Exhibit 10
Company Overview

Strategic Behavioral Health (SBH) is based in Memphis, TN and owns and operates Inpatient Psychiatric Hospitals and Psychiatric Residential Treatment Facilities throughout the United States.

SBH currently operates nine psychiatric hospitals through subsidiaries in the states of Colorado, Nevada, New Mexico, Texas and North Carolina. SBH is a company dedicated to providing the highest quality of behavioral healthcare to its patients and families.

SBH will build and acquire a variety of programs including Acute, Residential, and Outpatient services. The services will treat adults, seniors and children in need of mental health and substance abuse care.

SBH will seek out opportunities to bring services to areas where there is an identified need.

Our Commitment

To provide high quality, patient-centered care to all of our clients
To have compassion, empathy, & perseverance for patients and their families
To utilize a "team" approach to care
To focus on communication with patients/families/payors/referral sources
To use sound fiscal management with patient resources
To encourage employees to be "the best" in their field
QUALITY MEASURES
Quality assessment from time of admission to up to 1-year follow-up using various quality measures
- Clinical Outcomes
  - Pre & Post, 1 month, 6 months, and up to 1 year for PRTF
- Continuity of Care
  - 72 Hour Follow-up Calls
- Patient Satisfaction-Press-Ganey

BENEFITS
- Brief-All ages
- Measure Symptoms (Anxiety, Risk, & Depression) and Behaviors
- Additional evaluation of risk at discharge and post-discharge
- Large amount of data collection (sample size or “N”)

OPPORTUNITIES FOR CONSIDERATION
- Enhanced quality analysis
- Continuity of care verification
- Standardization of processes
- Improved clinical outcomes
- Improved patient satisfaction
INSTRUMENTS

- CORE (Clinical Outcomes in Routine Evaluation)-see examples
  - CORE (10 items for Youth and Adult)
  - A difference of 5 or greater to be clinically significant change.
  - Internal retest reliability (.75-.95)
  - Convergent validity with 7 other instruments including the BDI, BAI, and SLC-90
- SBH Behavioral Survey (44 items)
  - Recidivism, School, Police, Home Life, Aggression, General Health, etc.

ADULT SURVEY

Location ____________
Follow-up Period __ One Month __ 6 Month __ 12 Month __ Other ____________
Para.mp Being Called __________________________
Interviewer __________________________
Date __________________ Time Started __________________ Time Completed __________________

General Question:
1. What month were you discharged from NAME OF FACILITY?
2. Are you living with anyone now? ___ YES ___ NO, living alone

   ___ YES ___ NO
   If YES, what were these service arrangements? __________________________
5. Have you actually received these services in the last 30 days?
   ___ YES ___ NO
6. How would you rate the services you received from Name of Facility? (1-7)
   Very satisfied ____________
   Satisfied ____________
   Neutral ____________
   Dissatisfied ____________
   Very dissatisfied ____________

7. In the last 30 days, besides the services that were arranged by staff at NAME OF FACILITY, have you received any other services?
   ___ YES ___ NO
CORE-10 (AGES 18+)

**Over the last week**

1. I have felt tense, anxious or nervous
2. I have felt I have someone to turn to for support when needed
3. I have felt able to cope when things go wrong
4. Talking to people has felt too much for me
5. I have felt panic or terror
6. I made plans to end my life
7. I have had difficulty getting to sleep or staying asleep
8. I have felt despairing or hopeless
9. I have felt unhappy
10. Unwanted images or memories have been distressing me

**Total (Clinical Score*)**

*Procedure: Add together the item scores, then divide by the number of questions completed to get the mean score, then multiply by 10 to get the Clinical Score.

Quick method for the CORE-10 (if all items completed): Add together the item scores to get the Clinical Score.

THANK YOU FOR YOUR TIME IN COMPLETING THIS QUESTIONNAIRE
