Leverage Ratio	Margin for ABR Loans	Margin for Eurodollar Loans	Commitment Fee	Letter of Credit Fee
≥ 2.75 to 1.0	2.00%	3.00%	0.40%	3.00%
< 2.75 to 1.0 but ≥ 1.75 to 1.0	1.50%	2.50%	0.35%	2.50%
< 1.75 to 1.0 but ≥ 0.75 to 1.0	1.00%	2.00%	0.30%	2.00%
< 0.75 to 1.0	0.50%	1.50%	0.25%	1.50%

Our weighted average interest rate for our $100.0 million Term Loan, under our Credit Agreement, was 2.5% for 2016 and 2.7% for the period August 28, 2015 to December 31, 2015. Our weighted average interest rate for our $200.0 million Revolving Credit Facility was 3.5% for 2016.

As of December 31, 2016, our availability under our $200.0 million Revolving Credit Facility was $173.3 million as we had $26.7 million outstanding in letters of credit.

The Credit Agreement requires maintenance of two financial covenants: (i) a consolidated leverage ratio of funded indebtedness to EBITDA, as defined in the Credit Agreement, and (ii) a consolidated fixed charge coverage ratio of EBITDA plus rent expense (less cash taxes less capital expenditures) to scheduled debt repayments plus interest expense plus rent expense, all as defined in the Credit Agreement. Each of these covenants is calculated over rolling four-quarter periods and also is subject to certain exceptions and baskets. As of December 31, 2016, our consolidated leverage ratio was 1.0 and our consolidated fixed charge coverage ratio was 3.8 and we are in compliance with the Credit Agreement. The Credit Agreement also contains customary covenants, including, but not limited to, restrictions on: incurrence of liens; incurrence of additional debt; sales of assets and other fundamental corporate changes; investments; and declarations of dividends. These covenants contain customary exclusions and baskets.

The Credit Facilities are guaranteed by substantially all of our wholly-owned direct and indirect subsidiaries. The Credit Agreement requires at all times that we (i) provide guarantees from wholly-owned subsidiaries that in the aggregate represent not less than 95% of our consolidated net revenues and adjusted EBITDA from all

wholly-owned subsidiaries and (ii) provide guarantees from subsidiaries that in the aggregate represent not less than 70% of consolidated adjusted EBITDA, subject to certain exceptions.

In connection with entering into the Credit Agreement, we entered into (i) a Security Agreement with the Administrative Agent dated August 28, 2015 and (ii) a Pledge Agreement with the Administrative Agent dated as of August 28, 2015 for the purpose of securing the payment of our obligations under the Credit Agreement. Pursuant to the Security Agreement and the Pledge Agreement, as of the effective date of the Credit Agreement, our obligations under the Credit Agreement are secured by (i) the grant of a first lien security interest in the non-real estate assets of substantially all of our direct and indirect, wholly-owned subsidiaries (subject to exceptions) and (ii) the pledge of the equity interests in (a) substantially all of our direct and indirect, wholly-owned corporate, limited liability company and limited partnership subsidiaries and (b) those joint ventures which constitute subsidiaries under the Credit Agreement (subject, in the case of the Pledge Agreement, to exceptions).

In connection with our entry into the Credit Agreement, on August 28, 2015, each of the Prior Credit Agreement and the Second Lien Credit Agreement were terminated. The Company paid a call premium of $700,000 associated with the termination of the Second Lien Credit Agreement and the voluntary prepayment of the amounts owed thereunder as of August 28, 2015, and expensed $2.5 million in deferred debt issuance costs during the three-month period ended September 30, 2015. Also in connection with our entry into the Credit Agreement, we recorded $2.4 million in deferred debt issuance costs as other assets in our consolidated balance sheet during 2015 which was reclassified to long-term obligations, less current portion during 2016 in accordance with ASU 2015-03.

Promissory Notes

Our promissory note outstanding of $0.7 million, issued in conjunction with an acquisition, bears an interest rate of 2.6%.

8. INCOME TAXES

Income taxes attributable to continuing operations consist of the following (amounts in millions):

	For the Years Ended December 31,		
	2016	2015	2014
Current income tax expense/(benefit):			
Federal	$ (0.5)	$ 2.2	$(13.9)
State and local	(0.1)	0.5	(1.1)
	(0.6)	2.7	(15.0)
Deferred income tax expense/(benefit):			
Federal	22.1	(0.5)	21.0
State and local	2.4	(0.1)	1.6
Foreign	—	(0.1)	0.1
	24.5	(0.7)	22.7
Income tax expense/(benefit) from continuing operations	$23.9	$ 2.0	$ 7.7

Total income tax expense for the years ended December 31, 2016, 2015 and 2014 was allocated as follows (amounts in millions):

	For the Years Ended December 31,		
	2016	2015	2014
Income from continuing operations	$23.9	$ 2.0	$ 7.7
Income from discontinued operations	—	—	(0.1)
Interest expense	(0.1)	0.2	(0.1)
Goodwill	—	(0.1)	—
Stockholders' equity	(7.2)	(2.1)	0.6
	$16.6	$—	$ 8.1

A reconciliation of significant differences between the reported amount of income tax expense and the expected amount of income tax expense that would result from applying the U.S. federal statutory income tax rate of 35 percent to income before taxes from continuing operations is as follows:

	For the Years Ended December 31,		
	2016	2015 (1)	2014
Income tax expense at U.S. federal statutory rate	35.0 %	35.0 %	35.0 %
State and local income taxes, net of federal income tax benefit	4.8	(7.1)	5.8
Valuation allowance	0.1	79.1	1.5
Tax credits	(0.6)	136.0	(8.4)
Uncertain tax positions	(1.0)	(230.3)	0.6
Other items, net (2)	0.6	(663.3)	2.1
Income tax expense/(benefit)	38.9 %	(650.6)%	36.6 %

(1) The information provided for the year ended December 31, 2015 does not provide a meaningful reconciliation of the effective tax rate or comparable to other periods. The effective tax rate for the year is influenced by the relationship of the amount of "effective tax rate drivers" (i.e. non-deductible expenses, non-taxable income, tax credits, valuation allowance, uncertain tax positions, etc.) to income or loss before taxes. A significant asset impairment was recorded in the first quarter, resulting in a scenario where the company's loss before tax for the year was near zero. Consequently, for 2015, the relationship between the "effective tax rate drivers" and loss before taxes is distorted.

(2) Includes various items such as, non-deductible expenses, non-taxable income, return-to-accrual adjustments, and foreign tax rate differential.

As of December 31, 2016 and 2015, the Company had income taxes receivable of $1.3 million and $0.5 million, respectively, included in other current assets.

Deferred tax assets (liabilities) consist of the following components (amounts in millions):

	As of December 31,	
	2016	2015
Deferred tax assets:		
Allowance for doubtful accounts	$ 6.9	$ 6.4
Accrued payroll & employee benefits	11.4	5.1
Workers' compensation	10.9	9.8
Amortization of intangible assets	56.3	72.2
Share-based compensation	7.8	5.0
Net operating loss carryforwards (1)	44.2	48.5
Tax credit carryforwards (2)	4.8	4.7
Other	1.1	4.0
Gross deferred tax assets	143.4	155.7
Less: valuation allowance	(0.4)	(0.3)
Net deferred tax assets	143.0	155.4
Deferred tax (liabilities):		
Property and equipment	(7.8)	(9.5)
Deferred revenue	(23.2)	(18.5)
Investment in partnerships	(3.2)	(0.2)
Other liabilities	(0.9)	(2.0)
Gross deferred tax (liabilities)	(35.1)	(30.2)
Net deferred tax assets (liabilities)	$107.9	$125.2

(1) The net operating loss ("NOL") carry forwards in the income tax returns include unrecognized tax benefits resulting from uncertain tax positions. Accordingly, the deferred tax assets recognized for the NOL carry forwards, as of December 31, 2016 and 2015, are presented net of unrecognized tax benefits of $3.1 million.

(2) The tax credit carry forwards in the income tax returns include unrecognized tax benefits resulting from uncertain tax positions. Accordingly, the deferred tax assets recognized for the tax credit carry forwards are presented net of unrecognized tax benefits of $0.7 million for each of the years ended December 31, 2016 and 2015.

As of December 31, 2016, we have U.S. net operating loss ("NOL") carry forwards of $102.1 million that are available to reduce future taxable income and begin to expire in 2034. In addition, we have research and development tax credits, employment tax credits, and alternative minimum tax credits of $1.9 million, $0.2 million and $1.4 million, respectively, available to reduce future U.S. federal income taxes. The research and development tax credits and employment tax credits begin to expire in 2032, and the alternative minimum tax credits are available indefinitely.

As of December 31, 2016, we have state NOL carry forwards of $268.4 million that are available to reduce future taxable income. In addition, we have $3.1 million of various state tax credits available to reduce future taxable income. The state NOL and tax credit carry forwards begin to expire at various times.

The valuation allowance for deferred tax assets as of December 31, 2016 and 2015 was $0.4 million and $0.3 million, respectively. The net change in the total valuation allowance for the year ended December 31, 2016 and December 31, 2015 was an increase of $0.1 million and a decrease of $0.3 million, respectively. The valuation allowance during 2016 and 2015 was primarily related to certain state NOL and state tax credit carry forwards.

In assessing the realizability of deferred tax assets, management considers whether it is more likely than not that some portion or all of the deferred tax assets will not be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income in those jurisdictions during the periods in which those temporary differences become deductible. Management considers the scheduled reversal of deferred tax liabilities (including the impact of available carry back and carry forward periods), projected future taxable income, and tax-planning strategies in making this assessment. In order to fully realize the deferred tax assets, the Company will need to generate future taxable income before the expiration of the carry forwards governed by the tax code. Based on the current level of pretax earnings, the Company will generate the minimum amount of future taxable income to support the realization of the deferred tax assets. As a result, management believes that it is more likely than not that we will realize the benefits of these deferred tax assets, net of the existing valuation allowances at December 31, 2016. The amount of the deferred tax asset considered realizable, however, could be reduced in the near term if estimates of future taxable income during the carry forward period are reduced.

Uncertain Tax Positions

We account for uncertain tax positions in accordance with the authoritative guidance for uncertain tax positions. A reconciliation of the beginning and ending amount of unrecognized tax benefits is as follows (amounts in millions):

	For the Years Ended December 31,	
	2016	2015
Balance at beginning of period	$ 4.7	$ 4.0
Additions for tax positions related to current year	—	—
Additions for tax positions related to prior year	—	1.0
Reductions for tax positions related to prior years	—	—
Lapse of statute of limitations	(0.6)	(0.3)
Settlements	—	—
Balance at end of period	$ 4.1	$ 4.7

As of December 31, 2016, there are $0.3 million and $3.8 million of unrecognized tax benefits recorded in accrued other long-term obligations and deferred income taxes, respectively, within the consolidated balance sheet.

Included in the balance of unrecognized tax benefits at December 31, 2016 is $4.1 million of tax benefits that, if recognized in future periods, would impact our effective tax rate.

During the years ended December 31, 2016 and 2015, we recognized interest and penalties of $(0.1) million and $0.2 million, respectively, as components of penalties or interest expense in connection with our reserve for uncertain tax positions. Interest and penalties, related to uncertain tax positions, included in the consolidated balance sheet at December 31, 2016 and 2015 were less than $0.1 and $0.2 million, respectively.

We are subject to income taxes in the U.S. and in many of the 50 individual states, with significant operations in Louisiana, Alabama, Georgia, and Tennessee. We are open to examination in the U.S. and in various individual states for tax years ended December 31, 2013 through December 31, 2016. We are also open to examination in various states for the years ended 2001 – 2016 resulting from net operating losses generated and available for carry forward from those years.

We believe that it is reasonably possible that decreases of up to $0.3 million in unrecognized tax benefits, each of which are individually insignificant, may be recognized by the end of December 31, 2017 as a result of an anticipated settlement and lapse of the statute of limitations.

9. CAPITAL STOCK AND SHARE-BASED COMPENSATION

We are authorized by our Certificate of Incorporation to issue 60,000,000 shares of common stock, $0.001 par value and 5,000,000 shares of preferred stock, $0.001 par value. As of December 31, 2016, there were 35,253,577 and 33,597,215 shares of common stock issued and outstanding, respectively, and no shares of preferred stock issued or outstanding. Our Board of Directors is authorized to fix the dividend rights and terms, conversion and voting rights, redemption rights and other privileges and restrictions applicable to our preferred stock.

Share-Based Awards

Our 2008 Omnibus Incentive Compensation Plan (the "Plan") authorizes the grant of various types of equity-based awards, such as stock awards, restricted stock units, stock appreciation rights and stock options to eligible participants, which include all of our employees and all employees of our 50% or more owned subsidiaries, our non-employee directors and certain consultants. The vesting terms of the awards may be tied to continued employment (or, for our non-employee directors, continued service on the Board of Directors) and/or achievement of certain pre-determined performance goals. We refer to stock awards subject to service-based vesting conditions as "non-vested stock" and restricted stock units subject to service-based and performance-based or market-based vesting conditions as "non-vested stock units." The Plan is administered by the Compensation Committee of our Board of Directors, which determines, within the provisions of the Plan, those eligible employees to whom, and the times at which, awards shall be granted. The Compensation Committee, in its discretion, may delegate its authority and duties under the Plan to specified officers; however, only the Compensation Committee may approve the terms of awards to our executive officers.

Equity-based awards may be granted for a number of shares not to exceed, in the aggregate, approximately 5.5 million shares of common stock, and we had approximately 1.2 million shares available at December 31, 2016. The price per share for stock options shall be of no less than the greater of (a) 100% of the fair value of a share of common stock on the date the option is granted or (b) the aggregate par value of the shares of our common stock on the date the option is granted. If a stock option is granted to any owner of 10% or more of our total combined voting power of us and our subsidiaries, the price is to be at least 110% of the fair value of a share of our common stock on the date the award is granted. Each equity-based award vests ratably over a 12 month to six year period, with the exception of those issued under contractual arrangements that specify otherwise, that may be exercised during a period as determined by our Compensation Committee or as otherwise approved by our Compensation Committee. The contractual terms of stock options exercised shall not exceed ten years from the date such option is granted.

Employee Stock Purchase Plan ("ESPP")

We have a plan whereby our eligible employees may purchase our common stock at 85% of the market price at the time of purchase. On June 7, 2012, our stockholders ratified an amendment adopted by our Board of Directors to increase the total number of shares of our common stock authorized for the issuance under our ESPP

from 2,500,000 shares to 4,500,000 shares, and as of December 31, 2016, there were 1,460,800 shares available for future issuance. The following is a detail of the purchases that were made or pending Board of Director approval under the plan:

Employee Stock Purchase Plan Period	Shares Issued	Price
2014 and Prior	2,899,528	$13.78
January 1, 2015 to March 31, 2015	24,368	22.76
April 1, 2015 to June 30, 2015	15,750	33.77
July 1, 2015 to September 30, 2015	18,984	32.27
October 1, 2015 to December 31, 2015	19,082	33.42
January 1, 2016 to March 31, 2016	13,850	41.09
April 1, 2016 to June 30, 2016	14,236	42.91
July 1, 2016 to September 30, 2016	16,520	40.32
October 1, 2016 to December 31, 2016	16,882	36.24
	3,039,200	

ESPP expense included in general and administrative expense in our accompanying consolidated statements of operations was $0.4 million for each of 2016, 2015 and 2014, respectively.

Stock Options

We use the Black-Scholes option pricing model to estimate the fair value of our stock options. There were 268,538, 590,647 and 250,000 options granted during 2016, 2015 and 2014, respectively. Stock option compensation expense included in general and administrative expense in our accompanying consolidated statements of operations was $6.3 million, $3.8 million and $0.1 million for 2016, 2015 and 2014, respectively.

The fair value of the 2016 awards were estimated using the following assumptions:

Risk Free Rate	1.19% – 1.58%
Expected Volatility	53.44% – 54.89%
Expected Term	5.86 – 6.25 years
Weighted Average Fair Value	$25.99

We used the simplified method to estimate the expected term for the stock options granted during 2016.

The following table presents our stock option activity for 2016:

	Number of Shares	Weighted Average Exercise Price	Weighted Average Contractual Life (Years)
Outstanding options at January 1, 2016	838,494	$30.18	9.31
Granted	268,538	37.21	
Exercised	—	—	
Canceled, forfeited or expired	(98,875)	35.45	
Outstanding options at December 31, 2016	1,008,157	$31.54	8.42
Exercisable options at December 31, 2016	281,458	$28.86	8.21

The aggregate intrinsic value of our outstanding options and exercisable options at December 31, 2016 was $11.9 million and $3.9 million, respectively. There were no options exercised during 2016. Total intrinsic value of options exercised was $0.2 million and $0.1 million for 2015 and 2014, respectively.

The following table presents our non-vested stock option award activity for 2016:

	Number of Shares	Weighted Average Grant Date Fair Value
Non-vested stock options at January 1, 2016	775,994	$30.47
Granted	268,538	37.21
Vested	(219,872)	29.55
Forfeited	(97,961)	35.38
Non-vested stock options at December 31, 2016	726,699	$32.58

At December 31, 2016, there was $7.2 million of unrecognized compensation cost related to stock options that we expect to be recognized over a weighted-average period of 2.1 years.

Non-Vested Stock

We issue shares of non-vested stock with vesting terms ranging from one to six years. The compensation expense is determined based on the market price of our common stock at the date of grant applied to the total number of shares that are anticipated to fully vest. Non-vested stock compensation expense included in general and administrative expenses in our accompanying consolidated statements of operations was $2.3 million, $5.0 million and $4.6 million for 2016, 2015 and 2014, respectively.

The following table presents our non-vested stock award activity for 2016:

	Number of Shares	Weighted Average Grant Date Fair Value
Non-vested stock at January 1, 2016	500,888	$18.24
Granted	21,202	50.55
Vested	(222,783)	18.00
Canceled, forfeited or expired	(89,929)	17.26
Non-vested stock at December 31, 2016	209,378	$22.20

The weighted average grant date fair value of non-vested stock granted was $50.55, $28.48 and $16.38 in 2016, 2015, and 2014, respectively.

At December 31, 2016, there was $1.4 million of unrecognized compensation cost related to non-vested stock award payments that we expect to be recognized over a weighted average period of 0.9 years.

Non-Vested Stock Units

We issue non-vested stock unit awards that are service-based, performance-based or a combination of both with vesting terms ranging from one to six years. Based on the terms and conditions of these awards, we determine if

the awards should be recorded as either equity or liability instruments. The compensation expense is determined based on the market price of our common stock at the date of grant, applied to the total number of units that are anticipated to vest, unless the award specifies differently. We account for such awards similar to our non-vested stock awards; however, no shares of stock are issued to the recipient until the stock unit awards have vested and after the pre-determined delivery date has occurred.

Non-Vested Stock Units – Service-Based

Service-based non-vested stock unit compensation expense included in general and administrative expenses in our accompanying consolidated statements of operations was $3.6 million and $1.0 million for 2016 and 2015, respectively.

The following table presents our service-based non-vested stock units activity for 2016:

	Number of Shares	Weighted Average Grant Date Fair Value
Non-vested stock units at January 1, 2016	183,332	$37.89
Granted	147,896	45.60
Vested	(32,607)	38.81
Canceled, forfeited or expired	(49,192)	39.38
Non-vested stock units at December 31, 2016	249,429	$42.05

The weighted average grant date fair value of service-based non-vested stock units granted was $45.60 and $37.98 in 2016 and 2015, respectively.

At December 31, 2016, there was $6.7 million of unrecognized compensation cost related to our service-based non-vested stock units that we expect to be recognized over a weighted average period of 2.2 years.

Non-Vested Stock Units – Service-Based and Performance-Based Awards

During 2016, we awarded performance-based awards to certain employees. The target level established by the award, which is based on the Company's 2016 adjusted earnings before interest, taxes and depreciation ("EBITDA"), provided for the recipients to receive 182,796 non-vested stock units if the target was achieved. The target number of shares to be potentially awarded has been reduced by forfeitures as indicated in the table below. Performance-based non-vested stock units compensation expense included in general and administrative expenses in our consolidated statements of operations was $3.7 million and $1.3 million for 2016 and 2015, respectively.

The following table presents our performance-based non-vested stock units activity for 2016:

	Number of Shares	Weighted Average Grant Date Fair Value
Non-vested stock units at January 1, 2016	151,063	$39.44
Granted	182,796	46.29
Vested	(44,729)	34.83
Canceled, forfeited or expired	(64,273)	42.41
Non-vested stock units at December 31, 2016	224,857	$45.08

The weighted average grant date fair value of performance-based non-vested stock units granted was $46.29 and $39.54 in 2016 and 2015, respectively.

At December 31, 2016, there were $6.4 million in unrecognized compensation costs related to our performance-based non-vested stock units that we expect to be recognized over a weighted average period of 2.0 years.

Non-Vested Stock Units – Service-Based and Market-Based Awards

During 2013, we awarded market-based awards to certain employees. The target level established by the award, which was based on our average December 2015 stock price, provided for the recipients to receive 417,330 non-vested stock units if the target is achieved. If the target objective was surpassed to the point of achieving the projected maximum payout, the recipients would receive 667,728 non-vested stock units. The target number of shares to be potentially awarded was reduced by forfeitures as indicated in the table below. As of March 3, 2016, it was determined that the market-based objective established by the award was satisfied at maximum payout and as a result, 248,654 stock units were awarded to the recipients on April 1, 2016.

For market-based awards, the effect of the market condition is reflected in the fair value of the awards at the date of grant using a Monte-Carlo simulation model. A Monte-Carlo simulation model estimates the fair value of the market-based award based upon the expected term, risk-free interest rate and expected volatility. Compensation expense for market-based awards is recognized over the vesting period regardless of whether the market conditions are expected to be achieved. Market-based non-vested stock units compensation expense included in general and administrative expenses in our accompanying consolidated statements of operations was $0.1 million, $0.3 million and $0.5 million for 2016, 2015 and 2014, respectively. The fair value of the 2013 award was estimated using the following assumptions:

Forward Interest Rate	0.327 % – 1.460%
Expected Volatility	54.38%
Requisite Service Period	3 years
Fair Value	$10.51

The following table presents our market-based non-vested stock units activity for 2016:

	Number of Shares	Weighted Average Grant Date Fair Value
Non-vested stock units at January 1, 2016	164,534	$10.51
Granted (1)	93,257	10.51
Vested	(248,654)	10.51
Canceled, forfeited or expired	(9,137)	10.51
Non-vested stock units at December 31, 2016	—	$ —

(1) Represents shares awarded upon achievement of maximum payout.

The weighted average grant date fair value of market-based non-vested stock units granted was $10.51 in 2013. All of our outstanding market-based non-vested stock units were fully vested as of April 1, 2016.

10. COMMITMENTS AND CONTINGENCIES

Legal Proceedings – Ongoing

We are involved in the following legal actions:

Securities Class Action Lawsuits

On June 10, 2010, a putative securities class action complaint was filed in the United States District Court for the Middle District of Louisiana (the "District Court") against the Company and certain of our current and former senior executives. Additional putative securities class actions were filed in the District Court on July 14, July 16, and July 28, 2010.

On January 18, 2011, the Co-Lead Plaintiffs filed an amended, consolidated class action complaint (the "Securities Complaint") which supersedes the earlier-filed securities class action complaints. The Securities Complaint alleges that the defendants made false and/or misleading statements and failed to disclose material facts about our business, financial condition, operations and prospects, particularly relating to our policies and practices regarding home therapy visits under the Medicare home health prospective payment system and the related alleged impact on our business, financial condition, operations and prospects. The Securities Complaint seeks a determination that the action may be maintained as a class action on behalf of all persons who purchased the Company's securities between August 2, 2005 and September 28, 2010 and an unspecified amount of damages.

All defendants moved to dismiss the Securities Complaint. On June 28, 2012, the District Court granted the defendants' motion to dismiss the Securities Complaint. On July 26, 2012, the Co-Lead Plaintiffs filed a motion for reconsideration, which the District Court denied on April 9, 2013.

On May 3, 2013, the Co-Lead Plaintiffs appealed the dismissal of the Securities Complaint to the United States Court of Appeals for the Fifth Circuit (the "Fifth Circuit"). On October 2, 2014, a three-judge panel of the Fifth Circuit issued a decision reversing the District Court's dismissal of the Securities Complaint. On October 16, 2014, all defendants filed a petition with the Fifth Circuit to review the three-judge panel's decision *en banc*, or as a whole court. On December 29, 2014, the Fifth Circuit denied the defendants' motion for *en banc* review of the Fifth Circuit panel's decision reversing the District Court's dismissal of the Securities Complaint. The case then returned to the District Court for further proceedings. On March 30, 2015, the defendants filed a Petition for Writ of Certiorari (the "Petition") with the United States Supreme Court asking the Supreme Court to consider whether the Fifth Circuit erred in reversing the District Court's dismissal of the Securities Complaint. The Supreme Court denied the Petition on June 29, 2015, which did not affect the ongoing proceedings before the District Court, including the District Court's consideration of a motion filed on April 3, 2015, by the Co-Lead Plaintiffs for leave to amend the Securities Complaint, which motion was granted by the District Court. On December 15, 2015, the defendants filed a motion to dismiss the Co-Lead Plaintiffs' First Amended Consolidated Complaint. All discovery in the case is currently stayed pursuant to federal law. The parties agreed to explore the possibility of a mediated settlement of this matter, and a mediation was held on June 21, 2016. The parties were unable to resolve this matter during the mediation. On August 19, 2016, the District Court denied the defendants motion to dismiss the Co-Lead Plantiffs' First Amended Consolidated Complaint. The Defendants filed an Answer to the Complaint on October 20, 2016. The case is currently in discovery.

We are unable to assess the probable outcome or reasonably estimate the potential liability, if any, arising from the securities litigation described above. The Company intends to continue to vigorously defend itself in the securities litigation matter but, if decided adverse to the Company, its impact could be material. No assurances

can be given as to the timing or outcome of the securities matter described above or the impact of any of the inquiry or litigation matters on the Company, its consolidated financial condition, results of operations or cash flows, which could be material, individually or in the aggregate.

Subpoena Duces Tecum Issued by the U.S. Department of Justice

On May 21, 2015, we received a Subpoena Duces Tecum ("Subpoena") issued by the U.S. Department of Justice. The Subpoena requests the delivery of information regarding 53 identified hospice patients to the United States Attorney's Office for the District of Massachusetts. It also requests the delivery of documents relating to our hospice clinical and business operations and related compliance activities. The Subpoena generally covers the period from January 1, 2011, through the present. We are fully cooperating with the U.S. Department of Justice with respect to this investigation. Based on the information currently available to us, we cannot predict the timing or outcome of this investigation or reasonably estimate the amount or range of potential losses, if any, which may arise from this matter.

Civil Investigative Demand Issued by the U.S. Department of Justice

On November 3, 2015, we received a civil investigative demand ("CID") issued by the U.S. Department of Justice pursuant to the federal False Claims Act relating to claims submitted to Medicare and/or Medicaid for hospice services provided through designated facilities in the Morgantown, West Virginia area. The CID requests the delivery of information to the United States Attorney's Office for the Northern District of West Virginia regarding 66 identified hospice patients, as well as documents relating to our hospice clinical and business operations in the Morgantown area. The CID generally covers the period from January 1, 2009 through August 31, 2015. We are fully cooperating with the U.S. Department of Justice with respect to this investigation. Based on the information currently available to us, we cannot predict the timing or outcome of this investigation or reasonably estimate the amount or range of potential losses, if any, which may arise from this matter.

On June 27, 2016, we received a CID issued by the U.S. Department of Justice pursuant to the federal False Claims Act relating to claims submitted to Medicare and/or Medicaid for hospice services provided through designated facilities in the Parkersburg, West Virginia area. The CID requests the delivery of information to the United States Attorney's Office for the Southern District of West Virginia regarding 68 identified hospice patients, as well as documents relating to our hospice clinical and business operations in the Parkersburg area. The CID generally covers the period from January 1, 2011 through June 20, 2016. We are fully cooperating with the U.S. Department of Justice with respect to this investigation. Based on the information currently available to us, we cannot predict the timing or outcome of this investigation or reasonably estimate the amount or range of potential losses, if any, which may arise from this matter.

In addition to the matters referenced in this note, we are involved in legal actions in the normal course of business, some of which seek monetary damages, including claims for punitive damages. We do not believe that these normal course actions, when finally concluded and determined, will have a material impact on our consolidated financial condition, results of operations or cash flows.

Legal Proceedings – Settled

Wage and Hour Litigation

On July 25, 2012, a putative collective and class action complaint was filed in the United States District Court for the District of Connecticut against us in which three former employees allege wage and hour law violations. The

former employees claim that they were not paid overtime for all hours worked over 40 hours in violation of the Federal Fair Labor Standards Act ("FLSA"), as well as the Pennsylvania Minimum Wage Act. More specifically, they allege they were paid on both a per-visit and an hourly basis, and that such a pay scheme resulted in their misclassification as exempt employees, thereby denying them overtime pay. Moreover, in response to a Company motion arguing that plaintiffs' complaint was deficient in that it was ambiguous and failed to provide fair notice of the claims asserted and plaintiffs' opposition thereto, the Court, on April 8, 2013, held that the complaint adequately raises general allegations that the plaintiffs were not paid overtime for all hours worked in a week over 40, which may include claims for unpaid overtime under other theories of liability, such as alleged off-the-clock work, in addition to plaintiffs' more clearly stated allegations based on misclassification. On behalf of themselves and a class of current and former employees they allege are similarly situated, plaintiffs seek attorneys' fees, back wages and liquidated damages going back three years under the FLSA and three years under the Pennsylvania statute. On October 8, 2013, the Court granted plaintiffs' motion for equitable tolling requesting that the statute of limitations for claims under the FLSA for plaintiffs who opt-in to the lawsuit be tolled from September 24, 2012, the date upon which plaintiffs filed their original motion for conditional certification, until 90 days after any notice of this lawsuit is issued following conditional certification. Following a motion for reconsideration filed by the Company, on December 3, 2013, the Court modified this order, holding that putative class members' FLSA claims are tolled from October 29, 2012 through the date of the Court's order on plaintiffs' motion for conditional certification. On January 13, 2014, the Court granted plaintiffs' July 10, 2013 motion for conditional certification of their FLSA claims and authorized issuance of notice to putative class members to provide them an opportunity to opt in to the action. On April 17, 2014, that notice was mailed to putative class members. The period within which putative class members were permitted to opt into the action expired on July 16, 2014.

On September 10, 2014, the plaintiffs in the Connecticut case filed a motion for leave to amend their complaint to add a new claim under the Kentucky Wage and Hour Act ("KWHA") alleging that the Company did not pay certain home health clinicians working in the Commonwealth of Kentucky all of the overtime wages they were owed, either because the Company misclassified them as exempt from overtime or, while treating them as overtime eligible, did not properly pay them overtime for all hours worked over 40 in a week. On behalf of themselves and a class of current and former employees they allege are similarly situated, plaintiffs seek attorneys' fees, back wages and liquidated damages going back five years before the filing of their original complaint under the KWHA. On October 1, 2014, the Company filed an opposition to the plaintiffs' motion to amend. On October 15, 2014, plaintiffs filed a reply brief in support of their motion. On December 12, 2014, the Court granted the plaintiffs' motion to amend the complaint to add the claims under the KWHA. The Company and the plaintiffs agreed to explore the possibility of a mediated settlement of the Connecticut case, and on February 23, 2015 filed a joint motion to stay proceedings for six months to pursue that process, which was granted by the Court on February 24, 2015.

On June 10, 2015, the Company and plaintiffs participated in a mediation whereby they agreed to fully resolve all of plaintiffs' claims in the lawsuit for $8.0 million, subject to approval by the Court. The settlement agreement was submitted to the Court for preliminary approval and plaintiffs requested certification of Pennsylvania and Kentucky classes for the sole purpose of this proposed settlement. The Court granted preliminary approval, notice was issued to members of the settlement classes to provide them with an opportunity to object to the settlement and, in the case of members of the Pennsylvania and Kentucky classes, opt out of the settlement. Following this notice period, the Court held a final fairness hearing for the purpose of considering objections and deciding whether to grant final approval of the settlement. As of September 30, 2015, we had an accrual of $8.0 million for this matter. On January 29, 2016, the Court approved the final settlement of this case. The settlement became effective on February 26, 2016. As a result of the final amount calculated by the settlement administrator based on claims timely submitted, we reduced our accrual to $5.3 million as of December 31, 2015; this amount was paid during the three-month period ended March 31, 2016.

On September 13, 2012, a putative collective and class action complaint was filed in the United States District Court for the Northern District of Illinois against us in which a former employee alleges wage and hour law violations. The former employee claims she was paid on both a per-visit and an hourly basis, and that such a pay scheme resulted in her misclassification as an exempt employee, thereby denying her overtime. The plaintiff alleges violations of federal and state law and seeks damages under the FLSA and the Illinois Minimum Wage Law. Plaintiff seeks class certification of similar employees who were or are employed in Illinois and seeks attorneys' fees, back wages and liquidated damages going back three years under the FLSA and three years under the Illinois statute. On May 28, 2013, the Court granted the Company's motion to stay the case pending resolution of class certification issues and dispositive motions in the earlier-filed Connecticut case. On December 23, 2015, the parties agreed to explore the possibility of a mediated settlement of the Illinois case, and a mediation occurred on April 18, 2016. The parties agreed to settle the case for $0.8 million, subject to court approval, which the Company had accrued as of September 30, 2016. On August 4, 2016, the Court approved the final settlement of this case. The final payment of $0.6 million was paid on November 21, 2016.

Frontier Litigation

On April 2, 2015, Frontier Home Health and Hospice, L.L.C. ("Frontier") filed a complaint against the Company in the United States District Court for the District of Connecticut alleging breach of contract, negligent misrepresentation and unfair and deceptive trade practices under Conn. Gen. Stat. §42-110b. Frontier acquired our interest in five home health and four hospice care centers in Wyoming and Idaho in April 2014. The complaint alleges that certain of the hospice patients on service at the time of the acquisition did not meet Medicare eligibility requirements and that we breached certain of the representations and warranties under the purchase agreement and therefore, the businesses were worth less than the purchase price. Under the complaint, Frontier seeks declaratory judgment from the District Court that, under the terms of the purchase agreement with Frontier, we are obligated to determine the amount of the alleged Medicare overpayments and reimburse the government for the same in a timely manner, as well as unspecified compensatory and punitive damages, attorneys' fees and pre- and post-judgment interest. The Company resolved the Frontier litigation for $2.9 million during the three-month period ended December 31, 2016.

Other Investigative Matters – Ongoing

Corporate Integrity Agreement

On April 23, 2014, with no admissions of liability on our part, we entered into a settlement agreement with the U.S. Department of Justice relating to certain of our clinical and business operations. Concurrently with our entry into this agreement, we entered into a corporate integrity agreement ("CIA") with the Office of Inspector General-HHS ("OIG"). The CIA formalizes various aspects of our already existing ethics and compliance programs and contains other requirements designed to help ensure our ongoing compliance with federal health care program requirements. Among other things, the CIA requires us to maintain our existing compliance program, executive compliance committee and compliance committee of the Board of Directors; provide certain compliance training; continue screening new and current employees to ensure they are eligible to participate in federal health care programs; engage an independent review organization to perform certain auditing and reviews and prepare certain reports regarding our compliance with federal health care programs, our billing submissions to federal health care programs and our compliance and risk mitigation programs; and provide certain reports and management certifications to the OIG. Additionally, the CIA specifically requires that we report substantial overpayments that we discover we have received from federal health care programs, as well as probable violations of federal health care laws. Upon breach of the CIA, we could become liable for payment of certain stipulated penalties, or could be excluded from participation in federal health care programs. The corporate integrity agreement has a term of five years.

Computer Inventory and Data Security Reporting

On March 1 and March 2, 2015, we provided official notice under federal and state data privacy laws concerning the outcome of an extensive risk management process to locate and verify our large computer inventory. The process identified approximately 142 encrypted computers and laptops for which reports were required under federal and state data privacy laws. The devices at issue were originally assigned to Company clinicians and other team members who left the Company between 2011 and 2014. We reported these devices to the U.S. Department of Health and Human Services, state agencies, and individuals whose information may be involved, as required under applicable law because we could not rule out unauthorized access to patient data on the devices. The Office of Civil Rights, U.S. Department of Health and Human Services ("OCR") is reviewing our compliance with applicable laws, as is typical for any data breach involving more than 500 individuals. We are cooperating with OCR in its review and if any other regulatory reviews are formally commenced, will cooperate with applicable regulatory authorities. In accordance with our CIA, we have notified the OIG of this matter.

Frontier Litigation

Separate from the Frontier litigation described above under "Legal Proceedings – Settled", the Company engaged an independent auditing firm to perform a clinical audit of the hospice care centers acquired by Frontier. No assurances can be given as to the timing or outcome of the audit on the Company, its consolidated financial condition, results of operations or cash flows, which could be material, individually or in the aggregate.

Other Investigative Matters – Settled

Corporate Integrity Agreement

During the course of our compliance with the CIA, the Company identified several reportable events and notified the OIG as required. As of December 31, 2015, the Company had an accrual of $4.7 million for these matters. On May 5, 2016, the company entered into a settlement agreement with the OIG and the matters were fully resolved for $4.7 million; this amount was paid during the three-month period ended June 30, 2016.

Third Party Audits – Ongoing

From time to time, in the ordinary course of business, we are subject to audits under various governmental programs in which third party firms engaged by the Centers for Medicare and Medicaid Services ("CMS") conduct extensive review of claims data to identify potential improper payments under the Medicare program.

In July 2010, our subsidiary that provides hospice services in Florence, South Carolina received from a Zone Program Integrity Contractor ("ZPIC") a request for records regarding a sample of 30 beneficiaries who received services from the subsidiary during the period of January 1, 2008 through March 31, 2010 (the "Review Period") to determine whether the underlying services met pertinent Medicare payment requirements. We acquired the hospice operations subject to this review on August 1, 2009; the Review Period covers time periods both before and after our ownership of these hospice operations. Based on the ZPIC's findings for 16 beneficiaries, which were extrapolated to all claims for hospice services provided by the Florence subsidiary billed during the Review Period, on June 6, 2011, the MAC for the subsidiary issued a notice of overpayment seeking recovery from our subsidiary of an alleged overpayment. We dispute these findings, and our Florence subsidiary has filed appeals through the Original Medicare Standard Appeals Process, in which we are seeking to have those findings overturned. An ALJ hearing was held in early January 2015. On January 18, 2016 we received a letter dated January 6, 2016 referencing the ALJ hearing decision for the overpayment issued on June 6, 2011. The decision was partially favorable with a new overpayment amount of $3.7 million with a balance owed of $5.6 million

including interest based on 9 disputed claims (originally 16). We filed an appeal to the Medicare Appeals Council on the remaining 9 disputed claims and also argued that the statistical method used to select the sample was not valid. No assurances can be given as to the timing or outcome of the Medicare Appeals Council decision. As of June 30, 2016, Medicare has withheld payments of $5.7 million (including additional interest) as part of their standard procedures once this level of the appeal process has been reached. In the event we are not able to recoup this alleged overpayment, we are indemnified by the prior owners of the hospice operations for amounts relating to the period prior to August 1, 2009. As of December 31, 2016, we have an indemnity receivable for the amount withheld related to the period prior to August 1, 2009.

In July 2016, the Company received a request for medical records from SafeGuard Services, L.L.C. ("SafeGuard"), a ZPIC, related to services provided by some of the care centers that the Company acquired from Infinity Home Care, L.L.C. The review period covers time periods both before and after our ownership of the care centers, which were acquired on December 31, 2015. Subsequent to the initial ZPIC letter, on September 16, 2016, the Company received a letter from SafeGuard notifying the Company that the Winterhaven, Bradenton, and Tampa care centers were on a prepayment review. On October 28, 2016, the company received a "Notice of Suspension of Medicare Payments" for up to 180 days for these three care centers. On January 10, 2017, the Company received a letter from SafeGuard notifying the Company that the Clearwater care center was on a prepayment review. Subsequently, on February 2, 2017, the Company received a "Notice of Suspension of Medicare Payments" for up to 180 days for the Clearwater care center. Based on the information currently available to the Company, the Company cannot predict the timing or outcome of this audit or reasonably estimate the amount or range of potential losses, which may arise from this matter.

