Compliance with Conditions for Certificates of Ongoing Performance for PCI Services

SEPTEMBER 21, 2023

Overview

Hospitals with Conditions

- Adventist White Oak Medical Center
- Suburban Hospital

Adventist White Oak Medical Center

Conditions

Information Submitted and Staff Analysis

Hold bi-monthly interventional case review meetings, as required in COMAR 10.24.17.07D(5)(a).

Submit to MHCC staff attendance lists for each meeting held between January and June by August 1 of each year and attendance lists for meetings held between July and December by February 1 of each year until at least February 1, 2023.

Hold monthly multiple care area group meetings, as required in COMAR 10.24.17.07D(5)(b).

Submit to Commission staff attendance lists for each of these meetings held between January and June by August 1 of each year and attendance lists for meetings held between July and December by February 1 of each year until at least February 1, 2023.

The hospital provided documentation of meetings held in CY 2023. The same group that meets monthly also is used to meet the requirement for case review meetings. Six meetings were held between January and June 2023. Three of the six meetings included case reviews.

The hospital provided documentation of six meetings held between January and June 2023. The documentation provided included lists of attendees and meeting materials.

Suburban Hospital

Conditions

Information Submitted and Staff Analysis

Hold monthly multiple care area group meetings, as required in COMAR 10.24.17.07D(5)(b).

Submit to Commission staff attendance lists for each of these meetings held between January and June by August 1 of each year and attendance lists for meetings held between July and December by February 1 of each year until at least February 1, 2023.

The hospital provided meeting dates and a list of attendees for all six meetings held between January and July 2023. The June meeting was cancelled.

Staff Conclusions

The Executive Director of MHCC concluded that each of the following hospitals be released from the conditions on its set forth on its Certificate of Ongoing Performance for percutaneous coronary intervention services:

- Adventist White Oak Medical Center
- Suburban Hospital
