The Source of Funds is Cash. Please see Attachment 19 for a revised Table E (revised only to show source of funds).

Part IV - Consistency with General Review Criteria at COMAR 10.24.01.08G(3)

Information Regarding Charges

3. Please provide copy of your fee schedule. It should provide: “information concerning charges for the full range of surgical services provided at your facility.”

RESPONSE:

The fee schedule is provided as Attachment 20.

4. Please provide information on 10 most frequently performed procedures performed in the most recent 12 months by filling out the chart below.

Charity Care Policy

5. Please fill out the Charity Care Policy chart, Attachment 1, by providing citations for each section so that we can assess your charity care policy more thoroughly.

RESPONSE:

Please see Attachment 21 for Charity Care Policy Chart. Please see also Attachment 22 revised Financial Assistance and or Charity Care Policy.

6. The “Determination of Probable Eligibility” within your charity care policy is not in compliance with our standard. The standard requires a two-day turnaround for a determination of probable eligibility, which allows a patient to know their likely eligibility for charity care without having to navigate a lengthy application and retrieve documentation that might not be readily available.

As long as there is a simple procedure to assess probable eligibility, it is certainly fine for the facility to require documentation prior to granting a final determination of eligibility. Note the guidance offered in the *Review Guide-Surgery Standards*.

Please edit the wording of your charity care policy so that it complies with the standard and provide copies of any applications or forms that you create as a part of your eligibility determination process.

RESPONSE:

Please see Attachment 22 revised Financial Assistance and or Charity Care Policy re: “Financial Hardship” which provides that upon receipt of Financial Hardship documentation, a decision will be made and the patient will be notified within 2 days of receipt. (Attachment 22 also includes the Financial Hardship application and Notice of charity care to be published annually in the Montgomery Herald)

7. This portion of the standard was not addressed in your application:

“(c) A proposal to establish or expand an ASF for which third party reimbursement is available, shall commit to provide charitable surgical services to indigent patients that are equivalent to at least the average amount of charity care provided by ASFs in the most recent year reported, measured as a percentage of total operating expenses.”

- A. Please state your commitment “to provide charitable surgical services to indigent patients that are equivalent to at least the average amount of charity care provided by ASFs in the most recent year reported, measured as a percentage of total operating expenses.”

RESPONSE:

The Center commits to provide charitable surgical services to indigent patients that are equivalent to at least the average amount of charity care provided by ASFs in the most recent year reported, measured as a percentage of total operating expenses.

- B. The average amount of charity care provided by ASFs (two or more ORs) in the most recent year reported (FY2016), measured as a percentage of total operating expenses, was 0.56%.

Your self-reported history of charity care is contained in the chart below:

Charity Care Data	Charity Care Dollar Amount	Operating Expenses Total	Charity Care Percentage of Total Operating Expense
FY 2016	\$780,240	\$2,874,548	27.14%
FY 2017	\$983,328	\$2,985,535	32.94%
FY 2018 (projected)	\$983,328	\$3,235,566	30.39%

Your reported track record is extremely high in comparison to the average amount of charity care provided by your peers. Please explain what you define as “charity care,” and how your facility happens to provide such a large amount of charity care.

RESPONSE:

In the Application, the Center reported charity care as a percentage of total operating expenses. The “Charity Care Dollar Amount” referenced in the chart above is based on the Center’s charges. The charity care percentage is high because it reflects the Center’s robust “Laparoscopic Tubal Ligation Program”. See page 16 of Application. To represent Charity Care differently, please see the “Charity Care Value Dollar” in the chart below which utilizes gross charges minus the Center’s historic write-off percentage for all cases for the past trailing 12 months. That amount is then divided by Total Operating Expenses to demonstrate a different charity care calculation/representation.