Third Party Audits – Settled

In January 2010, our subsidiary that provides home health services in Dayton, Ohio received from a Medicare Program Safeguard Contractor ("PSC") a request for records regarding 137 claims submitted by the subsidiary paid from January 2, 2008 through November 10, 2009 (the "Claim Period") to determine whether the underlying services met pertinent Medicare payment requirements. Based on the PSC's findings for 114 of the claims, which were extrapolated to all claims for home health services provided by the Dayton subsidiary paid during the Claim Period, on March 9, 2011, the Medicare Administrative Contractor ("MAC") for the subsidiary issued a notice of overpayment seeking recovery from our subsidiary of an alleged overpayment of approximately $5.6 million. We disputed these findings, and our Dayton subsidiary filed appeals through the Original Medicare Standard Appeals Process, in which we were seeking to have those findings overturned. A consolidated administrative law judge ("ALJ") hearing was held in late March 2013. In January 2014, the ALJ found fully in favor of our Dayton subsidiary on 74 appeals and partially in favor of our Dayton subsidiary on eight appeals. Taking into account the ALJ's decision, certain determinations that our Dayton subsidiary decided not to appeal as well as certain determinations made by the MAC, of the 114 claims that were originally extrapolated by the MAC, 76 claims were decided in favor of our Dayton subsidiary in full, 10 claims were decided in favor of our Dayton subsidiary in part, and 28 claims were decided against or not appealed by our Dayton subsidiary. The ALJ ordered the MAC to recalculate the extrapolation amount based on the ALJ's decision. The Medicare Appeals Council could decide on its own motion to review the ALJ's decisions. As of July 13, 2016, we were notified that the PSC elected not to re-extrapolate the overpayment and instead issued a new calculated overpayment in the amount of $0.2 million. The overpayment has been paid in full and the matter is fully resolved.

Operating Leases

We have leased office space at various locations under non-cancelable agreements that expire between 2017 and 2026, and require various minimum annual rentals. Our typical operating leases are for lease terms of one to seven

years and may include, in addition to base rental amounts, certain landlord pass-through costs for our pro-rata share of the lessor's real estate taxes, utilities and common area maintenance costs. Some of our operating leases contain escalation clauses, in which annual minimum base rentals increase over the term of the lease.

Total minimum rental commitments as of December 31, 2016 are as follows (amounts in millions):

2017	$23.5
2018	17.5
2019	13.0
2020	9.1
2021	4.3
Future years	4.6
Total	$72.0

Rent expense for non-cancelable operating leases was $27.5 million, $23.7 million and $26.5 million for 2016, 2015 and 2014.

Insurance

We are obligated for certain costs associated with our insurance programs, including employee health, workers' compensation and professional liability. While we maintain various insurance programs to cover these risks, we are self-insured for a substantial portion of our potential claims. We recognize our obligations associated with these costs, up to specified deductible limits in the period in which a claim is incurred, including with respect to both reported claims and claims incurred but not reported. These costs have generally been estimated based on historical data of our claims experience. Such estimates, and the resulting reserves, are reviewed and updated by us on a quarterly basis.

The following table presents details of our insurance programs, including amounts accrued for the periods indicated (amounts in millions) in accrued expenses in our accompanying balance sheets. The amounts accrued below represent our total estimated liability for individual claims that are less than our noted insurance coverage amounts, which can include outstanding claims and claims incurred but not reported.

	As of December 31,	
Type of Insurance	2016	2015
Health insurance	$10.6	$11.7
Workers' compensation	26.8	23.9
Professional liability	4.7	4.1
	42.1	39.7
Less: long-term portion	(0.8)	(0.9)
	$41.3	$38.8

The retention limit per claim for our health insurance, worker's compensation and professional liability is $0.9 million, $0.5 million and $0.3 million, respectively.

Employment Contracts

We have commitments related to employment contracts with a number of our senior executives. These contracts generally commit us to pay severance benefits under certain circumstances.

Other

We are subject to various other types of claims and disputes arising in the ordinary course of our business. While the resolution of such issues is not presently determinable, we believe that the ultimate resolution of such matters will not have a significant effect on our consolidated financial condition, results of operations and cash flows.

11. EMPLOYEE BENEFIT PLANS

401(K) Benefit Plan

We maintain a plan qualified under Section 401(k) of the Internal Revenue Code for all employees who have reached 21 years of age, effective the first month after hire date. Under the plan, eligible employees may elect to defer a portion of their compensation, subject to Internal Revenue Service limits.

During 2016, 2015 and 2014, our match of contributions to be made to each eligible employee contribution was $0.375 for every $1.00 of contribution made up to the first 6% of their salary. Effective January 1, 2017, our match of contributions to be made to each eligible employee contribution is $0.44 for every $1.00 of contribution made up to the first 6% of their salary. The match is discretionary and thus is subject to change at the discretion of management. These contributions are made in the form of our common stock, valued based upon the fair value of the stock as of the end of each calendar quarter end. We expensed approximately $6.9 million, $6.1 million and $6.2 million for 2016, 2015 and 2014, respectively.

Deferred Compensation Plan

We had a Deferred Compensation Plan for additional tax-deferred savings to a select group of management or highly compensated employees. Amounts credited under the Deferred Compensation Plan were funded into a rabbi trust, which is managed by a trustee. The trustee has the discretion to manage the assets of the Deferred Compensation Plan as deemed fit, thus the assets are not necessarily reflective of the same investment choices made by the participants.

Effective January 1, 2015, all prospective salary deferrals ceased. Participants will be allowed to make transactions with any remaining account balances as they wish per plan guidelines.

12. STOCK REPURCHASE PROGRAM

On September 9, 2015, we announced that our Board of Directors authorized a stock repurchase program, under which we may repurchase up to $75 million of our outstanding common stock on or before September 6, 2016.

Under the terms of the program, we could repurchase shares from time to time in open market transactions, block purchases or in private transactions in accordance with applicable federal securities laws and other legal requirements. We could enter into Rule 10b5-1 plans to effect some or all of the repurchases. The timing and the amount of the repurchases, if any, was determined by management based on a number of factors, including but not limited to share price, trading volume and general market conditions, as well as on working capital requirements, general business conditions and other factors.

Pursuant to this program, we repurchased 324,141 shares of our common stock at a weighted average price of $37.96 per share and a total cost of approximately $12.3 million during 2016 and 116,859 shares of our common stock at a weighted average price of $39.20 per share and a total cost of approximately $4.6 million. The repurchased shares are classified as treasury shares. The stock repurchase program expired on September 6, 2016.

13. EXIT AND RESTRUCTURING ACTIVITIES

As of December 31, 2013, we reported three home health care centers as held for sale. During 2014, we sold assets associated with two of these care centers for cash consideration of approximately $0.8 million and recognized a gain of approximately $0.8 million which is included in discontinued operations. The remaining care center classified as held for sale was consolidated with a care center servicing the same market during 2014.

During 2014, the Company sold its interest in five home health and four hospice care centers in Wyoming and Idaho for approximately $5.0 million and recognized a gain of $2.1 million. We also exited our hospice inpatient unit in New Hampshire and recognized a loss of $0.5 million.

In addition to the exit activity related to the care centers mentioned above, we consolidated 21 operating home health care centers and four operating hospice care centers with care centers servicing the same markets and closed 22 home health care centers and four hospice care centers during 2014. In connection with these care centers, we recorded non-cash charges of $2.2 million in other intangibles impairment expense related to the write-off of intangible assets, $2.1 million in other general and administrative expenses related to lease termination costs and $2.1 million in salaries and benefits related to severance costs. These care centers were not concentrated in certain selected geographical areas and did not meet the criteria to be classified as discontinued operations in accordance with applicable accounting guidance.

Restructuring Activity

During 2014, we restructured our regional leadership and corporate support functions. As such, we recorded charges of $3.4 million in salaries and benefits related to severance costs. In addition, during 2014, William F. Borne stepped down from his positions as Chief Executive Officer, Chairman and a member of our Board of Directors and we recorded charges of $2.3 million in salaries and benefits related to severance costs.

Our reserve activity for our 2014 exit and restructuring activity is as follows (amounts in millions):

	2014 Exit Activity	
	Lease Termination	Severance
Balances at December 31, 2013	$—	$—
Charge in 2014	2.1	7.8
Cash expenditures in 2014	(1.6)	(5.5)
Balances at December 31, 2014	**0.5**	**2.3**
Charge in 2015	—	—
Cash expenditures in 2015	(0.4)	(1.9)
Balances at December 31, 2015	**0.1**	**0.4**
Charge in 2016	—	—
Cash expenditures in 2016	(0.1)	(0.4)
Balances at December 31, 2016	$—	$—

14. VALUATION AND QUALIFYING ACCOUNTS

The following table summarizes the activity and ending balances in our allowance for doubtful accounts and estimated revenue adjustments (amounts in millions):

Allowance for Doubtful Accounts

Year End	Balance at Beginning of Year	Provision for Doubtful Accounts (1)	Write-Offs	Balance at End of Year
2016	$16.5	$19.5	$(18.3)	$17.7
2015	14.3	14.1	(11.9)	16.5
2014	14.2	16.4	(16.3)	14.3

(1) Includes $0.1 million from discontinued operations for the year ended December 31, 2014.

Estimated Revenue Adjustments

Year End	Balance at Beginning of Year	Provision for Estimated Revenue Adjustments (1)	Write-Offs	Balance at End of Year
2016	$4.0	$7.9	$(7.8)	$4.1
2015	3.1	6.1	(5.2)	4.0
2014	3.9	5.1	(5.9)	3.1

(1) Includes $0.1 million from discontinued operations for the year ended December 31, 2014.

15. SEGMENT INFORMATION

Our operations involve servicing patients through our three reportable business segments: home health, hospice and personal care. Our home health segment delivers a wide range of services in the homes of individuals who may be recovering from surgery, have a chronic disability or terminal illness or need assistance with the essential activities of daily living. Our hospice segment provides palliative care and comfort to terminally ill patients and their families. Our personal care segment, which was established with the acquisition of Associated Home Care during the three-month period ended March 31, 2016, provides patients with assistance with the essential activities of daily living. The "other" column in the following tables consists of costs relating to executive management and administrative support functions, primarily information services, accounting, finance, billing and collections, legal, compliance, risk management, procurement, marketing, clinical administration, training, human resources and administration.

Management evaluates performance and allocates resources based on the operating income of the reportable segments, which includes an allocation of corporate expenses directly attributable to the specific segment and includes revenues and all other costs directly attributable to the specific segment. Segment assets are not reviewed by the company's chief operating decision maker and therefore are not disclosed below (amounts in millions).

	For the Year Ended December 31, 2016				
	Home Health	Hospice	Personal Care	Other	Total
Net service revenue	$1,085.5	$316.0	$35.9	$ —	$1,437.4
Cost of service, excluding depreciation and amortization	643.7	163.1	26.3	—	833.1

Operating income (loss)	$103.1	$ 52.5	$ —	$(131.6)	$ 24.0

16. UNAUDITED SUMMARIZED QUARTERLY FINANCIAL INFORMATION

	Revenue	Net Income (Loss) Attributable to Amedisys, Inc.	Net Income (Loss) Attributable to Amedisys, Inc. Common Stockholders (1) Basic	Net Income (Loss) Attributable to Amedisys, Inc. Common Stockholders (1) Diluted
2016:				
1st Quarter (2)(3)(4)	$ 348.8	$ 6.2	$ 0.19	$ 0.19
2nd Quarter (2)(3)(4)	360.7	10.7	0.32	0.32
3rd Quarter (2)(3)(4)	361.6	11.4	0.34	0.34
4th Quarter (2)(3)(4)(5)	366.3	8.9	0.27	0.26
	$1,437.4	$ 37.3	$ 1.12	$ 1.10
2015:				
1st Quarter (6)(7)	$ 301.6	$(35.0)	$(1.07)	$(1.07)
2nd Quarter (7)	314.1	10.6	0.32	0.32
3rd Quarter (6)(7)(9)	326.4	8.4	0.25	0.25
4th Quarter (7)(8)(9)	338.4	12.9	0.39	0.38
	$1,280.5	$ 3.0	$(0.09)	$(0.09)

(1) Because of the method used in calculating per share data, the quarterly per share data may not necessarily total to the per share data as computed for the entire year.

(2) During each of the four quarters of 2016, we incurred certain costs associated with the implementation of Homecare Homebase. Net of income taxes, these costs amounted to $1.5 million, $1.6 million, $1.2 million and $0.8 million for the three-month periods ended March 31, 2016, June 30, 2016, September 30, 2016 and December 31, 2016, respectively.

(3) During each of the four quarters of 2016, we incurred certain costs associated with various legal matters. Net of income taxes, these costs amounted to $0.9 million, $0.3 million, $0.2 million and $1.8 million for the three-month periods ended March 31, 2016, June 30, 2016, September 30, 2016 and December 31, 2016, respectively.

(4) During each of the four quarters of 2016, we incurred certain costs associated with various acquisition costs. Net of income taxes, these costs amounted to $1.0 million, $0.2 million, $0.3 million and $0.5 million for the three-month periods ended March 31, 2016, June 30, 2016, September 30, 2016 and December 31, 2016, respectively.

(5) During the fourth quarter of 2016, we recorded a non-cash asset impairment charge to write-off assets as a result of our conversion from our proprietary operating system to Homecare Homebase in the amount of $2.7 million, net of income taxes.

(6) During the first quarter of 2015, we recorded a non-cash asset impairment charge to write-off the software costs incurred related to the development of AMS3 Home Health and Hospice in the amount of $45.5 million, net of income taxes. During the third quarter of 2015, we recorded a non-cash asset impairment charge related to our corporate headquarters in the amount of $1.2 million, net of income taxes.

(7) During each of the four quarters of 2015, we incurred certain costs associated with various legal matters. Net of income taxes, these costs amounted to $1.3 million, $4.8 million, $0.2 million and $(1.1) million for the three-month periods ended March 31, 2015, June 30, 2015, September 30, 2015 and December 31, 2015, respectively.

(8) During the fourth quarter of 2015, we recorded an accrual related to an OIG Self-Disclosure matter. Net of income taxes, this charge amounted to $3.4 million.
(9) During the third and fourth quarters of 2015, we incurred certain costs associated with the implementation of Homecare Homebase. Net of income taxes, these costs amounted to $1.2 million and $1.4 million for the three-month periods ended September 30, 2015 and December 31, 2015, respectively.

17. RELATED PARTY TRANSACTIONS

On November 20, 2015, we engaged KKR Consulting, LLC ("KKR Capstone"), a consulting company of operational professionals that works exclusively with portfolio companies of Kohlberg Kravis Roberts & Co. Nathaniel M. Zilkha, a member of our Board of Directors, is a member of KKR Management, LLC, which is an affiliate of KKR Asset Management LLC ("KAM"), a substantial stockholder of our Company, and an affiliate of Kohlberg Kravis Roberts & Co. KKR Capstone will receive a fee in connection with providing consulting services to the Company in the ordinary course of business. Mr. Zilkha will not receive any direct compensation or direct financial benefit from the engagement of KKR Capstone. During 2016, we incurred costs of approximately $1.6 million related to this related party engagement.

Effective October 22, 2015, we entered into a contract for telemonitoring services with Care Innovations, LLC ("Care Innovations"). Paul Kusserow, our President and Chief Executive Officer, is a member of the Advisory Board to Care Innovations. Care Innovations will receive an annual fee of approximately $1.8 million in connection with our contract for telemonitoring services for the Company. Care Innovations has confirmed to us that Mr. Kusserow will not receive any direct compensation or direct financial benefit from the engagement of Care Innovations as our telemonitoring partner. During 2016 we incurred costs of approximately $1.5 million related to this related party engagement.

18. SUBSEQUENT EVENTS

On February 1, 2017, we acquired Home Staff, LLC, a personal care provider with three care centers for a purchase price of $4.0 million.

Unaudited – On February 28, 2017, we signed a definitive agreement to acquire Tenet Healthcare's home health and hospice operations in Arizona, Illinois, Massachusetts and Texas. We do not believe that the closing of this acquisition will have a material impact on our 2017 results of operations.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

ITEM 9A. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

We have established disclosure controls and procedures which are designed to provide reasonable assurance of achieving their objectives and to ensure that information required to be disclosed in our reports filed under the Exchange Act is recorded, processed, summarized, disclosed and reported within the time periods specified in the SEC's rules and forms. This information is also accumulated and communicated to our management and Board of Directors to allow timely decisions regarding required disclosure.

In connection with the preparation of this Annual Report on Form 10-K, as of December 31, 2016, under the supervision and with the participation of our management, including our principal executive officer and principal financial officer, we conducted an evaluation of the effectiveness of our disclosure controls and procedures, as such term is defined under Rules 13a-15(e) and 15d-15(e) promulgated under the Exchange Act.

Based on this evaluation, our principal executive officer and principal financial officer concluded that our disclosure controls and procedures were effective at a reasonable assurance level as of December 31, 2016, the end of the period covered by this Annual Report on Form 10-K.

Management's Annual Report on Internal Control over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over our financial reporting, as such term is defined in Rules 13a-15(f) and 15d-15(f) promulgated under the Exchange Act. Under the supervision and with the participation of our management, including our principal executive officer and our principal financial officer, we conducted an evaluation of the effectiveness of our internal control over financial reporting based on the framework in *Internal Control – Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on our evaluation under the framework in *Internal Control – Integrated Framework*, our management concluded our internal control over financial reporting was effective as of December 31, 2016.

Our internal control system is designed to provide reasonable assurance to our management and Board of Directors regarding the preparation and fair presentation of published financial statements. All internal control systems, no matter how well designed, have inherent limitations. Therefore, even those systems determined to be effective can provide only reasonable assurance with respect to financial statement preparation and presentation.

In conducting this evaluation, management did not include an assessment of internal control over financial reporting of Associated Home Care acquired on March 1, 2016 and Professional Profiles, Inc. acquired on September 1, 2016, which are included in the consolidated financial statements of the Company for the year ended December 31, 2016. Associated Home Care and Professional Profiles accounted for approximately 1% of total assets and 2% of revenue as of and for the year ended December 31, 2016. As a result of its evaluation, management has concluded that the Company's internal control over financial reporting was effective as of December 31, 2016 based on those criteria.

KPMG LLP, the independent registered public accounting firm that audited our consolidated financial statements included in this Form 10-K, has issued a report on our internal control over financial reporting, which is included herein.

Changes in Internal Controls

During 2015, we began the implementation of Homecare Homebase ("HCHB") with all care centers operating on HCHB as of December 31, 2016. The Company has included the changes to processes, information technology systems and other components of internal controls over financial reporting as part of its ongoing implementation activities as part of its review of internal controls over financial reporting.

There have been no other changes in our internal control over financial reporting (as defined in Exchange Act Rule 13a-15(f)) that have occurred during the quarter ended December 31, 2016 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Inherent Limitations on Effectiveness of Controls

Our management, including our principal executive officer and principal financial officer, does not expect that our disclosure controls or our internal controls over financial reporting will prevent or detect all errors and all fraud. A control system, no matter how well designed and operated, can provide only reasonable, not absolute, assurance that the control system's objectives will be met. The design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Further, because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that misstatements due to error or fraud will not occur or that all control issues and instances of fraud, if any, have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty and that breakdowns can occur because of simple error or mistake. Controls can also be circumvented by the individual acts of some persons, by collusion of two or more people, or by management override of the controls. The design of any system of controls is based in part on certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. Projections of any evaluation of controls' effectiveness to future periods are subject to risks. Over time, controls may become inadequate because of changes in conditions or deterioration in the degree of compliance with policies and procedures. Our disclosure controls and procedures are designed to provide reasonable assurance of achieving their objectives and, based on an evaluation of our controls and procedures, our principal executive officer and our principal financial officer concluded our disclosure controls and procedures were effective at a reasonable assurance level as of December 2016, the end of the period covered by this Annual Report.

Report of Independent Registered Public Accounting Firm

The Board of Directors and Stockholders
Amedisys, Inc.:

We have audited Amedisys, Inc.'s internal control over financial reporting as of December 31, 2016, based on criteria established in *Internal Control – Integrated Framework (2013)*, issued by the Committee of Sponsoring Organizations of the Treadway Commission. Amedisys, Inc.'s management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying *Management's Annual Report on Internal Control over Financial Reporting* under Item 9A. Our responsibility is to express an opinion on Amedisys, Inc.'s internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audit also included performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of consolidated financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of consolidated financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the consolidated financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, Amedisys, Inc. maintained, in all material respects, effective internal control over financial reporting as of December 31, 2016, based on criteria established in *Internal Control – Integrated Framework (2013)*, issued by the Committee of Sponsoring Organizations of the Treadway Commission.

Amedisys, Inc. acquired Associated Home Care on March 1, 2016 and the assets of Professional Profiles, Inc. on September 1, 2016, and management excluded from its assessment of the effectiveness of Amedisys, Inc.'s internal control over financial reporting as of December 31, 2016, Associated Home Care and Professional Profiles, Inc.'s internal control over financial reporting associated with approximately 1% of total assets and 2% of revenue included in the consolidated financial statements of Amedisys, Inc. as of and for the year ended December 31, 2016. Our audit of internal control over financial reporting of Amedisys, Inc. also excluded an evaluation of the internal control over financial reporting of Associated Home Care and Professional Profiles, Inc.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheets of Amedisys, Inc. and subsidiaries as of December 31, 2016 and 2015, and the related consolidated statements of operations, comprehensive income (loss), stockholders' equity, and cash flows for each of the years in the three-year period ended December 31, 2016, and our report dated March 1, 2017, expressed an unqualified opinion on those consolidated financial statements.

CERTIFICATION

I, Paul B. Kusserow, certify that:

1. I have reviewed this Annual Report on Form 10-K for the year ended December 31, 2016, of Amedisys, Inc.;

2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;

3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;

4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:

   a. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;

   b. Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;

   c. Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and

   d. Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and

5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):

   a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and

   b. Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

CERTIFICATION

I, Gary D. Willis, certify that:

1. I have reviewed this Annual Report on Form 10-K for the year ended December 31, 2016, of Amedisys, Inc.;

2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;

3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;

4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:

   a. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;

   b. Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;

   c. Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and

   d. Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and

5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):

   a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and

   b. Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

Amedisys on the Internet

Our company website address is www.amedisys.com. We use our website as a channel of distribution for important company information. Important information, including press releases, presentations and financial information regarding our company, is routinely posted on and accessible on the Investor Relations subpage of our website, which is accessible by clicking on the tab labeled "Investors" on our website home page. Visitors to our website can also register to receive automatic e-mail and other notifications alerting them when new information is made available on the "Investors" subpage of our website. In addition, we make available on the "Investors" subpage of our website (under the link "SEC filings") free of charge our annual reports on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, ownership reports on Forms 3, 4 and 5 and any amendments to those reports as soon as practicable after we electronically file such reports with the SEC. Further, copies of our Certificate of Incorporation and Bylaws, our Code of Ethical Business Conduct, our Corporate Governance Guidelines and the charters for the Audit, Compensation, Nominating and Corporate Governance, Quality of Care and Compliance and Ethics Committees of our Board are also available on the "Investors" subpage of our website (under the link "Corporate Governance").

Forward-Looking Statements

When included in this document, words like "believes," "belief," "expects," "plans," "anticipates," "intends," "projects," "estimates," "may," "might," "would," "should" and similar expressions are intended to identify forward-looking statements as defined by the Private Securities Litigation Reform Act of 1995. These forward-looking statements involve a variety of risks and uncertainties that could cause actual results to differ materially from those described therein. These risks and uncertainties include, but are not limited to the following: changes in Medicare and other medical payment levels, our ability to open care centers, acquire additional care centers and integrate and operate these care centers effectively, changes in or our failure to comply with existing federal and state laws or regulations or the inability to comply with new government regulations on a timely basis, competition in the healthcare industry, our ability to integrate our personal care segment into our business efficiently, changes in the case mix of patients and payment methodologies, changes in estimates and judgments associated with critical accounting policies, our ability to maintain or establish new patient referral sources, our ability to attract and retain qualified personnel, changes in payments and covered services due to an economic downturn and deficit spending by federal and state governments, future cost containment initiatives undertaken by third-party payors, our access to financing, our ability to meet debt service requirements and comply with covenants in debt agreements, business disruptions due to natural disasters or acts of terrorism, our ability to integrate, manage and keep our information systems secure, our ability to comply with the requirements stipulated in our corporate integrity agreement, and changes in law or developments with respect to any litigation relating the Company, including various other matters, many of which are beyond our control.

Because forward-looking statements are inherently subject to risks and uncertainties, some of which cannot be predicted or quantified, you should not rely on any forward-looking statement as a prediction of future events. We expressly disclaim any obligation or undertaking and we do not intend to release publicly any updates or changes in our expectations concerning the forward-looking statements or any changes in events, conditions or circumstances upon which any forward-looking statement may be based, except as required by law. For a discussion of some of the factors discussed above as well as additional factors, see Part I, Item 1A—"Risk Factors" and Part II, Item 7—"Critical Accounting Policies" within "Management's Discussion and Analysis of Financial Condition and Results of Operations" set forth in our Annual Report on Form 10-K for the year ended December 31, 2016.

Securities registered pursuant to Section 12(g) of the Act: None

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes ☑ No ☐

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or 15(d) of the Act. Yes ☐ No ☑

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes ☑ No ☐

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§ 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes ☑ No ☐

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K (§ 229.405 of this chapter) is not contained herein, and will not be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K. ☑

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer ☑	Accelerated filer ☐
Non-accelerated filer ☐ (Do not check if a smaller reporting company)	Smaller reporting company ☐
	Emerging growth company ☐

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act. ☐

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act). Yes ☐ No ☑

The aggregate market value of the voting and non-voting common stock held by non-affiliates of the registrant, based on the last sale price as quoted by the NASDAQ Global Select Market on June 30, 2017 (the last business day of the registrant's most recently completed second fiscal quarter) was $1.5 billion. For purposes of this determination shares beneficially owned by executive officers, directors and ten percent stockholders have been excluded, which does not constitute a determination that such persons are affiliates.

As of February 23, 2018, the registrant had 33,984,771 shares of Common Stock outstanding.

DOCUMENTS INCORPORATED BY REFERENCE

Portions of the registrant's definitive Proxy Statement for its 2018 Annual Meeting of Stockholders (the "2018 Proxy Statement") to be filed pursuant to the Securities Exchange Act of 1934 with the Securities and Exchange Commission within 120 days of December 31, 2017 are incorporated herein by reference into Part III of this Annual Report on Form 10-K.

SPECIAL CAUTION CONCERNING FORWARD-LOOKING STATEMENTS

When included in this Annual Report on Form 10-K, or in other documents that we file with the Securities and Exchange Commission ("SEC") or in statements made by or on behalf of the Company, words like "believes," "belief," "expects," "plans," "anticipates," "intends," "projects," "estimates," "may," "might," "would," "should" and similar expressions are intended to identify forward-looking statements as defined by the Private Securities Litigation Reform Act of 1995. These forward-looking statements involve a variety of risks and uncertainties that could cause actual results to differ materially from those described therein. These risks and uncertainties include, but are not limited to the following: changes in Medicare and other medical payment levels, our ability to open care centers, acquire additional care centers and integrate and operate these care centers effectively, changes in or our failure to comply with existing federal and state laws or regulations or the inability to comply with new government regulations on a timely basis, competition in the healthcare industry, our ability to integrate our personal care segment into our business efficiently, changes in the case mix of patients and payment methodologies, changes in estimates and judgments associated with critical accounting policies, our ability to maintain or establish new patient referral sources, our ability to attract and retain qualified personnel, changes in payments and covered services due to an economic downturn and deficit spending by federal and state governments, future cost containment initiatives undertaken by third-party payors, our access to financing, our ability to meet debt service requirements and comply with covenants in debt agreements, business disruptions due to natural disasters or acts of terrorism, our ability to integrate, manage and keep our information systems secure, our ability to comply with requirements stipulated in our corporate integrity agreement and changes in law or developments with respect to any litigation relating to the Company, including various other matters, many of which are beyond our control.

Because forward-looking statements are inherently subject to risks and uncertainties, some of which cannot be predicted or quantified, you should not rely on any forward-looking statement as a prediction of future events. We expressly disclaim any obligation or undertaking and we do not intend to release publicly any updates or changes in our expectations concerning the forward-looking statements or any changes in events, conditions or circumstances upon which any forward-looking statement may be based, except as required by law. For a discussion of some of the factors discussed above as well as additional factors, see Part I, Item 1A, "Risk Factors" and Part II, Item 7, "Critical Accounting Estimates" within "Management's Discussion and Analysis of Financial Condition and Results of Operations."

Unless otherwise provided, "Amedisys," "we," "us," "our," and the "Company" refer to Amedisys, Inc. and our consolidated subsidiaries and when we refer to 2017, 2016 and 2015, we mean the twelve month period then ended December 31, unless otherwise provided.

A copy of this Annual Report on Form 10-K for the year ended December 31, 2017 as filed with the SEC, including all exhibits, is available on our internet website at http://www.amedisys.com on the "Investors" page under the "SEC Filings" link.

PART I

ITEM 1. BUSINESS

Overview

Amedisys, Inc. is a leading healthcare services company focused on providing care in the home. Our operations involve servicing patients across the United States through our three operating divisions: home health, hospice and personal care. We deliver clinically distinct care that best suits our patients' needs, whether that is home-based recovery and rehabilitation after an operation or injury, care that empowers patients to manage a chronic disease, hospice care at the end of life, or providing assistance with daily activities through our personal care division.

We are among the largest, pure play providers of home health and hospice care in the United States, with 421 care centers in 34 states within the United States and the District of Columbia. Our 17,900 employees deliver the highest quality care making more than nine million patient visits to approximately 369,000 patients annually. Over 3,000 hospitals and 59,000 physicians nationwide have chosen us as a partner in post-acute care.

Our services are primarily paid for by Medicare due to the age demographics of our patient base. Medicare represented approximately 75% to 80% of our net service revenue over the last three years. We also remain focused on maintaining a profitable and strategically important managed care contract portfolio.

Amedisys is headquartered in Baton Rouge, Louisiana, with an executive office in Nashville, Tennessee. Our common stock is currently traded on NASDAQ Global Select Market under the trading symbol "AMED". Founded and incorporated in Louisiana in 1982, Amedisys was reincorporated as a Delaware corporation prior to becoming a publicly traded company in August, 1994.

Our strategy is to become the best choice for care wherever our patients call home by excelling in clinical distinction, being the employer of choice, delivering operational excellence and efficiency and driving growth. Our mission is to provide compassionate home health, hospice and personal care services that apply the most advanced clinical practices toward allowing our patients to maintain a sense of independence, quality of life and dignity while delivering best in-class outcomes. We believe that focusing on providing excellent care and becoming an employer of choice across the United States differentiates us from our competitors.

Our Home Health Segment:

Amedisys Home Health provides experienced, compassionate healthcare to help our patients recover from surgery or illness, live with chronic diseases, and prevent avoidable hospital readmissions. We have grown our home health footprint to 323 care centers located in 34 states within the United States and the District of Columbia. Within these care centers, we deploy our care teams which include skilled nurses who are trained and certified to administer medications, care for wounds, monitor vital signs and provide a wide range of other nursing services; therapists specialized in physical, speech and occupational therapy; and aides who assist our patients with completing important personal tasks.

We take an empowering approach to helping our patients and their families understand their condition, how to manage it and how to live life to the fullest with a chronic disease or other health condition. Our professional and compassionate clinicians are trained to understand the whole patient – not just their medical diagnosis.

This commitment to clinical distinction is most evident in our clinical performance measures such as Star Ratings. In the Center for Medicare and Medicaid Services ("CMS") reports for the January 2018 release, the Quality of Patient Care star average across all Amedisys providers is 4.22 with 88% of our providers at 4+ stars. Our Patient Satisfaction average as of the last known release was 3.56, outperforming the industry average of 3.36. Our goal is to have all of our care centers achieve a 4.0 Quality Star Rating, and we are implementing targeted action plans to continue to improve the quality of care we deliver for our patients.

Our Hospice Segment:

Hospice care is designed to provide comfort and support for those who are dealing with a terminal illness. It is a compassionate form of care that promotes dignity and affirms quality of life for the patient, family members and other loved ones. Individuals with a terminal illness such as heart disease, pulmonary disease, Alzheimer's, HIV/AIDS or cancer may be eligible for hospice care, if they have a life expectancy of six months or less.

We operate 83 hospice care centers in 22 states within the United States.

At Amedisys Hospice, our focus is on building and retaining an exceptional team, delivering the highest quality care and service to our patients and their families, and establishing Amedisys as the preferred and preeminent hospice provider in each community

we serve. In order to realize these goals, we invest in tailored training, development, and recognition programs for our employees, including medical record training, employee skills training and leadership development. This has led to our team's consistent achievement at or above the national average in family satisfaction results and quality scores, as well as the trust of the healthcare community.

Another element of our approach is our outreach strategy to more fully engage the entire community of eligible patients. These outreach efforts have built our hospice patient population to more accurately represent the causes of death in the communities we serve, with a specific focus on heart disease, lung disease, and dementia in order to address the historical underrepresentation of non-cancer diagnoses.

By working to accept every eligible patient who seeks compassionate end-of-life care, we fulfill our hospice mission and strengthen our standing in the community.

Our Personal Care Segment:

On March 1, 2016, Amedisys acquired its first personal care company – an important step in executing our strategy of improving the continuity of care our patients receive as their clinical needs change. We continued our strategy to expand our personal care segment in 2017 as we completed two additional acquisitions and currently operate 14 personal-care care centers in Massachusetts and one personal-care care center in Florida. We are continually looking to expand our personal care footprint to states where we have a strong home health and hospice presence.

Personal care provides assistance with the essential activities of daily living. We believe that personal care services are highly synergistic with our core skilled home health and hospice businesses, and that by acquiring these capabilities we will be able to provide our patients and payor partners with a true continuum of care.

Responding to Changing Regulatory and Reimbursement Environment:

As the government continues to seek opportunities to refine payment models, we believe that our strategy of becoming a leader in providing a range of service across the at-home continuum positions us well for the future. Our ability to provide quality home health, hospice and personal care allows us to partner with health systems and managed care organizations to improve care coordination, reduce hospitalizations and lower costs.

Acquisitions:

On February 1, 2017, we acquired the assets of Home Staff, L.L.C. for a total purchase price of $4.0 million. Home Staff, L.L.C. owned and operated three personal-care care centers servicing the state of Massachusetts.

On May 1, 2017 we acquired three home health centers (one each in Illinois, Massachusetts and Texas) and two hospice care centers (one each in Arizona and Massachusetts) from Tenet Healthcare for a total purchase price of $20.5 million.

On October 1, 2017, we acquired the assets of Intercity Home Care for a total purchase price of $9.6 million. Intercity Home Care owned and operated four personal-care care centers servicing the state of Massachusetts.

Financial Information:

Financial information for our home health, hospice and personal care segments can be found in our consolidated financial statements included in this Annual Report on Form 10-K.

Our Employees

As of February 23, 2018, we employed approximately 17,900 employees, consisting of approximately 10,900 home health care employees, 3,200 hospice care employees, 3,100 personal care employees and 700 corporate and divisional support employees.

Payment for Our Services

Home Health Medicare

The Medicare home health benefit is available both for patients who need care following discharge from a hospital and patients who suffer from chronic conditions that require ongoing but intermittent care. As a condition of participation under Medicare, beneficiaries must be homebound (meaning that the beneficiary is unable to leave his/her home without a considerable and taxing effort), require intermittent skilled nursing, physical therapy or speech therapy services, and receive treatment under a plan of care established and periodically reviewed by a physician. Medicare rates are based on the severity of the patient's condition, his or her service needs and other factors relating to the cost of providing services and supplies, bundled into 60-day episodes of care. An episode starts with the first day a billable visit is performed and ends 60 days later or upon discharge, if earlier. If a patient is still in treatment on the 60th day, a recertification assessment is undertaken to determine whether the patient needs additional care. If the patient's physician determines that further care is necessary, another episode begins on the 61st day (regardless of whether a billable visit is rendered on that day) and ends 60 days later. The first day of a consecutive episode, therefore, is not necessarily the new episode's first billable visit.

Annually, the Medicare program base episodic rates are set through federal legislation, as follows:

Period	Base Episode Payment
January 1, 2015 through December 31, 2015	$ 2,961
January 1, 2016 through December 31, 2016	$ 2,965
January 1, 2017 through December 31, 2017	$ 2,990
January 1, 2018 through December 31, 2018	$ 3,040

Payments can be adjusted for: (a) an outlier payment if our patient's care was unusually costly (capped at 10% of total reimbursement per provider number); (b) a low utilization payment adjustment ("LUPA") if the number of visits during the episode was fewer than five; (c) a partial payment if our patient transferred to another provider or we received a patient from another provider before an episode was complete; (d) a payment adjustment based upon the level of therapy services required (with various incremental adjustments made for additional visits, with larger payment increases associated with the sixth, fourteenth and twentieth visit thresholds); (e) a payment adjustment if we are unable to perform periodic therapy assessments; (f) the number of episodes of care provided to a patient, regardless of whether the same home health provider provided care for the entire series of episodes; (g) changes in the base episode payments established by the Medicare program; (h) adjustments to the base episode payments for case mix and geographic wages; and (i) recoveries of overpayments. Medicare can also make various adjustments to payments received if we are unable to produce appropriate billing documentation or acceptable authorizations. In addition, we make adjustments to Medicare revenue if we find that we are unable to obtain appropriate billing documentation, authorizations or face to face documentation.

Home Health Non-Medicare

Payments from Medicaid and private insurance carriers are episodic-based rates (60-day episode of care) or per-visit rates depending upon the terms and conditions established with such payors. Episodic-based rates paid by our non-Medicare payors are paid in a similar manner and subject to the same adjustments as discussed above for Medicare; however, these rates can vary based upon negotiated terms which generally range from 90% to 100% of Medicare rates.

Hospice Medicare

The Medicare hospice benefit is also available to Medicare-eligible patients with terminal illnesses, certified by a physician, where life expectancy is six months or less. Medicare rates are based on standard prospective rates for delivering care over a base 90-day or 60-day period (90-day episodes of care for the first two episodes and 60-day episodes of care for any subsequent episodes). Payments are based on daily rates for each day a beneficiary is enrolled in the hospice benefit. Rates are set based on specific levels of care, are adjusted by a wage index to reflect health care labor costs across the country and are established annually through federal legislation. We make adjustments to Medicare revenue when we find we are unable to obtain appropriate billing documentation, authorizations or face to face documentation and other reasons unrelated to credit risk. The levels of care are routine care, general inpatient care, continuous home care and respite care. Beginning January 1, 2016, CMS has provided for two separate payment rates for routine care: payments for the first 60 days of care and care beyond 60 days. In addition to the two routine rates, on January 1, 2016, Medicare also began reimbursing for a service intensity add-on ("SIA"). The SIA is based on visits made in the last seven days of life by a registered nurse ("RN") or medical social worker ("MSW") for patients in a routine level of care.

We bill Medicare for hospice services on a monthly basis and our payments are subject to two fixed annual caps, which are assessed on a provider number basis. Generally, each hospice care center has its own provider number. However, where we have created branch care centers to help our parent care centers serve a geographic location, the parent and branch may have the same provider number. In the 2017 final rule, CMS finalized a provision to align the cap accounting year for both the inpatient cap and the hospice aggregate cap for the years 2017 and beyond. As a result of this alignment, the annual caps per patient, known as hospice caps, which are calculated and published by the Medicare fiscal intermediary on an annual basis now cover the twelve month period from October 1 through September 30. The caps can be subject to annual and retroactive adjustments, which can cause providers to be required to reimburse the Medicare program if such caps are exceeded.

The two caps are detailed below:

- ***Inpatient Cap.*** When we provide hospice care on an inpatient basis, the payments that we are entitled to receive at the higher inpatient reimbursement rate are subject to a cap. This cap limits the number of days that are paid at the inpatient care rate (both respite and general) under a provider number to 20% of the total number of days of hospice care (both inpatient and in-home) that is furnished to all Medicare patients served by the provider. The daily Medicare payment rate for any inpatient days of service that exceed the cap is at the routine home care rate, and the provider is required to reimburse Medicare for any amounts it receives in excess of the cap; and
- ***Overall Payment Cap.*** This cap is calculated by the Medicare fiscal intermediary at the end of each hospice cap period to determine the maximum allowable payments per provider number. We estimate our potential cap exposure using information available for both inpatient day limits as well as per beneficiary cap amounts. The total cap amount for each provider is calculated by multiplying the number of beneficiaries electing hospice care during the period by a statutory amount that is indexed for inflation.

