**MARYLAND AMBULATORY SURGERY
PROVIDER DIRECTORY
2015**

The 2015 edition of the Maryland Ambulatory Surgery Provider Directory is the nineteenth edition of the Directory compiled by the Maryland Health Care Commission. This edition of the *Directory* contains data for the 2014 calendar year based on surveys of: (1) “Ambulatory surgical facilities” defined in Maryland regulation as outpatient surgical facilities with two or more operating rooms; (2) other freestanding (not hospital-based) facilities with ambulatory surgical capacity but no more than one sterile operating room; and (3) hospital-based ambulatory surgery services. The *Directory* provides a uniform data set for ambulatory surgical facilities for use by the Commission, health care providers, policy makers, health insurers, the public and other interested organizations. A list of providers by jurisdiction, information on specialties, and a list of freestanding facilities with hospital or health system affiliations are provided in the *Directory*. A statistical profile of ambulatory surgery in Maryland summarizes key data for 2014 and provides trend data on ambulatory surgery facilities, utilization, and revenues. Also included is a list of facilities that closed during the 2014 survey year and the number of projected facility openings, by jurisdiction, for 2015. Also included is a listing of the number of practitioners at each facility and the percentage of practitioners that are Board Certified or Board Eligible.

The *Directory* may be downloaded from the Commission's website at http://mhcc.maryland.gov/mhcc/Pages/hcfs/hcfs_amsurg/hcfs_amsurg.aspx

The information in this *Directory* is also available in the *Maryland Ambulatory Surgery Facility Consumer Guide* located at <http://mhcc.maryland.gov/consumerinfo/amsurg/index.aspx>. A public use file of ambulatory surgery facility data containing facility specific information, patient demographics, operating and procedure room characteristics and cases by CPT codes is available in Access or Excel format by going to the [Ambulatory Surgery public use data file](#).

The Commission has taken every measure to provide the most current and accurate information. However, some names, addresses or specialties may have changed before posting the Directory on the website. Updates, feedback or requests for further information may be forwarded to:

Ms. Christine L. Parent, Program Manager
Ambulatory Surgery Provider Directory
Maryland Health Care Commission
Center for Hospital Services
4160 Patterson Avenue
Baltimore, Maryland 21215-2299
(410) 764-3834
christine.parent@maryland.gov

The Commission thanks the providers of ambulatory surgery for their contribution to this Directory.

NOTES

- The number of operating rooms published in this Directory reflects data reported to the Commission in the 2014 Maryland Freestanding Ambulatory Surgery Facility Survey. The number of hospital operating rooms comes from a separate survey, sent to each acute care hospital in June of the survey year.
- The information and data in this Directory are reported for calendar years.
- Where N/A is reported, the data is either “not applicable” or “not available.”
- Reported hospital cases reflect outpatient ambulatory surgery cases and do not include inpatient cases. It is a report of cases that were performed in rooms of any type, i.e., sterile operating rooms and non-sterile procedure rooms.

CHANGES TO MARYLAND HOSPITAL NAMES/HEALTH SYSTEM AFFILIATIONS

A new general hospital, Holy Cross Germantown Hospital, a 93 bed hospital located in Montgomery County, opened in October 2014.

Two hospitals in the Adventist HealthCare System changed their names as listed below.

Previous Name

Shady Grove Adventist Hospital
Washington Adventist Hospital

Current Name

Adventist HealthCare Shady Grove Medical Center
Adventist HealthCare Washington Adventist Hospital

Guide to State Regulations Affecting Freestanding Ambulatory Surgery Providers in Maryland*

Ben Steffen
Executive Director

Annual Maryland Freestanding Ambulatory Surgical Facility Survey

1. All Maryland non-hospital ambulatory surgery providers are required to complete the Maryland Health Care Commission's (MHCC's) annual *Maryland Freestanding Ambulatory Surgical Facility Survey*. The survey is conducted in the second quarter of the year and surveys the preceding calendar year. The survey is Internet-based and is completed and submitted online.
2. Ambulatory surgery providers should begin collecting necessary data as soon as surgical cases are performed at the center in anticipation of completing the survey. Providers are responsible for submitting data for any part of the year the center is operational. If the center closes mid-year, please make arrangements with MHCC to complete the survey. A list of the survey data fields is available from the MHCC upon request.

Developing New Ambulatory Surgery Capacity

1. Developing any new ambulatory surgery capacity in Maryland requires obtaining, from MHCC, a Certificate of Need (CON) or a written determination stating that your proposed center does not require a CON. Developing a facility with two (2) or more operating rooms requires a CON. Please contact Kevin McDonald, Chief, Certificate of Need at 410-764-5982 for additional information on filing a CON application. A physician's office seeking to establish one operating room may not need a CON, but requires a determination of coverage under the CON rules. To begin the process, please refer to the Commission's website <http://mhcc.maryland.gov/>.
For information on filing a request for determination of coverage go to <http://mhcc.dhmf.maryland.gov/certificateofneed/pages/noncoverage.aspx> (See COMAR 10.24.01.05).
2. Determination letters are effective for two (2) years from the date the letter is issued. If the operating room capacity is not implemented within two years, a new determination letter must be obtained from MHCC.

Making Changes to Your Plans Before Opening

You must notify MHCC in writing 45 days in advance of making any of the following changes to your plans to develop ambulatory surgery capacity (See COMAR 10.24.01.05).

Examples of the types of changes requiring notification include;

- Change in ownership
- Change in legal structure
- Change in floor plan
- Change in location
- Change in operating and/or procedure room capacity

Opening Your New Surgery Center

1. All ambulatory surgery centers seeking third party reimbursement for a facility fee must obtain a license from the Office of Health Care Quality. A determination of coverage letter or a CON from MHCC is required by OHCQ in order to obtain a license (see COMAR 10.05.05).
2. The licensing and certification process requires:
 - a. Medicare certification;

- b. Fire Marshall Survey; and
- c. Licensing survey

Making Changes to Your Existing Ambulatory Surgery Center

You must notify MHCC and OHCQ in writing of the following planned changes to your existing ambulatory surgery center at least 45 days prior to implementation of any of these changes (see COMAR 10.24.01.05)

- a. Center name;
- b. Specialties provided;
- c. Ownership (also see below);
- d. Addition of new physicians;
- e. Legal structure;
- f. Closure of surgery center;
- g. Change in floor plan; and/or
- h. Change in surgical capacity

Moving or Expanding Your Ambulatory Surgery Center

1. If you are planning to move your center to another location and/or are considering a change in operating room capacity, you must apply to MHCC for a CON or, in the case of a single operating room facility a new determination of coverage, at least 45 days in advance (See COMAR 10.24.01.05). Increasing operating room capacity will require a CON if the facility has one or more operating rooms.
2. You must also contact OHCQ as soon as possible before your move. Please notify OHCQ with an effective date of the move to schedule an on-site inspection and to arrange for a replacement license.

Changes in Ownership

Notification requirements for ambulatory surgical facilities with two or more operating rooms are outlined at COMAR 10.24.01.03A.

If a majority of the ownership interest in an ambulatory surgery center with no more than one operating room changes or if the principal owner changes, a new determination of coverage is required. Please note that the principal owner includes both the person issued the original letter of determination and, when there are multiple owners, the person or entity that holds the largest percentage of ownership in the ambulatory surgery center.
