

# CRISP Monthly Reports

February 2014

The Chesapeake Regional Information System for our Patients (CRISP), the State-Designated health information exchange (HIE), submits monthly status reports to the Maryland Health Care Commission (MHCC). The monthly reports provide updates to the HIE program and use of HIE services, and the Regional Extension Center (REC) program. The MHCC's Center for Health Information Technology & Innovative Care Delivery uses the information to facilitate development of the State-Designated HIE, craft policy around privacy and security, and develop initiatives to expand health information technology adoption, including electronic health record adoption and meaningful use.

<b>At a Glance</b>					
HIE Category	New December	New January	New February	Total* #	Total* %
<b>Ambulatory Practice Data Consumption</b> (# of organizations) N=6,537					
Signed participation agreements - CRISP Portal	7	5	11	218	3.3%
CRISP portal live	7	12	5	178	2.7%
Direct message accounts live	15	23	10	106	1.6%
Encounter notification service live	7	1	1	49	0.7%
<b>Hospital Data Submission</b> (# of hospitals) N=46					
Laboratory reports	0	0	0	31	67%
Radiology reports	0	2	0	38	83%
Transcribed reports	1	0	0	33	73% <sup>1</sup>
<b>Long Term Care Data Consumption</b> (# of organizations) N=235					
Signed participation agreements - CRISP Portal	0	0	1	39	17%
CRISP portal live	1	2	0	21	9%
Encounter notification service live	1	0	0	6	3%
<b>Query Portal Usage</b>					
Number of CRISP Portal queries <sup>2</sup>	16,231	21,010	24,401		
Single-sign on live in Maryland hospitals	0	0	0	5	11%

\*Totals are cumulative

Notes:

- Garrett County Memorial Hospitals has no plans to submit transcribed reports to CRISP
- Number of CRISP Portal queries not listed in Total # and Total % columns because CRISP Portal queries are not calculated based on a cumulative total over time

## CRISP Portal Adoption

**Key Terms:**

**CRISP Portal:** A standalone web-based system that contains patient health information from Maryland hospitals and other providers connected to the HIE. Information available via the portal includes patient demographics, laboratory results, radiology reports, discharge summaries, operative and consult notes, and medication fill history

**Participation Agreement:** Providers sign a participation agreement with CRISP in order to query the CRISP Portal

**Live:** An organization has completed the credentialing, legal, and training process and has at least one user approved to use the Portal

# CRISP Portal Availability

Average Portal Availability = 96.4%

**Key Terms:**

**CRISP Portal:** A standalone web-based system that contains patient health information from Maryland hospitals and other providers connected to the HIE. Information available via the portal includes patient demographics, laboratory results, radiology reports, discharge summaries, operative and consult notes, and medication fill history

**Portal Availability:** The percent of hours that the portal is live out of all possible hours in a month

**Percent Available:** The percent of hours that the portal is available during the month

## CRISP Portal Queries

**Key Terms:**

**CRISP Portal:** The CRISP Portal is a standalone system available via the Internet that provides patient health information from Maryland hospitals and other providers who are connected to the HIE. Currently, select information is available via the portal, including patient demographics, laboratory results, radiology reports, discharge summaries, operative and consult notes, and medication fill history

**Queries:** Number of searches within the CRISP Portal per month

### Types of Providers with Access to the CRISP Portal

### Total CRISP Portal Queries by Provider Type

**Key Terms:**

**CRISP Portal:** The CRISP Portal is a standalone system available via Internet that provides patient health information from Maryland hospitals and other providers connected to the HIE. Currently, select information is available via the portal, including patient demographics, laboratory results, radiology reports, discharge summaries, operative and consult notes, and medication fill history

**Queries:** Number of searches within the CRISP Portal per month

**\*Note:** Pharmacy data available beginning in October 2013

**Key Terms:**

**Direct Message Accounts:** A secure and encrypted e-mail service that supports electronic communication between health care providers