Indicate CY or FY	Two Most Recent Years (Actual)		Current Year Projected	Projected Years (ending at least two years after project completion and full occupancy) Add columns if needed in order to document that the hospital will generate excess revenues over total expenses consistent with the Financial Feasibility standard.		
	CY 2016	CY 2017	CY 2018	2019	2020	2021
Charity Care Gross Charges	\$ 780,240	\$ 983,328	\$ 983,328	\$ 1,022,468	\$ 1,065,598	\$ 1,109,074
Charity Care Value Dollar Amount	\$ 88,167	\$ 111,116	\$ 111,116	\$ 115,539	\$ 120,413	\$ 125,325

<i>Charity Care as a % of Op Expenses</i>	3.1%	3.7%	3.4%	3.2%	3.3%	3.4%

C. Discuss your specific plan for achieving the level of charitable care provision to which you are committed.

An “ideal” response for demonstrating a serious “specific plan for achieving the level of charitable care provision to which it is committed” would:

1. Name the specific social service organizations/agencies that an applicant has contacted or plans to contact to inform them of the availability of charity care, and;
2. Incorporate a real-time reporting mechanism that will alert management regarding its progress toward its charity care commitment, and a statement of what actions will then be taken.

RESPONSE:

The letter provided as Attachment 23 advises sources of referral of the Center’s program to provide tubal ligation services at a “charity/reduced rate” to low- or no-income patients and is sent annually to all sources of referrals; specifically, WIC Program, Mary’s Center, Holy Cross Clinic, Washington Adventist Clinic, and Arlington Clinic. Please see page 16 of Application. This approach has resulted in the charity care percentages above.

In addition, referring physicians will be advised that patients who meet the financial assistance standards in the Center’s Financial Assistance/Charity Care Policy (the “Policy”) will be provided services at reduced charges per the Policy.

Per the Policy (first paragraph of Attachment 22), charity care will be tracked internally and reported to Center management on a monthly basis.

MARCH 15, 2019 REQUEST

Part IV - Consistency with General Review Criteria at COMAR 10.24.01.08G(3)

Need - Minimum Utilization for Expansion of and Existing Facility

1. Please provide information on the historic number of operating cases for the defined service area of your facility for at least the last five years (COMAR 10.24.11.07B(1)(b)).

RESPONSE:

The historic number of the Center's operating cases/OR minutes is as follows:

2017 - 3817 cases 171,269 OR minutes
2016 - 3611 cases 128,062 OR minutes
2015 - 3664 cases 111,476 OR minutes
2014 - 3318 cases 105,211 OR minutes
2013 - 3085 cases 89,519 OR minutes

Please note that OR mins **do not** include turnover time.

2. The Standard requires that projections of future demand for operating rooms ("OR") should account for changes in the population for the demographic group expected to be served by the applicant. Please explicitly describe the assumptions you used to assess the impact of population changes on the demand for ORs and services (COMAR 10.24.11.07B(6)(c)).

RESPONSE:

Please see pages 22-23 of Application.

In addition, the Center moved from a predominantly single specialty center performing cases relating to the Obstetrics and Gynecology specialty to a multispecialty center in 2018. Previously, the Center only served females and males limited to 1-30 days of age (infant circumcisions). Now that the Center has added general surgery and urology to its specialty mix, the Center is available to the male patient population, therefore expanding the population served.

Furthermore, Montgomery County's population is expected to grow by 6% between 2015 and 2025 (See Decision Adventist Rehabilitation Hospital of Maryland Docket No. 18-15-2428 March 21, 2019 at p. 24). Please see chart below for further detail concerning population growth for the Center's service area:

- Was turnaround time between surgical cases included in the OR hours/minutes presented in your need assessment? If not, please provide the OR hours/minutes including turnaround time between surgical cases.

RESPONSE:

Turnaround time between surgical cases was included in the OR hours/minutes.

Design Requirements

- Please provide an attestation from your architect or project manager regarding the facility's floor plans meeting Section 3.7 of the FGI Guidelines (COMAR

10.24.11.05B(4)). If the project does not conform to the current FGI Guidelines, please provide a detailed explanation to justify the variance.

RESPONSE

Please see Attachment 24.

Patient Safety

5. This Standard requires that you will provide laboratory, radiology, and pathology services directly or through contractual agreements. Because you do not provide these services directly, please provide the names and addresses of your contractual providers.

