Re: Legislative Session Presentation – Wrap-Up

Date: April 9, 2026

For the April 16th Commission meeting, I will provide a wrap-up of the 2026 legislative session.

The presentation will focus on the major bills and issues involving MHCC, including material transactions, primary care investment, and collaborative care model legislation. I will also provide an overview of the budget and discuss the interim work such as various studies assigned to MHCC.

To conclude, I will share some highlights from the final hours of the session along with a few fun facts.
