

RHS Report Outline **Draft**

Report of about 30 pages with extensive appendices and links.

Introduction

Start with brief history of how we got here, the purpose and intent of this report, reference the guiding principles, and include summaries of each county.

Health services/access

- Baseline assessment (existing reports and data)
- Our data analysis and feedback from focus groups and stakeholder interviews
- Different programs that are already existing (hyperlinks to websites)

- **Transportation**
 - Baseline assessment (existing reports and data)
 - Our data analysis and feedback from focus groups and stakeholder interviews
 - Different programs that are already existing (hyperlinks to websites)

- **Workforce**
 - Baseline assessment (existing reports and data)
 - Our data analysis and feedback from focus groups and stakeholder interviews
 - Different programs that are already existing (hyperlinks to websites)

Economic Development

- Baseline assessment (existing reports and data)
- Our data analysis and feedback from focus groups and stakeholder interviews
- Different programs that are already existing (hyperlinks to websites)

Technology

- Baseline assessment (existing reports and data)
- Our data analysis and feedback from focus groups and stakeholder interviews
- Different programs that are already existing (hyperlinks to websites)

Options/Recommendations.

Making sure to take a regional approach, while recognizing that each county is separate and independent and that the best models are those that are championed locally and widely supported.

Acknowledgements

Making sure to recognize Extension Services, public libraries, <insert others here>

****Vulnerable populations will weave through all the sections. This includes health literacy.****
