Request for Application – Responder Notification

A Consumer-Centric

Health Information Exchange for Maryland

PUBLIC NOTIFICATION

This is an announcement for applicants requesting an adjustment to hospital rates to provide funding to implement a statewide health information exchange. Applicants are required to include in their proposal a discussion of their approach to implement information system intrusion alerts and their investment in a penetration test program to penetrate “secure” systems (as Homeland Security does with airport security checkpoints and many other organization have implemented to protect the security of information systems).