Our ability to stay within these limitations depends on a number of factors, each determined on a provider number basis, including the average length of stay and mix in level of care.

Hospice Non-Medicare

Non-Medicare payors pay at rates different from established Medicare rates for hospice services, which are based on separate, negotiated agreements. We bill and are paid by these non-Medicare payors based on such negotiated agreements.

Personal Care Non-Medicare

Personal care payments are received from payor clients including state and local governmental agencies, managed care organizations, commercial insurers and private consumers, based on rates that are either contractual or fixed by legislation.

Controls over Our Business System Infrastructure

We establish and maintain processes and controls over coding, clinical operations, billing, patient recertifications and compliance to help monitor and promote adherence with Medicare requirements.

- ***Coding*** – Specified ICD diagnosis codes are assigned to each of our patients based on their particular health conditions (such as diabetes, coronary artery disease or congestive heart failure). Because coding regulations are complex and are subject to frequent change, we maintain controls surrounding our coding process. In order to reduce associated risk of coding failures, we provide coding training and annual update training to clinical managers; provide training during orientation for new employees to ensure accurate information is gathered and provided to our coding team; provide monthly specialized coding education; obtain outside expert coding instruction; have certified clinician coders review all patient outcome and assessment information sets ("OASIS") and assign the appropriate ICD code. Our electronic medical records system (Homecare Homebase) includes automated coding edits based on pre-defined compliance metrics.
- ***Clinical Operations*** – Regulatory requirements allow patients to be admitted to home health care if they are considered homebound and require skilled nursing, physical therapy or speech therapy services. These clinical services may include: educating the patient about their disease; assessment and observation of disease status; delivery of clinical skills such as wound care; administration of injections or intravenous fluids; management and evaluation of a patient's plan of care; physical therapy services to assist patients with functional limitations and speech therapy services for speech or swallowing disorders. In order to help monitor and promote compliance with regulatory requirements, we provide education on Medicare Guidelines and Conditions of participation; hold recurrent homecare regulatory education; utilize outside expert regulatory services; and have a toll-free hotline to offer additional assistance.
- ***Billing*** – We maintain controls over our billing processes to help promote accurate and complete billing. In order to promote the accuracy and completeness of our billing, we have annual billing compliance testing; use formalized billing

attestations; limit access to billing systems; use automated daily billing operational indicators; and take prompt corrective action with employees who knowingly fail to follow our billing policies and procedures in accordance with a well-publicized "Zero Tolerance Policy".

- ***Patient Recertification*** – In order to be recertified for an additional episode of care, a patient must continue to meet qualifying criteria and have a continuing medical need. This could be caused by changes in the patient's condition requiring changes to the patient's medical regimen or modified care protocols within the episode of care. The patient's progress towards goals is evaluated prior to recertification. As with the initial episode of care, a recertification requires orders from the patient's physician. Before any employee recommends recertification to a physician, we conduct a care center level, multidisciplinary care team conference. Specific tools (e.g., recert/discharge decision tree) are used to ensure that the patient continues to meet coverage criteria prior to recertifying.
- ***Compliance*** – We develop, implement and maintain ethics and compliance programs as a component of the centralized corporate services provided to our home health, hospice and personal-care care centers. Our ethics and compliance program includes a Code of Conduct for our employees, officers, directors, contractors and affiliates and a disclosure program for reporting regulatory or ethical concerns to our compliance team through a confidential hotline, which is augmented by exit interviews of departing employees. We promote a culture of compliance within our company through educational presentations, regular newsletters and persistent messaging from our senior leadership to our employees stressing the importance of strict compliance with legal requirements and company policies and procedures. Additionally, we have mandatory compliance training and testing for all new employees upon hire and annually for all staff thereafter. We also maintain a robust compliance audit program focusing on key risk areas.

Our Regulatory Environment

We are highly regulated by federal, state and local authorities. Regulations and policies frequently change, and we monitor changes through trade and governmental publications and associations. Our home health and hospice subsidiaries are certified by CMS and therefore are eligible to receive payment for services through the Medicare system.

We are also subject to federal, state and local laws and regulations dealing with issues such as occupational safety, employment, medical leave, insurance, civil rights, discrimination, building codes, environmental issues and adverse event reporting and recordkeeping. Federal, state and local governments are expanding the number of regulatory requirements on businesses.

We have set forth below a discussion of the regulations that we believe most significantly affect our home health and hospice businesses.

Licensure, Certificates of Need (CON) and Permits of Approval (POA)

Home health and hospice care centers operate under licenses granted by the health authorities of their respective states. Additionally, certain states, including a number in which we operate, carefully restrict new entrants into the market based on demographic and/or demonstrative usage of additional providers. In such states, expansion by existing providers or entry into the market by new providers is permitted only where a given amount of unmet need exists, resulting either from population increases or a reduction in competing providers. These states ration the entry of new providers or services and the expansion of existing providers or services in their markets through a CON process, which is periodically evaluated and updated as required by applicable state law. Currently, state health authorities in 17 states and the District of Columbia require a CON or, in the State of Arkansas, a POA, in order to establish and operate a home health care center, and state health authorities in 12 states and the District of Columbia require a CON to operate a hospice care center.

We operate home health care centers in the following CON states: Alabama, Arkansas (POA), Georgia, Kentucky, Maryland, Mississippi, New Jersey, New York, North Carolina, South Carolina, Tennessee, Washington and West Virginia, as well as the District of Columbia. We provide hospice related services in the following CON states: Alabama, Maryland, North Carolina, Tennessee and West Virginia.

In every state where required, our care centers possess a license and/or CON or POA issued by the state health authority that determines the local service areas for the home health or hospice care center. In general, the process for opening a home health or hospice care center begins by a provider submitting an application for licensure and certification to the state and federal regulatory bodies, which is followed by a testing period of transmitting data from the applicant to CMS. Once this process is complete, the care center receives a provider agreement and corresponding number and can begin billing for services that it provides unless a CON or POA is required. For those states that require a CON or POA, the provider must also complete a separate application process before billing can commence and receive required approvals for capital expenditures exceeding amounts above prescribed thresholds.

State CON and POA laws generally provide that, prior to the addition of new capacity, the construction of new facilities or the introduction of new services, a designated state health planning agency must determine that a need exists for those beds, facilities or services. The process is intended to promote comprehensive health care planning, assist in providing high-quality health care at the lowest possible cost and avoid unnecessary duplication by ensuring that only those health care facilities and operations that are needed will be built and opened.

Medicare Participation

Our care centers must comply with regulations promulgated by the United States Department of Health and Human Services and CMS in order to participate in the Medicare program and receive Medicare payments. Among other things, these regulations, known as "conditions of participation ("COPs")," relate to the type of facility, its personnel and its standards of medical care, as well as its compliance with state and local laws and regulations. CMS has adopted alternative sanction enforcement options which allow CMS (i) to impose temporary management, direct plans of correction, or direct training, and (ii) to impose payment suspensions and civil monetary penalties in each case on providers out of compliance with the conditions of participation. On January 12, 2017, CMS finalized new COPs for home health agencies and published them in the Federal Register. These new COPs, which went into effect on January 13, 2018, focus on the safe delivery of quality care provided to patients and the impact of that care on patient outcomes through the protection and promotion of patients' rights, care planning, delivery and coordination of services, and streamlining of regulatory requirements.

CMS has engaged a number of third party firms, including Recovery Audit Contractors ("RACs"), Program Safeguard Contractors ("PSCs"), Zone Program Integrity Contractors ("ZPICs") and Medicaid Integrity Contributors ("MICs"), to conduct extensive reviews of claims data and state and Federal Government health care program laws and regulations applicable to healthcare providers. These audits evaluate the appropriateness of billings submitted for payment. In addition to identifying overpayments, audit contractors can refer suspected violations of law to government enforcement authorities.

Federal and State Anti-Fraud and Anti-Kickback Laws

As a provider under the Medicare and Medicaid systems, we are subject to various anti-fraud and abuse laws, including the Federal health care programs' anti-kickback statute and, where applicable, its state law counterparts. Subject to certain exceptions, these laws prohibit any offer, payment, solicitation or receipt of any form of remuneration to induce or reward the referral of business payable under a government health care program or in return for the purchase, lease, order, arranging for, or recommendation of items or services covered under a government health care program. Affected government health care programs include any health care plans or programs that are funded by the United States government (other than certain federal employee health insurance benefits/programs), including certain state health care programs that receive federal funds, such as Medicaid. A related law forbids the offer or transfer of anything of value, including certain waivers of co-payment obligations and deductible amounts, to a beneficiary of Medicare or Medicaid that is likely to influence the beneficiary's selection of health care providers, again subject to certain exceptions. Violations of the anti-fraud and abuse laws can result in the imposition of substantial civil and criminal penalties and, potentially, exclusion from furnishing services under any government health care program. In addition, the states in which we operate generally have laws that prohibit certain direct or indirect payments or fee-splitting arrangements between health care providers where they are designed to obtain the referral of patients from a particular provider.

Stark Laws

Congress adopted legislation in 1989, known as the "Stark Law," that generally prohibited a physician from ordering clinical laboratory services for a Medicare beneficiary where the entity providing that service has a financial relationship (including direct or indirect ownership or compensation relationships) with the physician (or a member of his/her immediate family), and further prohibits such entity from billing for or receiving payment for such services, unless a specified exception is available. The Stark Law was amended through additional legislation, known as "Stark II," which became effective January 1, 1993. That legislation extended the Stark Law prohibitions beyond clinical laboratory services to a more extensive list of statutorily defined "designated health services," which includes, among other things, home health services, durable medical equipment and outpatient prescription drugs. Violations of the Stark Law result in payment denials and may also trigger civil monetary penalties and program exclusion. Several of the states in which we conduct business have also enacted statutes similar in scope and purpose to the federal fraud and abuse laws and the Stark Laws. These state laws may mirror the Federal Stark Laws or may be different in scope. The available guidance and enforcement activity associated with such state laws varies considerably.

Federal and State Privacy and Security Laws

The Administrative Simplification provisions of the Health Insurance Portability and Accountability Act of 1996, as amended ("HIPAA"), directed that the Secretary of the U.S. Department of Health and Human Services ("HHS") promulgate regulations

prescribing standard requirements for electronic health care transactions and establishing protections for the privacy and security of individually identifiable health information, known as "protected health information." The HIPAA transactions regulations establish form, format and data content requirements for most electronic health care transactions, such as health care claims that are submitted electronically. The HIPAA privacy regulations establish comprehensive requirements relating to the use and disclosure of protected health information. The HIPAA security regulations establish minimum standards for the protection of protected health information that is stored or transmitted electronically. Violations of the privacy and security regulations are punishable by civil and criminal penalties.

The American Recovery and Economic Reinvestment Act of 2009 ("ARRA"), signed into law by President Obama on February 17, 2009, contained significant changes to the privacy and security provisions of HIPAA, including major changes to the enforcement provisions. Among other things, ARRA significantly increased the amount of civil monetary penalties that can be imposed for violations of HIPAA. ARRA also authorized state attorneys general to bring civil enforcement actions under HIPAA. These enhanced penalties and enforcement provisions went into effect immediately upon enactment of ARRA. ARRA also required that HHS promulgate regulations requiring that certain notifications be made to individuals, to HHS and potentially to the media in the event of breaches of the privacy of protected health information. These breach notification regulations went into effect on September 23, 2009, and HHS began to enforce violations on February 22, 2010. Violations of the breach notification provisions of HIPAA can trigger the increased civil monetary penalties described above.

ARRA's numerous other changes to HIPAA delayed effective dates and required the issuance of implementing regulations by HHS. The Health Information Technology for Economic and Clinical Health ("HITECH") Act was enacted in conjunction with ARRA. On January 25, 2013, HHS issued final modifications to the HIPAA Privacy, Security, and Enforcement Rules mandated by the HITECH Act, which had been previously issued as a proposed rule on July 14, 2010. Among other things, these modifications make business associates of covered entities directly liable for compliance with certain HIPAA requirements, strengthen the limitations on the use and disclosure of protected health information without individual authorizations, and adopt the additional HITECH Act enhancements, including enforcement of noncompliance with HIPAA due to willful neglect. The changes to HIPAA enacted as part of ARRA reflect a Congressional intent that HIPAA's privacy and security provisions be more strictly enforced. These changes have stimulated increased enforcement activity and enhanced the potential that health care providers will be subject to financial penalties for violations of HIPAA.

In addition to the federal HIPAA regulations, most states also have laws that protect the confidentiality of health information. Also, in response to concerns about identity theft, many states have adopted so-called "security breach" notification laws that may impose requirements regarding the safeguarding of personal information, such as social security numbers and bank and credit card account numbers, and that impose an obligation to notify persons when their personal information has or may have been accessed by an unauthorized person. Some state security breach notification laws may also impose physical and electronic security requirements. Violation of state security breach notification laws can trigger significant monetary penalties.

The False Claims Act

The Federal False Claims Act gives the Federal Government an additional way to police false bills or requests for payment for health care services. Under the False Claims Act, the government may fine any person who knowingly submits, or participates in submitting, claims for payment to the Federal Government which are false or fraudulent, or which contain false or misleading information. Any person who knowingly makes or uses a false record or statement to avoid paying the Federal Government, or knowingly conceals or avoids an obligation to pay money to the Federal Government, may also be subject to fines under the False Claims Act. Under the False Claims Act, the term "person" means an individual, company, or corporation. The Federal Government has widely used the False Claims Act to prosecute Medicare and other governmental program fraud in areas such as violations of the Federal anti-kickback statute or the Stark Laws, coding errors, billing for services not provided, and submitting false cost reports. The False Claims Act has also been used to prosecute people or entities that bill services at a higher reimbursement rate than is allowed and that bill for care that is not medically necessary. In addition to government enforcement, the False Claims Act authorizes private citizens to bring qui tam or "whistleblower" lawsuits, greatly extending the practical reach of the False Claims Act. The penalty for violation of the False Claims Act is a minimum of $5,500 for each fraudulent claim plus three times the amount of damages caused to the government as a result of each fraudulent claim.

The Fraud Enforcement and Recovery Act of 2009 ("FERA") amended the False Claims Act with the intent of enhancing the powers of government enforcement authorities and whistleblowers to bring False Claims Act cases. In particular, FERA attempts to clarify that liability may be established not only for false claims submitted directly to the government, but also for claims submitted to government contractors and grantees. FERA also seeks to clarify that liability exists for attempts to avoid repayment of overpayments, including improper retention of federal funds. FERA also included amendments to False Claims Act procedures, expanding the government's ability to use the Civil Investigative Demand process to investigate defendants, and permitting

government complaints in intervention to relate back to the filing of the whistleblower's original complaint. FERA is likely to increase both the volume and liability exposure of False Claims Act cases brought against health care providers.

In March of 2010, as part of the Patient Protection and Affordable Care Act (discussed in more detail below), Congress enacted new requirements related to identifying and returning overpayments made under Medicare and Medicaid. On February 12, 2016, CMS finalized regulations regarding this so-called "60-day rule," which requires providers to report and return Medicare and Medicaid overpayments within 60 days of identifying the same. A provider who retains identified overpayments beyond 60 days may be liable under the False Claims Act. "Identification" occurs when a person "has, or should have through the exercise of reasonable diligence," identified and quantified the amount of an overpayment. The final rule also established a six year lookback period, meaning overpayments must be reported and returned if a person identifies the overpayment within six years of the date the overpayment was received. Providers must report and return overpayments even if they did not cause the overpayment.

In November of 2015, the Federal Civil Penalties Inflation Adjustment Act Improvements Act of 2015 made the amounts of civil monetary penalties subject to adjustment for inflation and authorized a one-time catch-up adjustment for all penalties not previously subject to an inflation adjustment. In June of 2016, the Department of Justice issued a rule that more than doubled civil monetary penalties under the False Claims Act. These increases took effect on August 1, 2016 and apply to False Claims Act violations after November 2, 2015. Subsequent inflation adjustments have occurred by rule in February of 2017 and January of 2018. Each annual adjustment is applicable to penalties assessed after the date of the rule but applies only to conduct occurring after November 2, 2015.

In addition to the False Claims Act, the Federal Government may use several criminal statutes to prosecute the submission of false or fraudulent claims for payment to the Federal Government. Many states have similar false claims statutes that impose liability for the types of acts prohibited by the False Claims Act. As part of the Deficit Reduction Act of 2005 (the "DRA"), Congress provided states an incentive to adopt state false claims acts consistent with the Federal False Claims Act. Additionally, the DRA required providers who receive $5 million or more annually from Medicaid to include information on Federal and state false claims acts, whistleblower protections and the providers' own policies on detecting and preventing fraud in their written employee policies.

Civil Monetary Penalties

The United States Department of Health and Human Services may impose civil monetary penalties for a variety of civil offenses related to federal health care programs. They may be imposed upon any person or entity who presents, or causes to be presented, certain ineligible claims for medical items or services, for providing improper inducements to beneficiaries to obtain services, for payments to limit services to patients, and for offenses related to relationships with excluded individuals, among other things. The amount of penalties varies depending on the offense. Pursuant to the Federal Civil Penalties Inflation Adjustment Act Improvements Act of 2015, the range of potential penalties significantly increased and, subject to annual inflation adjustments, range from over $4,000 to over $70,000, depending on the offense.

FDA Regulation

The U.S. Food and Drug Administration ("FDA") regulates medical device user facilities, which include home health care providers. FDA regulations require user facilities to report patient deaths and serious injuries to FDA and/or the manufacturer of a device used by the facility if the device may have caused or contributed to the death or serious injury of any patient. FDA regulations also require user facilities to maintain files related to adverse events and to establish and implement appropriate procedures to ensure compliance with the above reporting and recordkeeping requirements. User facilities are subject to FDA inspection, and noncompliance with applicable requirements may result in warning letters or sanctions including civil monetary penalties, injunction, product seizure, criminal fines and/or imprisonment.

Patient Protection and Affordable Care Act

In March 2010, comprehensive health care reform legislation was signed into law in the United States through the passage of the Patient Protection and Affordable Care Act and the Health Care and Education Reconciliation Act (collectively, "PPACA"). Since the 2016 election, it has been widely discussed that the PPACA will be "repealed and replaced." The effect of any major modification or repeal of the PPACA on our business, operations, or financial condition cannot be predicted at this time.

It is difficult to predict the full impact of PPACA due to the law's complexity and phased in effective dates, as well as our inability to foresee how CMS and other participants in the health care industry will respond to the choices available to them under the law. PPACA calls for a number of changes to be made over time that will likely have a significant impact upon the health care delivery system. For example, PPACA mandates decreases in home health reimbursement rates, including a four-year phased rebasing of the home health payment system that began in 2014 and continued through 2017. These reimbursement changes are described in

detail in Part II, Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations: Overview – Economic and Industry Factors." PPACA has established a number of new requirements impacting our business operations, and promises to give rise to other changes that could significantly impact our businesses in the future. For example, PPACA also mandates the creation of a home health value-based purchasing program, the development of quality measures, and the testing of alternative payment and delivery models, including Accountable Care Organizations ("ACOs") and the Bundled Payments for Care Improvement initiative. See Part I, Item 1A, "Risk Factors: Risks Related to Laws and Government Regulations" for a more complete discussion of PPACA and the risks it presents to our businesses.

The Improving Medicare Post-Acute Care Transformation Act

In October 2014, the Improving Medicare Post-Acute Care Transformation Act ("IMPACT Act") was signed into law requiring the reporting of standardized patient assessment data for quality improvement, payment and discharge planning purposes across the spectrum of post-acute care providers ("PACs"), including skilled nursing facilities and home health agencies. The IMPACT Act requires PACs to begin reporting: (1) standardized patient assessment data at admission and discharge by October 1, 2018 for post-acute care providers, including skilled nursing facilities and by January 1, 2019 for home health agencies; (2) new quality measures, including functional status, skin integrity, medication reconciliation, incidence of major falls, and patient preference regarding treatment and discharge at various intervals between October 1, 2016 and January 1, 2019; and (3) resource use measures, including Medicare spending per beneficiary, discharge to community, and hospitalization rates of potentially preventable readmissions by October 1, 2016 for post-acute care providers, including skilled nursing facilities and by October 1, 2017 for home health agencies. Failure to report such data when required would subject a facility to a two percent reduction in market basket prices then in effect.

The IMPACT Act further requires HHS and the Medicare Payment Advisory Commission ("MedPAC"), a commission chartered by Congress to advise it on Medicare payment issues, to study alternative PAC payment models, including payment based upon individual patient characteristics and not care setting, with corresponding Congressional reports required based on such analysis. The IMPACT Act also included provisions impacting Medicare-certified hospices, including: (1) increasing survey frequency for Medicare-certified hospices to once every 36 months; (2) imposing a medical review process for facilities with a high percentage of stays in excess of 180 days; and (3) updating the annual aggregate Medicare payment cap.

Pre-Claim Review Demonstration for Home Health Services

On June 8, 2016, CMS announced the implementation of a three year Medicare pre-claim review demonstration for home health services provided to beneficiaries in the states of Illinois, Florida, Texas, Michigan and Massachusetts. The demonstration began in Illinois in August 2016 and was to expand to Florida for home health services that began on or after April 1, 2017; however, CMS suspended the program indefinitely but the agency can restart the demonstration in the announced states after providing 30 days' notice. The pre-claim review is a process through which a request for provisional affirmation of coverage is submitted for review before a final claim is submitted for payment. The pre-claim review demonstration may result in an increase in administrative costs or reimbursement delays related to home health services in such states, which could have an adverse effect on our results of operations and cash flow.

Home Health Value-Based Purchasing

On January 1, 2016, CMS implemented Home Health Value-Based Purchasing ("HHVBP"). The HHVBP model was designed to give Medicare-certified home health agencies incentives or penalties, through payment bonuses, to give higher quality and more efficient care. HHVBP was rolled out to nine pilot states: Arizona, Florida, Iowa, Maryland, Massachusetts, Nebraska, North Carolina, Tennessee and Washington, seven of which Amedisys currently has home health operations. Bonuses and penalties begin in 2018 with the maximum of plus or minus 3% growing to plus or minus 8% by 2022. Payment adjustments are calculated based on performance in 20 measures which include current Quality of Patient Care and Patient Satisfaction star measures, as well as measures based on submission of data to a CMS web portal. Based on the CMS published Total Performance Score results, we anticipate we will receive a net positive adjustment in 2018.

Home Health Payment Reform

In the Calendar Year 2018 Home Health Proposed Rule, released in July 2017, CMS proposed changes to the Home Health Prospective Payment System ("HHPPS"), known as the Home Health Groupings Model ("HHGM"). Among a number of major differences from the current payment system, the HHGM would have distinguished between referrals from institutions and those from the community, with community referrals receiving lower payments. In addition, a 60-day episode would consist of two 30-day periods, each paid separately, with the initial 30-day period paid higher than any other period. However, HHGM was not included in the final rule released in November 2017.

On February 9, 2018, Congress passed the Bipartisan Budget Act of 2018 ("BBA of 2018"), which funded government operations, set two-year government spending limits and enacted a variety of healthcare related policies. Specific to home health, the BBA of 2018 provides for a targeted extension of the home health rural add-on payment, a reduction of the 2020 market basket update, modification of eligibility documentation requirements and reform to the HHPPS. The HHPPS reform includes the following parameters:

- For home health units of service beginning on January 1, 2020, a 30-day payment system will apply.
- The transition to the 30-day payment system must be budget neutral.
- CMS must conduct at least one Technical Expert Panel during 2018, prior to any notice and comment rulemaking process, related to the design of any new case-mix adjustment model.

We are closely monitoring additional changes that may occur and will continue to work with industry stakeholders in directly engaging CMS and Congress on changes to the case-mix adjustment model.

Our Competitors

There are few barriers to entry in the home health and hospice jurisdictions that do not require certificates of need or permits of approval. Our primary competition in these jurisdictions comes from local privately and publicly-owned and hospital-owned health care providers. We compete based on the availability of personnel, the quality of services, expertise of visiting staff, and, in certain instances, on the price of our services. In addition, we compete with a number of non-profit organizations that finance acquisitions and capital expenditures on a tax-exempt basis or receive charitable contributions that are unavailable to us.

Available Information

Our company website address is www.amedisys.com. We use our website as a channel of distribution for important company information. Important information, including press releases, investor presentations and financial information regarding our company, is routinely posted on and accessible on the Investor Relations subpage of our website, which is accessible by clicking on the tab labeled "Investors" on our website home page. Visitors to our website can also register to receive automatic e-mail and other notifications alerting them when new information is made available on the "Investors" subpage of our website. In addition, we make available on the Investors subpage of our website (under the link "SEC Filings"), free of charge, our annual reports on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, ownership reports on Forms 3, 4 and 5 and any amendments to those reports as soon as reasonably practicable after we electronically file or furnish such reports with the SEC. Further, copies of our Certificate of Incorporation and Bylaws, our Code of Ethical Business Conduct, our Corporate Governance Guidelines and the charters for the Audit, Compensation, Compliance and Ethics, Nominating and Corporate Governance and Quality of Care Committees of our Board are also available on the Investors subpage of our website (under the link "Corporate Governance"). Reference to our website does not constitute incorporation by reference of the information contained on the website and should not be considered part of this document.

Additionally, the public may read and copy any of the materials we file with the SEC at the SEC's Public Reference Room at 100 F Street, NE, Room 1580, Washington, D.C. 20549. Information on the operation of the Public Reference Room may be obtained by calling the SEC at (800) SEC-0330. Our electronically filed reports can also be obtained on the SEC's internet site at http://www.sec.gov.

ITEM 1A. RISK FACTORS

The risks described below, and risks described elsewhere in this Form 10-K, could have a material adverse effect on our business and consolidated financial condition, results of operations and cash flows and the actual outcome of matters as to which forward-looking statements are made in this Form 10-K. The risk factors described below and elsewhere in this Form 10-K are not the only risks faced by Amedisys. Our business and consolidated financial condition, results of operations and cash flows may also be materially adversely affected by factors that are not currently known to us, by factors that we currently consider immaterial or by factors that are not specific to us, such as general economic conditions.

If any of the following risks are actually realized, our business and consolidated financial condition, results of operations and cash flows could be materially adversely affected. In that case, the trading price of our common stock could decline.

You should refer to the explanation of the qualifications and limitations on forward-looking statements under "Special Caution Concerning Forward-Looking Statements." All forward-looking statements made by us are qualified by the risk factors described below.

Risks Related to Reimbursement

Federal and state changes to reimbursement and other aspects of Medicare and Medicaid could have a material adverse effect on our business and consolidated financial condition, results of operations and cash flows.

Our net service revenue is primarily derived from Medicare, which accounted for 75%, 78% and 80% of our revenue during 2017, 2016 and 2015, respectively. Payments received from Medicare are subject to changes made through federal legislation. When such changes are implemented, we must also modify our internal billing processes and procedures accordingly, which can require significant time and expense. These changes, as further detailed in Part I, Item 1, "Business: Payment for Our Services," can include changes to base episode payments and adjustments for home health services, changes to cap limits and per diem rates for hospice services and changes to Medicare eligibility and documentation requirements or changes designed to restrict utilization. Any such changes, including retroactive adjustments, adopted in the future by the Center for Medicare and Medicaid Services ("CMS") could have a material adverse effect on our business and consolidated financial condition, results of operations and cash flows.

In April of 2015, Congress passed and President Obama signed the so-called "doc fix" in the form of the Medicare Access and CHIP Reauthorization Act of 2015 ("MACRA"). This law replaces a long-standing physician reimbursement formula with statutorily prescribed physician payment updates and provisions. MACRA provides for an increase of 3% of the payment amount otherwise made for home health services furnished in rural areas, and sets Medicare reimbursements for post-acute care providers to increase by 1.0% in fiscal year 2018.

On August 1, 2017, CMS published annual changes in Medicare hospice payment rates. As finalized, CMS estimates hospices will see a 1.0% increase in Medicare payments for fiscal year 2018, consistent with the required market basket set in fiscal year 2018 by MACRA. Absent the statutory cap on payment increases included in MACRA, CMS notes that the rate increase would have been a 2.2% net increase. CMS also increased the aggregate cap amount by 1.0% to $28,689.04. As of December 31, 2017, we expect the impact of the 2018 final rule on us to be in line with that of the hospice industry.

On November 1, 2017, CMS issued a final rule to update and revise Medicare home health reimbursement rates for calendar year 2018. CMS estimates that the net impact of the payment provisions of the final rule will result in a decrease of 0.4% in reimbursement to home health providers. This decrease is the result of a 1.0% home health payment update, a 0.9% adjustment to the national, standardized 60-day episode payment rate to account for nominal case-mix growth and the sunset of the rural add-on provision.

On February 9, 2018, Congress passed the Bipartisan Budget Act of 2018 ("BBA of 2018"), which funded government operations, set two-year government spending limits and enacted a variety of healthcare related policies. Specific to home health, the BBA of 2018 provides for a targeted extension of the home health rural add-on payment, a reduction of the 2020 market basket update, modification of eligibility documentation requirements and reform to the Home Health Prospective Payment System ("HHPPS"). As of February 9, 2018, we estimate the impact of the 2017 final rule and the BBA of 2018 on us to be a decrease in reimbursement of approximately 0.7%.

On February 2, 2016, CMS published a final rule adding new requirements for Medicaid home health services. Among other things, the final rule requires that for the initial ordering of home health services, the physician must document that a face-to-face encounter that is related to the primary reason the beneficiary requires home health services occurred no more than 90 days before or 30 days after the start of services. The final rule requires that for the initial ordering of certain medical equipment, the physician or authorized non-physician practitioner must document that a face-to-face encounter that is related to the primary reason the beneficiary requires medical equipment occurred no more than six months prior to the start of services. Although the final rule's stated effective date is July 1, 2016, CMS created an exception for state legislation by giving state agencies that require state legislation to until July 1, 2017 or July 1, 2018 to publish requirements imposed by the rule.

There are continuing efforts to reform governmental health care programs that could result in major changes in the health care delivery and reimbursement system on a national and state level, including changes directly impacting the reimbursement systems for our home health and hospice care centers, including but not limited to, the sunset of the rural add-on and other extenders. Though we cannot predict what, if any, reform proposals will be adopted, health care reform and legislation may have a material adverse effect on our business and our financial condition, results of operations and cash flows through decreasing payments made for our services.

We could be affected adversely by the continuing efforts of governmental payors to contain health care costs. We cannot assure you that reimbursement payments under governmental payor programs, including Medicare supplemental insurance policies, will remain at levels comparable to present levels or will be sufficient to cover the costs allocable to patients eligible for reimbursement pursuant to these programs. Any such changes could have a material adverse effect on our business and consolidated financial condition, results of operations and cash flows.

Quality reporting requirements may negatively impact Medicare reimbursement.

Hospice quality reporting was mandated by PPACA, which directs the Secretary to establish quality reporting requirements for hospice programs. For fiscal year 2014, and each subsequent year, failure to submit required quality data will result in a 2 percentage point reduction to the market basket percentage increase for that fiscal year. This quality reporting program is currently "pay-for-reporting," meaning it is the act of submitting data that determines compliance with program requirements.

Similarly, in the Calendar Year 2015 Home Health Final Rule, CMS proposed to establish a new "Pay-for-Reporting Performance Requirement" with which provider compliance with quality reporting program requirements can be measured. Home health agencies that do not submit quality measure data to CMS are subject to a 2.0% reduction in their annual home health payment update percentage. Home health agencies are required to report prescribed quality assessment data for a minimum of 70.0% of all patients with episodes of care that occur on or after July 1, 2015. This compliance threshold increases by 10.0% in each of two subsequent periods--i.e., for episodes beginning on or after July 1, 2016 and before June 30, 2017, home health agencies must score at least 80%, and for episodes beginning on or after July 1, 2017 and thereafter, the required performance level is at least 90%.

The Improving Medicare Post-Acute Care Transformation Act of 2014 (the "IMPACT Act") requires the submission of standardized data by home health agencies and other providers. Specifically, the IMPACT Act requires, among other significant activities, the reporting of standardized patient assessment data with regard to quality measures, resource use, and other measures. Failure to report data as required will subject providers to a 2% reduction in market basket prices then in effect. Additionally, reporting activities associated with the IMPACT Act are anticipated to be quite burdensome.

There can be no assurance that all of our agencies will continue to meet quality reporting requirements in the future which may result in one or more of our agencies seeing a reduction in its Medicare reimbursements. Regardless, we, like other healthcare providers, are likely to incur additional expenses in an effort to comply with additional and changing quality reporting requirements.

Any economic downturn, deepening of an economic downturn, continued deficit spending by the Federal Government or state budget pressures may result in a reduction in payments and covered services.

Adverse developments in the United States could lead to a reduction in Federal Government expenditures, including governmentally funded programs in which we participate, such as Medicare and Medicaid. In addition, if at any time the Federal Government is not able to meet its debt payments unless the federal debt ceiling is raised, and legislation increasing the debt ceiling is not enacted, the Federal Government may stop or delay making payments on its obligations, including funding for government programs in which we participate, such as Medicare and Medicaid. Failure of the government to make payments under these programs could have a material adverse effect on our business and consolidated financial condition, results of operations and cash flows. Further, any failure by the United States Congress to complete the federal budget process and fund government operations may result in a Federal Government shutdown, potentially causing us to incur substantial costs without reimbursement under the Medicare program, which could have a material adverse effect on our business and consolidated financial condition, results of operations and cash flows. As an example, the failure of the 2011 Joint Select Committee to meet its Deficit Reduction goal resulted in an automatic reduction in Medicare home and hospice payments of 2% beginning April 1, 2013.

Historically, state budget pressures have resulted in reductions in state spending. Given that Medicaid outlays are a significant component of state budgets, we can expect continuing cost containment pressures on Medicaid outlays for our services.

In addition, sustained unfavorable economic conditions may affect the number of patients enrolled in managed care programs and the profitability of managed care companies, which could result in reduced payment rates and could have a material adverse effect on our business and consolidated financial condition, results of operations and cash flows.

Future cost containment initiatives undertaken by private third party payors may limit our future revenue and profitability.

Our non-Medicare revenue and profitability are affected by continuing efforts of third party payors to maintain or reduce costs of health care by lowering payment rates, narrowing the scope of covered services, increasing case management review of services and negotiating pricing. There can be no assurance that third party payors will make timely payments for our services, and there is no assurance that we will continue to maintain our current payor or revenue mix. We are continuing our efforts to develop our non-Medicare sources of revenue and any changes in payment levels from current or future third party payors could have a material adverse effect on our business and consolidated financial condition, results of operations and cash flows.

Risks Related to Laws and Government Regulations

We are operating under a Corporate Integrity Agreement. Violations of this agreement could result in substantial penalties or exclusion from participation in the Medicare program.

On April 23, 2014, with no admissions of liability on our part, we entered into a settlement agreement with the U.S. Department of Justice relating to certain of our clinical and business operations. Concurrently with our entry into this agreement, we entered into a Corporate Integrity Agreement ("CIA") with the Office of Inspector General-HHS ("OIG"). The CIA, which has a term of five years, formalizes various aspects of our already existing ethics and compliance programs and contains other requirements designed to help ensure our ongoing compliance with federal health care program requirements. Among other things, the CIA requires us to maintain our existing compliance program, executive compliance committee and compliance committee of the Board of Directors; provide certain compliance training; continue screening new and current employees to ensure they are eligible to participate in federal health care programs; engage an independent review organization ("IRO") to perform certain auditing and reviews and prepare certain reports regarding our compliance with federal health care programs, our billing submissions to federal health care programs and our compliance and risk mitigation programs; and provide certain reports and management certifications to the OIG. Additionally, the CIA specifically requires that we report substantial overpayments that we discover we have received from the federal health care programs, as well as probable violations of federal health care laws. Upon breach of the CIA, we could become liable for payment of certain stipulated penalties, or could be excluded from participation in federal health care programs. Although we believe that we are currently in compliance with the CIA, any violations of the agreement could have a material adverse effect on our business and consolidated financial condition, results of operations and cash flows.

We are subject to extensive government regulation. Any changes to the laws and regulations governing our business, or to the interpretation and enforcement of those laws or regulations, could have a material adverse effect on our business and consolidated financial condition, results of operations and cash flows.

Our industry is subject to extensive federal and state laws and regulations. See Part I, Item 1, "Our Regulatory Environment" for additional information on such laws and regulations. Federal and state laws and regulations impact how we conduct our business, the services we offer and our interactions with patients, our employees and the public and impose certain requirements on us such as:

- licensure and certification;
- adequacy and quality of health care services;
- qualifications of health care and support personnel;
- quality and safety of medical equipment;
- confidentiality, maintenance and security issues associated with medical records and claims processing;
- relationships with physicians and other referral sources;
- operating policies and procedures;
- emergency preparedness risk assessments and policies and procedures;
- policies and procedures regarding employee relations;
- addition of facilities and services;
- billing for services;
- requirements for utilization of services;
- documentation required for billing and patient care; and
- reporting and maintaining records regarding adverse events.

These laws and regulations, and their interpretations, are subject to change. Changes in existing laws and regulations, or their interpretations, or the enactment of new laws or regulations could have a material adverse effect on our business and consolidated financial condition, results of operations and cash flows by:

- increasing our administrative and other costs;
- increasing or decreasing mandated services;
- causing us to abandon business opportunities we might have otherwise pursued;

- decreasing utilization of services;
- forcing us to restructure our relationships with referral sources and providers; or
- requiring us to implement additional or different programs and systems.

Additionally, we are subject to various routine and non-routine reviews, audits and investigations by the Medicare and Medicaid programs and other federal and state governmental agencies, which have various rights and remedies against us if they establish that we have overcharged the programs or failed to comply with program requirements. Violation of the laws governing our operations, or changes in interpretations of those laws, could result in the imposition of fines, civil or criminal penalties, and the termination of our rights to participate in federal and state-sponsored programs and/or the suspension or revocation of our licenses. If we become subject to material fines, or if other sanctions or other corrective actions are imposed on us, our business and consolidated financial condition, results of operations and cash flows could be materially adversely affected.

We face periodic and routine reviews, audits and investigations under our contracts with federal and state government agencies and private payors, and these audits could have adverse findings that may negatively impact our business.

As a result of our participation in the Medicare and Medicaid programs, we are subject to various governmental reviews, audits and investigations to verify our compliance with these programs and applicable laws and regulations. We also are subject to audits under various government programs, including the RAC, ZPIC, PSC and MIC programs as well as in accordance with the requirements of our CIA, in which third party firms engaged by CMS or by the Company conduct extensive reviews of claims data and medical and other records to identify potential improper payments under the Medicare program. Private pay sources also reserve the right to conduct audits. If billing errors are identified in the sample of reviewed claims, the billing error can be extrapolated to all claims filed which could result in a larger overpayment than originally identified in the sample of reviewed claims. Our costs to respond to and defend reviews, audits and investigations may be significant and could have a material adverse effect on our business and consolidated financial condition, results of operations and cash flows. Moreover, an adverse review, audit or investigation could result in:

- required refunding or retroactive adjustment of amounts we have been paid pursuant to the federal or state programs or from private payors;
- state or federal agencies imposing fines, penalties and other sanctions on us;
- loss of our right to participate in the Medicare program, state programs, or one or more private payor networks; or
- damage to our business and reputation in various markets.

These results could have a material adverse effect on our business and consolidated financial condition, results of operations and cash flows.

If a care center fails to comply with the conditions of participation in the Medicare program, that care center could be subjected to sanctions or terminated from the Medicare program.

Each of our care centers must comply with required conditions of participation in the Medicare program. If we fail to meet the conditions of participation at a care center, we may receive a notice of deficiency from the applicable state surveyor. If that care center then fails to institute an acceptable plan of correction to remediate the deficiency within the correction period provided by the state surveyor, that care center could be terminated from the Medicare program or subjected to alternative sanctions. CMS outlined its alternative sanction enforcement options for home health care centers through a regulation published in 2012; under the regulation, CMS may impose temporary management, direct a plan of correction, direct training or impose payment suspensions and civil monetary penalties, in each case, upon providers who fail to comply with the conditions of participation. Termination of one or more of our care centers from the Medicare program for failure to satisfy the program's conditions of participation, or the imposition of alternative sanctions, could disrupt operations, require significant attention by management, or have a material adverse effect on our business and reputation and consolidated financial condition, results of operations and cash flows.

