UPMC Western Maryland Regional Medical Center	346	3,179	4,745	67%	9	Western Maryland	13	0

Sources: MHCC staff analysis of data and sources used in the acute rehabilitation projection for 2021, as described in the above table.

*Notes: Johns Hopkins Bayview Hospital achieved occupancy above its licensed capacity through the utilization of licensed special chronic hospital beds without interference by MDH or HSCRC. Sinai Hospital has reported a physical capacity of 43 beds, even though its license indicates a capacity of 57 beds.
