DATA SUBMISSION MANUAL

PURPOSE: The 2013 Medical Care Data Base (MCDB) Data Submission Manual is designed to provide reporting entities with guidelines of technical specifications, layouts, and definitions necessary for filing the Professional Services Data, Pharmacy Data, Provider Directory, Institutional Services Data, and Eligibility Data reports required under COMAR 10.25.06.04. This manual incorporates new information in regulations adopted by the Commission on October 17, 2013 as emergency and proposed regulations. Items that are new or modified in this version include all recent updates and modifications. The manual is available in electronic form on the Commission's website at:

<http://mhcc.dhmd.maryland.gov/payercompliance/Pages/payercompliance/default.aspx>

PAYOR ID #: Please see Appendix A for a list of 2013 MCDB payors and assigned Payor ID numbers. The Payor assigned ID number is required on all submission media and documentation.

Questions regarding the information in this manual should be directed to:

DATA SUMMARY WORKSHEETS (DSW)

Payors who contributed to the 2012 Medical Care Data Base (submissions received June 2013) will be mailed Data Summary Worksheets that show total number of users, services, and payments for the claims files, and enrollees and member months for the eligibility file for calendar years 2011 and 2012.

Please use these Data Summary Worksheets to calculate and evaluate changes between your 2012 data (submitted in June 2013) and this 2013 MCDB data submission by inserting the 2013 reported data in the appropriate column. Differences greater than 10% should be resolved or explained in the Comments Section of the Data Summary Worksheets. Payors are required to return the Data Summary Worksheets with the 2013 MCDB data submission.

If your company did not receive the 2012 Data Summary Worksheets, please contact Larry Monroe at larry.monroe@maryland.gov.

DATA SET GLOSSARY

I. REPORTING PERIOD: Claims adjudicated between January 1, 2013 and April 30, 2014 for services provided and prescriptions filled between January 1, 2013 and December 31, 2013. The MCDB data regulations limit the span of service dates to be included in the data submission to only those services provided during the requested calendar year. Payers should still utilize a four month run-out period in the subsequent year to create their service files, submitting all 2013 services that had been paid as of April 30, 2014.

[Note: Any service provided or prescription filled after December 31, 2013 or crosses over the year 2013 into 2014 (e.g., 01/01/14 thru 04/30/14) should not be included in the 2013 MCDB submission, but submitted with the 2014 MCDB data.]

Each reporting entity shall provide the required reports and include all services provided to each Maryland resident insured under a fully insured contract or a self-insured contract, and to each non-Maryland resident insured under a Maryland contract. Include claims for all Maryland residents covered by your company regardless of where the contract is written; for example, if your company covers Maryland residents under a contract written in California, the claims for these residents should be included in your submission.

II. ELIGIBILITY DATA REPORT: This data report details information on the characteristics of all enrollees covered for medical services under the plan from **January 1, 2013 through December 31, 2013**. Please provide an entry for each month that the enrollee was covered by a general health benefit plan regardless of whether or not the enrollee received any covered services during the reporting year.

(For example, an enrollee with 12 months of coverage will have 12 eligibility records; an enrollee with 6 months of coverage will only have 6 records.)

III. PROFESSIONAL SERVICES DATA REPORT: Fee-for-service encounters and capitated encounters provided by health care practitioners and office facilities (i.e., CMS 1500 claims).

This does not include hospital facility services documented on UB-04 claims forms.

The following medical services must be included:

- Physician services
- Non-physician health care professionals
- Freestanding Office Facilities (radiology centers, ambulatory surgical centers, birthing centers, etc.)
- Durable Medical Equipment (DME)
- Prescription Drug (in a separate file)
- Dental – if services are provided under a medical benefit package
- Vision - if services are provided under a medical benefit package

IV. PHARMACY DATA REPORT: This data file details prescription drugs services only.

V. PROVIDER DIRECTORY REPORT: This data report details all health care practitioners and suppliers who provided services to enrollees during the reporting period. Each professional service submission should be accompanied by a Provider Directory Report. In instances where the data come from different sources, a separate Provider Directory Report must be provided (with a crosswalk of every practitioner ID listed in the Professional Services Report) for each health care practitioner or supplier who provided services.

VI. INSTITUTIONAL SERVICES DATA REPORT: This data file reports all institutional health care services provided to Maryland residents, whether those services were provided by a health care facility located in-State or out-of-State. These services include all payments made by the plan to the institutional provider summarized on the final bill for the given stay or visit. This summary record should reflect all charges and payments from an interim or final claim. To avoid sending duplicate charges and payments, submit summaries from interim claims only when a final claim does not exist for a visit or stay.

DATA SET GLOSSARY (cont.)

