Re: Legislative Session Wrap Up Presentation

Date: April 14, 2023

During the April 20th Commission meeting I will do a presentation providing a legislative wrap up of the 2023 legislative session.

The presentation will include a few fun facts regarding the session. The presentation will have information on major pieces of legislation that was passed. Also, the presentation will provide information on the budget that passed this session and in addition, information on legislation that has an impact on the work of the MHCC. Lastly, the presentation will have an outline and high-level overview of the interim work and studies that the MHCC is required to complete.

Please note that we have posted MHCC 2023 legislative position statements and final disposition of each bill on the MHCC Commissioner website at [2023 Legislative Positions](#). You must use your MHCC Commissioner logon to access that site.
