

Noncontrolled Prescription Drugs Workgroup

January 30, 2023

SUMMARY

The Noncontrolled Prescription Drugs Workgroup (workgroup) convened on January 30, 2023 to review draft technical specifications for the collection of noncontrolled prescription drugs (non-CDS) dispense data. The technical specifications are based on prior discussions of ASAP (American Society for Automation in Pharmacy) 4.2B and NCPDP (National Council for Prescription Drug Programs) D.0. standards reviewed by the workgroup during the previous four meetings. The technical specifications will be shared with CRISP to inform their development of a Request for Proposals to identify a technology solution to support non-CDS reporting. Future workgroup discussions will center on consumer privacy considerations for select non-CDS information.