VII. REPORTING DEADLINE: July 31, 2014

VIII. NUMBER (#) OF SERVICES: Any health or medical care procedure or service rendered by a health care practitioner documented by CPT, HCPCS or locally defined code (i.e., homegrown medical procedure code).

- **Fixed Format** – 1 service corresponds to 1 record/service. If a service includes more than 1 unit, it is still counted as 1 service.
- **Variable Format** – 1 service is equal to 1 line item, multiple line items can appear on a single record/claim.

IX. NUMBER (#) OF CLAIMS:

- **Fixed Format** – Claims are equal to the number of CMS 1500 encounters (bills) or UB-04 claims originally received. Please note that when using the fixed format this number will not conform with the number of records submitted because multiple services may be reported on a single claim.
- **Variable Format** – Number of claims is equal to the number of CMS 1500 encounters (bills) or UB-04 claims submitted.

OVERVIEW OF DATA SUBMISSION GUIDELINES

GENERAL –

- The 2013 MCDB data submission will mark the first year of compliance under **COMAR 10.25.06 Maryland Medical Care Data Base and Data Collection**, proposed regulations adopted by the Commission on October 17, 2013 and approved by the AELR Committee as emergency regulations on January 9, 2014.

- **Reporting Period – Claims adjudicated** between January 1, 2013 and April 30, 2014 for services provided and prescriptions filled between January 1, 2013 and December 31, 2013.

[Note: Any service provided or prescription filled after December 31, 2013 or crosses over the year 2013 into 2014 (e.g., 01/01/14 thru 04/30/14) should not be included in the 2013 MCDB submission, but submitted with the 2014 MCDB data.]

- The **Professional Services** Data Report should include all fee-for-service and specialty capitated care encounters for services provided by health care practitioners and office facilities to applicable insureds during the reporting period. (**COMAR 10.25.06.07**)
- The **Pharmacy** Data Report should include all pharmacy services provided to applicable insureds during the reporting period, whether the services were provided by a pharmacy located in Maryland or out-of State. (**COMAR 10.25.06.08**)
- The **Provider Directory** Report should include information on all Maryland and out-of-State health care practitioners and suppliers that provided services to applicable insureds during the reporting period. (**COMAR 10.25.06.09**)
- The **Institutional Services** Data Report should include all institutional health care services provided to applicable insureds during the reporting period. (**COMAR 10.25.06.10**)
- The **Eligibility** Data Report should include information on the characteristics of all enrollees covered for medical services under the plan during the reporting period. (**COMAR 10.25.06.11**)
- Payors **MUST** provide **ALL** National Provider Identifier (NPI) numbers where the threshold value has been established. Reporting of key NPI numbers is required for the development of a provider performance measurement system.
- Mandatory NPI numbers requested include: **Servicing Practitioner** Individual NPI number and **Practitioner NPI used for Billing** on the Professional Services file; the **Prescribing Practitioner** Individual NPI on the Pharmacy file; and, the **Attending Practitioner** Individual NPI on the Institutional Services file.
- As a reminder for payors submitting the MCDB data files directly to the **MHCC Secure FTP site**, the **Internet Protocol (IP) Address** for the SFTP site is **184.80.193.37**. Information on submission of files to the Commission's SFTP Server can be found in Appendix B. Note that your company's assigned User ID and Password remain the same.

