Update on Master Patient Index (MPI)

- **Master Patient Index - Unique person ID**
 - Generated using demographic information submitted by payors
 - Files returned to payors include a masked enterprise ID (EID)
 - Needed to combine medical services with pharmacy and behavioral health
 - Enrollees in self-insured employer plans are about one-half of Maryland's privately insured residents
 - Practitioner performance measurement needs complete utilization data across all enrollees
- **Inclusion of MPI in data submission for 2014**
 - Limited to 5 major carriers, 2 major PBMs
 - Evaluate the success of MPI linkage across submitters
- **MPI acquisition process**
 - Testing of process using sample files from 3 volunteer payors
 - Volunteers needed to test time required for EID receipt by payors
 - Using all enrollees as of June 30, 2014; submission to CRISP in July 2014
