

## Cybersecurity Lunch & Learn Webinar

# *Back to Basics: Practical Ways to Improve Cybersecurity at Your Practice*

October 25, 2018 | 12:00-1:00pm EDT

### About

Small to medium-sized practices are not invisible to hackers or immune from costly cyber-attacks and a data breach. Join us to learn about cost-effective, practical steps you can take to reduce your risk of a cyber-attack from evolving threats like ransomware that make electronic systems more vulnerable to an attack. Attending this webinar will help you identify things you can implement right away that can help better protect your practice and patients. Also learn about a free self-assessment tool and a new Maryland cybersecurity tax credit. The Maryland Health Care Commission invites you to attend this virtual learning session on **Thursday, October 25, 2018 from 12:00pm - 1:00pm EDT**.

### How to Register

To register, click the link below or copy and paste it into your web browser:  
<https://register.gotowebinar.com/register/4361245150805478401>

After registering, you will receive a confirmation email containing information on how to join the webinar.

### Learning Objectives:

- Understand how your practice can qualify for the Buy Maryland Cybersecurity (BMC) Tax Credit
- Learn about current trends and common cybersecurity weaknesses resulting in data breaches
- Identify the basics of cybersecurity to reduce risk and make your practice more secure
- Understand the human element of cybersecurity: employees are your first line of defense

### Who Should Attend?

Small to medium-sized health care practices

Please forward this email to others that you think may benefit from attending this webinar.

### Presenters

**Anene Onyeabo**, MPH, Program Manager, Maryland Health Care Commission

**Lauren Satyshur**, Health IT Program Manager, Office of Cybersecurity & Aerospace, Maryland Department of Commerce

**Krish Bhatnagar**, CISSP, PMP, Head, Security Services, Mokxa Technologies