**Live:** Users live with a CRISP Direct Messaging account

## Encounter Notification Service Adoption

### **Key Terms:**

**Encounter Notification System (ENS):** A system that notifies providers when one of their patients has an encounter at a Maryland hospital, which includes patient admission, discharge, and transfer activity

**Live:** The number of organizations receiving ENS alerts

## Hospital Data Submission Laboratory Reports Live

(N=46)

### Key Terms:

**Live:** The number of hospitals using the laboratory documents exchange service

**N:** The number of acute care hospitals in Maryland

## Hospital Data Submission Radiology Reports Live

(N=46)

**Key Terms:**

**Live:** The number of hospitals using the radiology documents exchange service

**N:** The number of acute care hospitals in Maryland

## Hospital Data Submission Transcribed Reports Live

(N=45)\*

**Key Terms:**

**Live:** The number of hospitals using the transcribed exchange service

**N:** The number of acute care hospitals in Maryland

\*Garrett County Memorial Hospital has no plans to submit transcribed reports to CRISP

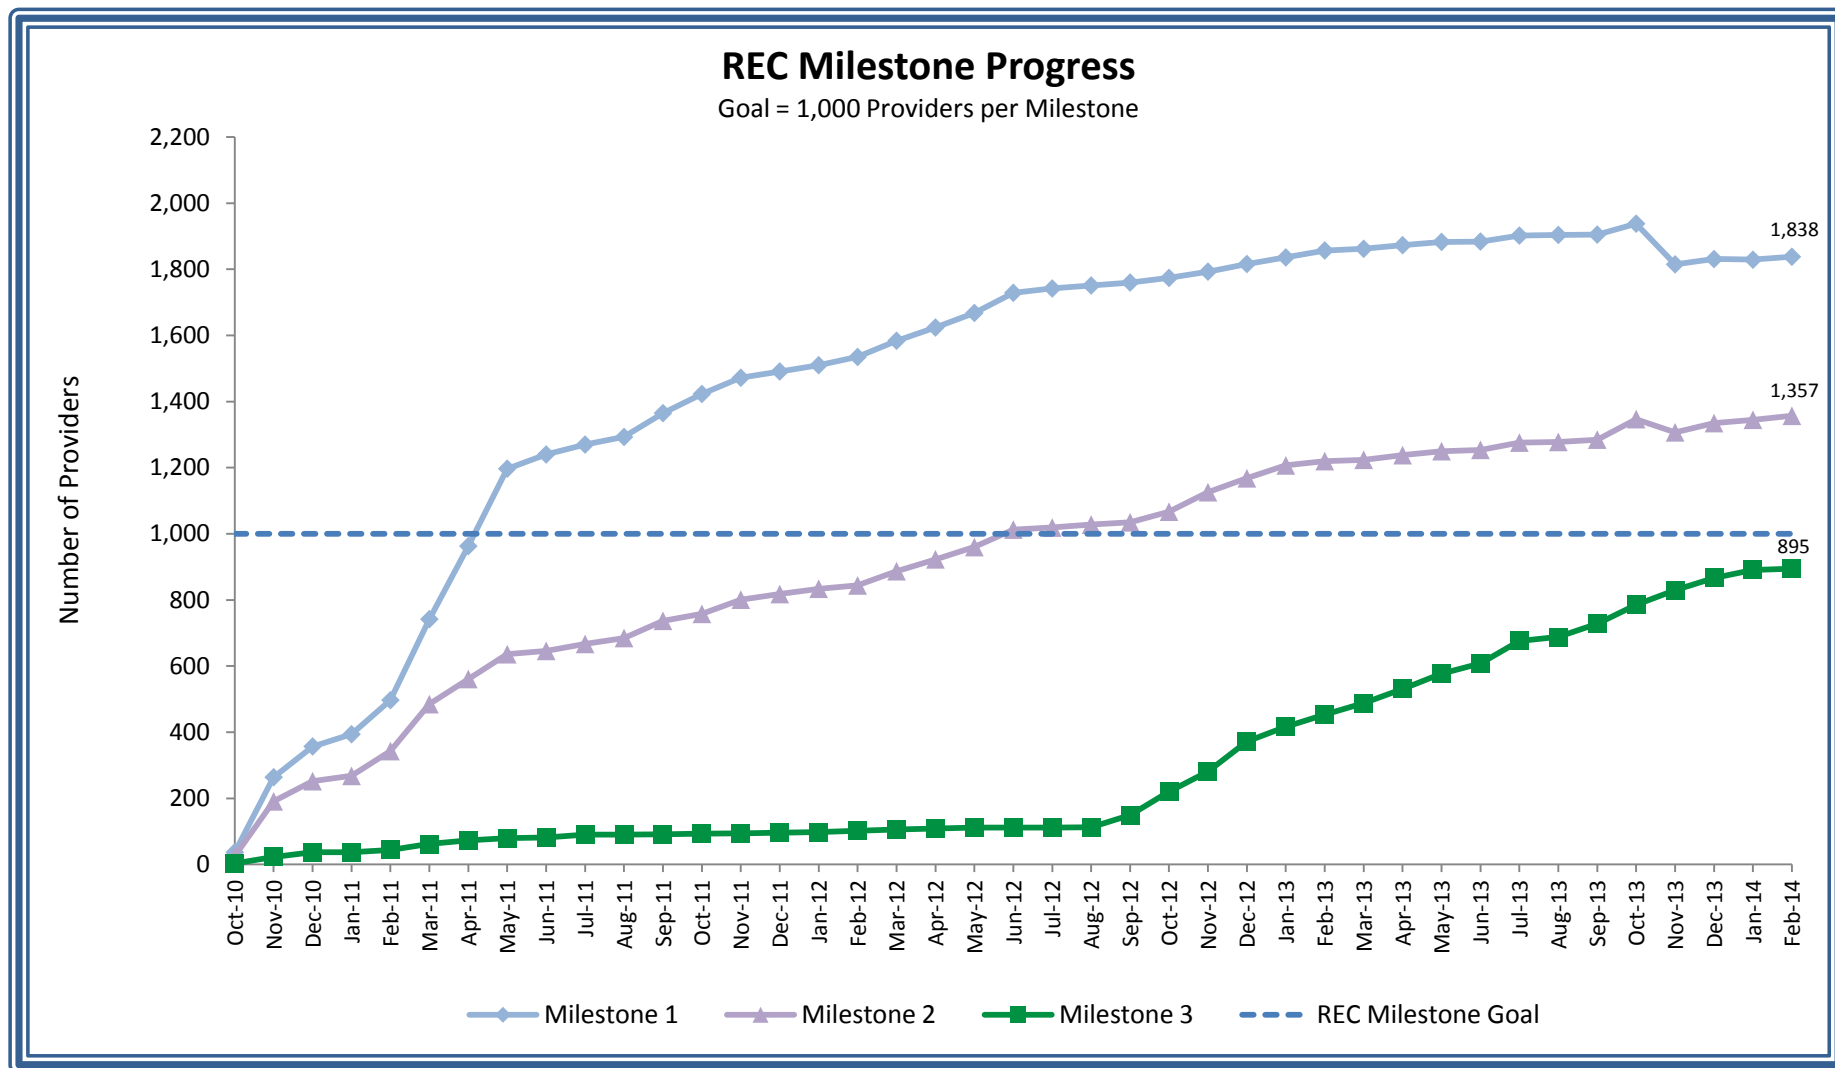

## Prescription Drug Monitoring Program

**Key Terms:**

**Live:** The number of organizations using the PDMP services

**Prescription Drug Monitoring Program:** Records of prescribing and dispensing of controlled dangerous substances available in CRISP query portal that went live as a pilot in November 2013

**Key Terms:**

**REC:** The Regional Extension Center (REC) provides technical assistance to priority care providers in adopting and using an electronic health record (EHR)

**Milestone 1:** A priority primary care provider that has signed a participation agreement with a management service organization

**Milestone 2:** A priority primary care provider that has adopted an EHR and is using certain functionalities of the system

