

Lunch and Learn Webinar

Cyber Liability Insurance

What Practices Need to Know about Risk, Selecting Coverage, and Avoiding Common Pitfalls

February 18, 2022

12PM – 1PM ET

Virtual

The health care industry is a frequent target for cybercrime that can result in a data breach. Cyber liability insurance helps small practices recover from costs associated with a malicious software attack, like ransomware. This can include expenses such as patient notification, credit monitoring, and legal fees. Join us for presentations by industry experts.

David Greber, Principal, Offit Kurman, P.A.

Understanding and Managing Cyber Threats

Hear about the greatest cyber threats, potential damage of these threats, strategies to mitigate cyber risk, and steps practices can take to minimize disruption to practice operations and protect patient data.

Steve Rutkovitz, Chief Executive Officer, Choice Cybersecurity

Navigating the Purchase of Cybersecurity Insurance

Learn about how to evaluate the different types of cyber liability coverage, select the right amount of coverage, and tips for completing questionnaires required by carriers.

The MHCC has applied for educational credits for this event.
