SUBTOTAL: State-operated Chronic Hospitals⁷	126	8,883	19.26%
STATEWIDE TOTAL⁸	480	110,073	62.66%

Sources: Maryland Health Care Commission. The number of licensed chronic hospital beds maintained in the Commission's inventory is based on the Commission's Certificate of Need files and licensing information provided by the Office of Health Care Quality. The number of FY 2014 patient days for the private chronic hospitals is obtained from the Financial Data Base, as reported by private chronic hospitals to the Health Services Cost Review Commission (HSCRC), as of September 29, 2015. The number of FY 2014 patient days for the two state-operated chronic hospitals is obtained from the Hospital Management Information System (HMIS), as maintained by the Maryland Department of Health and Mental Hygiene.

Notes: The number of beds reflects the number of licensed chronic hospital beds at each facility as of June 30, 2014 (the end of the 2014 fiscal year reporting period). Occupancy is calculated based on licensed beds.

[15-25-16

¹ Johns Hopkins Bayview Medical Center's 22,925 patient days is the combined number of patient days for the separately licensed 76 special hospital-chronic beds and nine special hospital-rehabilitation beds.

² University of Maryland Medical Center Midtown Campus (formerly Maryland General Hospital) established an 80-bed chronic hospital unit. These 80 chronic hospital beds were relocated from University Specialty Hospital ("USH") on July 11, 2012.

³ University of Maryland Rehabilitation and Orthopedic Institute's (formerly Kernan Hospital) 52 chronic hospital beds include 16 dually licensed chronic/rehabilitation beds. UM Rehabilitation & Orthopedic Institute added 12 chronic hospital beds; these beds were relocated from University Specialty Hospital, July 11, 2012.

⁴ Gladys Spellman Specialty Hospital and Nursing Center relocated its 46 licensed chronic hospital beds to Laurel Regional Hospital, effective June 30, 2011.

⁵ Western Maryland Hospital Center's occupancy, based on its 30 *budgeted* chronic hospital beds, would be 55.52 percent.

⁶ Deer's Head Hospital Center's chronic hospital occupancy, based on its 14 *budgeted* chronic hospital beds, would be 54.4 percent.

⁷ The occupancy for the two State-operated chronic hospitals, based on the total 44 *budgeted* chronic hospital beds, would be 55.2 percent.

⁸ The statewide chronic hospital occupancy based on the 354 *licensed* beds at the five *private* facilities plus the 44 *budgeted* beds at the two *state-operated* facilities would be 75.56 percent.
