A hospital shall have been providing primary PCI services for at least two years before seeking a Certificate of Conformance to provide elective PCI services, unless the hospital is located in a part of Maryland that does not have sufficient access to primary PCI services. Therefore, this review schedule for a Certificate of Conformance for elective PCI services is applicable only to Holy Cross Hospital of Silver Spring. An application to establish primary PCI and elective PCI services simultaneously based on insufficient access to emergency PCI services is not subject to this review schedule and may be filed at any time.