We are subject to federal and state laws that govern our financial relationships with physicians and other health care providers, including potential or current referral sources.

We are required to comply with federal and state laws, generally referred to as "anti-kickback laws," that prohibit certain direct and indirect payments or other financial arrangements between health care providers that are designed to encourage the referral of patients to a particular provider for medical services. In addition to these anti-kickback laws, the Federal Government has enacted specific legislation, commonly known as the "Stark Law," that prohibits certain financial relationships, specifically including ownership interests and compensation arrangements, between physicians (and the immediate family members of

physicians) and providers of designated health services, such as home health care centers, to whom the physicians refer patients. Some of these same financial relationships are also subject to additional regulation by states. Although we believe we have structured our relationships with physicians and other potential referral sources to comply with these laws where applicable, we cannot assure you that courts or regulatory agencies will not interpret state and federal anti-kickback laws and/or the Stark Law and similar state laws regulating relationships between health care providers and physicians in ways that will adversely implicate our practices or that isolated instances of noncompliance will not occur. Violations of federal or state Stark or anti-kickback laws could lead to criminal or civil fines or other sanctions, including denials of government program reimbursement or even exclusion from participation in governmental health care programs, which could have a material adverse effect on our business and consolidated financial condition, results of operations and cash flows.

We may face significant uncertainty in the industry due to government health care reform.

The health care industry in the United States is subject to fundamental changes due to ongoing health care reform efforts and related political, economic and regulatory influences. In March 2010, comprehensive health care reform legislation was signed into law in the United States through the passage of the Patient Protection and Affordable Health Care Act and the Health Care and Education Reconciliation Act (collectively, "PPACA"). However, it is difficult to predict the full impact of PPACA due to the law's complexity and phased-in effective dates, as well as our inability to foresee how CMS and other participants in the health care industry will respond to the choices available to them under the law.

PPACA makes a number of changes to Medicare payment rates and also calls for a rebasing of the home health payment system that began in 2014 and continued through 2017. These reimbursement changes are described in detail in Part II, Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations: Overview – Economic and Industry Factors."

Regulations implementing the provisions of the PPACA and related initiatives may similarly increase our costs, decrease our revenues, expose us to expanded liability or require us to revise the ways in which we conduct our business.

PPACA also calls for a number of other changes to be made over time that will likely have a significant impact upon the health care delivery system. For example, PPACA mandates creation of a home health value-based purchasing program, the development of quality measures, and decreases in home health reimbursement rates, including rebasing, as further described in Part II, Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations: Overview – Economic and Industry Factors."

In addition, various health care reform proposals similar to the federal reforms described above have also emerged at the state level, including in several states in which we operate. We cannot predict with certainty what health care initiatives, if any, will be implemented at the state level, or what the ultimate effect of federal health care reform or any future legislation or regulation may have on us or on our business and consolidated financial condition, results of operations and cash flows.

In addition to impacting our Medicare businesses, PPACA may also significantly affect our non-Medicare businesses. PPACA makes many changes to the underwriting and marketing practices of private payors. The resulting economic pressures could prompt these payors to seek to lower their rates of reimbursement for the services we provide. At this time, it is not possible to estimate what impact PPACA may have on our non-Medicare businesses.

Finally, efforts to repeal or substantially modify provisions of the PPACA continue in Congress. The ultimate outcomes of legislative efforts to repeal, substantially amend, eliminate or reduce funding for the PPACA is unknown. While these attempts have not been successful to date, the results of the Presidential and Congressional elections in 2016 could have a significant impact on future efforts to amend or repeal PPACA. In addition to the prospect for legislative repeal or revision, the President and members of his administration hostile to the PPACA could seek to impose substantial changes upon the PPACA through administrative action, including revised regulation and other Executive Branch action. The effect of any major modification or repeal of the PPACA on our business, operations, or financial condition cannot be predicted, but could be materially adverse.

Risks Related to our Growth Strategies

Our growth strategy depends on our ability to acquire additional care centers and integrate and operate these care centers effectively. If our growth strategy is unsuccessful or we are not able to successfully integrate newly acquired care centers into our existing operations, our business and consolidated financial condition, results of operations and cash flows could be materially adversely affected.

We may not be able to fully integrate the operations of our acquired businesses with our current business structure in an efficient and cost-effective manner. Acquisitions involve significant risks and uncertainties, including difficulties in recouping partial episode payments and other types of misdirected payments for services from the previous owners; difficulties integrating acquired personnel and business practices into our business; the potential loss of key employees, referral sources or patients of acquired care centers; the delay in payments associated with change in ownership, control and the internal process of the Medicare fiscal intermediary; and the assumption of liabilities and exposure to unforeseen liabilities of acquired care centers. Further, the financial benefits we expect to realize from many of our acquisitions are largely dependent upon our ability to improve clinical performance, overcome regulatory deficiencies, improve the reputation of the acquired business in the community and control costs. The failure to accomplish any of these objectives or to effectively integrate any of these businesses could have a material adverse effect on our business and consolidated financial condition, results of operations and cash flows.

State efforts to regulate the establishment or expansion of health care providers could impair our ability to expand our operations.

Some states require health care providers (including skilled nursing facilities, hospice care centers, home health care centers and assisted living facilities) to obtain prior approval, known as a CON or POA, in order to commence operations. See Part I, Item 1, "Our Regulatory Environment" for additional information on CONs and POAs. If we are not able to obtain such approvals, our ability to expand our operations could be impaired, which could have a material adverse effect on our business and consolidated financial condition, results of operations and cash flows.

Federal regulation may impair our ability to consummate acquisitions or open new care centers.

Changes in federal laws or regulations may materially adversely impact our ability to acquire care centers or open new start-up care centers. For example, PPACA authorized CMS to impose temporary moratoria on the enrollment of new Medicare providers, if deemed necessary to combat fraud, waste or abuse under government programs. The moratoria on new enrollments may be applied to categories of providers or to specific geographic regions. In 2012, the OIG released a report that concluded Medicare had overpaid home health agencies due to inappropriate and questionable billing practices. Citing this report, in 2014, CMS adopted a temporary moratorium on new home health agencies and home health agency branches in certain regions of Texas, Michigan, Florida and Illinois. On July 29, 2016, CMS announced it was extending such moratorium for an additional six months, and that the moratorium would be expanded statewide in each targeted state. On January 28, 2018, CMS announced that it was extending the enrollment moratoria for an additional six months. If a moratorium is imposed on the enrollment of new home health or hospice providers in a geographic area we desire to service, it could have a material impact on our ability to open new care centers. Additionally, in 2010, CMS implemented and amended a regulation known as the "36 Month Rule" that is applicable to home health care center acquisitions. Subject to certain exceptions, the 36 Month Rule prohibits buyers of certain home health care centers – those that either enrolled in Medicare or underwent a change in majority ownership fewer than 36 months prior to the acquisition – from assuming the Medicare billing privileges of the acquired care center. These changes in federal laws and regulations, and similar future changes, may further increase competition for acquisition targets and could have a material detrimental impact on our acquisition strategy.

We could face a variety of risks by expanding into our personal care line of business.

We established a personal care segment of our business with the acquisition of Associated Home Care, which closed on March 1, 2016. In 2017, we expanded our personal care line of business with the acquisition of the assets of Home Staff L.L.C. and Intercity Home Care. Risks of our entry into the new personal care segment include, without limitation: (i) potential diversion of management's time and other resources from our existing home health and hospice businesses; (ii) unanticipated liabilities or contingencies; (iii) the need for additional capital and other resources to expand into this new line of business; and (iv) inefficient integration of operational and management systems and controls. Entry into a new line of business may also subject us to new laws and regulations with which we are not familiar, and may lead to increased litigation and regulatory risk. If we are unable to successfully implement our growth strategies, our revenue and profitability may not grow as we expect, our competitiveness may be materially and adversely affected, and our reputation and business may be harmed.

Risks Related to our Operations

Because we are limited in our ability to control rates received for our services, our business and consolidated financial condition, results of operations and cash flows could be materially adversely affected if we are not able to maintain or reduce our costs to provide such services.

As Medicare is our primary payor and rates are established through federal legislation, we have to manage our costs of providing care to achieve a desired level of profitability. Additionally, non-Medicare rates are difficult for us to negotiate as such payors are under pressure to reduce their own costs. As a result, we manage our costs in order to achieve a desired level of profitability

including, but not limited to, centralization of various processes, the use of technology and management of the number of employees utilized. If we are not able to continue to streamline our processes and reduce our costs, our business and consolidated financial condition, results of operations and cash flows could be materially adversely affected.

Our industry is highly competitive, with few barriers to entry in certain states.

There are few barriers to entry in home health markets that do not require a CON or POA. Our primary competition comes from local privately-owned and hospital-owned health care providers. We compete based on the availability of personnel; the quality of services, expertise of visiting staff; and in certain instances, on the price of our services. Increased competition in the future may limit our ability to maintain or increase our market share.

Further, the introduction of new and enhanced service offerings by others, in combination with industry consolidation and the development of strategic relationships by our competitors (including mergers of competitors with each other and with insurers), could cause a decline in revenue or loss of market acceptance of our services or make our services less attractive. Additionally, we compete with a number of non-profit organizations that can finance acquisitions and capital expenditures on a tax-exempt basis or receive charitable contributions that are unavailable to us.

Managed care organizations and other third party payors continue to consolidate, which enhances their ability to influence the delivery of health care services. Consequently, the health care needs of patients in the United States are increasingly served by a smaller number of managed care organizations. These organizations generally enter into service agreements with a limited number of providers. Our business and consolidated financial condition, results of operations and cash flows could be materially adversely affected if these organizations terminate us as a provider and/or engage our competitors as a preferred or exclusive provider. In addition, should private payors, including managed care payors, seek to negotiate additional discounted fee structures or the assumption by health care providers of all or a portion of the financial risk through prepaid capitation arrangements, our business and consolidated financial condition, results of operations and cash flows could be materially adversely affected.

If we are unable to react competitively to new developments, our operating results may suffer. State CON or POA laws often limit the ability of competitors to enter into a given market, are not uniform throughout the United States and are frequently the subject of efforts to limit or repeal such laws. If states remove existing CONs or POAs, we could face increased competition in these states. For example, New Hampshire repealed its CON laws in 2015, and legislation was recently introduced in South Carolina that would have limited the application of its CON program. There can be no assurances that other states will not seek to eliminate or limit their existing CON or POA programs, which could lead to increased competition in these states. Further, we cannot assure you that we will be able to compete successfully against current or future competitors, which could have a material adverse effect on our business and consolidated financial condition, results of operations and cash flows.

If we are unable to maintain relationships with existing patient referral sources, our business and consolidated financial condition, results of operations and cash flows could be materially adversely affected.

Our success depends on referrals from physicians, hospitals and other sources in the communities we serve and on our ability to maintain good relationships with existing referral sources. Our referral sources are not contractually obligated to refer patients to us and may refer their patients to other providers. Our growth and profitability depends, in part, on our ability to establish and maintain close working relationships with these patient referral sources and to increase awareness and acceptance of the benefits of home health and hospice care by our referral sources and their patients. Our loss of, or failure to maintain, existing relationships or our failure to develop new referral relationships could have a material adverse effect on our business and consolidated financial condition, results of operations and cash flows.

If we are unable to provide consistently high quality of care, our business will be adversely impacted.

Providing quality patient care is the cornerstone of our business. We believe that hospitals, physicians and other referral sources refer patients to us in large part because of our reputation for delivering quality care. Clinical quality is becoming increasingly important within our industry. Effective October 2012, Medicare began to impose a financial penalty upon hospitals that have excessive rates of patient readmissions within 30 days from hospital discharge. We believe this new regulation provides a competitive advantage to home health providers who can differentiate themselves based upon quality, particularly by achieving low patient acute care hospitalization readmission rates and by implementing disease management programs designed to be responsive to the needs of patients served by referring hospitals. We are focused intently upon improving our patient outcomes, particularly our patient acute care hospitalization readmission rates. If we should fail to attain our goals regarding acute care hospitalization readmission rates and other quality metrics, we expect our ability to generate referrals would be adversely impacted, which could have a material adverse effect upon our business and consolidated financial condition, results of operations and cash flows.

Additionally, Medicare has established consumer-facing websites, Home Health Compare and Hospice Compare, that present data regarding our performance on certain quality measures compared to state and national averages. If we should fail to achieve or exceed these averages, it may affect our ability to generate referrals, which could have a material adverse effect upon our business and consolidated financial condition, results of operations and cash flows.

Our business depends on our information systems. Our inability to effectively integrate, manage and keep our information systems secure and operational could disrupt our operations.

Our business depends on effective, secure and operational information systems which include systems provided by external contractors and other service providers. Problems with, or the failure of, our technology and systems or any system upgrades or programming changes associated with such technology and systems, including any problems we may experience with the implementation of the new clinical software system, could have a material adverse effect on data capture, medical documentation, billing, collections, assessment of internal controls and management and reporting capabilities. Any such problems or failures and the costs incurred in correcting any such problems or failures, could have a material adverse effect on our business and consolidated financial condition, results of operations and cash flows. Further, to the extent our external information technology contractors or other service providers become insolvent or fail to support the software or systems we have licensed from them, our operations could be materially adversely affected.

Our care centers also depend upon our information systems for accounting, billing, collections, risk management, quality assurance, human resources, payroll and other information. If we experience a reduction in the performance, reliability, or availability of our information systems, our operations and ability to produce timely and accurate reports could be materially adversely affected.

Our information systems and applications require continual maintenance, upgrading and enhancement to meet our operational needs. Our acquisition activity requires transitions and integration of various information systems. We regularly upgrade and expand our information systems' capabilities. If we experience difficulties with the transition and integration of information systems or are unable to implement, maintain, or expand our systems properly, we could suffer from, among other things, operational disruptions, regulatory problems and increases in administrative expenses.

We may be required to expend significant capital and other resources to protect against the threat of security breaches or to alleviate problems caused by breaches, including unauthorized access to patient data and personally identifiable information stored in our information systems, and the introduction of computer viruses or other malicious software programs to our systems. Our security measures may be inadequate to prevent security breaches and our business operations could be materially adversely affected by federal and state fines and penalties, legal claims or proceedings, cancellation of contracts and loss of patients if security breaches are not prevented.

We have installed privacy protection systems and devices on our network and POC tablets in an attempt to prevent unauthorized access to information in our database. However, our technology may fail to adequately secure the confidential health information and personally identifiable information we maintain in our databases. In such circumstances, we may be held liable to our patients and regulators, which could result in fines, litigation or adverse publicity that could have a material adverse effect on our business and consolidated financial condition, results of operations and cash flows. Even if we are not held liable, any resulting negative publicity could harm our business and distract the attention of management.

Further, our information systems are vulnerable to damage or interruption from fire, flood, power loss, telecommunications failure, break-ins and similar events. A failure to restore our information systems after the occurrence of any of these events could have a material adverse effect on our business and consolidated financial condition, results of operations and cash flows. Because of the confidential health information we store and transmit, loss of electronically stored information for any reason could expose us to a risk of regulatory action and litigation and possible liability and loss.

We believe we have all the necessary licenses from third parties to use technology and software that we do not own. A third party could, however, allege that we are infringing its rights, which may deter our ability to obtain licenses on commercially reasonable terms from the third party, if at all, or cause the third party to commence litigation against us. In addition, we may find it necessary to initiate litigation to protect our trade secrets, to enforce our intellectual property rights and to determine the scope and validity of any proprietary rights of others. Any such litigation, or the failure to obtain any necessary licenses or other rights, could materially and adversely affect our business.

Possible changes in the case mix of patients, as well as payor mix and payment methodologies, could have a material adverse effect on our business and consolidated financial condition, results of operations and cash flows.

Our revenue is determined by a number of factors, including our mix of patients and the rates of payment among payors. Changes in the case mix of our patients, payment methodologies or the payor mix among Medicare, Medicaid and private payors could have a material adverse effect on our business and consolidated financial condition, results of operations and cash flows.

Our failure to negotiate favorable managed care contracts, or our loss of existing favorable managed care contracts, could have a material adverse effect on our business and consolidated financial condition, results of operations and cash flows.

One of our strategies is to diversify our payor sources by increasing the business we do with managed care companies, and we strive to put in place favorable contracts with managed care payors. However, we may not be successful in these efforts. Additionally, there is a risk that the favorable managed care contracts that we put in place may be terminated, and managed care contracts typically permit the payor to terminate the contract without cause, on very short notice, typically 60 days, which can provide payors leverage to reduce volume or obtain favorable pricing. Our failure to negotiate and put in place favorable managed care contracts, or our failure to maintain in place favorable managed care contracts, could have a material adverse effect on our business and consolidated financial condition, results of operations and cash flows.

A write off of a significant amount of intangible assets or long-lived assets could have a material adverse effect on our consolidated financial condition and results of operations.

A significant and sustained decline in our stock price and market capitalization, a significant decline in our expected future cash flows, a significant adverse change in the business climate, or slower growth rates could result in the need to perform an impairment analysis under Accounting Standard Codification ("ASC") Topic 350 "Intangibles – Goodwill and Other" in future periods in addition to our annual impairment test. If we were to conclude that a write down of goodwill is necessary, then we would record the appropriate charge, which could result in material charges that are adverse to our consolidated financial condition and results of operations. See Part II, Item 8, Note 4 – Goodwill and Other Intangible Assets, Net to our consolidated financial statements for additional information.

Because we have grown in part through acquisitions, goodwill and other acquired intangible assets represent a substantial portion of our assets. Goodwill was approximately $319.9 million as of December 31, 2017 and if we make additional acquisitions, it is likely that we will record additional intangible assets in our consolidated financial statements. We also have long-lived assets consisting of property and equipment and other identifiable intangible assets of $77.2 million as of December 31, 2017, which we review both on a periodic basis for indefinite lived intangible assets as well as when events or circumstances indicate that the carrying amount of an asset may not be recoverable. If a determination that a significant impairment in value of our unamortized intangible assets or long-lived assets occurs, such determination could require us to write off a substantial portion of our assets. A write off of these assets could have a material adverse effect on our consolidated financial condition and results of operations.

A shortage of qualified registered nursing staff and other clinicians, such as therapists and nurse practitioners, could materially impact our ability to attract, train and retain qualified personnel and could increase operating costs.

We compete for qualified personnel with other healthcare providers. Our ability to attract and retain clinicians depends on several factors, including our ability to provide these personnel with attractive assignments and competitive salaries and benefits. We cannot be assured we will succeed in any of these areas. In addition, there are shortages of qualified health care personnel in some of our markets. As a result, we may face higher costs of attracting clinicians and providing them with attractive benefit packages than we originally anticipated which could have a material adverse effect on our business and consolidated financial condition, results of operations and cash flows. In addition, if we expand our operations into geographic areas where health care providers historically have been unionized, or if any of our care center employees become unionized, being subject to a collective bargaining agreement may have a negative impact on our ability to timely and successfully recruit qualified personnel and may increase our operating costs. Generally, if we are unable to attract and retain clinicians, the quality of our services may decline and we could lose patients and referral sources, which could have a material adverse effect on our business and consolidated financial condition, results of operations and cash flows.

Our insurance liability coverage may not be sufficient for our business needs.

As a result of operating in the home health industry, our business entails an inherent risk of claims, losses and potential lawsuits alleging incidents involving our employees that are likely to occur in a patient's home. We maintain professional liability insurance to provide coverage to us and our subsidiaries against these risks. However, we cannot assure you claims will not be made in the future in excess of the limits of our insurance, nor can we assure you that any such claims, if successful and in excess of such

limits, will not have a material adverse effect on our business and consolidated financial condition, results of operations and cash flows. Our insurance coverage also includes fire, property damage and general liability with varying limits. We cannot assure you that the insurance we maintain will satisfy claims made against us or that insurance coverage will continue to be available to us at commercially reasonable rates, in adequate amounts or on satisfactory terms. Any claims made against us, regardless of their merit or eventual outcome, could damage our reputation and business.

We may be subject to substantial malpractice or other similar claims.

The services we offer involve an inherent risk of professional liability and related substantial damage awards. As of February 23, 2018, we had approximately 17,900 employees (10,900 home health, 3,200 hospice, 3,100 personal care and 700 corporate employees). In addition, we employ direct care workers on a contractual basis to support our existing workforce. Due to the nature of our business, we, through our employees and caregivers who provide services on our behalf, may be the subject of medical malpractice claims. A court could find these individuals should be considered our agents, and, as a result, we could be held liable for their acts or omissions. We cannot predict the effect that any claims of this nature, regardless of their ultimate outcome, could have on our business or reputation or on our ability to attract and retain patients and employees. While we maintain malpractice liability coverage that we believe is appropriate given the nature and breadth of our operations, any claims against us in excess of insurance limits, or multiple claims requiring us to pay deductibles, could have a material adverse effect on our business and consolidated financial condition, results of operations and cash flows.

If we are unable to maintain our corporate reputation, our business may suffer.

Our success depends on our ability to maintain our corporate reputation, including our reputation for providing quality patient care and for compliance with Medicare requirements and the other laws to which we are subject. Adverse publicity surrounding any aspect of our business, including the death or disability of any of our patients due to our failure to provide proper care, or due to any failure on our part to comply with Medicare requirements or other laws to which we are subject, could negatively affect our Company's overall reputation and the willingness of referral sources to refer patients to us.

We depend on the services of our executive officers and other key employees.

We depend greatly on the efforts of our executive officers and other key employees to manage our operations. The loss or departure of any one of these executives or other key employees could have a material adverse effect on our business and consolidated financial condition, results of operations and cash flows.

Our operations could be impacted by natural disasters.

The occurrence of natural disasters in the markets in which we operate could not only impact the day-to-day operations of our care centers, but could also disrupt our relationships with patients, employees and referral sources located in the affected areas and, in the case of our corporate office, our ability to provide administrative support services, including billing and collection services. In addition, any episode of care that is not completed due to the impact of a natural disaster will generally result in lower revenue for the episode. For example, our corporate office and a number of our care centers are located in the southeastern United States and the Gulf Coast Region, increasing our exposure to hurricanes and flooding. Future hurricanes or other natural disasters may have a material adverse effect on our business and consolidated financial condition, results of operations and cash flows.

Risks Related to Liquidity

Delays in payment may cause liquidity problems.

Our business is characterized by delays from the time we provide services to the time we receive payment for these services. If we have difficulty in obtaining documentation, such as physician orders, experience information system problems or experience other issues that arise with Medicare or other payors, we may encounter additional delays in our payment cycle.

In addition, timing delays in billings and collections may cause working capital shortages. Working capital management, including prompt and diligent billing and collection, is an important factor in achieving our financial results and maintaining liquidity. It is possible that documentation support, system problems, Medicare or other provider issues or industry trends may extend our collection period, which may materially adversely affect our working capital, and our working capital management procedures may not successfully mitigate this risk.

In August 2016, CMS began implementing a three year Medicare pre-claim review demonstration for home health services provided to beneficiaries in the state of Illinois. The demonstration was to expand to the states of Florida, Michigan, Massachusetts, and Texas; however, CMS suspended the program indefinitely but can restart the demonstration in the announced states after providing

30 days' notice. If the program were to restart, this process could result in increased administrative costs or delays in reimbursement for home health services in states subject to the demonstration.

Additionally, our hospice operations may experience payment delays. We have experienced payment delays when attempting to collect funds from state Medicaid programs in certain instances. Delays in receiving payments from these programs may also materially adversely affect our working capital.

The volatility and disruption of the capital and credit markets and adverse changes in the United States and global economies could impact our ability to access both available and affordable financing, and without such financing, we may be unable to achieve our objectives for strategic acquisitions and internal growth.

While we intend to finance strategic acquisitions and internal growth with cash flows from operations and borrowings under our revolving credit facility, we may require sources of capital in addition to those presently available to us. Uncertainty in the capital and credit markets may impact our ability to access capital on terms acceptable to us (i.e. at attractive/affordable rates) or at all, and this may result in our inability to achieve present objectives for strategic acquisitions and internal growth. Further, in the event we need additional funds, and we are unable to raise the necessary funds on acceptable terms, our business and consolidated financial condition, results of operations and cash flows could be materially adversely affected.

Our indebtedness could impact our financial condition and impair our ability to fulfill other obligations.

As of December 31, 2017, we had total outstanding indebtedness of approximately $90.7 million, comprised mainly of indebtedness incurred in connection with our April 23, 2014 settlement agreement with the U.S. Department of Justice relating to certain of our clinical and business operations. Our level of indebtedness could have a material adverse effect on our business and consolidated financial position, results of operations and cash flows and impair our ability to fulfill other obligations in several ways, including:

- it could require us to dedicate a portion of our cash flow from operations to payments on our indebtedness, which could reduce the availability of cash flow to fund acquisitions, start-ups, working capital, capital expenditures and other general corporate purposes;
- it could limit our ability to borrow money or sell stock for working capital, capital expenditures, debt service requirements and other purposes;
- it could limit our flexibility in planning for, and reacting to, changes in our industry or business;
- it could make us more vulnerable to unfavorable economic or business conditions; and
- it could limit our ability to make acquisitions or take advantage of other business opportunities.

In the event we incur additional indebtedness, the risks described above could increase.

The agreements governing our indebtedness contain various covenants that limit our discretion in the operation of our business and our failure to satisfy requirements in these agreements could have a material adverse effect on our business and consolidated financial condition, results of operations and cash flows.

The agreements governing our indebtedness (the "Debt Agreements") contain certain obligations, including restrictive covenants that require us to comply with or maintain certain financial covenants and ratios and restrict our ability to:

- incur additional debt;
- redeem or repurchase stock, pay dividends or make other distributions;
- make certain investments;
- create liens;
- enter into transactions with affiliates;
- make acquisitions;
- enter into joint ventures;
- merge or consolidate;
- invest in foreign subsidiaries;
- amend acquisition documents;

- enter into certain swap agreements;
- make certain restricted payments;
- transfer, sell or leaseback assets; and
- make fundamental changes in our corporate existence and principal business.

In addition, events beyond our control could affect our ability to comply with the Debt Agreements. Any failure by us to comply with or maintain all applicable financial covenants and ratios and to comply with all other applicable covenants could result in an event of default with respect to the Debt Agreements. If we are unable to obtain a waiver from our lenders in the event of any non-compliance, our lenders could accelerate the maturity of any outstanding indebtedness and terminate the commitments to make further extensions of credit (including our ability to borrow under our revolving credit facility). Any failure to comply with these covenants could have a material adverse effect on our business and consolidated financial condition, results of operations and cash flows.

Risks Related to Ownership of Our Common Stock

The price of our common stock may be volatile.

The price at which our common stock trades may be volatile. The stock market from time to time experiences significant price and volume fluctuations that impact the market prices of securities, particularly those of health care companies. The market price of our common stock may be influenced by many factors, including:

- our operating and financial performance;
- variances in our quarterly financial results compared to research analyst expectations;
- the depth and liquidity of the market for our common stock;
- future purchases or sales of common stock by the Company or large stockholders or the perception that such purchases or sales could occur;
- investor, analyst and media perception of our business and our prospects;
- developments relating to litigation or governmental investigations;
- changes or proposed changes in health care laws or regulations or enforcement of these laws and regulations, or announcements relating to these matters;
- departure of key personnel;
- changes in the Medicare, Medicaid and private insurance payment rates for home health and hospice;
- announcements by us or our competitors of significant contracts, acquisitions, strategic partnerships, joint ventures or capital commitments; or
- general economic and stock market conditions.

In addition, the stock market in general, and the NASDAQ Global Select Market ("NASDAQ") in particular, has experienced price and volume fluctuations that we believe have often been unrelated or disproportionate to the operating performance of health care provider companies. These broad market and industry factors may materially reduce the market price of our common stock, regardless of our operating performance. Securities class-action cases have often been brought against companies following periods of volatility in the market price of their securities.

The activities of short sellers could reduce the price or prevent increases in the price of our common stock. "Short sale" is defined as the sale of stock by an investor that the investor does not own. Typically, investors who sell short believe the price of the stock will fall, and anticipate selling shares at a higher price than the purchase price at which they will buy the stock. As of December 31, 2017, investors held a short position of approximately 3.3 million shares of our common stock which represented 9.9% of our outstanding common stock. The anticipated downward pressure on our stock price due to actual or anticipated sales of our stock by some institutions or individuals who engage in short sales of our common stock could cause our stock price to decline.

Sales of substantial amounts of our common stock or the availability of those shares for future sale, could materially impact our stock price and limit our ability to raise capital.

The following table presents information about our outstanding common and preferred stock and our outstanding securities exercisable for or convertible into shares of common stock:

	As of December 31, 2017
Common stock outstanding	33,964,767
Preferred stock outstanding	—
Common stock available under 2008 Omnibus Incentive Compensation Plan	1,248,149
Stock options outstanding	909,730
Stock options exercisable	381,932
Non-vested stock outstanding	46,998
Non-vested stock units outstanding	487,790

If we were to sell substantial amounts of our common stock in the public market or if there was a public perception that substantial sales could occur, the market price of our common stock could decline. These sales or the perception of substantial future sales may also make it difficult for us to sell common stock in the future to raise capital.

Our Board of Directors may use anti-takeover provisions or issue stock to discourage a change of control.

Our certificate of incorporation currently authorizes us to issue up to 60,000,000 shares of common stock and 5,000,000 shares of undesignated preferred stock. Our Board of Directors may cause us to issue additional stock to discourage an attempt to obtain control of our company. For example, shares of stock could be sold to purchasers who might support our Board of Directors in a control contest or to dilute the voting or other rights of a person seeking to obtain control. In addition, our Board of Directors could cause us to issue preferred stock entitling holders to vote separately on any proposed transaction, convert preferred stock into common stock, demand redemption at a specified price in connection with a change in control, or exercise other rights designed to impede a takeover.

The issuance of additional shares may, among other things, dilute the earnings and equity per share of our common stock and the voting rights of common stockholders.

We have implemented other anti-takeover provisions or provisions that could have an anti-takeover effect, including advance notice requirements for director nominations and stockholder proposals, no cumulative voting for directors, director vacancies are filled by remaining directors (including vacancies resulting from removal), and the number of directors is fixed by the Board of Directors, and the Board of Directors can increase or decrease the size of the Board of Directors without stockholder approval (within the range set forth in our Certificate of Incorporation and Bylaws). These provisions, and others that our Board of Directors may adopt hereafter, may discourage offers to acquire us and may permit our Board of Directors to choose not to entertain offers to purchase us, even if such offers include a substantial premium to the market price of our stock. Therefore, our stockholders may be deprived of opportunities to profit from a sale of control.

ITEM 1B. UNRESOLVED STAFF COMMENTS

None.

ITEM 2. PROPERTIES

Our executive office is located in Nashville, Tennessee in a leased property consisting of 15,825 square feet; our corporate headquarters is located in Baton Rouge, Louisiana in a leased property consisting of 75,243 square feet. We believe we have adequate space to accommodate our corporate staff located in these locations for the foreseeable future.

In addition to our executive office and corporate headquarters, we also lease facilities for our home health, hospice and personal-care care centers. Generally, these leases have an initial term of five years with a three year early termination option, but range from one to seven years. Most of these leases also contain an option to extend the lease period. The following table shows the location of our 323 Medicare-certified home health care centers, 83 Medicare-certified hospice care centers and 15 personal-care care centers at December 31, 2017:

State	Home Health	Hospice	Personal Care	State	Home Health	Hospice	Personal Care
Alabama	30	7	—	New Jersey	2	1	—
Arkansas	5	—	—	New York	5	—	—
Arizona	3	1	—	New Hampshire	3	3	—

ITEM 3. LEGAL PROCEEDINGS

See Part II, Item 8, Note 9 – Commitments and Contingencies for information concerning our legal proceedings.

ITEM 4. MINE SAFETY DISCLOSURES

Not applicable.

PART II

ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES

Market Information and Holders

Our common stock trades on the NASDAQ Global Select Market under the trading symbol "AMED". The following table presents the range of high and low sales prices for our common stock for the periods indicated as reported on NASDAQ:

	Price Range of Common Stock	
	High	Low
Year Ended December 31, 2017		
First Quarter	$ 54.27	$ 42.05
Second Quarter	65.91	50.42
Third Quarter	63.13	45.67
Fourth Quarter	61.78	45.60
Year Ended December 31, 2016		
First Quarter	$ 48.48	$ 31.16
Second Quarter	54.42	46.12
Third Quarter	55.16	45.48
Fourth Quarter	48.13	34.58

As of February 23, 2018, there were approximately 522 holders of record of our common stock.

Dividend Policy

We have not declared or paid any cash dividends on our common stock or any other of our securities and do not expect to pay cash dividends for the foreseeable future. We currently intend to retain our future earnings, if any, to fund the development and growth of our business. Future decisions concerning the payment of dividends will depend upon our results of operations, financial condition, capital expenditure plans and debt service requirements, as well as such other factors as our Board of Directors, in its sole discretion, may consider relevant. In addition, our outstanding indebtedness restricts, and we anticipate any additional future indebtedness may restrict, our ability to pay cash dividends; provided, however, that we may pay (i) dividends payable solely in our equity securities and (ii) dividends if (1) no default or event of default under the Credit Agreement shall have occurred and be continuing at the time of such dividend or would result therefrom, (2) we demonstrate that, upon giving pro forma effect to such dividend, our consolidated leverage ratio (as defined in the Credit Agreement) is less than 2.00 to 1.0 and (3) we demonstrate a minimum liquidity of $50 million upon giving effect to such dividend.

Purchases of Equity Securities

The following table provides the information with respect to purchases made by us of shares of our common stock during each of the months during the three-month period ended December 31, 2017:

Period	(a) Total Number of Shares (or Units) Purchased	(b) Average Price Paid per Share (or Unit)	(c) Total Number of Shares (or Units) Purchased as Part of Publicly Announced Plans or Programs	(d) Maximum Number (or Approximate Dollar Value) of Shares (or Units) That May Yet Be Purchased Under the Plans or Programs
October 1, 2017 to October 31, 2017	991	$ 50.27	—	$ —
November 1, 2017 to November 30, 2017	—	—	—	—
December 1, 2017 to December 31, 2017	7,866	55.31	—	—
	8,857 (1)	$ 54.75	—	$ —

(1) Includes shares of common stock surrendered to us by certain employees to satisfy tax withholding obligations in connection with the vesting of stock previously awarded to such employees under our 2008 Omnibus Incentive Compensation Plan.

Stock Performance Graph

The Performance Graph below compares the cumulative total stockholder return on our common stock, $0.001 par value per share, for the five-year period ended December 31, 2017, with the cumulative total return on the NASDAQ composite index and an industry peer group over the same period (assuming the investment of $100 in our common stock, the NASDAQ composite index and the industry peer group) on December 31, 2012 and the reinvestment of dividends. The peer group we selected is comprised of: LHC Group, Inc. ("LHCG") and Almost Family, Inc. ("AFAM"). The cumulative total stockholder return on the following graph is historical and is not necessarily indicative of future stock price performance. No cash dividends have been paid on our common stock.

	12/31/2012	12/31/2013	12/31/2014	12/31/2015	12/31/2016	12/31/2017
Amedisys, Inc.	$ 100.00	$ 129.39	$ 259.58	$ 347.76	$ 377.03	$ 466.18
NASDAQ Composite	$ 100.00	$ 141.63	$ 162.09	$ 173.33	$ 187.19	$ 242.29
Peer Group	$ 100.00	$ 128.93	$ 145.45	$ 204.88	$ 216.08	$ 283.07

This stock performance information is "furnished" and shall not be deemed to be "soliciting material" or subject to Regulation 14A under the Securities Exchange Act of 1934 (the "Exchange Act"), shall not be deemed "filed" for purposes of Section 18 of the Exchange Act or otherwise subject to the liabilities of that section, and shall not be deemed incorporated by reference in any filing under the Securities Act of 1933, as amended, or the Exchange Act, whether made before or after the date of this report and irrespective of any general incorporation by reference language in any such filing, except to the extent we specifically incorporate the information by reference.

ITEM 6. SELECTED FINANCIAL DATA

The selected consolidated financial data presented below is derived from our audited consolidated financial statements for the five-year period ended December 31, 2017, based on our continuing operations. The financial data for the years ended December 31, 2017, 2016 and 2015 should be read together with our consolidated financial statements and related notes included in Item 8, "Financial Statements and Supplementary Data" and the information included in Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations" herein.

	2017 (1)	2016 (2)	2015 (3)	2014 (4)	2013 (5)
	(Amounts in thousands, except per share data)				
Income Statement Data:					
Net service revenue	$ 1,533,680	$ 1,437,454	$ 1,280,541	$ 1,204,554	$ 1,249,344
Operating income (loss) from continuing operations	78,524	57,340	(9,166)	$ 24,047	$ (154,971)
Net income (loss) from continuing operations attributable to Amedisys, Inc.	$ 30,301	$ 37,261	$ (3,021)	$ 12,992	$ (93,105)
Net income (loss) from continuing operations attributable to Amedisys, Inc. per basic share	$ 0.90	$ 1.12	$ (0.09)	$ 0.40	$ (2.98)
Net income (loss) from continuing operations attributable to Amedisys, Inc. per diluted share	$ 0.88	$ 1.10	$ (0.09)	$ 0.40	$ (2.98)

(1) During 2017, we recorded charges related to the Securities Class Action Lawsuit settlement, net in the amount of $29.8 million ($18.1 million, net of tax). Additionally, we recorded a charge in the amount of $21.4 million as the result of H.R. 1 (Tax Cuts and Jobs Act) enacted on December 22, 2017.

(2) During 2016, we recorded charges related to Homecare Homebase ("HCHB") implementation costs in the amount of $8.4 million ($5.1 million, net of tax) and recognized a non-cash charge to write off assets as a result of our conversion to the HCHB platform in the amount of $4.4 million ($2.7 million, net of tax).

(3) During 2015, we recorded non-cash charges to write off the software costs incurred related to the development of AMS3 Home Health and Hospice in the amount of $75.2 million ($45.5 million, net of tax) and to reduce the carrying value of our corporate headquarters in the amount of $2.1 million ($1.2 million, net of tax).

(4) During 2014, we recorded charges for relators' fees and exit and restructuring activity in the amount of $13.9 million ($8.5 million, net of tax) and recognized non-cash other intangibles impairment charges of $3.1 million ($2.0 million, net of tax).

(5) During 2013, we recorded a charge for the accrual for the U.S. Department of Justice settlement, which amounted to $150.0 million ($93.9 million, net of tax) and recognized non-cash goodwill and other intangibles impairment charges of $9.5 million ($5.8 million, net of tax).

Total Amedisys, Inc. stockholders' equity	515,321	460,203	$ 409,568	$ 397,167	$ 372,201
Cash dividends declared per common share	$ —	$ —	$ —	$ —	$ —

(1) Total assets and Total debt, including current portion have been recast to present our retrospective adoption of Accounting Standards Update 2015-03, *Interest – Imputation of Interest (Subtopic 835-30): Simplifying the Presentation of Debt Issuance Costs.*

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion and analysis provides information we believe is relevant to an assessment and understanding of our results of operations and financial condition for 2017, 2016 and 2015. This discussion should be read in conjunction with our audited financial statements included in Item 8, "Financial Statements and Supplementary Data" and Part I, Item 1, "Business" of this Annual Report on Form 10-K. The following analysis contains forward-looking statements about our future revenues,

operating results and expectations. See "Special Caution Concerning Forward-Looking Statements" for a discussion of the risks, assumptions and uncertainties affecting these statements as well as Part I, Item 1A, "Risk Factors."

Overview

We are a provider of high-quality in-home healthcare and related services to the chronic, co-morbid, aging American population, with approximately 75%, 78% and 80% of our revenue derived from Medicare for 2017, 2016 and 2015 respectively.

Our operations involve servicing patients through our three reportable business segments: home health, hospice and personal care. Our home health segment delivers a wide range of services in the homes of individuals who may be recovering from an illness, injury or surgery. Our hospice segment provides care that is designed to provide comfort and support for those who are facing a terminal illness. Our personal care segment provides patients assistance with the essential activities of daily living. As of December 31, 2017, we owned and operated 323 Medicare-certified home health care centers, 83 Medicare-certified hospice care centers and 15 personal-care care centers, including unconsolidated joint ventures, in 34 states within the United States and the District of Columbia.

