

Telemedicine Task Force

Technology Solutions and Standards Advisory Group

Guiding Principles

- 1) Foster patient-centered telemedicine solutions that allow for the measurement of quality and clinical outcomes
- 2) Allow the marketplace to develop technology solutions with minimal State requirements, consistent with industry standards that enable interoperability, and in compliance with federal and State privacy and security laws
- 3) Identify technical approaches that enable telemedicine to be a component of innovative care delivery models
- 4) Propose telemedicine solutions that incorporate the use of health information exchange and electronic health records
