

Study: Infant Mortality in African American Infants and Infants in Rural Areas

Work Group Evaluation

Purpose: Provide feedback to MHCC and UMD staff to improve future workgroups and studies.

Please rate the following items:

| | Highly Satisfied | Satisfied | Undecided | Somewhat Dissatisfied | Dissatisfied | Comments |
|---|------------------|-----------|-----------|-----------------------|--------------|----------|
| Work Group membership (number of members, diversity of perspectives, etc.) | | | | | | |
| Frequency of meetings | | | | | | |
| Content of meetings | | | | | | |
| Meeting facilitation | | | | | | |
| Email updates between meetings | | | | | | |
| Opportunities and process for providing feedback on research findings and report drafts | | | | | | |
| Content of final report, including recommendations | | | | | | |

Please share what we could do to improve in future studies/work groups to ensure meaningful and equitable stakeholder engagement?

How do you think your participation in this workgroup will influence and inform your work in the next year?