Care Centers Summary

	Home Health	Hospice	Personal Care
At December 31, 2014	316	80	—
Acquisitions	15	1	—
Closed/Consolidated/Sold	(2)	(2)	—
At December 31, 2015	329	79	—
Acquisitions/Start-Ups	1	—	14
Closed/Consolidated	(3)	—	—
At December 31, 2016	327	79	14
Acquisitions/Start-Ups	3	2	7
Closed/Consolidated	(10)	—	(6)
At December 31, 2017	320	81	15
Unconsolidated Joint Ventures	3	2	—
Total Including Unconsolidated Joint Ventures at December 31, 2017	323	83	15

When we refer to "same store business," we mean home health, hospice and personal-care care centers that we have operated for at least the last twelve months; when we refer to "acquisitions," we mean home health, hospice and personal-care care centers that we acquired within the last twelve months; and when we refer to "start-ups," we mean home health, hospice and personal-care care centers opened by us in the last twelve months. Once a care center has been in operation for a twelve month period, the results for that particular care center are included as part of our same store business from that date forward. Non-Medicare revenue, admissions, recertifications or completed episodes includes home health revenue, admissions, recertifications or completed episodes of care for those payors that pay on an episodic or per visit basis, which includes Medicare Advantage programs and private payors.

2017 Developments

- Acquired the assets of Home Staff, L.L.C and Intercity Home Care, solidifying our position as the largest personal care provider in Massachusetts.
- Made significant strides in delivering on our goal of clinical distinction with 88% of our care centers at 4+ Stars in the January 2018 Home Health Compare ("HHC") release.
- Increased total revenue 7% and operating income 37%.
- Realized planned reductions in operating expenses post-completion of our Homecare Homebase ("HCHB") rollout.
- Exceeded 7,000 in hospice average daily census.
- Lowered our business development staff vacancy rate to 1%.
- Lowered company voluntary turnover rate to 22%.
- Completed home health division restructure plan which is expected to generate between $7 million and $9 million in annualized savings.

2018 Strategy

- Continue to build on our industry-leading hospice platform by exploring various growth opportunities including small and large acquisitions and denovos.
- Continue to focus on organic growth and inorganic expansion in all three segments.
- Continue our commitment to clinical distinction with a goal of all care centers achieving a 4.0 Quality Star Rating.
- Focus on recruitment and retention of world class employees while fostering a culture of engagement to become the employer of choice in the industry.
- Improve productivity through increased proficiency in HCHB, productivity staffing tools and standardized scheduling processes.
- Optimize portfolio by focusing on margin improvement in underperforming care centers.

Financial Performance

Results for the year ended December 31, 2017 were the culmination of our focused efforts on operational improvements that began during 2014.

Our home health care centers experienced same store episodic volume growth in 2017. The home health segment saw an increase in non-Medicare revenue which combined with cost controls were able to partially mitigate the impact of the 2017 CMS rate cut (see "Results of Operations").

Our hospice segment achieved significant growth in admissions and average daily census combined with strong cost controls in 2017, all of which helped deliver a $27 million improvement in our operating income over the year ended December 31, 2016 (see "Results of Operations").

Our personal care segment completed two acquisitions in 2017. These acquisitions contributed approximately $1 million in personal care operating income as a result of associated integration costs.

Economic and Industry Factors

Home health, hospice and personal care services are a highly fragmented and highly competitive industry. The degree of competitiveness varies based upon whether our care centers operate in states that require a certificate of need (CON) or permit of approval (POA). In such states, expansion by existing providers or entry into the market by new providers is permitted only where determination is made by state health authorities that a given amount of unmet healthcare need exists. Currently, 68% and 39% of our home health and hospice care centers, respectively operate in CON/POA states.

As the Federal government continues to debate a reduction in expenditures and a reform of the Medicare system, our industry continues to face reimbursement pressures. These reform efforts could result in major changes in the health care delivery and reimbursement system on a national and state level, including changes directly impacting the reimbursement systems for our home health and hospice care centers.

In the Calendar Year 2018 Home Health Proposed Rule, released in July 2017, CMS proposed changes to the Home Health Prospective Payment System ("HHPPS"), known as the Home Health Groupings Model ("HHGM"). Among a number of major differences from the current payment system, the HHGM would have distinguished between referrals from institutions and those from the community, with community referrals receiving lower payments. In addition, a 60-day episode would consist of two 30-day periods, each paid separately, with the initial 30-day period paid higher than any other period. However, HHGM was not included in the final rule released in November 2017.

On February 9, 2018, Congress passed the Bipartisan Budget Act of 2018 ("BBA of 2018"), which funded government operations, set two-year government spending limits and enacted a variety of healthcare related policies. Specific to home health, the BBA of 2018 provides for a targeted extension of the home health rural add-on payment, a reduction of the 2020 market basket update, modification of eligibility documentation requirements and reform to the HHPPS. The HHPPS reform includes the following parameters:

- For home health units of service beginning on January 1, 2020, a 30-day payment system will apply.
- The transition to the 30-day payment system must be budget neutral.
- CMS must conduct at least one Technical Expert Panel during 2018, prior to any notice and comment rulemaking process, related to the design of any new case-mix adjustment model.

The following payment adjustments are effective for each of the years indicated based on CMS's final rules relative to Medicare reimbursement and the passage of the BBA of 2018:

	Home Health			Hospice		
	2018 (1)	2017	2016	2018 (2)	2017	2016
Market Basket Update	1.0 %	2.8 %	2.3 %	1.0%	2.7%	2.4%
Rebasing	—	(2.3)	(2.4)	—	—	—
50/50 Blend of Wage Index	—	—	—	—	—	0.2
Nominal Case Mix Adjustment	(0.9)	(0.9)	(0.9)	—	—	—
PPACA Adjustment	—	—	—	—	(0.3)	(0.3)
Budget Neutrality Adjustment Factor	—	—	—	—	—	(0.7)
Productivity Adjustment	—	(0.3)	(0.4)	—	(0.3)	(0.5)
Estimated Industry Impact	0.1 %	(0.7)%	(1.4)%	1.0%	2.1%	1.1%
Estimated Company-Specific Impact (3)	(0.7)%	(2.0)%	(1.7)%	1.0%	2.0%	—%

(1) Effective for episodes scheduled to be completed on or after January 1, 2018.
(2) Effective for services provided from October 1, 2017 to September 30, 2018.
(3) Our company-specific impact of the final rules differs depending on differences in the wage index and the impact of coding and outlier changes.

As part of the 2016 final rule issued in October 2015, CMS finalized their proposal to implement a Home Health Value-Based Purchasing ("HHVBP") model in nine states that seeks to test whether incentives for better care can improve outcomes in the delivery of home health services. Financial impacts from this change, either positive or negative, would begin January 1, 2018, applied to that calendar year based on 2016 performance data and for future years as detailed below.

Performance Year	Year Reward/ Penalty Imposed	Maximum Reward/ Penalty
2016	2018	3%
2017	2019	5%
2018	2020	6%
2019	2021	7%
2020	2022	8%

Care centers operating in the states included in the proposed model account for approximately 30% of our 2017 home health Medicare revenue. Based on our performance to date, we anticipate that we will receive approximately $1 million in 2018 related to HHVBP.

Governmental Inquiries and Investigations and Other Litigation

Corporate Integrity Agreement

In connection with a settlement agreement with the U.S. Department of Justice, on April 23, 2014, we entered into a corporate integrity agreement ("CIA") with the Office of Inspector General-HHS ("OIG"). The CIA formalizes various aspects of our already existing ethics and compliance programs and contains other requirements designed to help ensure our ongoing compliance with federal health care program requirements. Among other things, the CIA requires us to maintain our existing compliance program, executive compliance committee and compliance committee of the Board of Directors; provide certain compliance training; continue screening new and current employees to ensure they are eligible to participate in federal health care programs; engage an independent review organization to perform certain auditing and reviews and prepare certain reports regarding our compliance with federal health care programs, our billing submissions to federal health care programs and our compliance and risk mitigation programs; and provide certain reports and management certifications to the OIG. Additionally, the CIA specifically requires that we report substantial overpayments that we discover we have received from federal health care programs, as well as probable violations of federal health care laws. Upon breach of the CIA, we could become liable for payment of certain stipulated penalties, or could be excluded from participation in federal health care programs. The CIA has a term of five years. We expect the CIA to impact operating expenses by approximately $1 million to $2 million annually.

Subpoena Duces Tecum Issued by the U.S. Department of Justice

On May 21, 2015, we received a Subpoena Duces Tecum ("Subpoena") issued by the U.S. Department of Justice. The Subpoena requests the delivery of information regarding 53 identified hospice patients to the United States Attorney's Office for the District of Massachusetts. It also requests the delivery of documents relating to our hospice clinical and business operations and related compliance activities.

Civil Investigative Demands Issued by the U.S. Department of Justice

On November 3, 2015, we received a civil investigative demand ("CID") issued by the U.S. Department of Justice pursuant to the federal False Claims Act relating to claims submitted to Medicare and/or Medicaid for hospice services provided through designated facilities in the Morgantown, West Virginia area.

On June 27, 2016, we received a CID issued by the U.S. Department of Justice pursuant to the federal False Claims Act relating to claims submitted to Medicare and/or Medicaid for hospice services provided through designated facilities in the Parkersburg, West Virginia area.

Florida Zone Program Integrity Contractor Audit

During the three-month period ended September 30, 2017, we received a request for medical records from SafeGuard Services, L.L.C. ("SafeGuard"), a Zone Program Integrity Contractor ("ZPIC") related to services provided by some of the care centers that the Company acquired from Infinity Home Care, L.L.C. The review period covers time periods both before and after our ownership of the care centers which were acquired on December 31, 2015. Subsequent to the request for medical records, we received Requests for Repayment from Palmetto GBA, L.L.C. ("Palmetto") regarding two of these care centers. As a result we recorded a reduction in revenue in our consolidated statement of operations of approximately $7 million during the three-month period ended September 30, 2017.

See Item 8, Note 9 – Commitments and Contingencies to our consolidated financial statements for additional information regarding our CIA, the Subpoena issued by the U.S. Department of Justice, the CIDs issued by the U.S. Department of Justice and the Florida ZPIC audit. No assurances can be given as to the timing or outcome of these items.

Results of Operations

Consolidated

The following table summarizes our consolidated results of operations (amounts in millions):

	For the Years Ended December 31,		
	2017	2016	2015
Net service revenue	$ 1,533.7	$ 1,437.4	$ 1,280.5
Gross margin, excluding depreciation and amortization	633.0	604.4	554.6
% of revenue	*41.3%*	*42.0%*	*43.3%*
Other operating expenses	499.4	523.2	472.4
% of revenue	*32.6%*	*36.4%*	*36.9%*
Provision for doubtful accounts	25.1	19.5	14.1
Securities Class Action Lawsuit settlement, net	28.7	—	—
Asset impairment charge	1.3	4.4	77.3
Operating income (loss)	78.5	57.3	(9.2)
Total other income, net	2.3	4.2	8.9
Income tax expense	(50.1)	(23.9)	(2.0)
Effective income tax rate	*62.0%*	*38.9%*	*650.6%*
Net income (loss)	30.7	37.6	(2.3)
Net income attributable to noncontrolling interests	(0.4)	(0.4)	(0.7)
Net income (loss) attributable to Amedisys, Inc.	$ 30.3	$ 37.3	$ (3.0)

Year Ended December 31, 2017 Compared to the Year Ended December 31, 2016

Overall, our operating income increased $21 million on a revenue increase of $96 million. Our decline in gross margin as a percentage of revenue was the result of the 2017 and 2018 changes to home health and hospice reimbursement which reduced revenue and gross margin by approximately $14 million, net. Our 2017 results are inclusive of a $30 million charge for the Securities Class Action Lawsuit settlement and related legal fees, a $7 million reduction in revenue as a result of the Florida ZPIC audit and charges of approximately $3 million related to our home health closures and restructuring plan. Our 37% increase in operating income despite the cumulative impact of $40 million from the items noted above was driven by the continued growth of our hospice division and continued reductions in operating expenses across the organization.

Our 2017 operating results include the results of our acquisition of three home health and two hospice care centers on May 1, 2017 and our personal care acquisitions of Home Staff, L.L.C and Intercity Home Care. These three acquisitions accounted for approximately $22 million of our $96 million increase in revenue and $5 million of our $525 million in other operating expenses.

Total other income, net includes the impact of the following items (amounts in millions):

	For the Years Ended December 31,	
	2017	2016
Legal settlements	$ 2.0	$ 2.3
Equity in earnings from equity method investment	0.8	3.5
Interest expense related to tax audit reserve	—	(0.6)
Interest expense related to Florida ZPIC audit	(0.3)	—
Interest expense related to long-term obligations	(4.7)	(4.5)
	$ (2.2)	$ 0.7

Excluding these items, total other income, net increased $1 million in 2017 from 2016.

Our 2017 income tax expense includes a $21 million charge related to the remeasurement of our deferred tax assets and liabilities to the enacted corporate income tax rate of 21% as required by the enactment of H.R. 1 (Tax Cuts and Jobs Act), on December 22, 2017 (see Item 8, Note 7 - Income Taxes to our consolidated financial statements).

Year Ended December 31, 2016 Compared to the Year Ended December 31, 2015

Our 2016 operating results include the results of Infinity HomeCare ("Infinity"), Associated Home Care and Professional Profiles beginning on the date of their acquisition. These three acquisitions accounted for $85 million of our $157 million increase in revenue and $35 million of our $56 million increase in other operating expenses. Our operating results were also impacted by an increase of approximately $21 million in costs associated with our move to HCHB. Approximately $8 million relates to implementation services provided by a third party while $4 million is the result of a non-cash charge to write off assets (primarily laptops) not compatible with our new platform. The remaining $9 million is related to disruption in care center operations as well as additional corporate resources to support multiple systems. In addition to the $21 million related to HCHB, we experienced an increase of $5 million in bad debt and contractual reserves due to increased write-offs and accounts receivable aging due to the HCHB disruption. While we anticipated these costs to continue as we completed the roll-out, our care centers generally returned to normal operating results approximately 60 to 90 days after implementation; we completed the HCHB roll-out during the three-month period ended December 31, 2016. Additionally, our results were impacted by approximately $12 million as a result of the 2016 CMS rate cut.

Total other income, net includes the impact of the following items (amounts in millions):

	For the Years Ended December 31,	
	2016	2015
Legal settlements	$ 2.3	$ 7.4
Equity in earnings from equity method investment	3.5	6.7
Interest expense related to tax audit reserve	(0.6)	—
Life insurance proceeds	—	1.0
Debt refinance costs	—	(3.2)
Interest expense related to long-term obligations	(4.5)	(7.6)
Gain (loss) on disposal of property and equipment or sale of care centers	—	0.2
	$ 0.7	$ 4.5

Excluding these items, total other income, net decreased $1 million in 2016 from 2015.

Home Health Division

The following table summarizes our home health segment results of operations:

	For the Years Ended December 31,		
	2017	2016	2015
Financial Information *(in millions)*:			
Medicare	$ 793.3	$ 822.4	$ 761.4
Non-Medicare	308.5	263.1	243.7

(1) Same store information represents the percent increase (decrease) in our Medicare and Non-Medicare revenue, admissions or volume for the period as a percent of the Medicare and Non-Medicare revenue, admissions or volume of the prior period.
(2) Total includes acquisitions.
(3) Average Medicare revenue per completed episode is the average Medicare revenue earned for each Medicare completed episode of care.
(4) Medicare visits per completed episode are the home health Medicare visits on completed episodes divided by the home health Medicare episodes completed during the period.

Year Ended December 31, 2017 Compared to the Year Ended December 31, 2016

Overall, our operating income decreased $9 million on a $16 million increase in revenue. Our decrease in gross margin as a percentage of revenue was the result of the 2017 and 2018 changes in reimbursement which reduced revenue and gross margin by $17 million. Additionally, our results include a $7 million reduction in revenue and gross margin related to a reserve recorded

as the result of a ZPIC audit in four care centers in Florida. Growth in episodic volumes and reductions in operating expenses helped to mitigate the impacts of the items noted above.

Net Service Revenue

Our Medicare revenue decreased approximately $29 million which includes a $7 million reduction in revenue related to the Florida ZPIC audit. Our total Medicare volumes (admissions plus recertifications) decreased by approximately 1,000 from 2016, and our revenue per episode decreased by 60 basis points which resulted in a reduction in revenue of approximately $5 million. Additionally, our provision for revenue adjustments increased approximately $7 million primarily related to the aging of Medicare receivables for our Florida care centers included in the ZPIC audit and the related billing hold. The decrease in revenue per episode is the result of the combined impact of the 2017 and 2018 CMS rate cuts on our episodes in progress which reduced our revenue by approximately $17 million; this reduction was offset by a $12 million increase related to the acuity level of our patients.

Our non-Medicare revenue increased approximately $45 million. Admissions from episodic payors increased 27% while our per visit payors increased 2%. We continue to focus on contract payors with significant concentrations in our markets and those that add incremental margin to our operations as we continue to evaluate our portfolio of managed care contracts.

Cost of Service, Excluding Depreciation and Amortization

Our cost of service consists of costs associated with direct clinician care in the homes of our patients as well as the cost of clinical managers who monitor the overall delivery of care. Our cost of service increased 4% on a 3% increase in total visits. Our cost per visit increased 1% as the result of annual wage increases and increases in health insurance costs. These increases were partially mitigated by improvements in clinician productivity.

Other Operating Expenses

Other operating expenses decreased $8 million despite incurring approximately $4 million in costs related to our home health restructuring plan. These charges were offset by decreases in other care center related expenses, primarily salaries and benefits as the result of planned decreases post our HCHB rollout. Other operating expenses include approximately $3 million related to acquisitions during 2017.

Our provision for doubtful accounts increased $4 million on a $45 million increase in revenue.

Year Ended December 31, 2016 Compared to the Year Ended December 31, 2015

Overall, our operating income decreased $2 million on a $21 million increase in gross margin offset by a $23 million increase in other operating expenses. These results are inclusive of Infinity which accounted for $49 million of our total revenue increase and $18 million of other operating expenses. Our results were negatively impacted by approximately $12 million related to the CMS rate cut which became effective January 1, 2016 and approximately $6 million as the result of disruptions associated with the roll-out of HCHB.

Net Service Revenue

Our Medicare revenue increased $61 million which is inclusive of $48 million from acquired care centers. The increase in same store revenue is due to higher admission volumes. Our revenue per episode was relatively flat despite the impact of the CMS rate cut in 2016; the increase was due to an increase in patient acuity.

Our non-Medicare revenue increased approximately $19 million, with revenues from episodic payors increasing 16% while our revenue from per visit payors grew 5%.

Cost of Service, Excluding Depreciation and Amortization

Our cost of service increased $59 million primarily as a result of a 6% increase in visits and a 4% increase in cost per visit. The increase in cost per visit is primarily due to higher health insurance expense, planned wage increases and additional costs related to our HCHB roll-out.

Other Operating Expenses

Other operating expenses increased $21 million due to increases in other care center related expenses, primarily salaries and benefits, travel and training expense and HCHB maintenance and hosting fees. Other operating expense related to care centers acquired from Infinity was approximately $18 million. We completed the consolidation of our legacy Florida operations with Infinity and the conversion of Infinity to our back office platform during 2016.

Our provision for doubtful accounts increased $2 million on a $19 million increase in revenue.

Hospice Division

The following table summarizes our hospice segment results of operations:

	For the Years Ended December 31,		
	2017	2016	2015
Financial Information *(in millions)*:			
Medicare	$ 350.7	$ 297.7	$ 258.5
Non-Medicare	20.3	18.3	16.9
Net service revenue	371.0	316.0	275.4
Cost of service	184.8	163.1	141.7
Gross margin	186.2	152.9	133.7
Provision for doubtful accounts	5.9	5.5	1.9
Other operating expenses	77.5	71.5	64.1
Operating income	$ 102.8	$ 75.9	$ 67.7
Same Store Growth (1):			
Medicare revenue	17%	15%	13%
Non-Medicare revenue	10%	9%	18%
Hospice admissions	11%	17%	16%
Average daily census	15%	16%	12%
Key Statistical Data - Total (2):			
Hospice admissions	25,381	22,526	19,205
Average daily census	6,820	5,912	5,105
Revenue per day, net	$ 149.04	$ 146.05	$ 147.78
Cost of service per day	$ 74.25	$ 75.36	$ 76.06
Average discharge length of stay	93	96	92

(1) Same store information represents the percent increase (decrease) in our Medicare and Non-Medicare revenue, Hospice admissions or average daily census for the period as a percent of the Medicare and Non-Medicare revenue, Hospice admissions or average daily census of the prior period.
(2) Total includes acquisitions.

Year Ended December 31, 2017 Compared to the Year Ended December 31, 2016

Overall, our operating income increased $27 million on a $33 million increase in gross margin offset by a $6 million increase in other operating expenses. Our significant growth in volumes and decrease in cost of service per day have resulted in a 22% increase in gross margin.

Net Service Revenue

Our hospice revenue increased approximately $55 million due to an increase in our average daily census as a result of an 11% increase in hospice admissions and an increase in reimbursement effective for services provided from each October 1, 2016 and 2017.

Cost of Service, Excluding Depreciation and Amortization

Our hospice cost of service increased $22 million as the result of a 15% increase in average daily census. Our cost of service per day decreased $1.11 primarily due to significant improvements in salary and pharmacy cost per day driven by cost controls and census growth.

Other Operating Expenses

Other operating expenses increased $6 million due to increases in other care center related expenses, primarily salaries and benefits, medical director fees and HCHB-related IT fees, driven by our census growth.

Year Ended December 31, 2016 Compared to the Year Ended December 31, 2015

Overall, our operating income increased $8 million on a $19 million increase in gross margin offset by an $11 million increase in other operating expenses.

Net Service Revenue

Our hospice revenue increased approximately $41 million during 2016 due to an increase in our average daily census as a result of a 17% increase in hospice admissions. We benefited from a 1.1% hospice rate increase effective October 1, 2015. Beginning January 1, 2016, CMS provided for two separate payment rates for routine care: payments for the first 60 days of care and care beyond 60 days. In addition to the two rates, beginning January 1, 2016, Medicare is also reimbursing for a service intensity add-on ("SIA"). The SIA is based on visits made in the last seven days of life by a registered nurse ("RN") or medical social worker ("MSW") for patients in a routine level of care.

Our revenue per day was impacted by an increase in contractual reserves and write-offs which occurred during the HCHB roll-out.

Cost of Service, Excluding Depreciation and Amortization

Our hospice cost of service increased $21 million as the result of a 16% increase in average daily census.

Other Operating Expenses

Other operating expenses increased $11 million due to increases in other care center related expenses, primarily salaries and benefits and HCHB maintenance and hosting fees.

We experienced an increase in days revenue outstanding, net as we transitioned to the HCHB platform. As such, our provision for doubtful accounts increased approximately $4 million, which is reflective of an increase in our accounts receivable aging.

Personal Care Division

The following table summarizes our personal care segment results of operations:

	For the Years Ended December 31,		
	2017	2016	2015
Financial Information *(in millions)*:			
Medicare	$ —	$ —	$ —
Non-Medicare	60.9	35.9	—
Net service revenue	60.9	35.9	—
Cost of service	45.0	26.3	—
Gross margin	15.9	9.6	—
Provision for doubtful accounts	1.3	0.2	—
Other operating expenses	13.8	7.9	—
Operating income	$ 0.8	$ 1.5	$ —
Key Statistical Data:			
Billable hours	2,604,794	1,539,093	—
Clients served	16,826	10,219	—
Shifts	1,195,511	696,956	—
Revenue per hour	23.37	23.32	—
Revenue per shift	50.92	51.49	—
Hours per shift	2.2	2.2	—

Year Ended December 31, 2017 Compared to the Year Ended December 31, 2016

On February 1, 2017, we acquired the assets of Home Staff LLC, which owned and operated three personal-care care centers, one of which was subsequently consolidated with one of our existing personal-care care centers. On October 1, 2017, we acquired the assets of Intercity Home Care, which owned and operated four personal-care care centers, three of which were subsequently consolidated with our existing personal-care care centers. Acquisitions are included in our consolidated financial statements from their respective acquisition dates. As a result, our personal care operating results for 2017 and 2016 are not fully comparable.

Operating income related to our personal care division decreased by approximately $1 million on a $6 million increase in gross margin offset by a $1 million increase in provision for doubtful accounts and a $6 million increase in other operating expenses. The increase in other operating expenses is driven by our acquisition activity.

Year Ended December 31, 2016

On March 1, 2016, we acquired Associated Home Care, a personal care home health care company with nine care centers. On September 1, 2016, we acquired the assets of Professional Profiles, Inc. which owned and operated four personal-care care centers. In addition, during the three-month period ended September 30, 2016 we opened a start-up personal-care care center. Operating income related to our new personal care division for 2016 was approximately $2 million on net service revenue of $36 million and cost of service of $26 million; other operating expenses were approximately $8 million.

Corporate

The following table summarizes our corporate results of operations:

	For the Years Ended December 31,		
	2017	2016	2015
Financial Information *(in millions):*			
Other operating expenses	$ 113.7	$ 141.9	$ 126.5
Depreciation and amortization	12.5	12.4	13.4
Total operating expenses before asset impairment charge and Securities Class Action Lawsuit settlement, net	$ 126.2	$ 154.3	$ 139.9
Asset impairment charge	—	4.4	77.3
Securities Class Action Lawsuit settlement, net	$ 28.7	$ —	$ —
Total operating expenses	$ 154.9	$ 158.7	$ 217.2

Corporate expenses consist of costs relating to our executive management and administrative support functions, primarily information services, accounting, finance, billing and collections, legal, compliance, risk management, procurement, marketing, clinical administration, training, human resources and administration.

Year Ended December 31, 2017 Compared to the Year Ended December 31, 2016

Excluding the $30 million Securities Class Action Lawsuit settlement and related legal fees in 2017 and the asset impairment charge in 2016, corporate other operating expenses have decreased approximately $28 million primarily as a result of an $8 million reduction in HCHB implementation costs and an $11 million reduction in acquisition activity (including acquired corporate support and other acquisition costs). We also experienced reductions in various other operating expenses including salaries and benefits, non-cash compensation and personnel costs. These reductions are a direct result of planned reductions post installation of HCHB and a restructure plan initiated in 2016.

Year Ended December 31, 2016 Compared to the Year Ended December 31, 2015

Corporate other operating expenses increased approximately $14 million which is inclusive of approximately $12 million in corporate support expenses related to acquisitions, a $3 million increase in non-cash compensation and a $4 million increase related to HCHB implementation costs offset by decreases of approximately $5 million in various other costs (including a $2 million decrease in legal settlement expenses).

Liquidity and Capital Resources

Cash Flows

The following table summarizes our cash flows for the periods indicated (amounts in millions):

	For the Years Ended December 31,		
	2017	2016	2015
Cash provided by operating activities	105.7	$ 62.2	107.8
Cash used in investing activities	(44.0)	(52.0)	(67.4)
Cash used in financing activities	(5.5)	(7.5)	(20.9)
Net increase in cash and cash equivalents	56.2	2.7	19.5
Cash and cash equivalents at beginning of period	30.2	27.5	8.0
Cash and cash equivalents at end of period	$ 86.4	$ 30.2	$ 27.5

Cash provided by operating activities totaled $105.7 million for 2017, $62.2 million for 2016 and $107.8 million for 2015. During each year, we maintained sufficient liquidity to finance our capital expenditures, both routine and non-routine, and acquisitions.

Changes in our cash provided by operating activities during the past three years were primarily the result of fluctuations in the collections of our accounts receivable and timing of the payments of accrued expenses. During 2017, operating cash flows were negatively impacted by approximately $30 million in litigation fees related to the Securities Class Action Lawsuit settlement (see Item 8, Note 9 – Commitments and Contingencies to our consolidated financial statements). During 2016, operating cash flows were negatively impacted by approximately $20 million in fees related to the conversion to HCHB, severance costs related to a reorganization plan, acquisition costs and litigation.

Cash used in investing activities decreased $8.0 million during 2017 compared to 2016 primarily due to decreases in cash paid for acquisitions ($1.8 million), capital expenditures ($5.0 million) and investments ($0.6 million). Cash used in investing activities decreased $15.4 million during 2016 compared to 2015 primarily due to decreases in cash paid for acquisitions ($33.6 million), capital expenditures ($5.7 million) and investments ($2.4 million), offset by decreases in proceeds from the sale of property and equipment related to the sale of our former corporate headquarters.

Cash used in financing activities decreased $2.0 million during 2017 compared to 2016 primarily due to a decrease in tax benefits from stock compensation plans and repurchases of company stock pursuant to our stock repurchase program, offset by shares withheld upon stock vesting and proceeds from issuance of stock upon exercise of stock options. Cash used in financing activities decreased $13.4 million during 2016 compared to 2015 primarily due to tax benefits from stock compensation plans and a decrease in repayments of outstanding borrowings, offset by repurchases of company stock pursuant to our stock repurchase program.

Liquidity

Typically, our principal source of liquidity is the collection of our patient accounts receivable, primarily through the Medicare program. In addition to our collection of patient accounts receivable, from time to time, we can and do obtain additional sources of liquidity by the incurrence of additional indebtedness.

During 2017, we spent $10.7 million in capital expenditures compared to $15.7 million and $21.4 million during 2016 and 2015, respectively. Our capital expenditures for 2018 are expected to be approximately $7.0 million to $9.0 million.

As of December 31, 2017, we had $86.4 million in cash and cash equivalents and $167.3 million in availability under our $200.0 million Revolving Credit Facility.

During the three-month period ended September 30, 2017, we settled the Securities Class Action Lawsuit for approximately $43.7 million, of which approximately $15.0 million was paid by the Company's insurance carriers. We used cash on hand to make the required remaining $28.7 million payment during the three-month period ended September 30, 2017.

Based on our operating forecasts and our new debt service requirements, we believe we will have sufficient liquidity to fund our operations, capital requirements and debt service requirements.

Outstanding Patient Accounts Receivable

Our patient accounts receivable, net increased $35.1 million from December 31, 2016 to December 31, 2017. Our cash collection as a percentage of revenue was 99% for the twelve-month periods ended December 31, 2017 and 2016. Our days revenue outstanding, net at December 31, 2017 was 44.0 days which is an increase of 3.8 days from December 31, 2016. The Florida ZPIC

audit (see Item 8, Note 9 - Commitments and Contingencies to our consolidated financial statements) which resulted in $6.8 million of net receivables being placed on payment suspension as of December 31, 2017, has added 1.6 days to our days revenue outstanding, net. Additionally accounts receivable of the three home health and two hospice care centers acquired on May 1, 2017, has added 1.5 days to our days revenue outstanding, net. As is typical with newly acquired care centers, we experienced an increase in our aging of receivables due to regulatory delays related to the change of ownership process. We expect to have this completed during the first quarter of 2018.

Our patient accounts receivable includes unbilled receivables and are aged based upon our initial service date. We monitor unbilled receivables on a care center by care center basis to ensure that all efforts are made to bill claims within timely filing deadlines. Our unbilled patient accounts receivable can be impacted by acquisition activity, probe edits or regulatory changes which result in additional information or procedures needed prior to billing. The timely filing deadline for Medicare is one year from the date the episode was completed, varies by state for Medicaid-reimbursable services and varies among insurance companies and other private payors.

Our provision for estimated revenue adjustments (which is deducted from our service revenue to determine net service revenue) and provision for doubtful accounts were as follows for the periods indicated (amounts in millions). Our policy is to fully reserve for both our Medicare and other patient accounts receivable that are aged over 365 days; however, we have elected to not apply this policy to those accounts impacted by the Florida ZPIC audit.

	For the Years Ended December 31,	
	2017	2016
Provision for estimated revenue adjustments	$ 14.4	$ 7.9
Provision for doubtful accounts	25.1	19.5
Total	$ 39.5	$ 27.4
As a percent of revenue	2.6%	1.9%

The following schedules detail our patient accounts receivable, net of estimated revenue adjustments, by payor class, aged based upon initial date of service (amounts in millions, except days revenue outstanding, net):

	0-90	91-180	181-365	Over 365	Total
At December 31, 2017:					
Medicare patient accounts receivable, net (1)	$ 95.9	$ 16.1	$ 6.6	$ 0.6	$ 119.2
Other patient accounts receivable:					
Medicaid	14.8	3.7	2.5	0.3	21.3
Private	54.3	10.3	9.7	7.3	81.6
Total	$ 69.1	$ 14.0	$ 12.2	$ 7.6	$ 102.9
Allowance for doubtful accounts (2)					(20.9)
Non-Medicare patient accounts receivable, net					$ 82.0
Total patient accounts receivable, net					$ 201.2
Days revenue outstanding, net (3)					44.0

	0-90	91-180	181-365	Over 365	Total
At December 31, 2016:					
Medicare patient accounts receivable, net (1)	$ 82.7	$ 17.1	$ 1.4	$ —	$ 101.2
Other patient accounts receivable:					
Medicaid	13.6	3.6	3.6	0.2	21.0
Private	39.8	10.4	7.6	3.8	61.6
Total	$ 53.4	$ 14.0	$ 11.2	$ 4.0	$ 82.6
Allowance for doubtful accounts (2)					(17.7)
Non-Medicare patient accounts receivable, net					$ 64.9
Total patient accounts receivable, net					$ 166.1
Days revenue outstanding, net (3)					40.2

(1) The following table summarizes the activity and ending balances in our estimated revenue adjustments (amounts in millions), which is recorded to reduce our Medicare outstanding patient accounts receivable to their estimated net realizable value, as we do not estimate an allowance for doubtful accounts for our Medicare claims.

	For the Years Ended December 31,	
	2017	2016
Balance at beginning of period	$ 4.1	$ 4.0
Provision for estimated revenue adjustments	14.4	7.9
Write offs	(12.3)	(7.8)
Balance at end of period	$ 6.2	$ 4.1

Our estimated revenue adjustments were 4.9% and 3.9% of our outstanding Medicare patient accounts receivable at December 31, 2017 and December 31, 2016, respectively.

(2) The following table summarizes the activity and ending balances in our allowance for doubtful accounts (amounts in millions), which is recorded to reduce only our Medicaid and private payor outstanding patient accounts receivable to their estimated net realizable value.

	For the Years Ended December 31,	
	2017	2016
Balance at beginning of period	$ 17.7	$ 16.5
Provision for doubtful accounts	25.1	19.5
Write offs	(21.9)	(18.3)
Balance at end of period	$ 20.9	$ 17.7

Our allowance for doubtful accounts was 20.3% and 21.5% of our outstanding Medicaid and private patient accounts receivable at December 31, 2017 and December 31, 2016, respectively.

(3) Our calculation of days revenue outstanding, net is derived by dividing our ending net patient accounts receivable (i.e., net of estimated revenue adjustments and allowance for doubtful accounts) at December 31, 2017 and 2016 by our average daily net patient revenue for the three-month periods ended December 31, 2017 and 2016, respectively.

Indebtedness

Credit Agreement

On August 28, 2015, we entered into a Credit Agreement that provides for senior secured facilities in an initial aggregate principal amount of up to $300 million.

The Credit Facilities are comprised of (a) a term loan facility in an initial aggregate principal amount of $100 million (the "Term Loan"); and (b) a revolving credit facility in an initial aggregate principal amount of up to $200 million (the "Revolving Credit Facility"). The Revolving Credit Facility provides for and includes within its $200 million limit a $25 million swingline facility and commitments for up to $50 million in letters of credit. Upon lender approval, we may increase the aggregate loan amount under the Credit Facilities by a maximum amount of $150 million.

The net proceeds of the Term Loan and existing cash on hand were used to pay off (i) our existing term loan under our Prior Credit Agreement, dated as of October 22, 2012, as amended (the "Prior Credit Agreement") with a principal balance of $27 million and (ii) our existing term loan under our prior Second Lien Credit Agreement dated July 28, 2014 (the "Second Lien Credit Agreement"), with a principal balance of $70 million. The final maturity of the Term Loan is August 28, 2020. The Term Loan began amortizing on March 31, 2016 and will continue amortizing over 10 quarterly installments (eight remaining quarterly installments of $2.5 million beginning March 31, 2018, followed by two quarterly installments of $3.1 million beginning March 31, 2020, subject to adjustment for prepayments), with the remaining balance due upon maturity.

The Revolving Credit Facility may be used to provide ongoing working capital and for general corporate purposes of the Company and its subsidiaries, including permitted acquisitions, as defined in the Credit Agreement. The final maturity of the Revolving Credit Facility is August 28, 2020 and will be payable in full at that time.

The interest rate in connection with the Credit Facilities shall be selected from the following by us: (i) the Base Rate plus the Applicable Rate or (ii) the Eurodollar Rate plus the Applicable Rate. The "Base Rate" means a fluctuating rate per annum equal to the highest of (a) the federal funds rate plus 0.50% per annum, (b) the prime rate of interest established by the Administrative Agent, and (c) the Eurodollar Rate for an interest period of one month plus 1% per annum. The "Eurodollar Rate" means the rate at which Eurodollar deposits in the London interbank market for an interest period of one, two, three or six months (as selected

by us) are quoted. The "Applicable Rate" is based on the consolidated leverage ratio and is presented in the table below. As of December 31, 2017, the Applicable Rate is 1.00% per annum for Base Rate Loans and 2.00% per annum for Eurodollar Rate Loans. We are also subject to a commitment fee and letter of credit fee under the terms of the Credit Facilities, as presented in the table below.

Consolidated Leverage Ratio	Margin for ABR Loans	Margin for Eurodollar Loans	Commitment Fee	Letter of Credit Fee
≥ 2.75 to 1.0	2.00%	3.00%	0.40%	3.00%
< 2.75 to 1.0 but ≥ 1.75 to 1.0	1.50%	2.50%	0.35%	2.50%
< 1.75 to 1.0 but ≥ 0.75 to 1.0	1.00%	2.00%	0.30%	2.00%
< 0.75 to 1.0	0.50%	1.50%	0.25%	1.50%

Our weighted average interest rate for our $100.0 million Term Loan, under our Credit Agreement, was 3.1% and 2.5% for the period ended December 31, 2017 and December 31, 2016, respectively. Our weighted average interest rate for our $200.0 million Revolving Credit Facility was 3.5% for the period ended December 31, 2016.

As of December 31, 2017, our availability under our $200.0 million Revolving Credit Facility was $167.3 million as we had $32.7 million outstanding in letters of credit.

The Credit Agreement requires maintenance of two financial covenants: (i) a consolidated leverage ratio of funded indebtedness to EBITDA, as defined in the Credit Agreement, and (ii) a consolidated fixed charge coverage ratio of EBITDA plus rent expense (less cash taxes less capital expenditures) to scheduled debt repayments plus interest expense plus rent expense, all as defined in the Credit Agreement. Each of these covenants is calculated over rolling four-quarter periods and also is subject to certain exceptions and baskets. As of December 31, 2017, our consolidated leverage ratio was 0.9 and our consolidated fixed charge coverage ratio was 4.4 and we are in compliance with the Credit Agreement. The Credit Agreement also contains customary covenants, including, but not limited to, restrictions on: incurrence of liens; incurrence of additional debt; sales of assets and other fundamental corporate changes; investments; and declarations of dividends. These covenants contain customary exclusions and baskets.

The Credit Facilities are guaranteed by substantially all of our wholly-owned direct and indirect subsidiaries. The Credit Agreement requires at all times that we (i) provide guaranties from wholly-owned subsidiaries that in the aggregate represent not less than 95% of our consolidated net revenues and adjusted EBITDA from all wholly-owned subsidiaries and (ii) provide guarantees from subsidiaries that in the aggregate represent not less than 70% of consolidated adjusted EBITDA, subject to certain exceptions.

In connection with entering into the Credit Agreement, we entered into (i) a Security Agreement with the Administrative Agent dated August 28, 2015 and (ii) a Pledge Agreement with the Administrative Agent dated as of August 28, 2015 for the purpose of securing the payment of our obligations under the Credit Agreement. Pursuant to the Security Agreement and the Pledge Agreement, as of the effective date of the Credit Agreement, our obligations under the Credit Agreement are secured by (i) the grant of a first lien security interest in the non-real estate assets of substantially all of our direct and indirect, wholly-owned subsidiaries (subject to exceptions) and (ii) the pledge of the equity interests in (a) substantially all of our direct and indirect, wholly-owned corporate, limited liability company and limited partnership subsidiaries and (b) those joint ventures which constitute subsidiaries under the Credit Agreement (subject, in the case of the Pledge Agreement, to exceptions).

