

RFP#: MHCC 22-003**Telehealth Study****Q&A #1**

The MHCC is making available questions and answers to prospective Offerors known by the Issuing Office to have received the above-referenced RFP. Updates will follow as we receive additional questions from potential Offerors.

1. Question: Section 2.2.3.3 State Responsibilities, pg. 12

On page 12, (section 2.2.3.3) the RFP states “The MHCC shall provide the Contractor with a list of providers and approximately 15 survey questions for deliverables required under 2.3.7.”.

- a. Will the contractor otherwise be responsible for identifying provider survey questions and designing the instrument, incorporating these 15 questions?
- b. Will the list of providers provided by MHCC serve as the full sample frame for a survey, or will this list only include a portion of the providers that should be surveyed?
- c. Can MHCC provide additional detail on the information that will be available on the list of providers that can be used for sampling and recruitment, including specialty, practice, location, and contact information?

Answer:

- a. The Contractor is required to conduct pretesting of the draft survey questions provided by MHCC and propose design changes within five business days of pretesting. The Contractor is required to propose an approach to survey at least 1,000 providers that yields a minimum 50 percent response rate (see 2.3.7.3).
- b. Yes, the list of providers will serve as the full sample framework for the provider survey. The MHCC obtained the list of providers from the publicly free National Plan and Provider Enumeration System (NPPES), National Provider Identifier (NPI) directory. The NPPES NPI directory is updated by the Centers for Medicare & Medicaid Services (CMS) monthly and available at: www.cms.gov/Regulations-and-Guidance/Administrative-Simplification/NationalProvIdentStand/DataDissemination. The MHCC list includes about 46,000 providers as defined in section 2.2.1 of the RFP.
- c. The MHCC encourages bidders to review the CMS NPPES Data Dissemination – Readme (data dictionary), for data elements included in the list of providers available at: www.cms.gov/Regulations-and-Guidance/Administrative-Simplification/NationalProvIdentStand/Downloads/Data_Dissemination_File-Readme.pdf.

2. Question: Section 5.2.3 Proposal Delivery and Packaging, pg. 59

Can MHCC confirm the correct method of proposal submission? The Key Information Summary Sheet says that proposals should be emailed to Andrea Allen.