RESPONSE:

The Center does have contractual providers for the above services and does not use radiology at the Center.

The Center uses the following labs:

1. CBM Pathology/Aurora Diagnostics
18207-A Flower Hill Way
Gaithersburg, MD 20879
2. Invitae
1400 16th Street
San Francisco, CA 94103
3. Natera
201 Industrial Road
Suite 410
San Carlos, CA 94070

Financial Feasibility

6. Please provide more details regarding the data and assumptions that demonstrate consistency with each subpart of this Standard (COMAR 10.24.11.05B(8)). The responses should be placed under each subpart. Within each of your responses please reference the tables that correspond with each subsection. Provide copies of those tables as an attachment to your completeness questions responses.

Standard .05B (8) Financial Feasibility.

A surgical facility project shall be financially feasible. Financial projections filed as part of an application that includes the establishment or expansion of surgical facilities and services shall be accompanied by a statement containing each assumption used to develop the projections.

(a) An applicant shall document that:

(i) Utilization projections are consistent with observed historic trends in use of each applicable service by the likely service area population of the facility;

RESPONSE:

Utilization projections were based on historical utilization trends, the transition from single to multi-specialty, adding physicians, and certain cases moving from hospital ORs with higher levels of acuity.

See Tables 1 and 2 on pages 28 and 29 of Application. Please also see assumptions for same on pages 28 and 29.

(ii) Revenue estimates are consistent with utilization projections and are based on current charge levels, rates of reimbursement, contractual adjustments and discounts, bad debt, and charity care provision, as experienced by the applicant facility or, if a new facility, the recent experience of similar facilities;

RESPONSE:

The Center based its revenue estimates on the utilization projections and current charges and rates of reimbursement

See Tables 3 and 4 on pages 33 and 34 of Application.

(iii) Staffing and overall expense projections are consistent with utilization projections and are based on current expenditure levels and reasonably anticipated future staffing levels as experienced by the applicant facility, or, if a new facility, the recent experience of similar facilities; and

RESPONSE:

Expenses are based on current staffing and other overall expenses.

See Tables 3 and 4 on pages 33 and 34 of Application

(iv) The facility will generate excess revenues over total expenses (including debt service expenses and plant and equipment depreciation), if utilization forecasts are achieved for the specific services affected by the project within five years of initiating operations.

RESPONSE:

The Center has historically generated an excess of revenues over expenses and projects a continued profitable operation after the addition of a second OR.

See Tables 3 and 4 on pages 33 and 34 of Application

(b) A project that does not generate excess revenues over total expenses even if utilization forecasts are achieved for the services affected by the project may be approved upon demonstration that overall facility financial performance will be positive and that the services will benefit the facility's primary service area population.

RESPONSE:

Not applicable

Therefore, the Project and the Center are consistent with this standard.

Need

7. Please provided a quantitative analysis that describes the project's expected service area, population size, characteristics, and projected growth.

RESPONSE:

Please see pages 22-23 of Application.

In addition, the Center moved from a predominantly single specialty center performing cases relating to the Obstetrics and Gynecology specialty to a multispecialty center in 2018. Previously, the Center only served females and males limited to 1-30 days of age (infant circumcisions). Now that the Center has added general surgery and urology to its specialty mix, the Center is available to the male patient population, therefore expanding the population served.

Furthermore, Montgomery County's population is expected to grow by 6% between 2015 and 2025 (See Decision Adventist Rehabilitation Hospital of Maryland Docket No. 18-15-2428 March 21, 2019 at p. 24)

8. Because your facility provides services to special population groups, please specifically identify those populations that are underserved and describe how this project will better address their needs.

RESPONSE:

No response required per Laura Hare email of 3/26/2019.

9. Please identify and discuss relevant building and/or safety code issues, age of physical plan issues, or standard of care issues as a part of your discussion of why an additional OR is necessary.

RESPONSE:

There are no relevant building or safety code issues. The Center now is in full compliance with applicable building and safety code requirements after its January 2017 renovation.