NEW and MODIFIED SPECIFICATIONS –

- **New!** The **Assignment of Benefits Indicator** field has been added to the Professional Services file. For out-of-network services please provide information on whether or not the patient assigned benefits to the servicing physician for an out-of-network service. Assignments of Benefits is defined as the transfer of health care coverage reimbursement benefits or other rights to a non-participating provider as defined in Insurance Article §14-201(c), Annotated Code of Maryland.
- **New!** The **CPT Category II** codes (Current Procedure Terminology II) field has been added to the Professional Services file. The CPT Category II codes will facilitate data collection about the quality of care rendered and for purposes of performance measurement.
- **New!** The **Revenue Codes** field has been added to the Institutional Services file. Please provide the codes used to identify specific service, location, accommodation and/or ancillary charges. This field will improve identification of services provided in hospitals, for use in practitioner performance measurement system, and for pricing of procedures and treatment of chronic conditions.
- **New!** The **Diagnosis Code Indicator** field has been added to the Professional Services file. This field indicates the volume of the International Classification of Diseases, Clinical Modification system used in assigning codes to diagnoses.
- **New!** The **Claim Paid Date** field has been added to the Pharmacy and Institutional Services files. This field indicates the date a claim was authorized for payment.
- **New!** The **Practitioner Specialty Code** fields on the Provider Directory file have been replaced with reference to the National Uniform Claim Committee Health Care Provider Taxonomy Code, Version 13.0, January, 2013. The document is available on the Commission's website at: http://mhcc.dhmd.maryland.gov/payercompliance/Documents/Taxonomy_13_0.pdf
- **Modified!** The **Diagnosis Code** field on the Professional Services and Institutional Services files has been expanded to **7 digits** to accommodate ICD-10-CM codes.
- **Modified!** The **Patient/Enrollee Zip Code** field on the Professional Services, Pharmacy, Institutional Services, and Eligibility files has been expanded to include the 5-digit US Postal Service code plus the 4-digit add-on code and hyphen (e.g., 21215-2299).
- **Modified!** The **Service Location Zip Code** field on the Professional Services file and **Pharmacy Zip Code** field on the Pharmacy file have been expanded to include the 5-digit US Postal Service code plus the 4-digit add-on code and hyphen (e.g., 21215-2299).
- **Modified!** The **Place of Service** field on the Professional Services file has been updated to include **"Place of Employment-Worksite"** (code #18). This value aligns the MCDB categories with the CMS Place of Service code set.
- **Modified!** A new value has been added to the **Participating Provider Status** flag on the Professional Services file. **"No network for this plan"** (code #9) is an additional response option.
- **New!** The **Source of Direct Reporting of Enrollee Race** field has been added to the Eligibility file to indicate the source used in direct reporting of enrollee race.
- **New!** The Race Category **White or Caucasian – Direct** field has been added to the Eligibility file to indicate whether the self-defined race of the enrollee is White or Caucasian.
- **New!** The Race Category **Black or African American – Direct** field has been added to the Eligibility file to indicate whether the self-defined race of the enrollee is Black or African American.
- **New!** The Race Category **American Indian or Alaska Native – Direct** field has been added to the Eligibility file to indicate whether the self-defined race of the enrollee is American Indian or Alaska Native.

NEW and MODIFIED SPECIFICATIONS (cont.) –

- **New!** The Race Category **Asian – Direct** field has been added to the Eligibility file to indicate whether the self-defined race of the enrollee is Asian.
- **New!** The Race Category **Native Hawaiian or Other Pacific Islander – Direct** field has been added to the Eligibility file to indicate whether the self-defined race of the enrollee is Native Hawaiian or Other Pacific Islander.
- **New!** The Race Categories **Other, Declined to Answer, and Unknown or Cannot be Determined – Direct** fields have been added to the Eligibility file.
- **New!** The **Imputed Race with the Highest Probability** field has been added to the Eligibility file to indicate race of the enrollee.
- **New!** The **Probability of Imputed Race Assignment** field has been added to the Eligibility file to indicate the probability of race in Imputed Race field.
- **New!** The **Source of Direct Reporting of Enrollee Ethnicity** field has been added to the Eligibility file to indicate the source used in reporting enrollee ethnicity.
- **New!** The **Imputed Ethnicity with the Highest Probability** field has been added to the Eligibility file to indicate the ethnicity of the enrollee.
- **New!** The **Probability of Imputed Ethnicity Assignment** field has been added to the Eligibility file to indicate the probability for ethnicity in Imputed Ethnicity field.
- **New!** The **Enrollee Preferred Spoken Language for a Healthcare Encounter** field has been added to the Eligibility file to indicate the preferred spoken language of the enrollee during a healthcare encounter.
- **New!** The **Coverage Period End Date** field has been added to the Eligibility file to indicate the contract renewal date, after which benefits, such as deductibles and out of pocket maximums reset.
- **New!** The **Grandfathered Plan Indicator** field has been added to the Eligibility file to indicate if the plan qualifies as a “Grandfathered or Transitional Plan” under the Affordable Care Act (ACA).
- **New!** The **Plan or Product ID Number** field has been added to the Eligibility file to indicate the Plan or Product ID number associated with the enrollee’s coverage and benefits in the payor’s adjudication system.
- **New!** The **Subscriber ID Number** field has been added to the Eligibility file to indicate the Subscriber ID number, or policy number, associated with an individual or family enrollment to allow for linking all members on a given policy.

KEY SUBMISSION REQUIREMENTS –

- The **Record Identifier** field is used to identify the data report file: 1 – Professional Services; 2 – Pharmacy; 3 – Provider Directory; 4 – Institutional Services; 5 – Eligibility.
- The Commission requests that payors continue to provide the **Patient/Enrollee IdentifierU** using the **Universally Unique Identifier (UUID)** algorithm to uniquely encrypt patient/enrollee identifiers, as required under **COMAR 10.25.06.06**. This unique identifier enables the Commission to identify patients across payors over time.
- The full **Universally Unique Identifier (UUID)** encryption software documentation, source code, and executables are bundled into a ZIP file. That software can be downloaded directly from the Commission’s website at <http://mhcc.dhmh.maryland.gov/payercompliance/Pages/mcdb-uuid.aspx>. The file is password protected. The password will be forwarded to the payor contact in an e-mail.

