Re: Legislative Session Presentation – Overview

Date: March 20, 2025

During the March 20th Commission meeting, I will provide an update on the background and status of the legislation introduced so far, including an overview of key developments and any changes that may have occurred. I will also review upcoming bills scheduled for hearings and offer my recommendation on whether the Commission should take a formal position on them. To keep things engaging, I'll also sprinkle in a few fun facts.
