**Sources:** Maryland Health Care Commission and Maryland Department of Health (bed inventory); Health Services Cost Review Commission's Inpatient Confidential Files (private chronic hospital patient days); Maryland Department of Health's Hospital Management Information System (state-operated chronic hospital patient days); Western Maryland Hospital Center; and Deer's Head Hospital Center.

**Notes:** The average annual chronic hospital bed occupancy rates are calculated based on the number of patient days divided by the number of licensed bed days available during the fiscal year period, ending June 30th.

In fiscal year 2022, University of Maryland Prince George's Hospital Center's 12 chronic hospital beds ceased to operate. This hospital was replaced by the University of Maryland Capital Region Medical Center in June 2021. This replacement hospital does not provide special chronic hospital services.

<sup>1</sup> Effective January 14, 2025, Johns Hopkins Bayview Medical Center's 60 chronic hospital beds have been relinquished.