KEY SUBMISSION REQUIREMENTS (cont.) –

- Carriers are required to continue to use their current encrypted identifier, **Patient/Enrollee IdentifierP**, coincident with the UUID identifier. Using two identifiers will: 1) provide the means to perform trend analysis by cross referencing the two identifiers, and 2) increase the efficacy of the identifiers in the event encryption of one of the algorithms is compromised.
- The **Payor ID Number** and **Source System** fields, on the Professional Services, Pharmacy, Provider Directory, Institutional Services, and Eligibility data reports, allow the Commission to identify the **payor platforms** or **business units** from which the data was obtained.
- The **Source Company** variable on the Professional Services and Eligibility files defines the **payor company** that holds the beneficiary's contract; for use in characterizing contract requirements under Maryland law.
- The **Product Type** field on the Professional Services and Eligibility files classifies the **benefit plan** by key product characteristics (scope of coverage, size of network, coverage for out-of-network benefits).
- Total Patient Liability should equal the sum of **Patient Deductible**, **Patient Coinsurance/Co-payment**, and **Other Patient Obligations**. These three financial fields **must be reported when available**. Please make an effort to provide this financial information.
- The **Plan Liability** flag is configured into three categories: (1) Risk – under a Maryland contract; (2) Risk under a non-Maryland contract; or (3) Administrative Services Only.
- On the Institutional Services file, the **Record Status** field will be determined using the **third digit** in the "Type of Bill" field, so please fill this field. To avoid sending duplicate charges and payments, submit summaries from interim claims only when a final claim does not exist for a visit or stay.
- Payors are reminded to **NOT encrypt** the **Employer Federal Tax ID** on the Eligibility file. The data base contractor **will encrypt** the Employer Federal Tax ID prior to creating the MCDB files. Under this encryption protocol, an employer will have the same encrypted ID across all payor records.
- **Patient Date of Enrollment** in plan – Date is **20130101** if patient is enrolled at start of 2013. Enter other date if patient **not enrolled** at start of year but enrolled during 2013.
- **Patient Date of Disenrollment** in plan – **Leave blank** if patient is **still enrolled** on **20131231**. If patient **disenrolled** before end of year, enter date disenrolled.
- The **Date of FIRST Enrollment** on the Eligibility file should reflect the date that the patient was **initially enrolled** in the plan.
- On the Eligibility file, the **Start Date of Coverage (in the month)** represents the **start date for benefits** in the month. (For example, if the enrollee was insured at the start of the month of January in 2013, the start date is 20130101.)
- Also, the **End Date of Coverage (in the month)** on the Eligibility file represents the **end date for benefits** in the month. (For example, if the enrollee was insured for the entire month of January in 2013, the end date is 20130131.)
- The Commission requests that payors pay considerable attention to **Section II: File Documentation** and the **Data Summary Worksheets** which serve as the point of reference for the submission. The goal of the documentation and worksheets is to ensure that the appropriate data is received and to support data cleaning and auditing. The Commission has made significant reductions in documentation tables to reduce administrative burdens on payors. Note that data submitted without proper documentation and worksheets will be returned.

ANNUAL WAIVER or FORMAT MODIFICATION REQUESTS –

- The deadline for filing requests for an annual waiver (*previously referred to as a full exemption*) as required under COMAR 10.25.06.17A. is **March 15, 2014**. Under COMAR 10.25.06.17B, requests for report file and data element format modifications (*previously referred to as data element waivers and format modifications*) must be submitted by **June 30, 2014**. An extension request will be granted only if the payor can demonstrate extraordinary cause. The data base contractor is not authorized to grant exceptions.
- Payors are reminded to submit format modification requests only for those data elements that have an **assigned threshold value**.
- The MHCC staff assesses each payor's request(s) based on that **payor's particular circumstances**, including specific claims information provided to or retained by the payor, and changes in staffing or claims processing and storage systems that may impact information the payor can submit or when the submission can be completed.
- It is important that payors reference the MCDB **Quality Review Statement** (QRS) before submitting their data element and modified threshold requests. The Quality Review Statement is designed to provide payors with a comparison of information reported and threshold values assigned.
- Payors should not submit requests for data elements for which the **payor exceeded** or **met** the edit threshold for the previous year's submission. Unless the payor has supporting documentation that their circumstances have changed, the Commission will only consider a request regarding a data element which the payor fell below the threshold in the preceding year. Failure to consult the QRS in advance will result in the entire request being returned.
- Submissions that do not meet the specific thresholds listed in the File Layouts Section (Appendix F) will be returned unless a format modification was obtained. (Note: If you cannot meet the minimum thresholds, you must request a format modification prior to submission.)