**Milestone 3:** A priority primary care provider that has achieved meaningful use defined by the Centers for Medicare & Medicaid Services

**REC Milestone Goal:** The milestone goal was established by the Office of the National Coordinator for Health Information Technology

REC Progress						
Milestone	Provider had an EHR when signed up with the program		Provider did not have an EHR at sign up with the program		Total	
	#	%	#	%	#	%
Milestone 1	755	41	1,083	59	1,838	184
Milestone 2	709	52	648	48	1,357	136
Milestone 3	436	49	459	51	895	90

**Key Terms:**

**REC:** The Regional Extension Center (REC) provides technical assistance to priority care providers in adopting and using an electronic health record (EHR)

**Milestone 1:** A priority primary care provider that has signed a participation agreement with a management service organization

**Milestone 2:** A priority primary care provider that has adopted an EHR and is using certain functionalities of the system

**Milestone 3:** A priority primary care provider that has achieved meaningful use defined by the Centers for Medicare & Medicaid Services

**REC Milestone Goal:** The milestone goal was established by the Office of the National Coordinator for Health Information Technology

## Maryland REC Progress - Milestone 1 Percent PCPs Participating by MSO

Total PCPs Live on an EHR:  
1,838

## Maryland REC Progress - Milestone 2 Percent PCPs Live on an EHR by MSO

Total PCPs Live on an EHR: 1,357

## Maryland REC Progress - Milestone 3 Percent PCPs Achieved Meaningful Use by MSO

Total PCPs Live on an EHR: 895

**Key Terms:**

**REC:** The Regional Extension Center (REC) provides technical assistance to priority care providers in adopting and using an electronic health record (EHR)

**Milestone 1:** A priority primary care provider (PCP) that has signed a participation agreement with a management service organization (MSO)

**Milestone 2:** A PCP that has adopted an EHR and is using certain functionalities of the system

**Milestone 3:** A PCP that has achieved meaningful use defined by the Centers for Medicare & Medicaid Services

**Primary care provider:** Primary-care providers in individual and small group practices (fewer than 10 physicians and/or other health care professionals with prescriptive privileges) primarily focused on primary care; and physicians, physician assistants, or nurse practitioners who provide primary care services in public and critical access hospitals, community health centers, rural health clinics, and in other settings that predominantly serve uninsured, underinsured, and medically underserved populations

**Key Terms:**

**REC:** The Regional Extension Center (REC) provides technical assistance to priority care providers in adopting and using an electronic health record (EHR)

**Milestone 1:** A priority primary care provider (PCP) that has signed a participation agreement with a management service organization (MSO)

**Milestone 2:** A PCP that has adopted an EHR and is using certain functionalities of the system

**Milestone 3:** A PCP that has achieved meaningful use defined by the Centers for Medicare & Medicaid Services

**Primary care provider:** Primary-care providers in individual and small group practices (fewer than 10 physicians and/or other health care professionals with prescriptive privileges) primarily focused on primary care; and physicians, physician assistants, or nurse practitioners who provide primary care services in public and critical access hospitals, community health centers, rural health clinics, and in other settings that predominantly serve uninsured, underinsured, and medically underserved populations

**Key Terms and Notes:**

**CRISP Portal:** The CRISP Portal is a standalone system available via the Internet that provides patient health information from Maryland hospitals and other providers who are connected to the HIE. Currently, select information is available via the portal, including patient demographics, laboratory results, radiology reports, discharge summaries, operative and consult notes, and medication fill history

**Encounter Notification System (ENS):** A system that notifies providers when one of their patients has an encounter at a Maryland hospital, which includes patient admission, discharge, and transfer activity

**ENS Live:** The number of organizations receiving ENS alerts

**Green Shading Indicates Completed:** Practices that have completed the category are shaded green with the month indication of completion

**Participation Agreement:** Providers sign a participation agreement with CRISP in order to query the CRISP Portal

**Patient Education:** Education materials are provided to practices to hand out to patients regarding the CRISP Portal before a practice may begin using the Portal

