**Sources:** Maryland Health Care Commission. The number of licensed chronic hospital beds maintained in the Commission's inventory is based on the Commission's Certificate of Need files and licensing information provided by the Office of Health Care Quality. The number of FY 2012 patient days for the private chronic hospitals is obtained from the Financial Data Base, as reported by private chronic hospitals to the Health Services Cost Review Commission (HSCRC), as of November 12, 2013. The number of FY 2012 patient days for the two state-operated chronic hospitals is obtained from the Hospital Management Information System (HMIS), as maintained by the Maryland Department of Health and Mental Hygiene.

**Notes:** The number of beds reflects the number of licensed chronic hospital beds at each facility as of June 30, 2012 (the end of the 2012 fiscal year reporting period). Occupancy is calculated based on licensed beds.