MCDB DATA SUMMARY WORKSHEETS and QUALITY REVIEW SUMMARY REPORTS –

- MHCC provides payors with the prior submission year's Data Summary Worksheets and Quality Review Statement reports with comments for review by payors. The Quality Review Statement is designed to provide payors with a comparison of information reported and threshold values assigned. The Data Summary Worksheets detail changes in key measures including total number of recipients, services, and payments from the previous year's information.
- In an effort to reduce back and forth communications and re-submissions, payors are asked to use the Data Summary Worksheets to compare key measures from the current submission to the value for the same measures in their prior year's submission and calculate percent changes before submitting data.
- Payors are required to screen results for noteworthy changes (decreases or increases above 10%) in all key variable categories, and provide information/documentation on significant changes in the Comments Section of the Data Summary Worksheets. This documentation will confirm if the reported differences are legitimate as opposed to data submission errors. Payors are **required** to return the completed Data Summary Worksheets with the current submission.

FORMATTING NOTES –

- Match the **layout of the file submission** with the appropriate data report specifications.
- **RIGHT** justify all NUMERIC fields (*Pharmacy NCPDP is the only numeric field that is "exclusively left justified"*).
- **POPULATE** any NUMERIC field for which you have no data to report with **ZEROS**—except the financial fields for capitated/global contract services.
- **Financial fields** for capitated or global contract services that lack data are to be filled with -999. If you have the patient liability information for these services, you must report the patient liability values, even though the other financial fields (billed charge, allowed amount, reimbursement amount) are lacking data.
- Leave **BLANK** the positions in NUMERIC fields for which the entry is less than the allowed field length.
- **DO NOT** add leading zeroes to amount/financial fields.
- **LEFT** justify all ALPHANUMERIC fields.
- Leave **BLANK** any ALPHANUMERIC fields for which you have no data to report.

A. Is this service volume distribution consistent with your experience?

Yes **If no**, please explain _____

2. Homegrown Procedure Codes/Capitation Questions

[Excel worksheet – ProfServ_Homegrown_Capitation]

A. Does this data submission include homegrown procedure codes*?

- No **If yes**, please provide in a separate electronic file a list of codes and definitions applicable to this submission.

* Note: Submissions that do not meet the 95% threshold for this variable will be returned unless the payor has obtained a waiver.

* If your company is not a Staff Model Health Maintenance Organization (HMO), please answer the following:

B. What types of services in your data submission do not have payment information (billed charge, allowed amount, reimbursement amount) because they are capitated or reimbursed through a global contract with an intermediary organization?

* Note: For Anesthesia Services, we would expect the Service Unit Indicator to have a value of "2" or "8".

A. Are base units included in the units field for these services?

Yes No

B. Are anesthesia units associated with physical status modifiers counted when anesthesia payments are calculated?

(Physical status modifiers are used by some payors to compensate anesthesiology providers when the patient is very young, old, or frail. The modifiers are reported in the CPT modifier field.)

Yes No

If yes, please supply the additional anesthesia units in the table below.

<u>Physical Status Modifiers</u>	<u>Anesthesia Units</u>
P1 – A normal healthy patient.	_____ 0 _____
P2 – A patient with mild systemic disease.	_____
P3 – A patient with severe systemic disease.	_____
P4 – A patient with severe systemic disease that is a constant threat to life.	_____
P5 – A moribund patient who is not expected to survive without the operation.	_____
P6 – A declared brain-dead patient whose organs are being removed for donor purposes.	_____

Secure SFTP Server Information

For payors submitting the MCDB data files directly to the **MHCC Secure FTP site**, the **Internet Protocol (IP) Address** for the SFTP server is **184.80.193.37**. Note that your company's assigned User ID and Password remain the same.

If your company intends to submit the 2013 Medical Care Data Base (MCDB) files via the Commission's secure FTP, the following naming convention is in effect for the five data reports. The indicators are separated by the _ (underscore) symbol: **PayorID_File_Version_Date**

Payor ID:	Appendix A assigned ID number
Files:	Professional Services Data Report = ProfServ Pharmacy Data Report = Pharm Provider Directory Report = Prov Institutional Services Data Report = InstServ Eligibility Data Report = MedElig

APPENDIX C

Explanation of Key Data Element

UNIVERSALLY UNIQUE IDENTIFIER (UUID)

FORMATTED FOR THE 2013 MARYLAND MEDICAL CARE DATA BASE (MCDB) SUBMISSION

UNIVERSALLY UNIQUE IDENTIFIER (UUID)

Cross Payor Encryption Algorithm

In order to maintain a consistent and unique identifier for each patient across providers, payors, and services, the MHCC shall, as necessary, provide each reporting entity with an encryption algorithm, **Universally Unique Identifier (UUID)**, using one-way hashing consistent with the Advanced Encryption Standard (AES) recognized by the National Institute of Standards and Technology. Each reporting entity shall maintain the security and preserve the confidentiality of the UUID encryption algorithms provided by MHCC.