In connection with the entry into the Credit Agreement, on August 28, 2015, each of the Prior Credit Agreement and the Second Lien Credit Agreement were terminated. The Company paid a call premium of $700,000 associated with the termination of the Second Lien Credit Agreement and the voluntary prepayment of the amounts owed thereunder as of August 28, 2015, and expensed $2.5 million in deferred debt issuance costs during the three-month period ended September 30, 2015. Also in connection with our entry into the Credit Agreement, we recorded $2.4 million in deferred debt issuance costs as other assets in our consolidated balance sheet during 2015 which was reclassified to long-term obligations, less current portion during 2016 in accordance with Accounting Standards Update 2015-03, *Interest – Imputation of Interest (Subtopic 835-30): Simplifying the Presentation of Debt Issuance Costs*.

Stock Repurchase Program

On September 9, 2015, we announced that our Board of Directors authorized a stock repurchase program allowing for the repurchase of up to $75 million of our outstanding common stock on or before September 6, 2016, the date on which the stock repurchase program expired.

Under the terms of the program, we were allowed to repurchase shares from time to time in open market transactions, block purchases or in private transactions in accordance with applicable federal securities laws and other legal requirements. We were allowed to enter into Rule 10b5-1 plans to effect some or all of the repurchases. The timing and the amount of the repurchases

were determined by management based on a number of factors, including but not limited to share price, trading volume and general market conditions, as well as on working capital requirements, general business conditions and other factors.

Pursuant to this program, we repurchased 324,141 shares of our common stock at a weighted average price of $37.96 per share and a total cost of approximately $12.3 million during 2016 and 116,859 shares of our common stock at a weighted average price of $39.20 per share and a total cost of approximately $4.6 million during 2015. The repurchased shares are classified as treasury shares.

Contractual Obligations

Our future contractual obligations at December 31, 2017 were as follows (amounts in millions):

	Payments Due by Period				
	Total	Less than 1 Year	1-3 Years	4-5 Years	After 5 Years
Long-term obligations	$ 90.7	$ 10.6	$ 80.1	$ —	$ —
Interest on long-term obligations (1)	7.4	3.1	4.3	—	—
Operating leases	80.8	23.6	31.7	13.9	11.6
Capital commitments	0.7	0.7	—	—	—
Purchase obligations	52.0	15.5	27.1	9.4	—
Uncertain tax positions	2.7	0.6	2.1	—	—
	$ 234.3	$ 54.1	$ 145.3	$ 23.3	$ 11.6

(1) Interest on debt with variable rates was calculated using the current rate of that particular debt instrument at December 31, 2017.

Critical Accounting Estimates

The discussion and analysis of our financial condition and results of operations is based upon our consolidated financial statements, which have been prepared in accordance with U.S. generally accepted accounting principles ("U.S. GAAP"). The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenue and expenses and related disclosures of contingent assets and liabilities. On an ongoing basis, we evaluate our estimates, including those related to revenue recognition, collectability of accounts receivable, reserves related to insurance and litigation, goodwill, intangible assets, income taxes and contingencies. We base these estimates on our historical experience and various other assumptions that we believe to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results experienced may vary materially and adversely from our estimates. To the extent there are material differences between our estimates and the actual results, our future results of operations may be affected.

We believe the following critical accounting policies represent our most significant judgments and estimates used in the preparation of our consolidated financial statements.

Revenue Recognition

We earn net service revenue through our home health, hospice and personal-care care centers by providing a variety of services almost exclusively in the homes of our patients. This net service revenue is earned and billed either on an episode of care basis, on a per visit basis, on a daily basis or based on authorized hours, visits or units, depending upon the payment terms and conditions established with each payor for services provided. We refer to home health revenue earned and billed on a 60-day episode of care as episodic-based revenue.

When we record our service revenue, we record it net of estimated revenue adjustments and contractual adjustments to reflect amounts we estimate to be realizable for services provided, as discussed below. We believe, based on information currently available to us and based on our judgment, that changes to one or more factors that impact the accounting estimates (such as our estimates related to revenue adjustments, contractual adjustments and episodes in progress) we make in determining net service revenue, which changes are likely to occur from period to period, will not materially impact our reported consolidated financial condition, results of operations, cash flows or our future financial results.

Home Health Revenue Recognition

Medicare Revenue

Net service revenue is recorded under the Medicare prospective payment system ("PPS") based on a 60-day episode payment rate that is subject to adjustment based on certain variables. We make adjustments to Medicare revenue on completed episodes to reflect differences between estimated and actual payment amounts, and our discovered inability to obtain appropriate billing documentation or authorizations and other reasons unrelated to credit risk. We estimate the impact of such adjustments based on our historical experience, which primarily includes a historical collection rate of over 99% on Medicare claims, and record this estimate during the period in which services are rendered as an estimated revenue adjustment and a corresponding reduction to patient accounts receivable. In addition, management evaluates the potential for revenue adjustments and, when appropriate, provides allowances based upon the best available information.

In addition to revenue recognized on completed episodes, we also recognize a portion of revenue associated with episodes in progress. Episodes in progress are 60-day episodes of care that begin during the reporting period, but were not completed as of the end of the period. We estimate this revenue on a monthly basis based upon historical trends. The primary factors underlying this estimate are the number of episodes in progress at the end of the reporting period, expected Medicare revenue per episode and our estimate of the average percentage complete based on the number of days elapsed during an episode of care relative to the average length of an episode of care.

Non-Medicare Revenue

Episodic-based Revenue. We recognize revenue in a similar manner as we recognize Medicare revenue for episodic-based rates that are paid by other insurance carriers, including Medicare Advantage programs; however, these rates can vary based upon the negotiated terms which generally range from 90% to 100% of Medicare rates.

Non-episodic Based Revenue. Gross revenue is recorded on an accrual basis based upon the date of service at amounts equal to our established or estimated per-visit rates, as applicable. Contractual adjustments are recorded for the difference between our standard rates and the contracted rates to be realized from patients, third parties and others for services provided and are deducted from gross revenue to determine net service revenue and are also recorded as a reduction to our outstanding patient accounts receivable. In addition, we receive a minimal amount of our net service revenue from patients who are either self-insured or are obligated for an insurance co-payment.

Hospice Revenue Recognition

Hospice Medicare Revenue

Gross revenue is recorded on an accrual basis based upon the date of service at amounts equal to the estimated payment rates. The estimated payment rates are daily or hourly rates for each of the four levels of care we deliver. We make adjustments to Medicare revenue for our discovered inability to obtain appropriate billing documentation or authorizations and other reasons unrelated to credit risk. We estimate the impact of these adjustments based on our historical experience, which primarily includes our historical collection rate on Medicare claims, and record it during the period services are rendered as an estimated revenue adjustment and as a reduction to our outstanding patient accounts receivable.

Additionally, as Medicare hospice revenue is subject to an inpatient cap limit and an overall payment cap for each provider number, we monitor these caps and estimate amounts due back to Medicare if a cap has been exceeded. We record these adjustments as a reduction to revenue and an increase in other accrued liabilities. Beginning for the cap year ending September 30, 2017, providers are required to self-report and pay their estimated cap liability by February 28th of the following year. As of December 31, 2017, we have settled our Medicare hospice reimbursements for all fiscal years through October 31, 2012 and we have recorded $0.9 million for estimated amounts due back to Medicare in other accrued liabilities for the Federal cap years ended October 31, 2013 through September 30, 2018. As of December 31, 2016, we had recorded $0.8 million for estimated amounts due back to Medicare in other accrued liabilities for the Federal cap years ended October 31, 2013 through September 30, 2017.

Hospice Non-Medicare Revenue

We record gross revenue on an accrual basis based upon the date of service at amounts equal to our established rates or estimated per visit rates, as applicable. Contractual adjustments are recorded for the difference between our established rates and the amounts estimated to be realizable from patients, third parties and others for services provided and are deducted from gross revenue to determine our net service revenue and patient accounts receivable.

Personal Care Revenue Recognition

Personal Care Non-Medicare Revenue

We generate net service revenues by providing our services directly to patients primarily on a per hour, visit or unit basis. We receive payment for providing such services from our payor clients, including state and local governmental agencies, managed care organizations, commercial insurers and private consumers. Payor clients include the following elder service agencies: Aging Services Access Points (ASAPs), Senior Care Options (SCOs), Program of All-Inclusive Care for the Elderly (PACE) and the Veterans Administration (VA). Net service revenues are principally provided based on authorized hours, visits or units determined by the relevant agency, at a rate that is either contractual or fixed by legislation which are recognized as net service revenue at the time services are rendered.

Patient Accounts Receivable – Allowance for Doubtful Accounts

Our patient accounts receivable are uncollateralized and consist of amounts due from Medicare, Medicaid, other third-party payors and patients. Our policy is to fully reserve for accounts which are aged at 365 days or greater; however, we have elected to not apply this policy to those accounts impacted by the Florida ZPIC audit (see Item 8, Note 9 - Commitments and Contingencies to our consolidated financial statements for additional information). We write off accounts on a monthly basis once we have exhausted our collection efforts and deem an account to be uncollectible. We do not record an allowance for doubtful accounts for our Medicare patient accounts receivable, which are recorded at their net realizable value after recording estimated revenue adjustments as discussed above.

We believe there is a certain level of collectibility risk associated with non-Medicare payors. To provide for our non-Medicare patient accounts receivable that could become uncollectible in the future, we establish an allowance for doubtful accounts to reduce the carrying amount to its estimated net realizable value. We estimate an allowance for doubtful accounts based upon our assessment of historical and expected net collections, business and economic conditions, trends in payment and an evaluation of collectibility based upon the date that the service was provided. Based upon our best judgment, we believe the allowance for doubtful accounts adequately provides for accounts that will not be collected due to collectibility risk.

Insurance

We are obligated for certain costs associated with our insurance programs, including employee health, workers' compensation and professional liability. While we maintain various insurance programs to cover these risks, we are self-insured for a substantial portion of our potential claims. We recognize our obligations associated with these costs in the period in which a claim is incurred, including with respect to both reported claims and claims incurred but not reported, up to specified deductible limits. These costs have generally been estimated based upon independent third-party actuarial calculations which consider historical claims data. Such estimates, and the resulting reserves, are reviewed and updated by us on a quarterly basis.

Goodwill and Other Intangible Assets

Goodwill represents the amount of the purchase price in excess of the fair values assigned to the underlying identifiable net assets of acquired businesses. Goodwill is not amortized, but is subject to an annual impairment test. Tests are performed more frequently if events occur or circumstances change that would more likely than not reduce the fair value of the reporting unit below its carrying amount. These events or circumstances include but are not limited to, a significant adverse change in the business environment; regulatory environment or legal factors; or a substantial decline in market capitalization of our stock.

Generally Accepted Accounting Principles ("GAAP") allows for impairment testing to be done on either a quantitative or qualitative basis. During 2017, we utilized a qualitative analysis for our annual impairment test and determined that there were no triggering events that would indicate that it were "more likely than not" that the carrying value of our reporting units were higher than their respective fair values. As a result, we did not record any goodwill impairment charges and none of the goodwill associated with our various reporting units were considered at risk of impairment as of October 31, 2017. Since the date of our last annual goodwill impairment test, there have been no material developments, events, changes in operating performance or other circumstances that would cause management to believe it is more likely than not that the fair value of any of our reporting units would be less than its carrying amount.

Intangible assets consist of Certificates of Need, licenses, acquired names and non-compete agreements. We amortize non-compete agreements and acquired names that we do not intend to use in the future on a straight-line basis over their estimated useful lives, which is generally three years for non-compete agreements and up to five years for acquired names. Our indefinite-lived intangible assets are reviewed for impairment annually or more frequently if events occur or circumstances change that would more likely than not reduce the fair value of the intangible asset below its carrying amount. During 2017, we performed a qualitative assessment to determine that our indefinite-lived intangible assets were not impaired. There have been no material developments, events,

changes in operating performance or other circumstances that would cause management to believe it is more likely than not that the fair value of any of our intangible assets would be less than its carrying amount.

Income Taxes

We use the asset and liability approach for measuring deferred tax assets and liabilities based on temporary differences existing at each balance sheet date using currently enacted tax rates. Our deferred tax calculation requires us to make certain estimates about future operations. Deferred tax assets are reduced by a valuation allowance when we believe it is more likely than not that some portion or all of the deferred tax assets will not be realized. The effect of a change in tax rate is recognized as income or expense in the period that includes the enactment date. As of December 31, 2017 and 2016 our net deferred tax assets were $56.1 million and $107.9 million, respectively. Our net deferred tax asset at December 31, 2017 includes a $21.4 million decrease resulting from the remeasurement of deferred taxes using the reduced U.S. corporate tax rates included in H.R. 1 (the Tax Cuts and Jobs Act) enacted on December 22, 2017.

Management regularly assesses the ability to realize deferred tax assets recorded in the Company's entities based upon the weight of available evidence, including such factors as the recent earnings history and expected future taxable income. In the event future taxable income is below management's estimates or is generated in tax jurisdictions different than projected, we could be required to increase the valuation allowance for deferred tax assets. This would result in an increase in our effective tax rate.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We are exposed to market risk from fluctuations in interest rates. Our Revolving Credit Facility and Term Loan carry a floating interest rate which is tied to the Eurodollar rate (*i.e.* LIBOR) or the Prime Rate and therefore, our consolidated statements of operations and our consolidated statements of cash flows are exposed to changes in interest rates. As of December 31, 2017, the total amount of outstanding debt subject to interest rate fluctuations was $90.0 million. A 1.0% interest rate change would cause interest expense to change by approximately $0.9 million annually.

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

Report of Independent Registered Public Accounting Firm

To the Stockholders and Board of Directors
Amedisys, Inc.:

Opinion on the Consolidated Financial Statements

We have audited the accompanying consolidated balance sheets of Amedisys, Inc. and subsidiaries ("the Company") as of December 31, 2017 and 2016, the related consolidated statements of operations, comprehensive income (loss), stockholders' equity, and cash flows for each of the years in the three-year period ended December 31, 2017, and the related notes (collectively, "the consolidated financial statements"). In our opinion, the consolidated financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2017 and 2016, and the results of its operations and its cash flows for each of the years in the three-year period ended December 31, 2017, in conformity with U.S. generally accepted accounting principles.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) ("PCAOB"), the Company's internal control over financial reporting as of December 31, 2017, based on criteria established in *Internal Control – Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission, and our report dated February 28, 2018 expressed an unqualified opinion on the effectiveness of the Company's internal control over financial reporting.

Basis for Opinion

These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement, whether due to error or fraud. Our audits included performing procedures to assess the risks of material misstatement of the consolidated financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements. We believe that our audits provide a reasonable basis for our opinion.

We have served as the Company's auditor since 2002.

Cash paid for interest	$ 2,697	$ 2,897	$ 6,175
Cash paid for income taxes, net of refunds received	$ 315	$ 755	$ (12,185)

The accompanying notes are an integral part of these consolidated financial statements.

1. NATURE OF OPERATIONS, CONSOLIDATION AND PRESENTATION OF FINANCIAL STATEMENTS

Amedisys, Inc., a Delaware corporation, and its consolidated subsidiaries ("Amedisys," "we," "us," or "our") are a multi-state provider of home health, hospice and personal care services with approximately 75%, 78% and 80% of our revenue derived from Medicare for 2017, 2016 and 2015, respectively. As of December 31, 2017, we owned and operated 323 Medicare-certified home health care centers, 83 Medicare-certified hospice care centers and 15 personal-care care centers in 34 states within the United States and the District of Columbia.

Use of Estimates

Our accounting and reporting policies conform with U.S. Generally Accepted Accounting Principles ("U.S. GAAP"). In preparing the consolidated financial statements, we are required to make estimates and assumptions that impact the amounts reported in the consolidated financial statements and accompanying notes. Actual results could materially differ from those estimates.

Reclassifications and Comparability

Certain reclassifications have been made to prior periods' financial statements in order to conform to the current period's presentation.

Principles of Consolidation

These consolidated financial statements include the accounts of Amedisys, Inc., and our wholly owned subsidiaries. All significant intercompany accounts and transactions have been eliminated in our accompanying consolidated financial statements, and business combinations accounted for as purchases have been included in our consolidated financial statements from their respective dates of acquisition. In addition to our wholly owned subsidiaries, we also have certain equity investments that are accounted for as set forth below.

Equity Investments

We consolidate investments when the entity is a variable interest entity and we are the primary beneficiary or if we have controlling interests in the entity, which is generally ownership in excess of 50%. Third party equity interests in our consolidated joint ventures are reflected as noncontrolling interests in our consolidated financial statements. During the three-month period ended September 30, 2016, we sold a 30% interest in one of our care centers while maintaining controlling interest in the newly formed joint venture.

We account for investments in entities in which we have the ability to exercise significant influence under the equity method if we hold 50% or less of the voting stock and the entity is not a variable interest entity in which we are the primary beneficiary. The book value of investments that we accounted for under the equity method of accounting was $26.4 million as of December 31, 2017 and $27.8 million as of December 31, 2016. We account for investments in entities in which we have less than a 20% ownership interest under the cost method of accounting if we do not have the ability to exercise significant influence over the investee.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Revenue Recognition

We earn net service revenue through our home health, hospice and personal-care care centers by providing a variety of services almost exclusively in the homes of our patients. This net service revenue is earned and billed either on an episode of care basis, on a per visit basis, on a daily basis or based on authorized hours, visits or units, depending upon the payment terms and conditions established with each payor for services provided. We refer to home health revenue earned and billed on a 60-day episode of care as episodic-based revenue.

When we record our service revenue, we record it net of estimated revenue adjustments and contractual adjustments to reflect amounts we estimate to be realizable for services provided, as discussed below. We believe, based on information currently available to us and based on our judgment, that changes to one or more factors that impact the accounting estimates (such as our estimates related to revenue adjustments, contractual adjustments and episodes in progress) we make in determining net service revenue, which changes are likely to occur from period to period, will not materially impact our reported consolidated financial condition, results of operations, cash flows or our future financial results.

Home Health Revenue Recognition

Medicare Revenue

Net service revenue is recorded under the Medicare prospective payment system ("PPS") based on a 60-day episode payment rate that is subject to adjustment based on certain variables including, but not limited to: (a) an outlier payment if our patient's care was unusually costly (capped at 10% of total reimbursement per provider number); (b) a low utilization payment adjustment ("LUPA") if the number of visits was fewer than five; (c) a partial payment if our patient transferred to another provider or we received a patient from another provider before completing the episode; (d) a payment adjustment based upon the level of therapy services required (with various incremental adjustments made for additional visits, with larger payment increases associated with the sixth, fourteenth and twentieth visit thresholds); (e) adjustments to payments if we are unable to perform periodic therapy assessments; (f) the number of episodes of care provided to a patient, regardless of whether the same home health provider provided care for the entire series of episodes; (g) changes in the base episode payments established by the Medicare Program; (h) adjustments to the base episode payments for case mix and geographic wages; and (i) recoveries of overpayments. In addition, we make adjustments to Medicare revenue if we find that we are unable to produce appropriate documentation of a face to face encounter between the patient and physician.

We make adjustments to Medicare revenue to reflect differences between estimated and actual payment amounts, our discovered inability to obtain appropriate billing documentation or authorizations and other reasons unrelated to credit risk. We estimate the impact of such adjustments based on our historical experience, which primarily includes a historical collection rate of over 99% on Medicare claims, and record this estimate during the period in which services are rendered as an estimated revenue adjustment and a corresponding reduction to patient accounts receivable. Therefore, we believe that our reported net service revenue and patient accounts receivable will be the net amounts to be realized from Medicare for services rendered.

In addition to revenue recognized on completed episodes, we also recognize a portion of revenue associated with episodes in progress. Episodes in progress are 60-day episodes of care that begin during the reporting period, but were not completed as of the end of the period. We estimate this revenue on a monthly basis based upon historical trends. The primary factors underlying this estimate are the number of episodes in progress at the end of the reporting period, expected Medicare revenue per episode and our estimate of the average percentage complete based on the number of days elapsed during an episode of care relative to the average length of an episode of care. As of December 31, 2017 and 2016, the difference between the cash received from Medicare for a request for anticipated payment ("RAP") on episodes in progress and the associated estimated revenue was immaterial and, therefore, the resulting credits were recorded as a reduction to our outstanding patient accounts receivable in our consolidated balance sheets for such periods.

Non-Medicare Revenue

Episodic-based Revenue. We recognize revenue in a similar manner as we recognize Medicare revenue for episodic-based rates that are paid by other insurance carriers, including Medicare Advantage programs; however, these rates can vary based upon the negotiated terms which generally range from 90% to 100% of Medicare rates.

Non-episodic based Revenue. Gross revenue is recorded on an accrual basis based upon the date of service at amounts equal to our established or estimated per-visit rates, as applicable. Contractual adjustments are recorded for the difference between our standard rates and the contracted rates to be realized from patients, third parties and others for services provided and are deducted from gross revenue to determine net service revenue and are also recorded as a reduction to our outstanding patient accounts receivable. In addition, we receive a minimal amount of our net service revenue from patients who are either self-insured or are obligated for an insurance co-payment.

Hospice Revenue Recognition

Hospice Medicare Revenue

Gross revenue is recorded on an accrual basis based upon the date of service at amounts equal to the estimated payment rates. The estimated payment rates are daily or hourly rates for each of the four levels of care we deliver. The four levels of care are routine care, general inpatient care, continuous home care and respite care. Routine care accounts for 99% of our total net Medicare hospice service revenue for each of 2017, 2016 and 2015, respectively. Beginning January 1, 2016, CMS has provided for two separate payment rates for routine care: payments for the first 60 days of care and care beyond 60 days. In addition to the two routine rates, beginning January 1, 2016, Medicare is also reimbursing for a service intensity add-on ("SIA"). The SIA is based on visits made in the last seven days of life by a registered nurse ("RN") or medical social worker ("MSW") for patients in a routine level of care.

We make adjustments to Medicare revenue for an inability to obtain appropriate billing documentation or acceptable authorizations and other reasons unrelated to credit risk. We estimate the impact of these adjustments based on our historical experience, which primarily includes our historical collection rate on Medicare claims, and record it during the period services are rendered as an estimated revenue adjustment and as a reduction to our outstanding patient accounts receivable.

Additionally, as Medicare hospice revenue is subject to an inpatient cap limit and an overall payment cap for each provider number, we monitor these caps and estimate amounts due back to Medicare if we estimate a cap has been exceeded. We record these adjustments as a reduction to revenue and an increase in other accrued liabilities. Beginning for the cap year ending October 31, 2017, providers are required to self-report and pay their estimated cap liability by February 28th of the following year. As of December 31, 2017, we have settled our Medicare hospice reimbursements for all fiscal years through October 31, 2012 and we have recorded $0.9 million for estimated amounts due back to Medicare in other accrued liabilities for the Federal cap years ended October 31, 2013 through September 30, 2018. As of December 31, 2016, we had recorded $0.8 million for estimated amounts due back to Medicare in other accrued liabilities for the Federal cap years ended October 31, 2013 through September 30, 2017.

Hospice Non-Medicare Revenue

We record gross revenue on an accrual basis based upon the date of service at amounts equal to our established rates or estimated per day rates, as applicable. Contractual adjustments are recorded for the difference between our established rates and the amounts estimated to be realizable from patients, third parties and others for services provided and are deducted from gross revenue to determine our net service revenue and patient accounts receivable.

Personal Care Revenue Recognition

Personal Care Non-Medicare Revenue

We generate net service revenues by providing our services directly to patients primarily on a per hour, visit or unit basis. We receive payment for providing such services from our payor clients, including state and local governmental agencies, managed care organizations, commercial insurers and private consumers. Payor clients include the following elder service agencies: Aging Services Access Points (ASAPs), Senior Care Options (SCOs), Program of All-Inclusive Care for the Elderly (PACE) and the Veterans Administration (VA). Net service revenues are principally provided based on authorized hours, visits or units determined by the relevant agency, at a rate that is either contractual or fixed by legislation, which are recognized as net service revenue at the time services are rendered.

Cash and Cash Equivalents

Cash and cash equivalents include certificates of deposit and all highly liquid debt instruments with maturities of three months or less when purchased.

Patient Accounts Receivable

Our patient accounts receivable are uncollateralized and consist of amounts due from Medicare, Medicaid, other third-party payors and patients. As of December 31, 2017, there is no single payor, other than Medicare, that accounts for more than 10% of our total outstanding patient receivables. Thus, we believe there are no other significant concentrations of receivables that would subject us to any significant credit risk in the collection of our patient accounts receivable. Our policy is to fully reserve for accounts which are aged at 365 days or greater; however, we have elected not to apply this policy to those accounts impacted by the Florida ZPIC audit (see Note 9 - Commitments and Contingencies). We write off accounts on a monthly basis once we have exhausted our collection efforts and deem an account to be uncollectible.

We believe the collectibility risk associated with our Medicare accounts, which represent 59% and 61% of our net patient accounts receivable at December 31, 2017 and December 31, 2016, respectively, is limited due to our historical collection rate of over 99% from Medicare and the fact that Medicare is a U.S. government payor. Accordingly, we do not record an allowance for doubtful accounts for our Medicare patient accounts receivable, which are recorded at their net realizable value after recording estimated revenue adjustments as discussed above. During 2017, 2016 and 2015, we recorded $14.4 million, $7.9 million and $6.1 million, respectively, in estimated revenue adjustments to Medicare revenue.

We believe there is a certain level of collectibility risk associated with non-Medicare payors. To provide for our non-Medicare patient accounts receivable that could become uncollectible in the future, we establish an allowance for doubtful accounts to reduce the carrying amount to its estimated net realizable value.

Medicare Home Health

For our home health patients, our pre-billing process includes verifying that we are eligible for payment from Medicare for the services that we provide to our patients. Our Medicare billing begins with a process to ensure that our billings are accurate through the utilization of an electronic Medicare claim review. We submit a RAP for 60% of our estimated payment for the initial episode at the start of care or 50% of the estimated payment for any subsequent episodes of care contiguous with the first episode for a particular patient. The full amount of the episode is billed after the episode has been completed ("final billed"). The RAP received for that particular episode is then deducted from our final payment. If a final bill is not submitted within the greater of 120 days from the start of the episode, or 60 days from the date the RAP was paid, any RAPs received for that episode will be recouped by Medicare from any other claims in process for that particular provider number. The RAP and final claim must then be resubmitted.

Medicare Hospice

For our hospice patients, our pre-billing process includes verifying that we are eligible for payment from Medicare for the services that we provide to our patients. Our Medicare billing begins with a process to ensure that our billings are accurate through the utilization of an electronic Medicare claim review. We bill Medicare on a monthly basis for the services provided to the patient.

Non-Medicare Home Health, Hospice, and Personal Care

For our non-Medicare patients, our pre-billing process primarily begins with verifying a patient's eligibility for services with the applicable payor. Once the patient has been confirmed for eligibility, we will provide services to the patient and bill the applicable payor. Our review and evaluation of non-Medicare accounts receivable includes a detailed review of outstanding balances and special consideration to concentrations of receivables from particular payors or groups of payors with similar characteristics that would subject us to any significant credit risk. We estimate an allowance for doubtful accounts based upon our assessment of historical and expected net collections, business and economic conditions, trends in payment and an evaluation of collectability based upon the date that the service was provided. Based upon our best judgment, we believe the allowance for doubtful accounts adequately provides for accounts that will not be collected due to credit risk.

Property and Equipment

Property and equipment is stated at cost and we depreciate it on a straight-line basis over the estimated useful lives of the assets. Additionally, we have internally developed computer software for our own use. Additions and improvements (including interest costs for construction of qualifying long-lived assets) are capitalized. Maintenance and repair expenses are charged to expense as incurred. The cost of property and equipment sold or disposed of and the related accumulated depreciation are eliminated from the property and related accumulated depreciation accounts, and any gain or loss is credited or charged to other general and administrative expenses.

We consider our reporting units to represent asset groups for purposes of testing long-lived assets for impairment. We assess the impairment of a long-lived asset group whenever events or changes in circumstances indicate that the asset's carrying value may not be recoverable. Factors we consider important that could trigger an impairment review include but are not limited to the following:

- A significant change in the extent or manner in which the long-lived asset group is being used.
- A significant change in the business climate that could affect the value of the long-lived asset group.
- A significant change in the market value of the assets included in the asset group.

If we determine that the carrying value of long-lived assets may not be recoverable, we compare the carrying value of the asset group to the undiscounted cash flows expected to be generated by the asset group. If the carrying value exceeds the undiscounted cash flows, an impairment charge is indicated. An impairment charge is recognized to the extent that the carrying value of the asset group exceeds its fair value.

We generally provide for depreciation over the following estimated useful service lives.

	Years
Building	39
Leasehold improvements	Lesser of life or lease or expected useful life
Equipment and furniture	3 to 7
Vehicles	5
Computer software	3 to 5

As of December 31, 2014, we had $75.8 million of internally developed software costs related to the development of AMS3 Home Health and Hospice ("AMS3"). Expanded beta testing to additional sites in February of 2015 demonstrated that AMS3 was disruptive to operations. Additional analysis of the system determined that the system was not ready to be fully implemented and would require significant time and investment to redesign. Therefore, during the three-month period ended March 31, 2015, we made the decision to discontinue AMS3 and recorded a non-cash asset impairment charge of $75.2 million to write-off the software costs incurred related to the development of AMS3.

During 2015, we began the transition of all our care centers from our proprietary operating system to Homecare Homebase ("HCHB"), a leading home health and hospice platform, with all of our care centers operating on HCHB as of December 31, 2016. As part of our conversion process, we determined that a number of assets (primarily laptops) were not compatible with HCHB and had no other alternative or secondary use. As a result, we recorded a non-cash asset impairment charge of $4.4 million to write-off these assets during the three-month period ended December 31, 2016.

During the three-month period ended September 30, 2015, we commenced an active program to sell our corporate headquarters located in Baton Rouge, Louisiana. In accordance with U.S. GAAP, we classified this asset as held for sale and reduced the carrying value of the asset to its estimated fair value less estimated costs to sell the asset; no further depreciation expense for the asset was recorded. As a result, we recorded a non-cash asset impairment charge of $2.1 million during the three-month period ended September 30, 2015. The asset was sold during the three-month period ended December 31, 2015 and the Company now leases equivalent office space.

The following table summarizes the balances related to our property and equipment for 2017 and 2016 (amounts in millions):

	As of December 31,	
	2017	2016
Building and leasehold improvements	7.8	6.9
Equipment and furniture	72.9	71.9
Computer software	97.2	96.8
	177.9	175.6
Less: accumulated depreciation	(146.8)	(138.6)
	$ 31.1	$ 37.0

Depreciation expense for 2017, 2016 and 2015 was $14.4 million, $17.2 million and $20.0 million, respectively.

Goodwill and Other Intangible Assets

Goodwill represents the amount of the purchase price in excess of the fair values assigned to the underlying identifiable net assets of acquired businesses. Goodwill is not amortized, but is subject to an annual impairment test. Tests are performed more frequently if events occur or circumstances change that would more likely than not reduce the fair value of the reporting unit below its carrying amount. These events or circumstances include but are not limited to, a significant adverse change in the business environment; regulatory environment or legal factors; or a substantial decline in market capitalization of our stock.

Each of our operating segments described in Note 14 – Segment Information is considered to represent an individual reporting unit for goodwill impairment testing purposes. We consider each of our home health care centers to constitute an individual business for which discrete financial information is available. However, since these care centers have substantially similar operating and economic characteristics and resource allocation and significant investment decisions concerning these businesses are centralized and the benefits broadly distributed, we have aggregated these care centers and deemed them to constitute a single reporting unit. We have applied this same aggregation principle to our hospice care centers and personal-care care centers and have also deemed them to be a single reporting unit.

During 2017, we performed a qualitative assessment to determine if it is more likely than not that the fair value of the reporting units are less than its carrying value by evaluating relevant events and circumstances including financial performance, market conditions and share price. Based on this assessment, we did not record any goodwill impairment charges and none of the goodwill associated with our various reporting units was considered at risk of impairment as of October 31, 2017. Since the date of our last annual goodwill impairment test, there have been no material developments, events, changes in operating performance or other circumstances that would cause management to believe it is more likely than not that the fair value of any of our reporting units would be less than its carrying amount.

Intangible assets consist of Certificates of Need, licenses, acquired names and non-compete agreements. We amortize non-compete agreements and acquired names that we do not intend to use in the future on a straight-line basis over their estimated useful lives, which is generally three years for non-compete agreements and up to five years for acquired names. Our indefinite-lived intangible assets are reviewed for impairment annually or more frequently if events occur or circumstances change that would more likely than not reduce the fair value of the intangible asset below its carrying amount. During 2017, we performed a qualitative assessment to determine that our indefinite-lived intangible assets were not impaired. There have been no material developments, events, changes in operating performance or other circumstances that would cause management to believe it is more likely than not that the fair value of any of our intangible assets would be less than its carrying amount.

Debt Issuance Costs

We amortize deferred debt issuance costs related to our long-term obligations over its term through interest expense, unless the debt is extinguished, in which case unamortized balances are immediately expensed. We amortized $0.7 million, $0.7 million and $0.8 million in deferred debt issuance costs in 2017, 2016 and 2015, respectively. As of December 31, 2017 and 2016, we had unamortized debt issuance costs of $1.9 million and $2.7 million, respectively, recorded as long-term obligations, less current portion in our accompanying consolidated balance sheets. The unamortized debt issuance costs of $1.9 million at December 31, 2017, will be amortized over a weighted-average amortization period of 2.7 years.

Fair Value of Financial Instruments

The following details our financial instruments where the carrying value and the fair value differ (amounts in millions):

		Fair Value at Reporting Date Using		
Financial Instrument	As of December 31, 2017	Quoted Prices in Active Markets for Identical Items (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Long-term obligations	$ 90.7	$ —	$ 91.8	$ —

The fair value hierarchy is based on three levels of inputs, of which the first two are considered observable and the last unobservable, that may be used to measure fair value. The three levels of inputs are as follows:

- Level 1 – Quoted prices in active markets for identical assets and liabilities.
- Level 2 – Inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.
- Level 3 – Unobservable inputs that are supported by little or no market activity and are significant to the fair value of the assets or liabilities.

Our deferred compensation plan assets are recorded at fair value and are considered a level 2 measurement. For our other financial instruments, including our cash and cash equivalents, patient accounts receivable, accounts payable, payroll and employee benefits and accrued expenses, we estimate the carrying amounts' approximate fair value.

Income Taxes

We use the asset and liability approach for measuring deferred tax assets and liabilities based on temporary differences existing at each balance sheet date using currently enacted tax rates. Our deferred tax calculation requires us to make certain estimates about future operations. Deferred tax assets are reduced by a valuation allowance when we believe it is more likely than not that some portion or all of the deferred tax assets will not be realized. The effect of a change in tax rate is recognized as income or expense in the period that includes the enactment date. As of December 31, 2017 and 2016 our net deferred tax assets were $56.1 million and $107.9 million, respectively. Our net deferred tax asset at December 31, 2017 includes a $21.4 million decrease resulting

from the remeasurement of deferred taxes using the reduced U.S. corporate tax rates included in H.R. 1 (Tax Cuts and Jobs Act) enacted on December 22, 2017.

Management regularly assesses the ability to realize deferred tax assets recorded in the Company's entities based upon the weight of available evidence, including such factors as the recent earnings history and expected future taxable income. In the event future taxable income is below management's estimates or is generated in tax jurisdictions different than projected, we could be required to increase the valuation allowance for deferred tax assets. This would result in an increase in our effective tax rate.

Share-Based Compensation

We record all share-based compensation as expense in the financial statements measured at the fair value of the award. We recognize compensation cost on a straight-line basis over the requisite service period for each separately vesting portion of the award. We reflect the excess tax benefits related to stock option exercises as financing cash flows. Share-based compensation expense for 2017, 2016 and 2015 was $16.3 million, $16.4 million and $11.8 million, respectively, and the total income tax benefit recognized for these expenses was $6.4 million, $6.4 million and $4.7 million, respectively.

Weighted-Average Shares Outstanding

Net income (loss) per share attributable to Amedisys, Inc. common stockholders, calculated on the treasury stock method, is based on the weighted average number of shares outstanding during the period. The following table sets forth, for the periods indicated, shares used in our computation of the weighted-average shares outstanding, which are used to calculate our basic and diluted net income (loss) attributable to Amedisys, Inc. common stockholders (amounts in thousands):

	For the Years Ended December 31,		
	2017	2016	2015
Weighted average number of shares outstanding – basic	33,704	33,198	33,018
Effect of dilutive securities:			
Stock options	281	162	—
Non-vested stock and stock units	319	381	—
Weighted average number of shares outstanding – diluted	34,304	33,741	33,018
Anti-dilutive securities	271	221	922

Advertising Costs

We expense advertising costs as incurred. Advertising expense for 2017, 2016 and 2015 was $6.5 million, $7.8 million and $6.9 million, respectively.

Recently Issued Accounting Pronouncements

In May 2014, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2014-09, *Revenue from Contracts with Customers (Topic 606)*, which requires an entity to recognize the amount of revenue for which it expects to be entitled for the transfer of promised goods or services to customers. The ASU will replace most existing revenue recognition guidance in U.S. GAAP. In August 2015, the FASB issued ASU 2015-14, *Revenue from Contracts with Customers (Topic 606): Deferral of the Effective Date*, to defer the effective date of the standard from January 1, 2017, to January 1, 2018, with an option that permits companies to adopt the standard as early as the original effective date. The new ASU reflects the decisions reached by the FASB at its meeting in July 2015. Early application prior to the original effective date is not permitted. The standard permits the use of either the retrospective or cumulative effect transition method. The Company will retrospectively adopt ASU 2014-09 and ASU 2015-14 (collectively, "ASC 606") on January 1, 2018 and as a result, substantially all amounts that were previously presented as provision for doubtful accounts in our consolidated statements of operations will now be considered an implicit price concession resulting in a reduction in net service revenue. Except for this adjustment, the company does not expect a material impact on its consolidated financial statements upon implementation of ASC 606 on January 1, 2018.

In April 2015, the FASB issued ASU 2015-03, *Interest—Imputation of Interest (Subtopic 835-30): Simplifying the Presentation of Debt Issuance Costs*. The amendments in this ASU required that debt issuance costs related to a recognized debt liability be presented in the balance sheet as a direct deduction from the carrying amount of that debt liability, consistent with debt discounts. The recognition and measurement guidance for debt issuance costs are not affected by the amendments in this ASU. ASU 2015-03 was effective for annual and interim periods beginning on or after December 15, 2015. We adopted this ASU during the three-month period ended March 31, 2016, and applied the change retrospectively for prior period balances of unamortized debt issuance

costs, resulting in a $3.4 million reduction in other assets, net and long-term obligations, less current portion, on our consolidated balance sheet as of December 31, 2015.

In February 2016, the FASB issued ASU 2016-02, *Leases (Topic 842),* which will require lessees to recognize a lease liability and right-of-use asset for all leases (with the exception of short-term leases) at the commencement date. The ASU is effective for annual and interim periods beginning on or after December 15, 2018. Early adoption is permitted. The standard requires a modified retrospective transition method which requires application of the new guidance for all periods presented. While the Company expects adoption of this standard to lead to a material increase in the assets and liabilities recorded on our balance sheet, we are still evaluating the overall impact on our consolidated financial statements and related disclosures and the effect of the standard on our ongoing financial reporting.

In March 2016, the FASB issued ASU 2016-09, *Compensation – Stock Compensation (Topic 718): Improvement to Employee Share-Based Payment Accounting*, which simplified the accounting for share-based payment award transactions, including income tax consequences, classification of awards as either equity or liability, and classification on the statement of cash flows. The ASU was effective for annual and interim periods beginning after December 15, 2016. We adopted this ASU effective January 1, 2017, and as a result, we recorded a $0.4 million increase to our non-current deferred tax asset and retained earnings for tax benefits that were not previously recognized under the prior rules. Additionally, on a prospective basis, we recorded excess tax benefits as a discrete item in our income tax provision within our consolidated statements of operations. We recorded excess tax benefits of $3.2 million within our consolidated statements of operations for the year ended December 31, 2017, respectively. Historically these amounts were recorded as additional paid-in capital in our consolidated balance sheet. We also elected to prospectively apply the change to the presentation of cash payments made to taxing authorities on the employees' behalf for shares withheld upon stock vesting on our consolidated statements of cash flows for the year ended December 31, 2017. We have also elected to continue our current policy of estimating forfeitures of stock-based compensation awards at grant date and revising in subsequent periods to reflect actual forfeitures.