**PDMP (Prescription Drug Monitoring Program) Access:** Number of organizations using PDMP services; records of prescribing and dispensing of controlled dangerous substances available in CRISP query portal that went live as a pilot in November 2013

**Portal Live:** An organization has completed the credentialing, legal, and training process and has at least one user approved to use the Portal

**Portal Training:** CRISP provides training to clinical providers in order for participants to learn how to access clinical information in real-time. Training includes information about accessing the Portal and patient education. Training is the first person trained at the facility

\* Although most providers/practices follow a sequence (provider agreement, training, usage), some practices completed the steps in a different order; metrics in chart represent a snapshot of CRISP data available at the end of each month, certain dates may fluctuate from month to month

\*\*Pharmacies are exempt from signing CRISP Participation Agreement

\*\*\*JHCP Participation Agreement date is merged because there is one Agreement for all JHCP sites

## CRISP Other Projects

#	Project Name	Project Description
1	Regional Extension Center Operations	Provides support to 1,000 small practices to achieve meaningful use by providing direct technical assistance through Management Services Organizations
2	Direct Secure Messaging	Provides the ability for an individual clinician or organization to send or receive Secure Email, to support a variety of clinical purposes
3	State Innovation Model (SIM) Reporting and Mapping	Partnering with the Department of Health and Mental Hygiene (DHMH) on the development of hospital encounter reporting and mapping capabilities to support the community integrated medical home model
4	Health Enterprise Zone (HEZ) Dash-boarding and Mapping	Leveraging the capabilities developed under the SIM grant, to offer dash-boarding and technical assistance for the HEZ program
5	Prescription Drug Monitoring Program (PDMP)	The PDMP makes records of the prescribing and dispensing of controlled dangerous substances available in the CRISP query portal, in an effort to stem the rise of prescription drug abuse and diversion. The PDMP project went live in mid-December.
6	Health Benefit Exchange (HBE) - Provider Information Management	CRISP is obtaining provider information from the Qualified Health Plans participating in Maryland's HBE and partnering with Optum to produce a verified provider demographics source so that consumers of the HBE can search for health insurance plans by provider name
7	HBE - All Payer Claims Database Unique Identifier	Relying on the Initiate Master Patient Index, CRISP is attaching a unique patient identifier to carrier eligibility files sent to MHCC to enable insights into member churn between commercial Qualified Health Plans and Medicaid
8	HBE - Care Summary	In its early stage, this project would allow a new enrollee in a health plan to choose to send prior clinical records to care coordinators affiliated with their new health plan, such that proactive services may be provided in advance of a new billing history building up
9	Public Health - Electronic Lab Reporting	To support reporting for the public health meaningful use measure, CRISP is sending a copy of electronic reportable labs to the State via Health Level Seven (HL7), providing assistance with the formatting of the lab messages as necessary
10	Public Health - Immunization Reporting	Hospitals will send Immunization messages via HL7 to CRISP which will pass them along to the State to a Secure File Transfer Protocol (SFTP) location
11	Public Health - Syndromic Surveillance	CRISP will send a copy of existing discharge (A04) and update (A08) messages to DHMH via HL7 to an SFTP location, providing assistance with the formatting of the admission, discharge, and transfer (ADT) messages as necessary
12	Department of Public Safety and Correctional Services Query	Providing access to the CRISP Query portal for Department of Corrections and users at the locked ward at Bon Secours Hospital
13	Challenge Grant	Providing financial support to three independent nursing homes so they can invest in health IT. Each grantee is also using the encounter notification service (ENS) to improve transitions of care with hospitals
14	Single Sign On	Implementing additional HIE capabilities to Medicaid providers, such as single sign on to the HIE
15	DC Hospital Integration	Working with DC Department of Health Care Finance (DHCF) to support DC acute care hospital connectivity with the CRISP HIE infrastructure
16	Medicaid Outreach DHMH	Partnered with DHMH for outreach to eligible professionals and hospitals in regards to the Medicaid Meaningful Use Incentives Program in Maryland