A Universally Unique Identifier (UUID) uniquely identifies information in a decentralized system; using the same algorithm across distributed systems will result in the same unique ID for the same value; information labeled with UUIDs can be combined into a single database without needing to resolve name conflicts.

UUIDs will be 12 character positions in length and constructed from information obtained at birth including: Social Security Number, Date of Birth, Month of Birth, Year of Birth, Sex, First Name.

Each payor shall encrypt new Patient/Enrollee Identifiers (**Patient/Enrollee IdentifierU**) in such a manner that each unique value produces an identical unique encrypted data element.

Each payor shall continue to use their current encrypted identifier (**Patient/Enrollee IdentifierP**) coincident with the new identifier.

Using two identifiers will: 1) provide the means to perform trend analysis by cross referencing the two identifiers, and 2) increase the efficacy of the identifiers in the event encryption of one of the algorithms is compromised.

The full encryption software documentation, source code, and executables are bundled into a ZIP file. That software can be downloaded directly from the Commission's website at <http://mhcc.dhmh.maryland.gov/payercompliance/Pages/mcdb-uuid.aspx>. The file is password protected. The password will be forwarded to the payor contact in an e-mail.

The Commission is strongly encouraging all carriers to consider the simple implementation of the software for the 2013 MCDB submission. That implementation is simply a standalone program that reads in the precursor variables and outputs those same variables plus the UUID.

Questions regarding the Universally Unique Identifier (UUID) Cross Payor Encryption Algorithm should be directed to Mr. Larry Monroe at MHCC at (410) 764-3390 or via e-mail at larry.monroe@maryland.gov.

APPENDIX D

SPECIAL INSTRUCTIONS for **FINANCIAL DATA ELEMENTS**

FORMATTED FOR THE 2013 MARYLAND MEDICAL CARE DATA BASE (MCDB) SUBMISSION

FINANCIAL DATA ELEMENTS – Billing and Reimbursement Information

Each of the financial data elements listed must be recorded by line item.

Professional Services file – a line item is defined as a single line entry on a bill/claim for each health care service rendered. The line item contains information on each procedure performed including modifier (if appropriate), service dates, units (if applicable), and practitioner charges. The line item also includes billed charges, allowed amount, patient deductible, patient coinsurance/co-payment, other patient obligations, and reimbursement amount. The value represented by each financial field **must be rounded to whole dollars** (i.e., no decimals).

- All Fee-for-Service ("Record Status = 1") debit and credit bills must be reconciled to final bills.
- For Capitated/Global Contract Services ("Record Status = 8") billed charge, allowed amount, patient deductible, patient coinsurance/co-payment, other patient obligations and reimbursement amount must be reported when available.

Institutional Services file – a record is defined as a summary of the services received during a stay or visit at an institution. The billed charges, allowed amount, and amounts paid by the payor and patient should reflect a summary of all services provided on the claim. The value represented by each financial field **must be rounded to whole dollars** (i.e., no decimals).

Pharmacy file – a line item is defined as a single line entry on a prescription service. The line item contains information on each prescription filled, including date filled, drug quantity and supply. This line item also includes billed charge, patient deductible, patient coinsurance/co-payment, other patient obligations, and reimbursement amount for each prescription. The value of the financial field must be represented using **two implied decimal places. Use two zeros if cents are not provided.**

FINANCIAL DATA ELEMENTS	Professional Services and Institutional Services Data		Pharmacy Data	
Billed Charge	<i>Dollar amount as billed by the practitioner/institution for health care services rendered.</i>	<i>Rounded to whole dollars (no decimals)</i>	<i>Prescription retail price including ingredient cost, dispensing fee, tax, and administrative expenditures.</i>	<i>Formatted using 2 implied decimal points</i>
Allowed Amount	<i>Retail Amount for the specified procedure code.</i>	<i>Rounded to whole dollars (no decimals)</i>	/	/
Patient Deductible	<i>Fixed amount that the patient must pay for covered services before benefits are payable.</i>	<i>Rounded to whole dollars (no decimals)</i>	<i>Fixed amount that the patient must pay for covered services before benefits are payable.</i>	<i>Formatted using 2 implied decimal points</i>
Patient Coinsurance/ Patient Co-payment	<i>Specified amount or percentage the patient is required to contribute towards covered medical services after any applicable deductible.</i>	<i>Rounded to whole dollars (no decimals)</i>	<i>Specified amount or percentage the patient is required to contribute towards covered medical services after any applicable deductible.</i>	<i>Formatted using 2 implied decimal points</i>
Other Patient Obligations	<i>Any patient liability other than deductible or coinsurance/co-payment. Includes obligations for out-of-network care (balance billing), non-covered services, or penalties.</i>	<i>Rounded to whole dollars (no decimals)</i>	<i>Any patient liability other than deductible or coinsurance/co-payment. Includes obligations for out-of-network care (balance billing), non-covered services, or penalties.</i>	<i>Formatted using 2 implied decimal points</i>
<i>Note: Total Patient Liability should equal the sum of Patient Deductible, Patient Coinsurance/Patient Co-payment, and Other Patient Obligations. Please make an effort to provide this financial information.</i>				
Reimbursement Amount	<i>Amount paid to a practitioner, other health professional, office facility, or institution.</i>	<i>Rounded to whole dollars (no decimals)</i>	<i>Amount paid to the pharmacy by the payor.</i>	<i>Formatted using 2 implied decimal points</i>