10. Please list all of the assumptions made in the need analysis regarding demand for service, utilization rates, and the relevant population.

RESPONSE:

See pages 22-23 of Application.

The Center moved from a predominantly single specialty center performing cases relating to the Obstetrics and Gynecology specialty to a multispecialty center in 2018. Previously, the Center only served females and males limited to 1-30 days of age (infant circumcisions). Now that the Center has added general surgery and urology to its specialty mix, the Center has opened the door to the male patient population, therefore expanding the population served.

Availability of More Cost-Effective Alternatives

11. We recognize that the only alternative available to your facility is to continue operating in the current way. As instructed by the Standard, please provide an analysis of the costs required to continue operating in this manner.

RESPONSE:

Please see pages 30 - 31 of Application.

Although it is difficult to quantify the additional costs if the Center were to continue operating in the current way, at a minimum the salary increases would be as follows based on an average daily salary cost of \$4,211. Saturday salary would be paid at 1.5 resulting in an

additional cost of \$6,317 for each Saturday. There would need to be at least 2 Saturdays/month for an additional cost of \$12,633 for an additional cost of or \$151,596/year.

Viability of the Proposal

12. Please provide the audited financial statements for MSCW and Amsurg for the past two years. If audited financial statements are not available, a letter signed by an independent Certified Public Accountant (“CPA”). This letter should detail the financial information considered by the CPA in reaching the conclusion that adequate funds are available.

RESPONSE:

Please see Attachment 25.

13. Please provide a response to this section of the Viability Criteria (COMAR 10.24.01.08G(3)(d)): “If debt financing is required and/or grants or fund raising is proposed, detail the experience of the entities and/or individuals involved in obtaining such financing and grants and in raising funds for similar projects. If grant funding is proposed, identify the grant that has been or will be pursued and document the eligibility of the proposed project for the grant.”

RESPONSE:

Not applicable. The applicant has not proposed debt financing and/or grants or fund raising.

14. Please explain how the applicant will be able to implement the project in compliance with the performance requirements set forth in question 12, “Project Schedule”, of the application. Also, describe the renovation process and demonstrate that the project can be completed within the applicable time frame(s).

RESPONSE:

Rather than the three months for first use set forth in the Application, the Center hereby modifies that performance requirement statement and instead anticipates first use within three (3) to five (5) months of approval. Please see a detailed explanation below.

- A. Obligation of Capital Expenditure - Upon Approval Date.
 - i. The Project has been pre-approved internally based upon submitted budget.
 - ii. Once the State approval is in place, funding for design and construction costs will be officially issued applicable to the project.

B. Beginning Construction - one (1) month from capital obligation

- i. Once Project is approved, the architect of record will be released to provide official stamped construction drawings. The agreement to provide services is already executed pending official State approval of project. The design process will take approximately four (4) to (6) weeks to deliver completed drawings.
- ii. Completed drawings will be issued to General Contractor for review and confirmation of budget pricing already submitted by the General Contractor. The completed drawings will also be submitted to the local permitting office by the General Contractor for permitting. The applicant anticipates local permitting to take approximately four (4) weeks.
- iii. Once the construction permit is issued, General Contractor will begin the construction process. Since work will be after hours and weekends with no patients present, it is anticipated the work will take approximately six (6) to eight (8) weeks until receipt of Certificate of Occupancy. All ICRA (Infection Control Risk Assessment) guidelines/standards will be followed. The chosen General Contractor completed the recent renovation/expansion project and is very familiar with building and all requirements to accomplish the conversion

C. Pre-Licensure/First Use - three (3) months from capital obligation

- i. It is estimated total time frame to be a total of twenty two (22) weeks from project approval to receipt of certificate of occupancy.

Impact

15. Please provide a more complete description of the impact of the proposed project on the applicant's costs and charges, consistent with the information provided in the Project Budget, the projections of revenues and expenses, and the work force information.

RESPONSE:

The proposed project will have no impact on the Center's charges.