In August 2016, the FASB issued ASU 2016-15, *Statement of Cash Flows (Topic 230): Classification of Certain Cash Receipts and Cash Payments*, which provides specific guidance on eight cash flow classification issues not specifically addressed by U.S. GAAP. The ASU is effective for annual and interim periods beginning after December 15, 2017. Early adoption is permitted. The standard should be applied using a retrospective transition method unless it is impractical to do so for some of the issues. In such case, the amendments for those issues would be applied prospectively as of the earliest date practicable. The Company does not expect an impact on its consolidated financial statements and related disclosures upon implementation of ASU 2016-15 on January 1, 2018.

In January 2017, the FASB issued ASU 2017-01, *Business Combinations (Topic 805): Clarifying the Definition of a Business*, which provides guidance to assist entities with evaluating whether transactions should be accounted for as acquisitions or disposals of assets or businesses. The ASU is effective for annual and interim periods beginning after December 15, 2017. We intend to implement ASU 2017-01 on January 1, 2018; the impact of implementation on our consolidated financial statements and related disclosures will depend on the facts and circumstances of any specific future transactions.

In January 2017, the FASB issued ASU 2017-04, *Intangibles - Goodwill and Other (Topic 350) - Simplifying the Test for Goodwill Impairment*, which eliminates the requirement to calculate the implied fair value of goodwill to measure a goodwill impairment charge (Step 2 of the goodwill impairment test). Instead, impairment will be measured using the difference of the carrying amount to the fair value of the reporting unit. The ASU is effective for annual and interim periods beginning after December 15, 2019. Early adoption is permitted. The Company is evaluating the effect that ASU 2017-04 will have on its consolidated financial statements and related disclosures and the effect of the standard on its ongoing financial reporting.

3. ACQUISITIONS

We complete acquisitions from time to time in order to pursue our strategy of increasing our market presence by expanding our service base and enhancing our position in certain geographic areas as a leading provider of home health, hospice and personal care services. The purchase price paid for acquisitions is negotiated through arm's length transactions, with consideration based on our analysis of, among other things, comparable acquisitions and expected cash flows. Acquisitions are accounted for as purchases and are included in our consolidated financial statements from their respective acquisition dates. Goodwill generated from acquisitions is recognized for the excess of the purchase price over tangible and identifiable intangible assets because of the expected contributions of the acquisitions to our overall corporate strategy. We typically engage outside appraisal firms to assist in the fair value determination of identifiable intangible assets. Preliminary purchase price allocation is adjusted, as necessary, up

to one year after the acquisition closing date if management obtains more information regarding asset valuation and liabilities assumed.

2017 Acquisitions

Personal Care Division

On February 1, 2017, we acquired the assets of Home Staff, L.L.C. which owns and operates three personal-care care centers servicing the state of Massachusetts for a total purchase price of $4.0 million (subject to certain adjustments), of which $0.4 million was placed in a promissory note to be paid over 24 months, subject to any offsets or withholds for indemnification purposes. The purchase price was paid with cash on hand on the date of the transaction. During the three-month period ended March 31, 2017, we recorded goodwill ($3.8 million), other intangibles - non-compete agreements ($0.2 million) and other assets and liabilities, net ($0.5 million) in connection with the acquisition. We expect the entire amount of goodwill recorded for this acquisition to be deductible for income tax purposes over approximately 15 years.

On October 1, 2017, we acquired the assets of Intercity Home Care which owns and operates four personal-care care centers servicing the state of Massachusetts for a total purchase price of $9.6 million (subject to certain adjustments), of which $1.0 million was placed in escrow for indemnification purposes and working capital price adjustments. The purchase price was paid with cash on hand on the date of the transaction. During the three-month period ended December 31, 2017, we recorded goodwill ($9.1 million), other intangibles - non-compete agreements ($0.4 million) and other assets and liabilities, net ($0.1 million) in connection with the acquisition. We expect the entire amount of goodwill recorded for this acquisition to be deductible for income tax purposes over approximately 15 years.

Home Health and Hospice Divisions

On May 1, 2017, we acquired three home health care centers (one in each Illinois, Massachusetts, and Texas) and two hospice care centers (one in each Arizona and Massachusetts) from Tenet Healthcare for a total purchase price of $20.5 million, (subject to certain adjustments). The purchase price was paid with cash on hand on the date of the transaction. Based on our preliminary purchase price allocation, we recorded goodwill ($20.9 million) and other assets and liabilities, net ($0.8 million) in connection with this acquisition during the three-month period ended June 30, 2017. During the three-month period ended December 31, 2017, we received the final report from our outside appraisal firm. As a result, we reduced our preliminary goodwill by $2.8 million and recorded corresponding increases in other intangibles - Medicare licenses ($0.1 million) and other intangibles - acquired names of business ($2.7 million). We expect the entire amount of goodwill recorded for this acquisition to be deductible for income tax purposes over approximately 15 years.

The following table contains unaudited pro forma condensed consolidated statement of operations information for the years ended December 31, 2017 and 2016 assuming that our 2017 acquisitions closed on January 1, 2016 (amounts in millions, except per share data):

	2017	2016
Net service revenue	$ 1,557.6	$ 1,501.5
Operating income (loss)	78.7	59.7
Net income	30.8	39.0
Basic earnings (loss) per share	$ 0.90	$ 1.16
Diluted earnings (loss) per share	$ 0.89	$ 1.15

The pro forma information presented above includes adjustments for (i) amortization of identifiable intangible assets and (ii) income tax provision using the Company's statutory tax rate. This pro forma information is presented for illustrative purposes only and may not be indicative of the results of operations that would have actually occurred. In addition, future results may vary significantly from the results reflected in the pro forma information.

2016 Acquisitions

Personal Care Division

On March 1, 2016, we acquired Associated Home Care ("AHC") for a total purchase price of $27.7 million, net of cash acquired (subject to certain adjustments), of which $0.5 million was placed in escrow for indemnification purposes and working capital price adjustments. The purchase price was paid with cash on hand on the date of the transaction. AHC owned and operated nine personal-care care centers servicing the state of Massachusetts. In connection with the acquisition, we recorded goodwill ($18.5 million), other intangibles ($4.8 million) and other assets and liabilities, net ($4.4 million). We expect the entire amount of goodwill recorded for this acquisition to be deductible for income tax purposes over approximately 15 years.

On September 1, 2016, we acquired the assets of Professional Profiles, Inc. ("PPI") for a total purchase price of $4.4 million, (subject to certain adjustments), of which $0.7 million was placed in a promissory note to be paid over 24 months, subject to any offsets or withholds for indemnification purposes. PPI owned and operated four personal-care care centers servicing the state of Massachusetts. In connection with the acquisition, we recorded goodwill ($4.2 million) and other intangibles – non-compete agreements ($0.2 million). We expect the entire amount of goodwill recorded for this acquisition to be deductible for income tax purposes over approximately 15 years.

Home Health Division

On October 20, 2016, we acquired the assets of a former nonprofit organization in New York for a purchase price of $4.6 million. In connection with the acquisition, we recorded goodwill ($4.4 million) and other intangibles – certificate of need ($0.2 million). We expect the entire amount of goodwill recorded for this acquisition to be deductible for income tax purposes over approximately 15 years.

2015 Acquisitions

Hospice Division

On July 24, 2015, we acquired one hospice care center in Tennessee for a total purchase price of $5.8 million. The purchase price was paid with cash on hand on the date of the transaction. In connection with the acquisition, we recorded goodwill ($5.5 million) and other intangibles ($0.3 million).

Home Health Division

On October 2, 2015, we acquired the assets of a home health care center in Georgia for a total purchase price of $0.3 million. The purchase price was paid with cash on hand on the date of the transaction. In connection with the acquisition, we recorded goodwill ($0.3 million).

On December 31, 2015, we acquired Infinity HomeCare ("Infinity") for a total purchase price of $63 million, net of cash acquired (subject to certain adjustments), of which $3.2 million was placed in escrow for indemnification purposes and working capital price adjustments. The purchase price was paid with cash on hand on the date of the transaction. Infinity owned and operated 15 home health care centers servicing the state of Florida. In connection with the acquisition, we recorded goodwill ($50.2 million), other intangibles ($10.9 million) and other assets and liabilities, net ($1.9 million). Approximately $47.6 million of the $50.2 million recorded as goodwill is expected to be deductible for income tax purposes over approximately 15 years.

4. GOODWILL AND OTHER INTANGIBLE ASSETS, NET

During 2017, we did not record any goodwill impairment charges as a result of our annual impairment test and none of the goodwill associated with our various reporting units were considered at risk of impairment as of October 31, 2017. Since the date of our last annual goodwill impairment test, there have been no material developments, events, changes in operating performance or other circumstances that would cause management to believe it is more likely than not that the fair value of any of our reporting units would be less than its carrying amount.

During 2017, we recorded a non-cash impairment charge of $1.3 million related to those care centers that were closed or consolidated during 2017 as discussed in Note 12 - Exit and Restructuring Activities.

During the fiscal year 2016, we did not record any goodwill impairment charges as a result of our annual impairment test and none of the goodwill associated with our various reporting units were considered at risk of impairment.

During the fiscal year 2015, we did not record any goodwill impairment charges as a result of our annual impairment test and none of the goodwill associated with our various reporting units were considered at risk of impairment.

The following table summarizes the activity related to our goodwill for 2017, 2016 and 2015 (amounts in millions):

	Goodwill			
	Home Health	Hospice	Personal Care	Total
Balances at December 31, 2014	$ 16.5	$ 189.1	$ —	$ 205.6
Additions	50.6	5.5	—	56.1
Balances at December 31, 2015	67.1	194.6	—	261.7
Additions	4.4	—	22.7	27.1
Adjustments related to acquisitions (1)	0.1	—	—	0.1
Balances at December 31, 2016	71.6	194.6	22.7	288.9
Additions	13.4	4.7	12.9	31.0
Balances at December 31, 2017	$ 85.0	$ 199.3	$ 35.6	$ 319.9

(1) During 2016, we adjusted goodwill by $0.1 million as a result of our completion of the purchase price accounting for our 2015 acquisition of Infinity.

The following table summarizes the activity related to our other intangible assets, net for 2017, 2016 and 2015 (amounts in millions):

	Other Intangible Assets, Net			
	Certificates of Need and Licenses	Acquired Names of Business	Non-Compete Agreements (2)	Total
Balances at December 31, 2014	$ 23.1	$ 10.1	$ —	$ 33.2
Additions	1.1	4.1	5.9	11.1
Write-off	(0.3)	—	—	(0.3)
Balances at December 31, 2015	23.9	14.2	5.9	44.0
Additions	0.2	3.5	1.5	5.2
Amortization	—	—	(2.5)	(2.5)
Balances at December 31, 2016	24.1	17.7	4.9	46.7
Additions	0.1	2.7	0.6	3.4
Write-off (1)	(0.5)	(0.8)	—	(1.3)
Amortization	—	—	(2.7)	(2.7)
Balances at December 31, 2017	$ 23.7	$ 19.6	$ 2.8	$ 46.1

(1) Write-off of intangible assets related to the closure and consolidation of care centers as discussed in Note 12 - Exit and Restructuring Activities.
(2) The weighted average amortization period of our non-compete agreements is 1.3 years.

See Note 3 – Acquisitions for further details on additions to goodwill and other intangible assets, net.

The estimated aggregate amortization expense related to intangible assets for each of the five succeeding years is as follows (amounts in millions):

2018	$ 2.4
2019	0.3
2020	0.1
2021	—
2022	—
	$ 2.8

5. DETAILS OF CERTAIN BALANCE SHEET ACCOUNTS

Additional information regarding certain balance sheet accounts is presented below (amounts in millions):

	As of December 31,	
	2017	2016
Other current assets:		
Payroll tax escrow	$ 7.2	$ 6.7
Income tax receivable	3.4	1.3
Due from joint ventures	2.0	1.7
Other	3.7	1.6
	$ 16.3	$ 11.3
Other assets:		
Workers' compensation deposits	$ 0.4	$ 0.4
Health insurance deposits	0.5	0.5
Other miscellaneous deposits	0.9	0.9
Indemnity receivable	17.0	4.9
Investments	26.4	27.8
Other	3.9	4.0
	$ 49.1	$ 38.5
Accrued expenses:		
Health insurance	$ 14.1	$ 10.6
Workers' compensation	29.3	26.8
Florida ZPIC audit, gross liability	17.4	—
Legal and other settlements	6.4	5.7
Lease liability	0.9	0.4
Charity care	1.5	1.4
Estimated Medicare cap liability	0.9	0.8
Hospice cost of revenue	9.1	7.2
Patient liability	5.3	4.3
Other	4.2	6.1
	$ 89.1	$ 63.3
Other long-term obligations:		
Reserve for uncertain tax positions	$ —	$ 0.3
Deferred compensation plan liability	1.9	1.8
Other	1.9	1.6
	$ 3.8	$ 3.7

6. LONG-TERM OBLIGATIONS

Long-term debt consisted of the following for the periods indicated (amounts in millions):

	As of December 31,	
	2017	2016
$100.0 million Term Loan; principal payments plus accrued interest payable quarterly; interest rate at ABR Rate plus applicable percentage or Eurodollar Rate plus the applicable percentage (3.57% at December 31, 2017); due August 28, 2020	$ 90.0	$ 95.0
$200.0 million Revolving Credit Facility; interest only quarterly payments; interest rate at ABR Rate plus applicable percentage or Eurodollar Rate plus the applicable percentage; due August 28, 2020	—	—
Promissory notes	0.7	0.7
Principal amount of long-term obligations	90.7	95.7
Deferred debt issuance costs	(1.9)	(2.7)
	88.8	93.0
Current portion of long-term obligations	(10.6)	(5.2)
Total	$ 78.2	$ 87.8

Maturities of debt as of December 31, 2017 are as follows (amounts in millions):

	Long-term obligations
2018	$ 10.6
2019	10.1
2020	70.0
2021	—
2022	—
	$ 90.7

Credit Agreement

On August 28, 2015, we entered into a Credit Agreement that provides for senior secured facilities in an initial aggregate principal amount of up to $300 million (the "Credit Facilities").

The Credit Facilities are comprised of (a) a term loan facility in an initial aggregate principal amount of $100 million (the "Term Loan"); and (b) a revolving credit facility in an initial aggregate principal amount of up to $200 million (the "Revolving Credit Facility"). The Revolving Credit Facility provides for and includes within its $200 million limit a $25 million swingline facility and commitments for up to $50 million in letters of credit. Upon lender approval, we may increase the aggregate loan amount under the Credit Facilities by a maximum amount of $150 million.

The net proceeds of the Term Loan and existing cash on hand were used to pay off (i) our existing term loan under our prior Credit Agreement, dated as of October 22, 2012, as amended (the "Prior Credit Agreement") with a principal balance of $27 million and (ii) our existing term loan under our prior Second Lien Credit Agreement dated July 28, 2014 (the "Second Lien Credit Agreement"), with a principal balance of $70 million. The final maturity of the Term Loan is August 28, 2020. The Term Loan began amortizing on March 31, 2016 and will continue amortizing over 10 quarterly installments (eight remaining quarterly installments of $2.5 million beginning March 31, 2018, followed by two quarterly installments of $3.1 million beginning March 31, 2020, subject to adjustment for prepayments), with the remaining balance due upon maturity.

The Revolving Credit Facility may be used to provide ongoing working capital and for general corporate purposes of the Company and our subsidiaries, including permitted acquisitions, as defined in the Credit Agreement. The final maturity of the Revolving Credit Facility is August 28, 2020 and will be payable in full at that time.

The interest rate in connection with the Credit Facilities shall be selected from the following by us: (i) the Base Rate plus the Applicable Rate or (ii) the Eurodollar Rate plus the Applicable Rate. The "Base Rate" means a fluctuating rate per annum equal to the highest of (a) the federal funds rate plus 0.50% per annum, (b) the prime rate of interest established by the Administrative Agent, and (c) the Eurodollar Rate for an interest period of one month plus 1% per annum. The "Eurodollar Rate" means the rate at which Eurodollar deposits in the London interbank market for an interest period of one, two, three or six months (as selected by us) are quoted. The "Applicable Rate" is based on the consolidated leverage ratio and is presented in the table below. As of

December 31, 2017, the Applicable Rate is 1.00% per annum for Base Rate Loans and 2.00% per annum for Eurodollar Rate Loans. We are also subject to a commitment fee and letter of credit fee under the terms of the Credit Facilities, as presented in the table below.

Consolidated Leverage Ratio	Margin for ABR Loans	Margin for Eurodollar Loans	Commitment Fee	Letter of Credit Fee
≥ 2.75 to 1.0	2.00%	3.00%	0.40%	3.00%
< 2.75 to 1.0 but ≥ 1.75 to 1.0	1.50%	2.50%	0.35%	2.50%
< 1.75 to 1.0 but ≥ 0.75 to 1.0	1.00%	2.00%	0.30%	2.00%
< 0.75 to 1.0	0.50%	1.50%	0.25%	1.50%

Our weighted average interest rate for our $100.0 million Term Loan, under our Credit Agreement, was 3.1% and 2.5% for the period ended December 31, 2017 and December 31, 2016, respectively. Our weighted average interest rate for our $200.0 million Revolving Credit Facility was 3.5% for the period ended December 31, 2016.

As of December 31, 2017, our availability under our $200.0 million Revolving Credit Facility was $167.3 million as we had $32.7 million outstanding in letters of credit.

The Credit Agreement requires maintenance of two financial covenants: (i) a consolidated leverage ratio of funded indebtedness to EBITDA, as defined in the Credit Agreement, and (ii) a consolidated fixed charge coverage ratio of EBITDA plus rent expense (less cash taxes less capital expenditures) to scheduled debt repayments plus interest expense plus rent expense, all as defined in the Credit Agreement. Each of these covenants is calculated over rolling four-quarter periods and also is subject to certain exceptions and baskets. As of December 31, 2017, our consolidated leverage ratio was 0.9 and our consolidated fixed charge coverage ratio was 4.4 and we are in compliance with the Credit Agreement. The Credit Agreement also contains customary covenants, including, but not limited to, restrictions on: incurrence of liens; incurrence of additional debt; sales of assets and other fundamental corporate changes; investments; and declarations of dividends. These covenants contain customary exclusions and baskets.

The Credit Facilities are guaranteed by substantially all of our wholly-owned direct and indirect subsidiaries. The Credit Agreement requires at all times that we (i) provide guarantees from wholly-owned subsidiaries that in the aggregate represent not less than 95% of our consolidated net revenues and adjusted EBITDA from all wholly-owned subsidiaries and (ii) provide guarantees from subsidiaries that in the aggregate represent not less than 70% of consolidated adjusted EBITDA, subject to certain exceptions.

In connection with entering into the Credit Agreement, we entered into (i) a Security Agreement with the Administrative Agent dated August 28, 2015 and (ii) a Pledge Agreement with the Administrative Agent dated as of August 28, 2015 for the purpose of securing the payment of our obligations under the Credit Agreement. Pursuant to the Security Agreement and the Pledge Agreement, as of the effective date of the Credit Agreement, our obligations under the Credit Agreement are secured by (i) the grant of a first lien security interest in the non-real estate assets of substantially all of our direct and indirect, wholly-owned subsidiaries (subject to exceptions) and (ii) the pledge of the equity interests in (a) substantially all of our direct and indirect, wholly-owned corporate, limited liability company and limited partnership subsidiaries and (b) those joint ventures which constitute subsidiaries under the Credit Agreement (subject, in the case of the Pledge Agreement, to exceptions).

In connection with our entry into the Credit Agreement, on August 28, 2015, each of the Prior Credit Agreement and the Second Lien Credit Agreement were terminated. The Company paid a call premium of $700,000 associated with the termination of the Second Lien Credit Agreement and the voluntary prepayment of the amounts owed thereunder as of August 28, 2015, and expensed $2.5 million in deferred debt issuance costs during the three-month period ended September 30, 2015. Also in connection with our entry into the Credit Agreement, we recorded $2.4 million in deferred debt issuance costs as other assets in our consolidated balance sheet during 2015 which was reclassified to long-term obligations, less current portion during 2016 in accordance with ASU 2015-03.

Promissory Notes

Our promissory notes outstanding of $0.7 million, issued in conjunction with acquisitions, bear an interest rate in a range of 2.6% to 2.9%.

7. INCOME TAXES

Income taxes attributable to continuing operations consist of the following (amounts in millions):

	For the Years Ended December 31,		
	2017	2016	2015
Current income tax expense/(benefit):			
Federal	$ (2.0)	$ (0.5)	$ 2.2
State and local	(0.1)	(0.1)	0.5
	(2.1)	(0.6)	2.7
Deferred income tax expense/(benefit):			
Federal	51.2	22.1	(0.5)
State and local	1.0	2.4	(0.1)
Foreign	—	—	(0.1)
	52.2	24.5	(0.7)
Income tax expense	$ 50.1	$ 23.9	$ 2.0

Total income tax expense for the years ended December 31, 2017, 2016 and 2015 was allocated as follows (amounts in millions):

	For the Years Ended December 31,		
	2017	2016	2015
Income from continuing operations	$ 50.1	$ 23.9	$ 2.0
Interest expense	—	(0.1)	0.2
Goodwill	—	—	(0.1)
Stockholders' equity	(0.3)	(7.2)	(2.1)
	$ 49.8	$ 16.6	$ —

A reconciliation of significant differences between the reported amount of income tax expense and the expected amount of income tax expense that would result from applying the U.S. federal statutory income tax rate of 35 percent to income before taxes is as follows:

	For the Years Ended December 31,		
	2017	2016	2015 (1)
Income tax expense at U.S. federal statutory rate	35.0%	35.0%	35.0 %
State and local income taxes, net of federal income tax benefit	3.8	4.8	(7.1)
Excess tax benefits from share-based compensation (2)	(3.5)	—	—
Valuation allowance	0.2	0.1	79.1
Tax credits	(0.8)	(0.6)	136.0
Tax rate change (3)	26.5	—	—
Uncertain tax positions	(0.3)	(1.0)	(230.3)
Other items, net (4)	1.1	0.6	(663.3)
Income tax expense/(benefit)	62.0%	38.9%	(650.6)%

(1) The information provided for the year ended December 31, 2015 does not provide a meaningful reconciliation of the effective tax rate or comparable to other periods. The effective tax rate for the year is influenced by the relationship of the amount of "effective tax rate drivers" (i.e. non-deductible expenses, non-taxable income, tax credits, valuation allowance, uncertain tax positions, etc.) to income or loss before taxes. A significant asset impairment was recorded in the first quarter of 2015, resulting in a scenario where the company's loss before tax for the year was near zero. Consequently, for 2015, the relationship between the "effective tax rate drivers" and loss before taxes is distorted.

(2) In March 2016, the FASB issued ASU 2016-09, *Compensation - Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting*, which simplified the accounting for share-based payment award transactions, including income tax consequences. The new guidelines required excess tax benefits and tax deficiencies to be recorded in the income statement when stock awards vest or are settled. As a result, the Company recognized a $2.9 million federal income tax benefit in the consolidated statement of operations (rather than additional paid-in capital) for the year ended December 31, 2017 from share-based compensation excess tax benefits.

(3) On December 22, 2017, H.R. 1 (Tax Cuts and Jobs Act), which reduces the U.S. federal corporate tax rate to 21% from 35%, effective January 1, 2018 was enacted. According to ASC 740, *Income Taxes*, deferred tax assets and liabilities are remeasured to reflect the effects of enacted changes in tax rates at the date of enactment, even though the tax rate changes are not effective until a future period. The Company's remeasurement of its deferred tax assets and liabilities to reflect the enacted reduced tax rate resulted in a $21.4 million deferred income tax expense during the three-month period ended December 31, 2017.

(4) Includes various items such as, non-deductible expenses, non-taxable income and return-to-accrual adjustments.

As of December 31, 2017 and 2016, the Company had income taxes receivable of $3.4 million and $1.3 million, respectively, included in other current assets. The income tax receivable at December 31, 2017 includes a $2.3 million Alternative Minimum Tax (AMT) Credit carryforward. The Tax Cuts and Jobs Act repeals the AMT for corporations and makes it refundable in years 2018 through 2020. Since the AMT credit carryforward is refundable from 2018 through 2020 and the company plans to utilize its AMT credit carryforward to reduce taxable income in 2018, the AMT credit carryforward was reclassified from deferred tax assets to other current assets as of December 31, 2017.

Deferred tax assets (liabilities) consist of the following components (amounts in millions):

	As of December 31,	
	2017 (1)	2016
Deferred tax assets:		
Allowance for doubtful accounts	$ 5.3	$ 6.9
Accrued payroll & employee benefits	9.0	11.4
Workers' compensation	7.9	10.9
Amortization of intangible assets	26.0	56.3
Share-based compensation	6.1	7.8
Net operating loss carryforwards (2)	20.1	44.2
Tax credit carryforwards (3)	4.6	4.8
Other	2.4	1.1
Gross deferred tax assets	81.4	143.4
Less: valuation allowance	(0.7)	(0.4)
Net deferred tax assets	80.7	143.0
Deferred tax (liabilities):		
Property and equipment	(4.0)	(7.8)
Deferred revenue	(18.0)	(23.2)
Investment in partnerships	(2.1)	(3.2)
Other liabilities	(0.5)	(0.9)
Gross deferred tax liabilities	(24.6)	(35.1)
Net deferred tax assets (liabilities)	$ 56.1	$ 107.9

(1) On December 22, 2017, H.R. 1 (Tax Cuts and Jobs Act), which reduces the U.S. federal corporate tax rate to 21% from 35%, effective January 1, 2018, was enacted. According to ASC 740, *Income Taxes*, deferred tax assets and liabilities are remeasured to reflect the effects of enacted changes in tax rates at the date of enactment, even though the tax rate changes are not effective until a future period. The Company's remeasurement of its deferred tax assets and liabilities to reflect the enacted reduced tax rate resulted in a $21.4 million deferred income tax expense during the three-month period ended December 31, 2017.

(2) The net operating loss ("NOL") carry forwards in the income tax returns include unrecognized tax benefits resulting from uncertain tax positions. Accordingly, the deferred tax assets recognized for the NOL carry forwards, as of December 31, 2017 and 2016, are presented net of unrecognized tax benefits of $2.1 million and $3.1 million, respectively.

(3) The tax credit carry forwards in the income tax returns include unrecognized tax benefits resulting from uncertain tax positions. Accordingly, the deferred tax assets recognized for the tax credit carry forwards are presented net of unrecognized tax benefits of $0.7 million for each of the years ended December 31, 2017 and 2016.

As of December 31, 2017, we have U.S. net operating loss ("NOL") carry forwards of $52.6 million that are available to reduce future taxable income and begin to expire in 2034. In addition, we have research and development tax credits and employment tax credits of $1.9 million and $0.4 million, respectively, available to reduce future U.S. federal income taxes which begin to expire in 2032.

As of December 31, 2017, we have state NOL carry forwards of $223.0 million that are available to reduce future taxable income. In addition, we have $3.8 million of various state tax credits available to reduce future taxable income. The state NOL and tax credit carry forwards begin to expire at various times.

The valuation allowance for deferred tax assets as of December 31, 2017 and 2016 was $0.7 million and $0.4 million, respectively. The net change in the total valuation allowance for the year ended December 31, 2017 and December 31, 2016 was an increase of $0.3 million and $0.1 million, respectively. The valuation allowance is primarily related to certain state NOL and state tax credit carry forwards.

In assessing the realizability of deferred tax assets, management considers whether it is more likely than not that some portion or all of the deferred tax assets will not be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income in those jurisdictions during the periods in which those temporary differences become deductible. Management considers the scheduled reversal of deferred tax liabilities (including the impact of available carry back and carry forward periods), projected future taxable income, and tax-planning strategies in making this assessment. In order to fully realize the deferred tax assets, the Company will need to generate future taxable income before the expiration of the carry forwards governed by the tax code. Based on the current level of pretax earnings, the Company will generate the minimum amount of future taxable income needed to support the realization of the deferred tax assets. As a result, as of December 31, 2017, management believes that it is more likely than not that we will realize the benefits of these deferred tax assets, net of the existing valuation allowances. The amount of the deferred tax asset considered realizable, however, could be reduced in the near term if estimates of future taxable income during the carry forward period are reduced.

Uncertain Tax Positions

We account for uncertain tax positions in accordance with the authoritative guidance for uncertain tax positions. A reconciliation of the beginning and ending amount of unrecognized tax benefits is as follows (amounts in millions):

	For the Years Ended December 31,	
	2017	2016
Balance at beginning of period	$ 4.1	$ 4.7
Additions for tax positions related to current year	—	—
Additions for tax positions related to prior year	—	—
Reductions for tax positions related to prior years	—	—
Lapse of statute of limitations	(0.3)	(0.6)
Change in statutory tax rate	(1.1)	—
Settlements	—	—
Balance at end of period	$ 2.7	$ 4.1

The Company's remeasurement of its deferred tax assets and liabilities to reflect the enacted reduced tax rate as a result of the recent tax reform resulted in a $1.1 million reduction in its uncertain tax positions recorded in net deferred tax assets at December 31, 2017. As of December 31, 2017, there is $2.7 million of unrecognized tax benefits recorded in deferred income taxes within the consolidated balance sheet that, if recognized in future periods, would impact our effective tax rate.

During the years ended December 31, 2017 and 2016, we recognized less than $(0.1) million and $(0.1) million of interest and penalties, respectively, as components of penalties or interest expense in connection with our reserve for uncertain tax positions. Interest and penalties, related to uncertain tax positions, included in the consolidated balance sheet at December 31, 2017 and 2016 were less than $0.1 million.

We are subject to income taxes in the U.S. and in many of the 50 individual states, with significant operations in Louisiana, Alabama, Georgia, Massachusetts and Tennessee. We are open to examination in the U.S. and in various individual states for tax years ended December 31, 2014 through December 31, 2017. We are also open to examination in various states for the years ended 2001 – 2017 resulting from net operating losses generated and available for carry forward from those years.

8. CAPITAL STOCK AND SHARE-BASED COMPENSATION

We are authorized by our Certificate of Incorporation to issue 60,000,000 shares of common stock, $0.001 par value and 5,000,000 shares of preferred stock, $0.001 par value. As of December 31, 2017, there were 35,747,134 and 33,964,767 shares of common stock issued and outstanding, respectively, and no shares of preferred stock issued or outstanding. Our Board of Directors is

authorized to fix the dividend rights and terms, conversion and voting rights, redemption rights and other privileges and restrictions applicable to our preferred stock.

Share-Based Awards

Our 2008 Omnibus Incentive Compensation Plan (the "Plan") authorizes the grant of various types of equity-based awards, such as stock awards, restricted stock units, stock appreciation rights and stock options to eligible participants, which include all of our employees and all employees of our 50% or more owned subsidiaries, our non-employee directors and certain consultants. The vesting terms of the awards may be tied to continued employment (or, for our non-employee directors, continued service on the Board of Directors) and/or achievement of certain pre-determined performance goals. We refer to stock awards subject to service-based vesting conditions as "non-vested stock" and restricted stock units subject to service-based or a combination of service-based and performance-based vesting conditions as "non-vested stock units." The Plan is administered by the Compensation Committee of our Board of Directors, which determines, within the provisions of the Plan, those eligible employees to whom, and the times at which, awards shall be granted. The Compensation Committee, in its discretion, may delegate its authority and duties under the Plan to specified officers; however, only the Compensation Committee may approve the terms of awards to our executive officers.

Equity-based awards may be granted for a number of shares not to exceed, in the aggregate, approximately 5.5 million shares of common stock, and we had approximately 1.2 million shares available at December 31, 2017. The price per share for stock options shall be of no less than the greater of (a) 100% of the fair value of a share of common stock on the date the option is granted or (b) the aggregate par value of the shares of our common stock on the date the option is granted. If a stock option is granted to any owner of 10% or more of our total combined voting power of us and our subsidiaries, the price is to be at least 110% of the fair value of a share of our common stock on the date the award is granted. Each equity-based award vests ratably over a 12 month to six year period, with the exception of those issued under contractual arrangements that specify otherwise, that may be exercised during a period as determined by our Compensation Committee or as otherwise approved by our Compensation Committee. The contractual terms of stock options exercised shall not exceed ten years from the date such option is granted.

Employee Stock Purchase Plan ("ESPP")

We have a plan whereby our eligible employees may purchase our common stock at 85% of the market price at the time of purchase. On June 7, 2012, our stockholders ratified an amendment adopted by our Board of Directors to increase the total number of shares of our common stock authorized for the issuance under our ESPP from 2,500,000 shares to 4,500,000 shares, and as of December 31, 2017, there were 1,410,511 shares available for future issuance. The following is a detail of the purchases that were made or pending Board of Director approval under the plan:

Employee Stock Purchase Plan Period	Shares Issued	Price
2015 and Prior	2,977,712	$ 14.20
January 1, 2016 to March 31, 2016	13,850	41.09
April 1, 2016 to June 30, 2016	14,236	42.91
July 1, 2016 to September 30, 2016	16,520	40.32
October 1, 2016 to December 31, 2016	16,882	36.24
January 1, 2017 to March 31, 2017	13,244	43.43
April 1, 2017 to June 30, 2017	11,446	53.39
July 1, 2017 to September 30, 2017	12,276	47.57
October 1, 2017 to December 31, 2017	13,323	44.80
	3,089,489	

ESPP expense included in general and administrative expense in our accompanying consolidated statements of operations was 0.4 million for each of 2017, 2016 and 2015, respectively.

Stock Options

We use the Black-Scholes option pricing model to estimate the fair value of our stock options. There were 308,292, 268,538 and 590,647 options granted during 2017, 2016 and 2015, respectively. Stock option compensation expense included in general and administrative expense in our accompanying consolidated statements of operations was $5.6 million, $6.3 million and $3.8 million for 2017, 2016 and 2015, respectively.

The fair value of the 2017 awards were estimated using the following assumptions:

Risk Free Rate	1.99% - 2.16%
Expected Volatility	50.18% - 51.81%
Expected Term	5.78 - 6.25 years
Weighted Average Fair Value	$28.02

We used the simplified method to estimate the expected term for the stock options granted during 2017.

The following table presents our stock option activity for 2017:

	Number of Shares	Weighted Average Exercise Price	Weighted Average Contractual Life (Years)
Outstanding options at January 1, 2017	1,008,157	$ 31.54	8.42
Granted	308,292	43.13	
Exercised	(144,206)	31.58	
Canceled, forfeited or expired	(262,513)	39.18	
Outstanding options at December 31, 2017	909,730	$ 33.25	7.62
Exercisable options at December 31, 2017	381,932	$ 28.73	7.20

The aggregate intrinsic value of our outstanding options and exercisable options at December 31, 2017 was $18.1 million and $9.2 million, respectively. Total intrinsic value of options exercised was $3.9 million and $0.2 million for 2017 and 2015, respectively; there were no options exercised during 2016.

The following table presents our non-vested stock option award activity for 2017:

	Number of Shares	Weighted Average Exercise Price
Non-vested stock options at January 1, 2017	726,699	$ 32.58
Granted	308,292	43.13
Vested	(260,814)	30.54
Forfeited	(246,379)	39.48
Non-vested stock options at December 31, 2017	527,798	$ 36.52

At December 31, 2017, there was $5.8 million of unrecognized compensation cost related to stock options that we expect to be recognized over a weighted-average period of 1.9 years.

Non-Vested Stock

We issue shares of non-vested stock with vesting terms ranging from one to six years. The compensation expense is determined based on the market price of our common stock at the date of grant applied to the total number of shares that are anticipated to fully vest. Non-vested stock compensation expense included in general and administrative expenses in our accompanying consolidated statements of operations was $1.7 million, $2.3 million and $5.0 million for 2017, 2016 and 2015, respectively.

The following table presents our non-vested stock award activity for 2017:

	Number of Shares	Weighted Average Grant Date Fair Value
Non-vested stock at January 1, 2017	209,378	$ 22.20
Granted	19,152	62.67
Vested	(170,292)	21.61
Canceled, forfeited or expired	(11,240)	19.51
Non-vested stock at December 31, 2017	46,998	$ 41.48

The weighted average grant date fair value of non-vested stock granted was $62.67, $50.55 and $28.48 in 2017, 2016 and 2015, respectively.

At December 31, 2017, there was $0.7 million of unrecognized compensation cost related to non-vested stock award payments that we expect to be recognized over a weighted average period of 0.5 years.

Non-Vested Stock Units

We issue non-vested stock unit awards that are service-based, performance-based or a combination of both with vesting terms ranging from one to six years. Based on the terms and conditions of these awards, we determine if the awards should be recorded as either equity or liability instruments. The compensation expense is determined based on the market price of our common stock at the date of grant, applied to the total number of units that are anticipated to vest, unless the award specifies differently. We account for such awards similar to our non-vested stock awards; however, no shares of stock are issued to the recipient until the stock unit awards have vested and after the pre-determined delivery date has occurred.

Non-Vested Stock Units – Service-Based

Service-based non-vested stock unit compensation expense included in general and administrative expenses in our accompanying consolidated statements of operations was $3.6 million, $3.6 million and $1.0 million for 2017, 2016 and 2015, respectively.

The following table presents our service-based non-vested stock units activity for 2017:

	Number of Shares	Weighted Average Grant Date Fair Value
Non-vested stock units at January 1, 2017	249,429	$ 42.05
Granted	126,447	53.79
Vested	(57,106)	42.41
Canceled, forfeited or expired	(83,928)	44.00
Non-vested stock units at December 31, 2017	234,842	$ 47.58

The weighted average grant date fair value of service-based non-vested stock units granted was $53.79, $45.60 and $37.98 in 2017, 2016 and 2015, respectively.

At December 31, 2017, there was $6.7 million of unrecognized compensation cost related to our service-based non-vested stock units that we expect to be recognized over a weighted average period of 2.1 years.

Non-Vested Stock Units – Service-Based and Performance-Based Awards

During 2017, we awarded performance-based awards to certain employees. The target level established by the award, which is based on the Company's 2017 adjusted earnings before interest, taxes and depreciation ("EBITDA"), provided for the recipients to receive 194,109 non-vested stock units if the target was achieved. The target number of shares to be potentially awarded has been reduced by forfeitures as indicated in the table below. Performance-based non-vested stock units compensation expense included in general and administrative expenses in our consolidated statements of operations was $5.0 million, $3.7 million and $1.3 million for 2017, 2016 and 2015, respectively.

The following table presents our performance-based non-vested stock units activity for 2017:

	Number of Shares	Weighted Average Grant Date Fair Value
Non-vested stock units at January 1, 2017	224,857	$ 45.08
Granted	194,109	52.99
Vested	(73,998)	45.23
Canceled, forfeited or expired	(92,020)	47.50
Non-vested stock units at December 31, 2017	252,948	$ 51.15

The weighted average grant date fair value of performance-based non-vested stock units granted was $52.99, $46.29 and $39.54 in 2017, 2016 and 2015, respectively.

At December 31, 2017, there were $7.7 million in unrecognized compensation costs related to our performance-based non-vested stock units that we expect to be recognized over a weighted average period of 2.0 years.

9. COMMITMENTS AND CONTINGENCIES

Legal Proceedings – Ongoing

We are involved in the following legal actions:

Subpoena Duces Tecum Issued by the U.S. Department of Justice

On May 21, 2015, we received a Subpoena Duces Tecum ("Subpoena") issued by the U.S. Department of Justice. The Subpoena requests the delivery of information regarding 53 identified hospice patients to the United States Attorney's Office for the District of Massachusetts. It also requests the delivery of documents relating to our hospice clinical and business operations and related compliance activities. The Subpoena generally covers the period from January 1, 2011, through May 21, 2015. We are fully cooperating with the U.S. Department of Justice with respect to this investigation. Based on the information currently available to us, we cannot predict the timing or outcome of this investigation or reasonably estimate the amount or range of potential losses, if any, which may arise from this matter.