DATA REPORTING and **PRE-SUBMISSION DATA CHECKS**

FORMATTED FOR THE 2013 MARYLAND MEDICAL CARE DATA BASE (MCDB) SUBMISSION

MOST COMMON DATA SUBMISSION ISSUES

A payor's ability to identify and document significant changes in key data elements in advance, helps to minimize the need for re-submissions and extended communications with MHCC and the MCDB data base contractor.

Below is a list of the most common data issues that center on data adequacy and data integrity, each with a brief data checks explanation. Please review the major points outlined and the minor pre-submission errors payors can avoid.

Data Issues	Data Checks
A. Data Adequacy	
1. Missing Data <ul style="list-style-type: none"> • Missing records • Missing values within a record 	<ul style="list-style-type: none"> • <u>Level 1 check</u>: Make sure there are no missing values for the key fields in the Data Summary Worksheet (DSW). • <u>Level 2 check</u>: Create summary diagnostics for all other fields and ensure the codes or values reported are not left blank (unless they are not collected by your system). • Payor must request a waiver from MHCC, if a field with missing values does not meet threshold requirements.
2. Inconsistent financials and enrollment	<ul style="list-style-type: none"> • Use the Data Summary Worksheet (DSW) to compare this year's percent change (2012-2013) to last year's percent change (2011-2012). • Differences greater than 10 percent should be resolved, or explained in the Comments Section of the DSW.
3. Complete or partial duplicate records	<p>Check for possible duplicate submission of part or the entire claim.</p> <ul style="list-style-type: none"> • Professional Services: Ensure there is only one record for each service. Debit and credit bills must be reconciled prior to data submission. • Institutional Services: Ensure there is only one record for each combination of a service (visit or discharge) and a bill type. • Pharmacy: Ensure there is only one record for each combination of NDC and fill date unless there is a credit record involved. Any credit record must be identified by negative financial values. • Eligibility: Ensure there is only one record for each month a member is covered.
4. Incorrect recoding/mapping of categorical fields	<ul style="list-style-type: none"> • Review the algorithm for translating the internal values to MHCC required values. • Contact MHCC and validate any questionable mapping or the algorithm used for pulling certain values that do not match well with the values required in the MCDB Data Base Submission Manual. <p>For example, the specialty code or the coverage type in the payor database may not exactly match the values required in the data submission manual.</p>

Data Issues	Data Checks
5. Failure to meet threshold levels	<ul style="list-style-type: none"> Check the frequency count for each field and ensure the thresholds required in the MCDB Data Base Submission Manual have been met. Resolution applies to all files. If a payor definitely cannot meet the requirements, they will need to request a waiver from MHCC.
6. Inconsistent dates	<p>Check the data for inconsistent dates:</p> <ul style="list-style-type: none"> Professional Services: For each patient, service from date (Field #29) must occur after enrollment date (Field #42) and before disenrollment date (Field #43). Institutional Services: For each patient, start of service date (Field #19) must occur after enrollment date (Field #7) and before disenrollment date (Field #8). Pharmacy: For each patient, prescription fill date (Field #15) must occur after enrollment date (Field #25) and before disenrollment date (Field #26). Eligibility: For each patient, date of FIRST enrollment (Field # 37) must occur on or before the earliest start date of coverage (Field # 35). For each patient, date of disenrollment (Field # 38) must occur on or after the latest end date of coverage (Field # 36). For each patient, start date of coverage (Field # 35) must occur on or before the end date of coverage (Field # 36). Resolve inconsistencies.
B. Data Integrity	
7. Patient Identifiers not matching the Eligibility File	<ul style="list-style-type: none"> Construct a composite patient identifier by concatenating the payor-encrypted ID, the UUID, the birth year & month, and the gender for all claims files (professional services, institutional services, and pharmacy) and the eligibility file. Query the claims files to ensure that each composite patient identifier in the claims file can be found in the eligibility file. Resolve non-matches.
8. Multiple Payor-encrypted IDs associated with same UUID	<ul style="list-style-type: none"> Construct a composite patient identifier by combining the payor-encrypted ID, the birth year & month, and the gender. Check to ensure each UUID is associated with only one composite patient identifier. Resolve duplicates.
9. Servicing Practitioner IDs not matching the Provider directory; missing specialty code	<ul style="list-style-type: none"> Match the practitioner IDs to the same ID in the Provider Directory. There <u>must</u> be a match to the Provider Directory. In addition, there must be at least one <u>non-blank</u> specialty code in the Provider File.

