Good evening,

I'm writing on behalf of Johns Hopkins Health System and its Maryland hospitals; The Johns Hopkins Hospital, Johns Hopkins Bayview Medical Center, Johns Hopkins Howard County Medical Center, and Suburban Hospital. I'm writing to acknowledge that each hospital has received and reviewed the draft documents estimating need for acute psychiatric services for historically underserved populations in Maryland. We have no comments at this time. We'd like to thank MHCC staff for their time and efforts in producing the need analysis, supplemental tables, and utilization projections included in the report.

Best,

Spencer