Civil Investigative Demand Issued by the U.S. Department of Justice

On November 3, 2015, we received a civil investigative demand ("CID") issued by the U.S. Department of Justice pursuant to the federal False Claims Act relating to claims submitted to Medicare and/or Medicaid for hospice services provided through designated facilities in the Morgantown, West Virginia area. The CID requests the delivery of information to the United States Attorney's Office for the Northern District of West Virginia regarding 66 identified hospice patients, as well as documents relating to our hospice clinical and business operations in the Morgantown area. The CID generally covers the period from January 1, 2009 through August 31, 2015. We are fully cooperating with the U.S. Department of Justice with respect to this investigation. Based on the information currently available to us, we cannot predict the timing or outcome of this investigation or reasonably estimate the amount or range of potential losses, if any, which may arise from this matter.

On June 27, 2016, we received a CID issued by the U.S. Department of Justice pursuant to the federal False Claims Act relating to claims submitted to Medicare and/or Medicaid for hospice services provided through designated facilities in the Parkersburg, West Virginia area. The CID requests the delivery of information to the United States Attorney's Office for the Southern District of West Virginia regarding 68 identified hospice patients, as well as documents relating to our hospice clinical and business operations in the Parkersburg area. The CID generally covers the period from January 1, 2011 through June 20, 2016. We are fully cooperating with the U.S. Department of Justice with respect to this investigation. Based on the information currently available to us, we cannot predict the timing or outcome of this investigation or reasonably estimate the amount or range of potential losses, if any, which may arise from this matter.

In addition to the matters referenced in this note, we are involved in legal actions in the normal course of business, some of which seek monetary damages, including claims for punitive damages. We do not believe that these normal course actions, when finally concluded and determined, will have a material impact on our consolidated financial condition, results of operations or cash flows.

Legal Proceedings – Settled

Wage and Hour Litigation

On July 25, 2012, a putative collective and class action complaint was filed in the United States District Court for the District of Connecticut against us in which three former employees allege wage and hour law violations. The former employees claim that they were not paid overtime for all hours worked over 40 hours in violation of the Federal Fair Labor Standards Act ("FLSA"), as well as the Pennsylvania Minimum Wage Act. More specifically, they allege they were paid on both a per-visit and an hourly basis, and that such a pay scheme resulted in their misclassification as exempt employees, thereby denying them overtime pay.

On June 10, 2015, the Company and plaintiffs participated in a mediation whereby they agreed to fully resolve all of plaintiffs' claims in the lawsuit for $8.0 million, subject to approval by the Court. As of September 30, 2015, we had an accrual of $8.0 million for this matter. On January 29, 2016, the Court approved the final settlement of this case. The settlement became effective on February 26, 2016. As a result of the final amount calculated by the settlement administrator based on claims timely submitted, we reduced our accrual to $5.3 million as of December 31, 2015; this amount was paid during the three-month period ended March 31, 2016.

On September 13, 2012, a putative collective and class action complaint was filed in the United States District Court for the Northern District of Illinois against us in which a former employee alleges wage and hour law violations. The former employee

claims she was paid on both a per-visit and an hourly basis, and that such a pay scheme resulted in her misclassification as an exempt employee, thereby denying her overtime. The plaintiff alleges violations of federal and state law and seeks damages under the FLSA and the Illinois Minimum Wage Law. On December 23, 2015, the parties agreed to explore the possibility of a mediated settlement of the Illinois case, and a mediation occurred on April 18, 2016. The parties agreed to settle the case for $0.8 million, subject to court approval, which the Company had accrued as of September 30, 2016. On August 4, 2016, the Court approved the final settlement of this case. The final payment of $0.6 million was paid on November 21, 2016.

Frontier Litigation

On April 2, 2015, Frontier Home Health and Hospice, L.L.C. ("Frontier") filed a complaint against the Company in the United States District Court for the District of Connecticut alleging breach of contract, negligent misrepresentation and unfair and deceptive trade practices under Conn. Gen. Stat. §42-110b. Frontier acquired our interest in five home health and four hospice care centers in Wyoming and Idaho in April 2014. The complaint alleges that certain of the hospice patients on service at the time of the acquisition did not meet Medicare eligibility requirements and that we breached certain of the representations and warranties under the purchase agreement and therefore, the businesses were worth less than the purchase price. Under the complaint, Frontier seeks declaratory judgment from the District Court that, under the terms of the purchase agreement with Frontier, we are obligated to determine the amount of the alleged Medicare overpayments and reimburse the government for the same in a timely manner, as well as unspecified compensatory and punitive damages, attorneys' fees and pre- and post-judgment interest. The Company resolved the Frontier litigation for $2.9 million during the three-month period ended December 31, 2016.

Securities Class Action Lawsuits

As previously disclosed, between June 10 and July 28, 2010, several putative securities class action complaints were filed in the United States District Court for the Middle District of Louisiana (the "District Court") against the Company and certain of our former senior executives. The cases were consolidated into the first-filed action *Bach, et al. v. Amedisys, Inc., et al.* Case No. 3:10-cv-00395, and the District Court appointed as co-lead plaintiffs the Public Employees' Retirement System of Mississippi and the Puerto Rico Teachers' Retirement System (the "Co-Lead Plaintiffs").

The Plaintiffs were granted leave to file a First Amended Consolidated Complaint (the "First Amended Securities Complaint") on behalf of all purchasers or acquirers of Amedisys' securities between August 2, 2005 and September 30, 2011. The First Amended Securities Complaint alleges that the Company and seven individual defendants violated Section 10(b), Section 20 (a), and Rule 10b-5 of the Securities Exchange Act of 1934 by materially misrepresenting the Company's financial results and concealing a scheme to obtain higher Medicare reimbursements and additional patient referrals by (1) providing medically unnecessary care to patients, including certifying and re-certifying patients for medically unnecessary 60-day treatment episodes; (2) implementing clinical tracks such as "Balanced for Life" and wound care programs that provided a pre-set number of therapy visits irrespective of medical need; (3) "upcoding" patients' Medicare forms to attribute a "primary diagnosis" to a medical condition associated with higher billing rates; and (4) providing improper and illegal remuneration to physicians to obtain patient certifications or re-certifications. The First Amended Securities Complaint seeks certification of the case as a class action and an unspecified amount of damages, as well as interest and an award of attorneys' fees.

On June 12, 2017, the Company reached an agreement-in-principle to settle this matter. All parties to the action executed a binding term sheet that, subject to final documentation and court approval, provided in part for a settlement payment of approximately $43.7 million, which we accrued as of June 30, 2017, and the dismissal with prejudice of the litigation. Approximately $15.0 million of the settlement amount paid by the Company's insurance carriers during the three-month period ended September 30, 2017, was previously recorded with other current assets in our condensed consolidated balance sheet as of June 30, 2017. The net of these two amounts, $28.7 million, was recorded as a charge in our condensed consolidated statements of operations during the three-month period ended June 30, 2017 and paid with cash on hand during the three-month period ended September 30, 2017. On December 19, 2017, the Court entered the final order and judgment on the case.

Other Investigative Matters – Ongoing

Corporate Integrity Agreement

On April 23, 2014, with no admissions of liability on our part, we entered into a settlement agreement with the U.S. Department of Justice relating to certain of our clinical and business operations. Concurrently with our entry into this agreement, we entered into a corporate integrity agreement ("CIA") with the Office of Inspector General-HHS ("OIG"). The CIA formalizes various aspects of our already existing ethics and compliance programs and contains other requirements designed to help ensure our ongoing compliance with federal health care program requirements. Among other things, the CIA requires us to maintain our existing compliance program, executive compliance committee and compliance committee of the Board of Directors; provide

certain compliance training; continue screening new and current employees to ensure they are eligible to participate in federal health care programs; engage an independent review organization to perform certain auditing and reviews and prepare certain reports regarding our compliance with federal health care programs, our billing submissions to federal health care programs and our compliance and risk mitigation programs; and provide certain reports and management certifications to the OIG. Additionally, the CIA specifically requires that we report substantial overpayments that we discover we have received from federal health care programs, as well as probable violations of federal health care laws. Upon breach of the CIA, we could become liable for payment of certain stipulated penalties, or could be excluded from participation in federal health care programs. The corporate integrity agreement has a term of five years.

Idaho and Wyoming Self-Report

During 2016, the Company engaged an independent auditing firm to perform a clinical audit of the hospice care centers acquired by Frontier Home Health and Hospice in April 2014. No assurances can be given as to the timing or outcome of the audit on the Company, its consolidated financial condition, results of operations or cash flows, which could be material, individually or in the aggregate.

Other Investigative Matters – Settled

Computer Inventory and Data Security Reporting

On March 1 and March 2, 2015, we provided official notice under federal and state data privacy laws concerning the outcome of an extensive risk management process to locate and verify our large computer inventory. The process identified approximately 142 encrypted computers and laptops for which reports were required under federal and state data privacy laws. The devices at issue were originally assigned to Company clinicians and other team members who left the Company between 2011 and 2014. We reported these devices to the U.S. Department of Health and Human Services, state agencies, and individuals whose information may be involved, as required under applicable law because we could not rule out unauthorized access to patient data on the devices. In accordance with our CIA, we notified the OIG of this matter. As of September 30, 2017, this matter has been resolved, and the Company incurred no penalties or fees.

Corporate Integrity Agreement

During the course of our compliance with the CIA, the Company identified several reportable events and notified the OIG as required. As of December 31, 2015, the Company had an accrual of $4.7 million for these matters. On May 5, 2016, the company entered into a settlement agreement with the OIG and the matters were fully resolved for $4.7 million; this amount was paid during the three-month period ended June 30, 2016.

Third Party Audits – Ongoing

From time to time, in the ordinary course of business, we are subject to audits under various governmental programs in which third party firms engaged by the Centers for Medicare and Medicaid Services ("CMS") conduct extensive review of claims data to identify potential improper payments under the Medicare program.

In July 2010, our subsidiary that provides hospice services in Florence, South Carolina received from a Zone Program Integrity Contractor ("ZPIC") a request for records regarding a sample of 30 beneficiaries who received services from the subsidiary during the period of January 1, 2008 through March 31, 2010 (the "Review Period") to determine whether the underlying services met pertinent Medicare payment requirements. We acquired the hospice operations subject to this review on August 1, 2009; the Review Period covers time periods both before and after our ownership of these hospice operations. Based on the ZPIC's findings for 16 beneficiaries, which were extrapolated to all claims for hospice services provided by the Florence subsidiary billed during the Review Period, on June 6, 2011, the MAC for the subsidiary issued a notice of overpayment seeking recovery from our subsidiary of an alleged overpayment. We dispute these findings, and our Florence subsidiary has filed appeals through the Original Medicare Standard Appeals Process, in which we are seeking to have those findings overturned. An ALJ hearing was held in early January 2015. On January 18, 2016 we received a letter dated January 6, 2016 referencing the ALJ hearing decision for the overpayment issued on June 6, 2011. The decision was partially favorable with a new overpayment amount of $3.7 million with a balance owed of $5.6 million including interest based on 9 disputed claims (originally 16). We filed an appeal to the Medicare Appeals Council on the remaining 9 disputed claims and also argued that the statistical method used to select the sample was not valid. No assurances can be given as to the timing or outcome of the Medicare Appeals Council decision. As of December 31, 2017, Medicare has withheld payments of $5.7 million (including additional interest) as part of their standard procedures once this level of the appeal process has been reached. In the event we are not able to recoup this alleged overpayment, we are indemnified by the prior owners of the hospice operations for amounts relating to the period prior to August 1, 2009. As of December 31, 2017, we have an indemnity receivable of approximately $4.9 million for the amount withheld related to the period prior to August 1, 2009.

In July 2016, the Company received a request for medical records from SafeGuard Services, L.L.C ("SafeGuard"), a ZPIC related to services provided by some of the care centers that the Company acquired from Infinity Home Care, L.L.C. The review period covers time periods both before and after our ownership of the care centers, which were acquired on December 31, 2015. In August 2017, the Company received Requests for Repayment from Palmetto GBA, LLC ("Palmetto") regarding Infinity Home Care of Lakeland, LLC, ("Lakeland Care Centers") and Infinity Home Care of Pinellas, LLC, ("Clearwater Care Center"). The Palmetto letters are based on a statistical extrapolation performed by SafeGuard which alleged an overpayment of $34.0 million for the Lakeland Care Centers on a universe of 72 Medicare claims totaling $0.2 million in actual claims payments using a 100% error rate and an overpayment of $4.8 million for the Clearwater Care Center on a universe of 70 Medicare claims totaling $0.2 million in actual claims payments using a 100% error rate.

The Lakeland Request for Repayment covers claims between January 2, 2014, and September 13, 2016. The Clearwater Request for Repayment covers claims between January 2, 2015, and December 9, 2016. As a result of Level I Administrative Appeals, also known as Redetermination, the alleged overpayment for the Lakeland Care Centers has been reduced to $27.0 million and the alleged overpayment for the Clearwater Care Center has been reduced to $3.3 million. The Company has filed or is in the process of filing Level II Administrative Appeals, also known as Reconsideration. The Company will continue to vigorously pursue its appeal rights which include contesting the methodology used by the ZPIC contractor to perform statistical extrapolation. The Company is contractually entitled to indemnification by the prior owners for all claims prior to December 31, 2015, for up to $12.6 million.

At this stage of the review, based on the information currently available to the Company, the Company cannot predict the timing or outcome of this review. The Company stands by its original estimated low-end potential range of loss related to this review of $6.5 million (assuming the Company is successful in seeking indemnity from the prior owners and unsuccessful in demonstrating that the extrapolation method used by SafeGuard was erroneous). The Company has reduced its high-end potential range of loss from $38.8 million (the maximum amount Palmetto claims has been overpaid for both the Lakeland Care Centers and the Clearwater Care Center of which amount is subject to indemnification by the prior owners for up to $12.6 million as disclosed above) to $30.3 million based on the partial success achieved by the Company in prosecuting its Level I Administrative Appeals.

As of December 31, 2017, we have an accrued liability of approximately $17.4 million related to this matter. We expect to be indemnified by the prior owners for approximately $10.9 million and have recorded this amount with other assets, net in our condensed consolidated balance sheet as of December 31, 2017. The net of these two amounts, $6.5 million, was recorded as a reduction in revenue in our condensed consolidated statements of operations during the three-month period ended September 30, 2017. As of December 31, 2017, $6.8 million of net receivables have been impacted by this payment suspension.

Operating Leases

We have leased office space at various locations under non-cancelable agreements that expire between 2018 and 2028, and require various minimum annual rentals. Our typical operating leases are for lease terms of one to seven years and may include, in addition to base rental amounts, certain landlord pass-through costs for our pro-rata share of the lessor's real estate taxes, utilities and common area maintenance costs. Some of our operating leases contain escalation clauses, in which annual minimum base rentals increase over the term of the lease.

Total minimum rental commitments as of December 31, 2017 are as follows (amounts in millions):

2018	$	23.6
2019		18.1
2020		13.6
2021		8.9
2022		5.0
Future years		11.6
Total	$	80.8

Rent expense for non-cancelable operating leases was $28.6 million, $27.5 million and $23.7 million for 2017, 2016 and 2015, respectively.

Insurance

We are obligated for certain costs associated with our insurance programs, including employee health, workers' compensation and professional liability. While we maintain various insurance programs to cover these risks, we are self-insured for a substantial portion of our potential claims. We recognize our obligations associated with these costs, up to specified deductible limits in the period in which a claim is incurred, including with respect to both reported claims and claims incurred but not reported. These costs have generally been estimated based on historical data of our claims experience. Such estimates, and the resulting reserves, are reviewed and updated by us on a quarterly basis.

The following table presents details of our insurance programs, including amounts accrued for the periods indicated (amounts in millions) in accrued expenses in our accompanying balance sheets. The amounts accrued below represent our total estimated liability for individual claims that are less than our noted insurance coverage amounts, which can include outstanding claims and claims incurred but not reported.

	As of December 31,	
Type of Insurance	**2017**	**2016**
Health insurance	$ 14.1	$ 10.6
Workers' compensation	29.3	26.8
Professional liability	4.3	4.7
	47.7	42.1
Less: long-term portion	(1.2)	(0.8)
	$ 46.5	$ 41.3

The retention limit per claim for our health insurance, worker's compensation and professional liability is $0.9 million, $0.5 million and $0.3 million, respectively.

Employment Contracts

We have commitments related to our Key Executive Severance Plan applicable to a number of our senior executives, as well as the employment agreement entered into with our Chief Executive Officer, each of which generally commit us to pay severance benefits under certain circumstances.

Other

We are subject to various other types of claims and disputes arising in the ordinary course of our business. While the resolution of such issues is not presently determinable, we believe that the ultimate resolution of such matters will not have a significant effect on our consolidated financial condition, results of operations and cash flows.

10. EMPLOYEE BENEFIT PLANS

401(K) Benefit Plan

We maintain a plan qualified under Section 401(k) of the Internal Revenue Code for all employees who have reached 21 years of age, effective the first month after hire date. Under the plan, eligible employees may elect to defer a portion of their compensation, subject to Internal Revenue Service limits.

Effective January 1, 2017, our match of contributions to be made to each eligible employee contribution is $0.44 for every $1.00 of contribution made up to the first 6% of their salary. During 2016 and 2015, our match of contributions to be made to each eligible employee contribution was $0.375 for every $1.00 of contribution made up to the first 6% of their salary. The match is discretionary and thus is subject to change at the discretion of management. These contributions are made in the form of our common stock, valued based upon the fair value of the stock as of the end of each calendar quarter end. We expensed approximately $8.8 million, $6.9 million and $6.1 million related to our 401(k) benefit plan for 2017, 2016 and 2015, respectively.

Deferred Compensation Plan

We had a Deferred Compensation Plan for additional tax-deferred savings to a select group of management or highly compensated employees. Amounts credited under the Deferred Compensation Plan were funded into a rabbi trust, which is managed by a trustee. The trustee has the discretion to manage the assets of the Deferred Compensation Plan as deemed fit, thus the assets are not necessarily reflective of the same investment choices made by the participants.

Effective January 1, 2015, all prospective salary deferrals ceased. Participants will be allowed to make transactions with any remaining account balances as they wish per plan guidelines.

11. STOCK REPURCHASE PROGRAM

On September 9, 2015, we announced that our Board of Directors authorized a stock repurchase program allowing for the repurchase of up to $75 million of our outstanding common stock on or before September 6, 2016, the date on which the stock repurchase program expired.

Under the terms of the program, we were allowed to repurchase shares from time to time in open market transactions, block purchases or in private transactions in accordance with applicable federal securities laws and other legal requirements. We were allowed to enter into Rule 10b5-1 plans to effect some or all of the repurchases. The timing and the amount of the repurchases were determined by management based on a number of factors, including but not limited to share price, trading volume and general market conditions, as well as on working capital requirements, general business conditions and other factors.

Pursuant to this program, we repurchased 324,141 shares of our common stock at a weighted average price of $37.96 per share and a total cost of approximately $12.3 million during 2016 and 116,859 shares of our common stock at a weighted average price of $39.20 per share and a total cost of approximately $4.6 million during 2015. The repurchased shares are classified as treasury shares.

12. EXIT AND RESTRUCTURING ACTIVITIES

During the three-month period ended December 31, 2017, we closed four Florida home health care centers, consolidated another three Florida home health care centers with care centers servicing the same markets and implemented a plan to restructure our home health division. As a result of these actions, we recorded non-cash charges of $1.3 million in asset impairment expense related to the write-off of intangible assets, $0.6 million in other general and administrative expenses related to lease termination costs and $3.0 million in salaries and benefits related to severance costs which was offset by a reduction in non-cash compensation of approximately $1.0 million within our consolidated statements of operations for 2017.

Our reserve activity for our 2017 exit and restructuring activity is as follows (amounts in millions):

	2017 Exit Activity	
	Lease Termination	Severance
Balances at December 31, 2016	$ —	$ —
Charge in 2017	0.6	3.0
Cash expenditures in 2017	—	(0.7)
Balances at December 31, 2017	$ 0.6	$ 2.3

13. VALUATION AND QUALIFYING ACCOUNTS

The following table summarizes the activity and ending balances in our allowance for doubtful accounts and estimated revenue adjustments (amounts in millions):

Allowance for Doubtful Accounts

Year End	Balance at Beginning of Year	Provision for Doubtful Accounts	Write-Offs	Balance at End of Year
2017	$ 17.7	$ 25.1	$ (21.9)	$ 20.9
2016	16.5	19.5	(18.3)	17.7
2015	14.3	14.1	(11.9)	16.5

Estimated Revenue Adjustments

Year End	Balance at Beginning of Year	Provision for Estimated Revenue Adjustments	Write-Offs	Balance at End of Year
2017	$ 4.1	$ 14.4	$ (12.3)	$ 6.2
2016	4.0	7.9	(7.8)	4.1
2015	3.1	6.1	(5.2)	4.0

14. SEGMENT INFORMATION

Our operations involve servicing patients through our three reportable business segments: home health, hospice and personal care. Our home health segment delivers a wide range of services in the homes of individuals who may be recovering from surgery, have a chronic disability or terminal illness or need assistance with the essential activities of daily living. Our hospice segment provides palliative care and comfort to terminally ill patients and their families. Our personal care segment, which was established with the acquisition of Associated Home Care during the three-month period ended March 31, 2016, provides patients with assistance with the essential activities of daily living. The "other" column in the following tables consists of costs relating to executive management and administrative support functions, primarily information services, accounting, finance, billing and collections, legal, compliance, risk management, procurement, marketing, clinical administration, training, human resources and administration.

Management evaluates performance and allocates resources based on the operating income of the reportable segments, which includes an allocation of corporate expenses directly attributable to the specific segment and includes revenues and all other costs directly attributable to the specific segment. Segment assets are not reviewed by the company's chief operating decision maker and therefore are not disclosed below (amounts in millions).

	For the Year Ended December 31, 2017				
	Home Health	Hospice	Personal Care	Other	Total
Net service revenue	$ 1,101.8	$ 371.0	$ 60.9	$ —	$ 1,533.7
Cost of service, excluding depreciation and amortization	670.9	184.8	45.0	—	900.7

15. UNAUDITED SUMMARIZED QUARTERLY FINANCIAL INFORMATION

			Net Income (Loss) Attributable to Amedisys, Inc. Common Stockholders (1)	
	Revenue	Net Income (Loss) Attributable to Amedisys, Inc.	Basic	Diluted
2017				
1st Quarter (2)(3)	$ 370.5	$ 15.1	$ 0.45	$ 0.44
2nd Quarter (2)(3)	378.8	4.5	0.13	0.13
3rd Quarter (2)(4)	380.2	14.6	0.43	0.42
4th Quarter (2)(4)(5)	404.2	(3.8)	(0.11)	(0.11)
	$ 1,533.7	$ 30.3	$ 0.90	$ 0.88
2016				
1st Quarter (6)(7)(8)	$ 348.8	$ 6.2	$ 0.19	$ 0.19
2nd Quarter (6)(7)(8)	360.7	10.7	0.32	0.32
3rd Quarter (6)(7)(8)	361.6	11.4	0.34	0.34
4th Quarter (6)(7)(8)(9)	366.3	8.9	0.27	0.26
	$ 1,437.4	$ 37.3	$ 1.12	$ 1.10

(1) Because of the method used in calculating per share data, the quarterly per share data may not necessarily total to the per share data as computed for the entire year.

(2) During each of the four quarters of 2017, we incurred certain costs associated with various legal matters. Net of income taxes, these costs amounted to $0.1 million, $18.0 million, $0.1 million and $0.2 million for the three-month periods ended March 31, 2017, June 30, 2017, September 30, 2017 and December 31, 2017, respectively.

(3) During the first and second quarters of 2017, we incurred certain costs associated with various acquisitions. Net of income taxes, these costs amounted to $0.4 million and $0.2 million for the three-month periods ended March 31, 2017 and June 30, 2017, respectively.

(4) During the third and fourth quarters of 2017, we incurred certain costs as a result of our home health division restructure plan. Net of income taxes, these costs amounted to $1.0 million and $1.2 million for the three-month periods ended September 30, 2017 and December 31, 2017, respectively.

(5) During the fourth quarter of 2017, we recorded a charge of $21.4 million, net of income taxes as the result of the enactment of H.R. 1 (Tax Cuts and Jobs Act).

(6) During each of the four quarters of 2016, we incurred certain costs associated with the implementation of Homecare Homebase. Net of income taxes, these costs amounted to $1.5 million, $1.6 million, $1.2 million and $0.8 million for the three-month periods ended March 31, 2016, June 30, 2016, September 30, 2016 and December 31, 2016, respectively.

(7) During each of the four quarters of 2016, we incurred certain costs associated with various legal matters. Net of income taxes, these costs amounted to $0.9 million, $0.3 million, $0.2 million and $1.8 million for the three-month periods ended March 31, 2016, June 30, 2016, September 30, 2016 and December 31, 2016, respectively.

(8) During each of the four quarters of 2016, we incurred certain costs associated with various acquisitions. Net of income taxes, these costs amounted to $1.0 million, $0.2 million, $0.3 million and $0.5 million for the three-month periods ended March 31, 2016, June 30, 2016, September 30, 2016 and December 31, 2016, respectively.

(9) During the fourth quarter of 2016, we recorded a non-cash asset impairment charge to write-off assets as a result of our conversion from our proprietary operating system to Homecare Homebase in the amount of $2.7 million, net of income taxes.

16. RELATED PARTY TRANSACTIONS

On November 20, 2015, we engaged KKR Consulting, LLC ("KKR Capstone"), a consulting company of operational professionals that works exclusively with portfolio companies of Kohlberg Kravis Roberts & Co. Nathaniel M. Zilkha, a member of our Board of Directors, is a member of KKR Management, LLC, which is an affiliate of KKR Asset Management LLC ("KAM"), a substantial stockholder of our Company, and an affiliate of Kohlberg Kravis Roberts & Co. During 2016, we incurred costs of approximately $1.6 million related to consulting services provided to the Company in the ordinary course of business. Mr. Zilkha did not receive any direct compensation or direct financial benefit from the engagement of KKR Capstone.

Effective October 22, 2015, we entered into a contract for telemonitoring services with Care Innovations, LLC ("Care Innovations"). At that time, Paul Kusserow, our President and Chief Executive Officer, was a member of the Advisory Board to Care Innovations. In connection with our contract for telemonitoring services for the Company, Care Innovations was to receive an annual fee of approximately $1.8 million. During 2016, we incurred costs of approximately $1.5 million related to this related party engagement. We did not incur any additional costs related to this engagement during 2017. Mr. Kusserow did not receive any direct compensation or direct financial benefit from the engagement of Care Innovations as our telemonitoring partner and no longer serves as a member of Care Innovations' Advisory Board.

17. SUBSEQUENT EVENTS

On February 9, 2018, Congress passed the Bipartisan Budget Act of 2018 ("BBA of 2018"), which funded government operations, set two-year government spending limits and enacted a variety of healthcare related policies. Specific to home health, the BBA of 2018 provides for a targeted extension of the home health rural add-on payment, a reduction of the 2020 market basket update, modification of eligibility documentation requirements and reform to the Home Health Prospective Payment System ("HHPPS"). The HHPPS reform includes the following parameters:

- For home health units of service beginning on January 1, 2020, a 30-day payment system will apply.
- The transition to the 30-day payment system must be budget neutral.
- CMS must conduct at least one Technical Expert Panel during 2018, prior to any notice and comment rulemaking process, related to the design of any new case-mix adjustment model.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

ITEM 9A. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

We have established disclosure controls and procedures which are designed to provide reasonable assurance of achieving their objectives and to ensure that information required to be disclosed in our reports filed under the Exchange Act is recorded, processed, summarized, disclosed and reported within the time periods specified in the SEC's rules and forms. This information is also accumulated and communicated to our management and Board of Directors to allow timely decisions regarding required disclosure.

In connection with the preparation of this Annual Report on Form 10-K, as of December 31, 2017, under the supervision and with the participation of our management, including our principal executive officer and principal financial officer, we conducted an evaluation of the effectiveness of our disclosure controls and procedures, as such term is defined under Rules 13a-15(e) and 15d-15 (e) promulgated under the Exchange Act.

Based on this evaluation, our principal executive officer and principal financial officer concluded that our disclosure controls and procedures were effective at a reasonable assurance level as of December 31, 2017, the end of the period covered by this Annual Report on Form 10-K.

Management's Annual Report on Internal Control over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over our financial reporting, as such term is defined in Rules 13a-15(f) and 15d-15(f) promulgated under the Exchange Act. Under the supervision and with the participation of our management, including our principal executive officer and our principal financial officer, we conducted an evaluation of the effectiveness of our internal control over financial reporting based on the framework in *Internal Control – Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on our evaluation under the framework in *Internal Control – Integrated Framework*, our management concluded our internal control over financial reporting was effective as of December 31, 2017.

Our internal control system is designed to provide reasonable assurance to our management and Board of Directors regarding the preparation and fair presentation of published financial statements. All internal control systems, no matter how well designed, have inherent limitations. Therefore, even those systems determined to be effective can provide only reasonable assurance with respect to financial statement preparation and presentation.

KPMG LLP, the independent registered public accounting firm that audited our consolidated financial statements included in this Form 10-K, has issued a report on our internal control over financial reporting, which is included herein.

Changes in Internal Controls

There were no changes in our internal control over financial reporting (as defined in Exchange Act Rule 13a-15(f)) that have occurred during the quarter ended December 31, 2017 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Inherent Limitations on Effectiveness of Controls

Our management, including our principal executive officer and principal financial officer, does not expect that our disclosure controls or our internal controls over financial reporting will prevent or detect all errors and all fraud. A control system, no matter how well designed and operated, can provide only reasonable, not absolute, assurance that the control system's objectives will be met. The design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Further, because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that misstatements due to error or fraud will not occur or that all control issues and instances of fraud, if any, have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty and that breakdowns can occur because of simple error or mistake. Controls can also be circumvented by the individual acts of some persons, by collusion of two or more people, or by management override of the controls. The design of any system of controls is based in part on certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. Projections of any evaluation of controls' effectiveness to future periods are subject to risks. Over time, controls may become inadequate because of changes in conditions or deterioration in the degree of compliance with policies and procedures. Our disclosure controls and procedures are designed to provide reasonable assurance of achieving their objectives and, based on an evaluation of our controls and procedures, our principal executive officer and our principal financial officer concluded our disclosure controls and procedures were effective at a reasonable assurance level as of December 2017, the end of the period covered by this Annual Report.

Report of Independent Registered Public Accounting Firm

To the Stockholders and Board of Directors
Amedisys, Inc.:

Opinion on Internal Control Over Financial Reporting

We have audited Amedisys, Inc. and subsidiaries' (the "Company") internal control over financial reporting as of December 31, 2017, based on criteria established in *Internal Control – Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission. In our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2017, based on criteria established in *Internal Control - Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) ("PCAOB"), the consolidated balance sheets of the Company as of December 31, 2017 and 2016, the related consolidated statements of operations, comprehensive income (loss), stockholders' equity, and cash flows for each of the years in the three-year period ended December 31, 2017, and the related notes (collectively, the consolidated financial statements), and our report dated February 28, 2018 expressed an unqualified opinion on those consolidated financial statements.

Basis for Opinion

The Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying *Management's Annual Report on Internal Control over Financial Reporting*. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audit also included performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

Definition and Limitations of Internal Control Over Financial Reporting

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

CERTIFICATION

I, Paul B. Kusserow, certify that:

1. I have reviewed this Annual Report on Form 10-K for the year ended December 31, 2017, of Amedisys, Inc.;

2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;

3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;

4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:

   a. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;

   b. Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;

   c. Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and

   d. Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and

5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):

   a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and

   b. Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

To whom it may concern,

As a case manager at the Requard Center for Acute Rehab, I frequently use the services of Amedisys Home Health. I am aware that they provide charity care for patients that need home health services. They accepted a patient from Requard this year that did not have insurance and they provided charity care. I have found the staff at Amedisys will do all they can to meet the needs of the patients in this area. If you need further information feel free to contact me.

Sincerely,

Donna Martin RN

November 11, 2015

To Whom It May Concern:

For introduction purposes, my name is Elizabeth Weaver. I am a nurse case manager at Atlantic General Hospital, in Berlin, MD. I work in the emergency room.

Our hospital is in Worcester County, Maryland. Our area is a vacation resort. The general population is getting older, in our area. Many of our patients have children in other states. They are living in unsafe situations. These patients do not qualify for inpatient hospital stays, per Medicare guidelines. They have fallen at home, are frail and have no one to help them.

We also have a large population of indigent patients, who do not have Medicare or Medicaid. They are struggling from paycheck to paycheck to make ends meet. Sadly, when a health crisis occurs, they do not know what to do. The hospital does not turn away indigent patients when surgery is needed, however, we cannot keep the patient, in the hospital, indefinitely.

I know that cost is the driving factor for most businesses. If we don't get paid, we can't survive. Sadly our healthcare system has failed many. I hope that our health care system improves, for the better, but until then, I need to work with what I have.

I want to commend Amedisys Home Care for their community service and compassion for taking on indigent patients. They work with each case on an individual basis. If there is a need, they come through to help the patient. I do not know what I would do for some very sad cases, if I did not have Amedisys. They have given many patients hope to survive their illness.

Sincerely,

Elizabeth A. Weaver, BSN, RN

Atlantic General Hospital

Emergency Room Case Manager

eaweaver@atlanticgeneral.org

November 12, 2015

To Whom it may concern,

I would like to start by saying thank you to Amedisys Home Care for putting the needs of our community members before their own financial gain. Amedisys goes above and beyond for our patients on a daily basis. Unfortunately, our economy has prevented people from being able to obtain health insurance limiting our residents access to community healthcare. Sadly, on the eastern shore of Maryland we have a large poverty population that often creates a crisis for our small community hospital. Being a non-profit organization, we provide acute healthcare to anyone that enters our door seeking assistance however, we are not permitted to extend the care upon discharge.

During my 10 year career at Atlantic General Hospital, I have witnessed Amedisys provide charity community services to numerous individuals. Most of the services rendered by Amedisys have been life changing for these patients. The compassion that flows from the Amedisys team is a true blessing to our community. I strongly support and encourage the continuation of indigent care!

Thank you in advance for your time,

Demiah Nooney RN

To whom it may concern:

I am aware that Amedisys Home Health Services is actively seeking charity care patients to serve in Dorchester and Talbot counties. Should I encounter any patients without insurance benefits, and they need care at home, I will refer these patients for ongoing care to Amedisys as you have made it very clear that you have resources available for these types of patients.

Best regards,

Sarah M. Clow LCSW-C

Legal Proceedings - Ongoing

Subpoena Duces Tecum Issued by the U.S. Department of Justice

On May 21, 2015, we received a Subpoena Duces Tecum ("Subpoena") issued by the U.S. Department of Justice. The Subpoena requests the delivery of information regarding 53 identified hospice patients to the United States Attorney's Office for the District of Massachusetts. It also requests the delivery of documents relating to our hospice clinical and business operations and related compliance activities. The Subpoena generally covers the period from January 1, 2011, through May 21, 2015. We are fully cooperating with the U.S. Department of Justice with respect to this investigation. Based on the information currently available to us, we cannot predict the timing or outcome of this investigation or reasonably estimate the amount or range of potential losses, if any, which may arise from this matter.

Civil Investigative Demand Issued by the U.S. Department of Justice

On November 3, 2015, we received a civil investigative demand ("CID") issued by the U.S. Department of Justice pursuant to the federal False Claims Act relating to claims submitted to Medicare and/or Medicaid for hospice services provided through designated facilities in the Morgantown, West Virginia area. The CID requests the delivery of information to the United States Attorney's Office for the Northern District of West Virginia regarding 66 identified hospice patients, as well as documents relating to our hospice clinical and business operations in the Morgantown area. The CID generally covers the period from January 1, 2009 through August 31, 2015. We are fully cooperating with the U.S. Department of Justice with respect to this investigation. Based on the information currently available to us, we cannot predict the timing or outcome of this investigation or reasonably estimate the amount or range of potential losses, if any, which may arise from this matter.

On June 27, 2016, we received a CID issued by the U.S. Department of Justice pursuant to the federal False Claims Act relating to claims submitted to Medicare and/or Medicaid for hospice services provided through designated facilities in the Parkersburg, West Virginia area. The CID requests the delivery of information to the United States Attorney's Office for the Southern District of West Virginia regarding 68 identified hospice patients, as well as documents relating to our hospice clinical and business operations in the Parkersburg area. The CID generally covers the period from January 1, 2011 through June 20, 2016. We are fully cooperating with the U.S. Department of Justice with respect to this investigation. Based on the information currently

Other Investigative Matters – Settled

Computer Inventory and Data Security Reporting

On March 1 and March 2, 2015, we provided official notice under federal and state data privacy laws concerning the outcome of an extensive risk management process to locate and verify our large computer inventory. The process identified approximately 142 encrypted computers and laptops for which reports were required under federal and state data privacy laws. The devices at issue were originally assigned to Company clinicians and other team members who left the Company between 2011 and 2014. We reported these devices to the U.S. Department of Health and Human Services, state agencies, and individuals whose information may be involved, as required under applicable law because we could not rule out unauthorized access to patient data on the devices. In accordance with our CIA, we notified the OIG of this matter. As of September 30, 2017, this matter has been resolved, and the Company incurred no penalties or fees.

Corporate Integrity Agreement

During the course of our compliance with the CIA, the Company identified several reportable events and notified the OIG as required. As of December 31, 2015, the Company had an accrual of $4.7 million for these matters. On May 5, 2016, the company entered into a settlement agreement with the OIG and the matters were fully resolved for $4.7 million; this amount was paid during the three-month period ended June 30, 2016.

Third Party Audits – Ongoing

From time to time, in the ordinary course of business, we are subject to audits under various governmental programs in which third party firms engaged by the Centers for Medicare and Medicaid Services ("CMS") conduct extensive review of claims data to identify potential improper payments under the Medicare program.

In July 2010, our subsidiary that provides hospice services in Florence, South Carolina received from a Zone Program Integrity Contractor ("ZPIC") a request for records regarding a sample of 30 beneficiaries who received services from the subsidiary during the period of January 1, 2008 through March 31, 2010 (the "Review Period") to determine whether the underlying services met pertinent Medicare payment requirements. We acquired the hospice operations subject to this review on August 1, 2009; the Review Period covers time periods both before and after our ownership of these hospice operations. Based on the ZPIC's findings for 16 beneficiaries, which were extrapolated to all claims for hospice services provided by the Florence subsidiary billed

contractually entitled to indemnification by the prior owners for all claims prior to December 31, 2015, for up to $12.6 million.

At this stage of the review, based on the information currently available to the Company, the Company cannot predict the timing or outcome of this review. The Company estimates a low-end potential range of loss related to this review of $6.5 million (assuming the Company is successful in seeking indemnity from the prior owners and unsuccessful in demonstrating that the extrapolation method used by SafeGuard was erroneous). The Company has reduced its high-end potential range of loss from $38.8 million (the maximum amount Palmetto claims has been overpaid for both the Lakeland Care Centers and the Clearwater Care Center of which amount is subject to indemnification by the prior owners) to $30.3 million based on the partial success achieved by the Company in prosecuting its Level I Administrative Appeals.

As of March 31, 2018, we have an accrued liability of approximately $17.4 million related to this matter. We expect to be indemnified by the prior owners for approximately $10.9 million of the total $12.6 million available indemnification related to this matter and have recorded this amount with other assets, net in our condensed consolidated balance sheet as of March 31, 2018. The net of these two amounts, $6.5 million, was recorded as a reduction in revenue in our condensed consolidated statements of operations during the three-month period ended September 30, 2017. As of March 31, 2018, $4.8 million of net receivables have been impacted by this payment suspension.

Authorization of Amedisys Maryland, LLC

I, Jennifer R. Guckert, on behalf of Amedisys Maryland, LLC, the Applicant for a Certificate of Need to expand home health care services into the Upper Eastern Shore region of Maryland (the "CON Application"), and its duly qualified officers, and in my capacity a Secretary of Amedisys Maryland, LLC and of its ultimate parent company, Amedisys, Inc., do hereby authorize Geoffrey L. Abraskin, as the Vice President of Operations for Amedisys, Inc., to sign for and act on behalf of Amedisys Maryland, LLC for the project which is the subject of the CON Application, and to complete and file the CON Application with the appropriate state authorities in the State of Maryland.

Thus signed and dated this 6th day of June, 2018.

Jennifer R. Guckert