PROFESSIONAL SERVICES DATA REPORT SUBMISSION – File Layout

This report details all fee-for-service and capitated encounters provided by health care practitioners and office facilities from **January 1, 2013 through December 31, 2013**. Please provide information on all health care services provided to applicable insureds whether those services were provided by a practitioner or office facility located in-State or out-of-State. Payors are permitted to submit the data in either of the following formats:

*(Reminder: **Patient Liability** is calculated using these three financial fields: **Patient Deductible**, **Patient Coinsurance/Co-payment**, and **Other Patient Obligations**. Total Patient Liability **should equal the sum** of Patient Deductible + Patient Coinsurance/Co-payment + Other Patient Obligations.)*

Option 1, FIXED FORMAT: (preferred) Using the fixed format, it is possible that multiple services will be reported for each claim. Count each reported health care service even though documented on a single claim. The number of line items will always equal one (1) because one service is written per row.

** If the Service thru Date is not reported, then assume that the Service from Date (data element #22) and the Service thru Date are the same. ** Implied decimal should only be used for anesthesia time units; all other units should be submitted as integers.*

The Professional Services data must link to the Pharmacy, Institutional Services, and Eligibility data by Encrypted Patient Identifier. Encryption of Patient ID must be consistent with encryption of Patient ID in the Pharmacy, Institutional Services, and Eligibility files. MHCC will return files that do not link.

PHARMACY DATA REPORT SUBMISSION – File Layout

This report details all prescription drug encounters for your enrollees **filled from January 1, 2013 through December 31, 2013**. Please provide information on all pharmacy services provided to applicable insureds whether the services were provided by a pharmacy located in-State or out-of-State. **Do not include pharmacy supplies or prosthetics.**

COMAR 10.25.06 specifies the Pharmacy Data Report be submitted separately from the Professional Services Data Report.

(Reminder: **Patient Liability** is calculated using these three financial fields: **Patient Deductible**, **Patient Coinsurance/Co-payment**, and **Other Patient Obligations**. Total Patient Liability **should equal the sum** of Patient Deductible + Patient Coinsurance/Co-payment + Other Patient Obligations.)

REMINDERS !!!

- Use specific (separate) fields for practitioner First Name and Last Name.
- Confirm **Practitioner/Supplier ID #** matches **Servicing Practitioner ID #** in the Professional Services File Layout. Confirm **Practitioner DEA #** matches **Practitioner DEA #** in the Pharmacy File Layout.
- If the practice is a Multi-Practitioner Health Care Organization, then **Practitioner Organizational NPI #** (data element #15) should be filled.
- * Note: If the Practitioner Individual NPI (field #14) or the Practitioner Organizational NPI numbers (field #15) are not provided, then the Practitioner Specialty code (field #9) must be filled using the NUCC Health Care Provider Taxonomy codes available at: http://mhcc.dhmh.maryland.gov/payercompliance/Documents/Taxonomy_13_0.pdf
- If a payor requests to provide internal practitioner specialty coding, then a crosswalk of the internal practitioner specialty codes to the appropriate taxonomy specialty codes must be provided.

INSTITUTIONAL SERVICES DATA REPORT SUBMISSION – File Layout

This report details all institutional health care services (*including hospital inpatient, outpatient, and emergency department services*) provided to your enrollees from **January 1, 2013 through December 31, 2013**.

Please provide information on all institutional services provided to applicable insureds whether by a health care facility located in-State or out-of-State.

(Reminder: **Patient Liability** is calculated using these three financial fields: **Patient Deductible**, **Patient Coinsurance/Co-payment**, and **Other Patient Obligations**. Total Patient Liability **should equal the sum** of Patient Deductible + Patient Coinsurance/Co-payment + Other Patient Obligations.)

This summary record should reflect all charges and payments from an interim or final claim. To avoid sending duplicate charges and payments, submit summaries from interim claims only when a final claim does not exist for a visit or stay.
