# **PRIMARY CARE INVESTMENT MODELS RESULTS**

# Next Steps

- ▶ MHCC appreciates Workgroup members' input into developing a primary care definition that will be used to track primary care spending
- ▶ Initial results were shared at today's meeting
- ▶ Prior to MHCC finalizing the definition, interested Workgroup members will have an opportunity to review the full code set and suggest refinements
- ▶ Next, the Workgroup will provide input on whether to develop a target for primary care spending in Maryland and if so, how to set the target
- ▶ This information along with previous discussions on *Measuring Progress Towards Primary Care Goals* will inform the report and plan provided to the Governor and the General Assembly later this year

# APPENDIX

# Overview

- ▶ During the 2022 legislative session, Senate Bill 734, Maryland Health Care Commission – Primary Care Report and Workgroup (Workgroup) passed
- ▶ Senate Bill 734 requires the Maryland Health Care Commission to convene a Workgroup of select stakeholders and annually report on ways to improve quality and access to primary care services, with special attention to increasing health care equity, reducing health care disparities, and avoiding increased costs to patients and the health care system
- ▶ The Workgroup's scope of work is broad and encompasses analyzing primary care spending, developing plans to improve quality and access to primary care, identifying strategies to reduce barriers to primary care, and identifying approaches to increase the primary care workforce
- ▶ In 2023, the Workgroup will develop a plan for the annual analysis and drafting the report, which is due to the Governor and General Assembly by December 1, 2023. Annual reporting begins December 2024
